Testimony given at energy hearing

Witnesses and other interested persons crowded the community meeting room at Security Federal Savings and Loan Association Friday for a hearing concerning the Carter Administration's new energy program. The hearing was conducted by U.S. Sen. Thomas F. Eagleton, assisted by 10th. District Rep. Bill D. Burlison of Cape Girardeau and William Rice, a Carter energy agency aid. All three are seated at the table on the right as D. H. Zaricor, seated at table on the left, general manager of the Scott-New Madrid-Mississippi Electric Cooperative in Sikeston, testifies before the gathering. (Daily Standard photo)

Witnesses at hearing believe in energy crisis

U. S. Sen. Thomas F. Eagleton, D-St. Louis, heard all witnesses say they believe there actually is an energy crisis and that the energy problem is widely known and of great concern to U.S. citizens during an energy program hearing conducted Friday in the Federal Savings and Loan Association Community room.

Eagleton, at a press conference earlier in the day had expressed a concern that people doubted the existence of the energy crisis. However, the testimony presented here indicated that people are awre of the problem and are looking to national leaders to come up with a solution.

The hearing was the fourth Eagleton had held over the state Thursday and Friday. Assisting him in taking testimony were 10th District Rep. Bill D. Burlison, D-Cape Giardrdeau, and William Rice, a Carter Administration aide for energy matters.

Persons testifying included: D. H. Zaricor, general manager, Scott-New Madrid-Mississippi Electric Cooperative in Sikeston; Hilton Bracey, area representative for Mid-Continental Farmers Association; of Portageville. Bill Rodes of Advance, an oil jobber; Clint Halstead, vice president for operations of Noranda Aluminum Inc. of New Madrid, and Manuel Drumm of Sikeston, attorney for the Sikeston Board of Municipal Utilities.

Preceding the hearing of testimony, Rice outlined the Carter Administration's energy plan, which depends heavily on coal as the short-term answer to the energy crunch and looks to solar energy for the long-term answer as a home energy source.

In testimony before the group, Zaricor cited government agency ineptness as a major contributor to increases in utility prices.

The utility general manager pointed specifically to a $73 million scrubber at one of their plants that remains inoperational more than the time it is working, and does not work particularly well when it is operation. It is used in the processing of coal.

Bracey stated that a relaxation of Environmental Protection Agency standards may be required if the country is to seriously consider coal as an alternative to natural gas in industry.

Bracey also said farmers are generally pleased with the treatment they have been getting from the government concerning energy allotments, and he said that this treatment will have to continue if farmers are going to be able to produce food and fiber for the American economy.

Halstead said considerable savings in fuel could be obtained if more aluminum was used in the construction of automobiles. The Noranda vice president also indicated to the hearing that his company depends heavily on gas-fired equipment, and that a switch-over to coal-fired equipment would be a considerable expense, requiring enough additional power to equal that produced by one nuclear power plant.

Rhodes told the gathering that, as an oil jobber, he is not interested in conserving gas, but wants to sell more. He said government allocations have kept gas prices artificially high because jobbers were locked in to one supplier and could not shop around for the best price, keeping prices high at the pump.

A Cape Girardeau man appeared before Eagleton, saying that while government officials are continually saying homes should be insulated better, he, an insulation contractor, has been put out of business because insulation was not available to him. A local lumber company representative echoed the sentiment, saying his company could sell twice as much as is available in this area.

Following the hearing, Eagleton and Burlison met with county officials from Scott, New Madrid and Mississippi counties at a luncheon in the Holiday Inn.

Fire destroys home struck by lightning

MORLEY–The home of Mrs. Elizabeth Campbell burned Friday afternoon after it was struck by lighting.

Lightning struck a utility room at the back of the home during a thunderstorm about 4 p.m.

The Morley Fire Department answered the call but was not able to save the house, which was gutted.

However, most of the household goods and furniture were saved.

2 fined for petit larceny

Two persons were assessed $60 fines Thursday night in City Court for petit larceny.

They were Mattie B. Coleman of Howardville and Duel D. Flanigan of Morehouse.

River yields bodies of father, son

POPLAR BLUFF--The bodies of a Cahokia, Ill., man and his 14-year-old son were recovered from a large hole in Black River just below the Hendrickson Bridge along Highway 67.

Searchers found the body of Alfred Estell Campbell, 40., at 5:36 a.m. floating on the surface of the river in a large hole adjacent to the Williamsville Stone Co.

The body of Campbell's son, Roger Dale Campbell, was recovered about noon, authorities said.

The elder Campbell died while trying to save his son from drowning during a family outing beneath the bridge about 1 p.m. Wednesday, authorities said.

Campbell went to his son's aid after the youth began struggling in a swift current flowing under the bridge, witnesses said.

Another of Campbell's sons, 15-year-old James Campbell, told authorities he started into the river after he saw his brother fighting the current as it swept him out into the large hole in the river.

The elder Campbell stopped him, however, and jumped into the river in an effort to save the struggling swimmer, James Campbell told sheriff's deputies.

Witnesses said Campbell reached his son as the boy went under the water. Campbell was carried along by the current for another 300 feet before disappearing from sight, authorities said.

Campbell's body was found floating near where witnesses last saw the man before he sank. The spot was about 100 feet from shore.

No further details were available on the recovery of the younger Campbell's body.

28 hostages are released

KUWAIT (AP) — Palestinian hijackers of a Kuwait Airlines jet freed 28 hostages Saturday in exchange for three officials who boarded the plane to guarantee a promise of safe conduct to Aden, capital of South Yemen, a Kuwait government spokesman said.

The Kuwaiti Information Ministry said South Yemen has agreed to allow the nine hijackers into Aden, the capital, about 1,200 miles south of here. A spokesman said the plane would leave Kuwait early Sunday.

The spokesman said the three officials who boarded the jet would fly with the nine hijackers to South Yemen. He said the hijackers agreed to release the volunteers when they arrived in Aden.

He identified the three as South Yemen Ambassador to Kuwait Mohammed Abdu, Kuwaiti internal security chief Momammed al+Hamad, and Awni Battash, deputy chief of the Palestine Liberation Organization (PLO) mission in Kuwait.

The South Yemen ambassador, who negotiated with the hijackers, said their demands were connected to internal rivalries in the Palestinian guerrilla movement.

The hijackers originally demanded that 300 prisoners held in Arab jails be freed in exchange for the lives of their captives.

A Palestinian official in Kuwait said the hijackers' were told their demands was unreasonable and were simply "left up in the air."

The Kuwait Airlines Boeing 707 was seized Friday night while on a flight from Beirut, Lebanon to Kuwait. It left Beirut with 45 passengers, including the hijackers, and a crew of 10.

Eighteen hostages were freed earlier Saturday, leaving 28 persons aboard including the British pilot and co-pilot. They were released unharmed after the agreement was reached. Among the final hostages freed was Kuwait's ambassador to Lebanon, Abdul Hamid al+Buaijan.

A spokesman for British Midland Airways, which leased the plane to Kuwait Airways and provided the crew, said a second flight crew was standing by to fly the plane to Aden.

The Palestine Liberation Organization (PLO) in a statement issued here identified the gang's leader as Abu Saed, 36. The statement said he was an accused thief, defrauder and extortionist who escaped Thursday from a guerrilla prison in Beirut.

Palestinian sources said Abu Saed was convicted several times in secret trials by "revolutionary courts" of the Al Fatah guerrilla organization.

In its statement, the PLO condemned the hijacking and disclaimed any connection with it.

The agreement was reached after long hours of negotiations at Kuwait airport in roasting desert heat that reached 118 degrees. The final details were worked out between two hijackers and Kuwaiti Planning Minister Mohammed Youssef Adasani on the airport tarmac near the plane.

The hijackers had originally demanded that 300 prisoners held in Arab jails be freed in exchange for the lives of their captives.

But Kuwait's interior and defense minister, Sheik Saad al+Abdalah as+Sabah, reportedly said the gunmen must first release the hostages and that they could then "take the plane and go to hell."

The plane was seized Friday night on a flight from Beirut, Lebanon to Kuwait. The hijackers demanded the pilot land at Kuwait to refuel. Since then, the jetliner sat grounded on the airport tarmac, ringed by Kuwaiti army commandos 400 yards away. The airport is 20 miles south of Kuwait city.

After hours in the stifling heat, the hijackers were "on the verge of collapse," a negotiator said.

Carter urged to find new energy sources

WASHINGTON (AP) — The nation's governors told President Carter on Saturday that the federal government is placing too much emphasis on energy conservation and not enough on developing new energy resources.

"We got good advice," Carter said after the three-hour conference.

Carter also praised Congress for its work on his energy program which is still pending in the legislative halls where it has been given a less-than-friendly reception. He said that if Congress fails to approve his plan, he will keep fighting for it.

"If we don't get 100 per cent of a program this year, we'll be back next year," Carter told reporters in a brief statement in the White House press room.

The governors were invited to Washington by the administration to review the role the states can play in implementing energy policy. Forty four governors attended the two days of meetings.

Gov. Julian Carroll of Kentucky, chairman of the National Governors Conference committee on natural resources and environmental management, said after the Saturday meeting with Carter that "there seems to be a criticism generally that we concentrated more on conservation than on production."

But he said no commitment was extracted from Carter or the other federal officials on giving more emphasis on production.

James Schlesinger, Carter's chief energy adviser, said some governors also felt that "undue environmental restraints" were hindering energy development.

Schlesinger would not say what changes, if any, would be made in the administration's energy proposals as a result of the conference.

He said some discussion focused on gasoline rationing to deal with any major disruption of imported oil. He said Carter "had indicated we should have a rationing scheme that would curtail energy usage by 25 per cent, at least."

Carter said he sought the governors' counsel because many of the responsibilities for implementing policies set in Washington "fall to a major degree on the shoulders of government officials at local levels."

The President said that as a result of the meeting, a second session would be organized to discuss enhanced production of energy.

Carroll said the governors decided to set up groups to study incentives for conservation, emergency preparations, and the establishment of the proposed energy department.

Gov. Reubin Askew of Florida, chairman of the National Governors Conference, said the two days of meetings produced "a real dialogue between the federal government and the states."

Carroll said the governors left the meetings with the impression that Carter's energy proposals were "not as stringent, as restrictive, as harmful to them as they might have feared."

Administration officials denied that the governors were invited to Washington to counter the problems the Carter energy plan is having in Congress.

22 persons suffer injuries in 7 area traffic accidents

Twenty-two persons were injured--one critically and seven seriously-- in seven area traffic accidents Friday night and Saturday, the highway patrol reported.

One person was critically injured and four persons received minor injuries in a two-vehicle accident at 5:30 a.m. Saturday on Interstate 55 three miles south of Cape Girardeau.

The accident occurred when a southbound car driven by Jimmie Mac Neal, 23, of St. Louis was traveling slowly across a bridge with a flat tire and was struck from behind by a southbound tractor-trailer truck driven by Everett Buford Milligan, 47, of Benton. The collision forced the Neal car into the guardrail.

A passenger in the Neal car, Mid Mac Neal, 21, of St. Louis, suffered critical injuries. Receiving minor injuries were Neal and three other passengers in his car, Ida Mae Neal, 19, Lynn Andre Neal, 17, and Birge Marie Neal, 19, all of St. Louis.

All of the victims injured were taken to St. Francis Medical Center at Cape Girardeau.

Six persons received serious injuries and two persons received minor injuries in a single vehicle accident at 12:05 a.m. today on Highway 51 two miles north of Marble Hill.

The accident occurred when Timothy E. Kinder, 19, of Marble Hill lost control of a northbound pickup truck while approaching a curve at a high rate of speed and the vehicle skidded 333 feet before overturning and coming to rest on its wheels.

Five of the occupants were thrown from the truck.

Seriously injured were the driver and five passengers, Sheila Hernandez, 17, and Jeanette Herron, 18, of Marble Hill and Larry Wilkison, 19, Melinda Sewasa, 16, and Timothy Wilkison, 20, of Lutesville.

Receiving minor injuries were Brenda Fowler, 17, of Marble Hill and Starla Wilkison, 18, of Lutesville.

All eight were taken to St. Francis Medical Center.

Kinder was arrested for careless and imprudent driving.

A Frederick town man was seriously injured and a Doniphan man received minor injuries when their vehicles collided at 8:15 a.m. Saturday on Highway 67 one mile south of Fredericktown.

The accident occurred when an eastbound car driven by Archie R. Bennett, 74, of Fredericktown pulled onto the highway and was struck by an northbound pickup driven by Carroll T. Bopp, 67, of Doniphan.

Bennett suffered serious injuries and Bopp received minor injuries. Both were taken to Madison County Memorial Hospital at Fredericktown.

A Steele woman received moderate injuries in a two-vehicle accident at 5:40 p.m. Saturday on Highway 164 three miles east of Steele.

The accident occurred when a westbound pickup truck driven by Billy D. Smithson, 57, of Steele struck the back of a westbound car driven by Susie B. Johnson, 54, of Steele.

The Johnson woman received injuries and was taken to Pemiscot Memorial Medical Center at Hayti.

Smithson was arested for leaving scene of an accident, careless and imprudent driving and no operator's license.

Three persons received minor injuries in a two-vehicle accident at 7:30 p.m. Friday night on Highway 62 miles west of Charleston.

28 hostages are released

KUWAIT (AP) — Palestinian hijackers of a Kuwait Airlines jet freed 28 hostages Saturday in exchange for three officials who boarded the plane to guarantee a promise of safe conduct to Aden, capital of South Yemen, a Kuwait government spokesman said.

The Kuwaiti Information Ministry said South Yemen has agreed to allow the nine hijackers into Aden, the capital, about 1,200 miles south of here. A spokesman said the plane would leave Kuwait early Sunday.

The spokesman said the three officials who boarded the jet would fly with the nine hijackers to South Yemen. He said the hijackers agreed to release the volunteers when they arrived in Aden.

He identified the three as South Yemen Ambassador to Kuwait Mohammed Abdu, Kuwaiti internal security chief Momammed al+Hamad, and Awni Battash, deputy chief of the Palestine Liberation Organization (PLO) mission in Kuwait.

The South Yemen ambassador, who negotiated with the hijackers, said their demands were connected to internal rivalries in the Palestinian guerrilla movement.

The hijackers originally demanded that 300 prisoners held in Arab jails be freed in exchange for the lives of their captives.

A Palestinian official in Kuwait said the hijackers' were told their demands was unreasonable and were simply "left up in the air."

The Kuwait Airlines Boeing 707 was seized Friday night while on a flight from Beirut, Lebanon to Kuwait. It left Beirut with 45 passengers, including the hijackers, and a crew of 10.

Eighteen hostages were freed earlier Saturday, leaving 28 persons aboard including the British pilot and co-pilot. They were released unharmed after the agreement was reached. Among the final hostages freed was Kuwait's ambassador to Lebanon, Abdul Hamid al+Buaijan.

A spokesman for British Midland Airways, which leased the plane to Kuwait Airways and provided the crew, said a second flight crew was standing by to fly the plane to Aden.

The Palestine Liberation Organization (PLO) in a statement issued here identified the gang's leader as Abu Saed, 36. The statement said he was an accused thief, defrauder and extortionist who escaped Thursday from a guerrilla prison in Beirut.

Palestinian sources said Abu Saed was convicted several times in secret trials by "revolutionary courts" of the Al Fatah guerrilla organization.

In its statement, the PLO condemned the hijacking and disclaimed any connection with it.

The agreement was reached after long hours of negotiations at Kuwait airport in roasting desert heat that reached 118 degrees. The final details were worked out between two hijackers and Kuwaiti Planning Minister Mohammed Youssef Adasani on the airport tarmac near the plane.

The hijackers had originally demanded that 300 prisoners held in Arab jails be freed in exchange for the lives of their captives.

But Kuwait's interior and defense minister, Sheik Saad al+Abdalah as+Sabah, reportedly said the gunmen must first release the hostages and that they could then "take the plane and go to hell."

The plane was seized Friday night on a flight from Beirut, Lebanon to Kuwait. The hijackers demanded the pilot land at Kuwait to refuel. Since then, the jetliner sat grounded on the airport tarmac, ringed by Kuwaiti army commandos 400 yards away. The airport is 20 miles south of Kuwait city.

After hours in the stifling heat, the hijackers were "on the verge of collapse," a negotiator said.

Witnesses at hearing believe in energy crisis

U. S. Sen. Thomas F. Eagleton, D-St. Louis, heard all witnesses say they believe there actually is an energy crisis and that the energy problem is widely known and is great concern to U.S. citizens during an energy program hearing conducted Friday in the Federal Savings and Loan Association Community room.

Eagleton, at a press conference earlier in the day had expressed a concern that people doubted the existence of the energy crisis. However, the testimony presented here indicated that people are awre of the problem and are looking to national leaders to come up with a solution.

The hearing was the fourth Eagleton had held over the state Thursday and Friday. Assisting him in taking testimony were 10th District Rep. Bill D. Burlison, D-Cape Giardrdeau, and William Rice, a Carter Administration aide for energy matters.

Persons testifying included: D. H. Zaricor, general manager, Scott-New Madrid-Mississippi Electric Cooperative in Sikeston; Hilton Bracey, area representative for Mid-Continental Farmers Association; of Portageville. Bill Rodes of Advance, an oil jobber; Clint Halstead, vice president for operations of Noranda Aluminum Inc. of New Madrid, and Manuel Drumm of Sikeston, attorney for the Sikeston Board of Municipal Utilities.

Preceding the hearing of testimony, Rice outlined the Carter Administration's energy plan, which depends heavily on coal as the short-term answer to the energy crunch and looks to solar energy for the long-term answer as a home energy source.

In testimony before the group, Zaricor cited government agency ineptness as a major contributor to increases in utility prices.

The utility general manager pointed specifically to a $73 million scrubber at one of their plants that remains inoperational more than the time it is working, and does not work particularly well when it is operation. It is used in the processing of coal.

Bracey stated that a relaxation of Environmental Protection Agency standards may be required if the country is to seriously consider coal as an alternative to natural gas in industry.

Bracey also said farmers are generally pleased with the treatment they have been getting from the government concerning energy allotments, and he said that this treatment will have to continue if farmers are going to be able to produce food and fiber for the American economy.

Halstead said considerable savings in fuel could be obtained if more aluminum was used in the construction of automobiles. The Noranda vice president also indicated to the hearing that his company depends heavily on gas-fired equipment, and that a switch-over to coal-fired equipment would be a considerable expense, requiring enough additional power to equal that produced by one nuclear power plant.

Rhodes told the gathering that, as an oil jobber, he is not interested in conserving gas, but wants to sell more. He said government allocations have kept gas prices artificially high because jobbers were locked in to one supplier and could not shop around for the best price, keeping prices high at the pump.

A Cape Girardeau man appeared before Eagleton, saying that while government officials are continually saying homes should be insulated better, he, an insulation contractor, has been put out of business because insulation was not available to him. A local lumber company representative echoed the sentiment, saying his company could sell twice as much as is available in this area.

Following the hearing, Eagleton and Burlison met with county officials from Scott, New Madrid and Mississippi counties at a luncheon in the Holiday Inn.

River yields bodies of father, son

POPLAR BLUFF--The bodies of a Cahokia, Ill., man and his 14-year-old son were recovered from a large hole in Black River just below the Hendrickson Bridge along Highway 67.

Searchers found the body of Alfred Estell Campbell, 40,, at 5:36 a.m. floating on the surface of the river in a large hole adjacent to the Williamsville Stone Co.

The body of Campbell's son, Roger Dale Campbell, was recovered about noon, authorities said.

The elder Campbell died while trying to save his son from drowning during a family outing beneath the bridge about 1 p.m. Wednesday, authorities said.

Campbell went to his son's aid after the youth began struggling in a swift current flowing under the bridge, witnesses said.

Another of Campbell's sons, 15-year-old James Campbell told authorities he started into the river after he saw his brother fighting the current as it swept him out into the large hole in the river.

Witnesses said Campbell reached his son as the boy went under the water. Campbell was carried along by the current for another 300 feet before disappearing from sight, authorities said.

Campbell's body was found floating near where witnesses last saw the man before he sank. The spot was about 100 feet from shore.

No further details were available on the recovery of the younger Campbell's body.

Carter urged to find new energy sources

WASHINGTON (AP) — The nation's governors told President Carter on Saturday that the federal government is placing too much emphasis on energy conservation and not enough on developing new energy resources.

"We got good advice," Carter said after the three-hour conference.

Carter also praised Congress for its work on his energy program which is still pending in the legislative halls where it has been given a less-than-friendly reception. He said that if Congress fails to approve his plan, he will keep fighting for it.

"If we don't get 100 per cent of a program this year, we'll be back next year," Carter told reporters in a brief statement in the White House press room.

The governors were invited to Washington by the administration to review the role the states can play in implementing energy policy. Forty four governors attended the two days of meetings.

Gov. Julian Carroll of Kentucky, chairman of the National Governors Conference committee on natural resources and environmental management, said after the Saturday meeting with Carter that "there seems to be a criticism generally that we concentrated more on conservation than on production."

But he said no commitment was extracted from Carter or the other federal officials on giving more emphasis on production.

James Schlesinger, Carter's chief energy adviser, said some governors also felt that "undue environmental restraints" were hindering energy development.

Schlesinger would not say what changes, if any, would be made in the administration's energy proposals as a result of the conference.

He said some discussion focused on gasoline rationing to deal with any major disruption of imported oil. He said Carter "had indicated we should have a rationing scheme that would curtail energy usage by 25 per cent, at least."

Carter said he sought the governors counsel because many of the responsibilities for implementing policies set in Washington "fall to a major degree on the shoulders of government officials at local levels."

The President said that as a result of the meeting, a second session would be organized to discuss enhanced production of energy.

Carroll said the governors decided to set up groups to study incentives for conservation, emergency preparations, and the establishment of the proposed energy department.

Gov. Reubin Askew of Florida, chairman of the National Governors Conference, said the two days of meetings produced "a real dialogue between the federal government and the states."

Carroll said the governors left the meetings with the impression that Carter's energy proposals were "not as stringent, as restrictive, as harmful to them as they might have feared."

Administration officials denied that the governors were invited to Washington to counter the problems the Carter energy plan is having in Congress.

Fire destroys home struck by lightning

MORLEY–The home of Mrs. Elizabeth Campbell burned Friday afternoon after it was struck by lighting.

Lightning struck a utility room at the back of the home during a thunderstorm about 4 p.m.

The Morley Fire Department answered the call but was not able to save the house, which was gutted.

However, most of the household goods and furniture were saved.

2 fined for petit larceny

Two persons were assessed $60 fines Thursday night in City Court for petit larceny.

They were Mattie B. Coleman of Howardville and Duel D. Flanigan of Morehouse.

22 persons suffer injuries in 7 area traffic accidents

Twenty-two persons were injured--one critically and seven seriously-- in seven area traffic accidents Friday night and Saturday, the highway patrol reported.

One person was critically injured and four persons received minor injuries in a two-vehicle accident at 5:30 a.m. Saturday on Interstate 55 three miles south of Cape Girardeau.

The accident occurred when a southbound car driven by Jimmie Mac Neal, 23, of St. Louis was traveling slowly across a bridge with a flat tire and was struck from behind by a southbound tractor-trailer truck driven by Everett Buford Milligan, 47, of Benton. The collision forced the Neal car into the guardrail.

A passenger in the Neal car, Mid Mac Neal, 21, of St. Louis, suffered critical injuries. Receiving minor injuries were Neal and three other passengers in his car, Ida Mae Neal, 19, Lynn Andre Neal, 17, and Birge Marie Neal, 19, all of St. Louis.

All of the victims injured were taken to St. Francis Medical Center at Cape Girardeau.

Six persons received serious injuries and two persons received minor injuries in a single vehicle accident at 12:05 a.m. today on Highway 51 two miles north of Marble Hill.

The accident occurred when Timothy E. Kinder, 19, of Marble Hill lost control of a northbound pickup truck while approaching a curve at a high rate of speed and the vehicle skidded 333 feet before overturning and coming to rest on its wheels.

Five of the occupants were thrown from the truck.

Seriously injured were the driver and five passengers, Sheila Hernandez, 17, and Jeanette Herron, 18, of Marble Hill and Larry Wilkison, 19, Melinda Sewasa, 16, and Timothy Wilkison, 20, of Lutesville.

Receiving minor injuries were Brenda Fowler, 17, of Marble Hill and Starla Wilkison, 18, of Lutesville.

All eight were taken to St. Francis Medical Center.

Kinder was arrested for careless and imprudent driving.

A Frederick town man was seriously injured and a Doniphan man received minor injuries when their vehicles collided at 8:15 a.m. Saturday on Highway 67 one mile south of Fredericktown.

The accident occurred when an eastbound car driven by Archie R. Bennett, 74, of Fredericktown pulled onto the highway and was struck by an northbound pickup driven by Carroll T. Bopp,67, of Doniphan.

Bennett suffered serious injuries and Bopp received minor injuries. Both were taken to Madison County Memorial Hospital at Fredericktown.

A Steele woman received moderate injuries in a two-vehicle accident at 5:40 p.m. Saturday on Highway 164 three miles east of Steele.

The accident occurred when a westbound pickup truck driven by Billy D. Smithson, 57, of Steele struck the back of a westbound car driven by Susie B. Johnson, 54, of Steele.

The Johnson woman received injuries and was taken to Pemiscot Memorial Medical Center at Hayti.

Smithson was arested for leaving scene of an accident, careless and imprudent driving and no operator's license.

Three persons received minor injuries in a two-vehicle accident at 7:30 p.m. Friday night on Highway 62 miles west of Charleston.

See No. 1 Page 12

Daily record

FIRES

CHARLESTON — The Charleston Fire Department answered calls Friday night and Saturday afternoon.

Perry Motor Sales, located on Highway 105 just south of the city limits, caught fire at 1:25 p.m. Saturday when lightning struck it.

Firemen were at the scene about an hour fighting the fire, which caused only minor damage to the mobile home being used as an office at the company.

John W. Hodge is the owner and occupant of the mobile home.

Charleston firemen assisted the Bertrand Fire Department at 10:15 p.m. Friday night in fighting a fire at a mobile home on Highway 62 just west of Bertrand.

The home was destroyed, but was vacant at the time.

Firemen were at the scene about an hour. Cause of the fire was not determined.

The owner of the home was Mary Crumley.

Zero Milestone

The zero milestone, from which public highways of the United States are supposed to radiate was authorized by joint resolution of Congress on June 5, 1920, and dedicated June 4, 1923, it is a granite pier 24 by 24 inches in section, mounted on a concrete base and projecting four feet above the ground, standing on the north edge of the Ellipse, 900 feet south of the White House.

Water below normal in most rivers, streams

WASHINGTON (AP) — The flow of water in 70 per cent of the nation's rivers and streams was less than normal in June, the U. S. Geological Survey said.

But improvement was noted in drought conditions in Oregon and Washington where streamflows averaged up to double normal in June.

"It was the driest June on record for 10 index streams in 10 states," said Carroll Saboe, chief of the survey's Current Water Conditions Group.

But that was an improvement over May, when a record 22-year low streamflow was set, although the area of the country with deficient streamflow increased in June.

Streamflow decreased in much of the East and Southeast.

Of 159 index stations in the nation, streamflows were deficient in 97, Saboe said. Only 10 were above normal.

"Average flow of the Big Five in June dropped to about 572 gallons a day, about 41 per cent below normal and 123 billion gallons a day less than in May," Saboe said.

The Big Five rivers are the Mississippi. Missouri, St. Lawrence. Columbia and Ohio.

Money Maker

Television's share of the advertising dollar has grown from 3 percent to almost 19 per cent over the last 25 years, The Conference Board notes.

FIRES

CHARLESTON — The Charleston Fire Department answered calls Friday night and Saturday afternoon.

Perry Motor Sales, located on Highway 105 just south of the city limits, caught fire at 1:25 p.m. Saturday when lightning struck it.

Firemen were at the scene about an hour fighting the fire, which caused only minor damage to the mobile home being used as an office at the company.

John W. Hodge is the owner and occupant of the mobile home.

Charleston firemen assisted the Bertrand Fire Department at 10:15 p.m. Friday night in fighting a fire at a mobile home on Highway 62 just west of Bertrand.

The home was destroyed, but was vacant at the time.

Firemen were at the scene about an hour. Cause of the fire was not determined.

The owner of the home was Mary Crumley.

Zero Milestone

The zero milestone, from which public highways of the United States are supposed to radiate was authorized by joint resolution of Congress on June 5, 1920, and dedicated June 4, 1923, it is a granite pier 24 by 24 inches in section, mounted on a concrete base and projecting four feet above the ground, standing on the north edge of the Ellipse, 900 feet south of the White House.

Water below normal in most rivers, streams

WASHINGTON (AP) — The flow of water in 70 per cent of the nation's rivers and streams was less than normal in June, the U. S. Geological Survey said.

But improvement was noted in drought conditions in Oregon and Washington where streamflows averaged up to double normal in June.

"It was the driest June on record for 10 index streams in 10 states," said Carroll Saboe, chief of the survey's Current Water Conditions Group.

But that was an improvement over May, when a record 22-year low streamflow was set, although the area of the country with deficient streamflow increased in June.

Streamflow decreased in much of the East and Southeast.

Of 159 index stations in the nation, streamflows were deficient in 97, Saboe said. Only 10 were above normal.

"Average flow of the Big Five in June dropped to about 572 gallons a day, about 41 per cent below normal and 123 billion gallons a day less than in May," Saboe said.

The Big Five rivers are the Mississippi. Missouri, St. Lawrence. Columbia and Ohio.

Money Maker

Television's share of the advertising dollar has grown from 3 percent to almost 19 per cent over the last 25 years, The Conference Board notes.

Today's news in brief

Explosion puts out lights

ST. LOUIS (AP) — Power was restored Saturday afternoon in the city's central business district, which had been without electricity as the result of an explosion and fire earlier in the day.

A spokesman for Union Electric Co. said all power was back on by 1 p.m. — almost nine hours after an explosion in an underground conduit left thousands of residents and workers without electricity.

Police said that with few exceptions, most business firms and stores began resuming normal operations once the power was back on.

Merchants in Union Market — especially those with stocks of perishables like poultry, fish and meat — grew apprehensive in mid-morning as thermometers in their freezers began to rise.

Residents of many high-rise apartments spent several hours in the dark as their air conditionless rooms gradually warmed.

In a 29-floor apartment builing, tenants discovered they had no water — either for drinking or sanitation — because electric pumps were out.

Despite the inconveniences for downtown residents and business firms, however, police said there were no reports of injuries or damage as a result of the blackout.

Officials said power went out at about 4 a.m. after an explosion and fire in an underground conduit.

Five workmen were injured in the blast, police said. Four of them were hospitalized with burns.

Public hearing planned

WASHINGTON (AP) — The House Ethics Committee's five-month-old investigation into alleged South Korean influence-buying on Capitol Hill is tentatively planning to hold public hearings in September.

One congressional source, noting plans for Congress to adjourn in October, said he doubts there will be substantial new data developed and made public in the short time before the House quits for the year.

The panel is seeking to determine if South Korean agents dispensed cash and gifts to buy support in Congress for South Korean programs.

Committee chairman Rep. John J. Flynt Jr., D+Ga., says the slow and cautious pace of the committee staff is warranted.

"To conduct public hearings prematurely would result in unwarranted injury to reputations of individuals whose names have been mentioned in allegations ..." he said.

American POW's among dead

LONDON (AP) — A new book by two British writers says American prisoners of war, some captured less than two weeks earlier, were among 80,000 persons killed in the U.S. atomic bombing of Hiroshima in World War II and that two who survived were reported beaten to death.

"For 32 years this information has been suppressed," claimed Gordon Thomas, co-author of the book "Enola Gay," in an interview here.

The Pentagon in Washington said 10 to 20 U.S. prisoners were believed to be in Hiroshima at the time but it added it could not be adequately determined if any were victims of the bombing.

In the book, named after the B-29 bomber that carried out the world's first atomic attack on Aug. 6, 1945, Thomas and co-author Max Morgan Witts write that an estimated 23 Americans were being held in Hiroshima at the time. The authors said 10 of them had been taken prisoner in Okinawa and the rest had been shot down over Hiroshima on July 28, 1945.

"The fate of the American prisoners of war is not certain," they add in their 327-page book. "Two were reported to have been escorted, wounded but able to walk, to Ujina. One was seen under a bridge, apparently dying, wearing only a pair of red and white underpants. Two were said to have been battered to death in the castle grounds by their captors." Ujina is in the port section of Hiroshima.

Indians look to Arabs for help

DENVER (AP) — Twenty-three western Indian tribes are seeking the help of oil-rich Arab and third-world nations to develop vast uranium and coal reserves beneath their reservations.

Two meetings have been held in Washington between representatives of the Council of Energy Resource Tribes and six member-nations of the Organization of Petroleum Exporting Countires, an Indian spokesman said.

A third meeting is to be held there this week, said Peter MacDonald, tribal chairman of the Navajo nation and chairman of the Council of Energy Resource Tribes.

The Indians are going outside the country for help because of what they call federal red tape and foot-dragging, MacDonald said.

"We're looking for information principally," MacDonald said. "We believe they have a certain amount of information and technology that would be most valuable to us."

MacDonald, interviewed by telephone from the Navajo reservation in Window Rock, Ariz., declined to identify the countries with which CERT met on June 28 and 29 in Washington.

FBI nabs Oklahoma lifers

PORTLAND, Ore. (AP) — A two-week spree of killings and abductions that led police across the South and West has ended with the arrest of two life-term oklahoma prison fugitives.

The FBI said Earl Van Denton, 27, convicted of murder, and Paul Ruiz, 29, who was serving time for armed robbery, were arrested in the downtown area Friday. They were getting out of a taxi owned by an Oklahoma cab driver whose body was found Thursday near Dibble, Okla., Denton's hometown, authorities said.

The fugitives were arrested without incident. One was armed with a knife, and two handguns were found in the cab, the FBI said.

They were held on a federal charge of unlawful flight to avoid prosecution and bail was set at $250,000 each said an FBI spokesman.

Denton and Ruiz are charged in Arkansas with the deaths of a town marshal and a U.S. Army Corps of Engineers ranger.

Police have also linked the fugitives to the disappearance of two fishermen in Louisiana and the death of the cab driver, James M. Short, of Purcell, Okla.

"McGlasses' called unsafe

OAK BROOK, Ill. (AP) — The McDonald's hamburger chain suspended promotion and distribution Saturday of its "glasses to go" program following tests by the Massachusetts Health Department that found exterior decals on the glasses may pose a health hazard.

But McDonald's challenged the accuracy of the tests and threatened to sue Massachusetts.

"The ... Department of Health acted in an irresponsible and discriminatory manner," said a statement released by McDonald's Corp. and Owens+Illinois Inc., which makes the glasses for McDonald's.

Massachusetts tests reportedly showed lead content up to 18 times the state tolerance in the decals. And the Food and Drug Administration said it was testing the glasses for lead content and that initial results may be available by Sunday.

John T. Walden, assistant FDA commissioner for public affairs, said: "We are in no way indicating a health hazard at this time. But if people are concerned, the prudent thing to do is to stop using the glasses until our tests are completed."

Area entrants take ceramic show honors

Margaret Seabaugh of Sikeston won first place in the hobbyist stain division for this entry at the Third Annual Murray Lane Ceramic Show.

The best-of-show award for the Third Annual Murray Lane Ceramic Show, held recently at the Kingsway Mall, was won by Bob Sutton of Sikeston. The sweepstakes award, presented to the exhibitor winning the most blue ribbons, was a tie this year. Winners were Margaret Seabaugh of Sikeston and Catherine McCormick of Charleston.

Judging for the show, which was on exhibit for three days, was done by Joe and Virginia Glover and Ann Sloan of Paducah, Ky.

Winners and their categories in the various competitions are listed below.

Hobbyist stain — first place, Margaret Seabaugh of Sikeston; second, Rachel Porterfield of Sikeston; third, Ann Thompson of Sikeston; and honorable mention, Mary Lou Walters of Sikeston.

Hobbyist glaze — first, Margaret Seabaugh of Sikeston; second, Larry Diamond of Sikeston; third, Cindy Farrenburg of Sikeston; honorable mention, Julian Bray and Ann Thompson of Sikeston and Kenny Hoelcher of Bertrand.

Hobbyist underglaze — first, Cindy Farrenburg of Sikeston; second, Margaret Seabaugh of Sikeston; third, Linda Mayfield of Sikeston; honorable mention, Rachel Porterfield of Sikeston, Marty Hunter of La Forge and Sally Triplett of Sikeston.

Hobbyist overglaze — first, Jerry Smith of Sikeston; second, Cindy Farrenburg of Sikeston; third, Karen Diamond of Sikeston; honorable mention, Ann Thompson of Sikeston.

Special effect — first, Margaret Seabaugh of Sikeston; second, Doris Williamson of Charleston; third, Marty Hunter of La Forge; and honorable mention, Donna Kyle of Sikeston.

Hand-built sculpture — first, Bob Sutton of Sikeston; second, Bob Sutton; and third, Freda Yates, address unabailable.

Professional glaze — first, Pauline Brock of Sikeston; second, Mary Hays of Sikeston; third, Jean DeJournett of Essex; honorable mention, Pauline Brock and Robert Hays of Sikeston.

Professional stains — first, Doris Williamson of Charleston; second, Ann Duty of East Prairie and Terry DeJournett of Essex; third, Ann Duty of East Prairie; honorable mention, Shiela Taylor of East Prairie.

Professional underglaze — first, Mary Hays of Sikeston; second, Roberft Hays of Sikeston; third, Ann Duty of East Prairie; honorable mention, Dottie Wolfers of Cape Girardeau.

Professional overglaze — first, Terry DeJournett of Essex; second, Shiela Taylor of East Prairie and Terry DeJournett of Essex; third, Terry DeJournett of Essex; honorable mention, Pauline Brock of Sikeston and Terry DeJournett of Essex.

Children through age 12 — first, Larry DeJournett of Essex; second, Larry DeJournett of Essex; third, Jana Eaves of Sikeston; and honorable mention, Larry DeJournett of Essex.

Children ages 12 through 17 — first, Tammy Williamson of Essex; second, Sara Renauld of Charleston; third, Keith Kyle of Sikeston; honorable mention, Patty Parker of Matthews.

Senior citizens glaze — first, Catherine McCormick, Charleston; second, Doris Mize of Sikeston; third, Doris Mize of Sikeston; honorable mention, Minnie Warren of Charleston, Modena Russell of East Prairie, Audry Feezor of Charleston and Jean Sabo of Sikeston.

Senior citizens underglaze — first, Haleene Cole of East Prairie; second, Eilene Thronebrow of East Prairie and Jean Sabo of Sikeston; third, Nina Knopp of East Prairie; honorable mention, Armantha Haws and Audry Feezor of Eas Prairie.

Senior citizens stains — first, Catherine McCormick of Charleston; second, Doris Mize of Sikeston; third, Doris Mize of Sikeston; honorable mention, Jean Sabor of Sikeston.

Senior citizens special effects — first, Audry Feezor of East Prairie; second, Jean Sabor of Sikeston; third, Jean Sabor of Sikeston; honorable mention, Jerry Davis of East Prairie.

The 12-17 year-old children's division of the show featured items suchas these.

Military Origin

A margrave was the German title of the count (garf) in charge of a mark, or march, one of the large frontier military districts set up by Charlemagne and his successors to protect the Frankish Empire. Of the six marches, two frontiers lent their names to modern nations — the Danish march gave its name to Denmark and the east march of Bavaria, Ostmark, evolved into Osterrich and Austria.

State Senate Happenings

by
SEN. NELSON B. TINNIN
25th DISTRICT

JEFFERSON CITY — At midnight on June 15, 1977, the Missouri General Assembly concluded what is probably the most productive legislative session in its history. A total of 213 bills were passed including complete overhauls of the state's criminal laws and election laws. My district fared very well this year. We were able to increase this area's share of state school funds by including income in determination of state aid. Also no fewer than 16 farm-related bills were passed. It was a very satisfying year for me personally, because I was able to get five of my bills passed.

SENATE BILL 82—This is the only one of my bills which pased in the last week of the session and was not reported in an earlier news letter. This bill permits payment of state school funds directly to the district treasurer. Previously the state paid the funds to the county treasurer who then distributed the fund to the schools in the county. The new procedure will save both time and money.

—

The following are bills that have been Truly Agreed To and Finally Passed which have not been mentioned in previous news letters. These bills have either been signed by the Governor or are on his desk awaiting his signature.

SENATE BILL 12 (BLIND RIGHTS) — Guarantees the blind the equal right to use the streets, sidewalks and other public places. Guarantees equal accommodations and use of public conveyances. Prohibits charging an additional fee for a guide dog for public transportation, public accommodations, or for housing.

SS FOR SENATE BILL 48 (MEDICAL CONSENT)— Permits the following persons to consent to medical procedures: (1) Any person 18 years old; (2) A parent for a minor child in his custody; (3) A married or minor parent for himself or a child in his legal custody; (4) Minors for pregnancy (except abortions), venereal disease or drug abuse; (5) Any adult in control of a child for the child in an emergency; and (6) A grandparent or adult brother or sister in absence of a parent. Consent is implied where an emergency exists and a person authorized to consent fails to object.

SENATE BILL 60 (CRIMINAL CODE)— Completely revises and restructures all the state criminal laws. Organizes all the state criminal laws into four classes of felonies, three classes of misdemeanors, and infractions. Infractions are violations of the law which may be punished only by a fine. The most significant substantive change in the law is the provision making child pornography a form of child abuse and providing severe penalties for violation.

SENATE BILL 73 (KANSAS CITY MUSEUM) — Requires a majority of the directors of the Kansas City museum to be residents of Kansas City. Permits Kansas City to increase the museum tax from two cents to nine cents per $100 assessed valuation with approval of the voters.

SENATE BILL 94 (JUDGES'INSURANCE)— Requires the retirement board to purchase life and medical insurance to cover all retired judges and commissioners.

SENATE BILL 104 (POLLUTION CONTROL DEVICES)— Exempts from the sales tax replacement machinery and equipment required by product changes or expansion of physical plant. Also exempts equipment and devices used for the purpose of monitoring air pollution and material and supplies used to construct such devices.

SENATE BILL 105 (UNIFORM SECURITIES ACT)— Authorizes the commissioner of securities to designate persons to be exempt from regulation as agents or brokers. Exempts from regulation securities sold as employee stock options if the commissioner is given prior written notice. Permits the commissioner to exempt any transaction from regulation if in the public interest.

SENATE BILL 111 (SCHOOL FUNDS) — Repeals the requirement that payments from school district funds must be made by warrant. Provides for payment by check signed by the president and treasurer of the school board. Requires the check to state the purpose of the payment.

SENATE BILL 115 (CORPORATIONS)— All shares required by the corporation would be deemed retired and would be treated as authorized but unissued shares. Permits the corporation to reduce its stated capital by an amount equal to the stated capital of the retired shares. Permits an irrevocable proxy if it is coupled with an interest. Permits any committee of directors to act without a formal meeting if all members concur. Repeals the requirement that the president and secretary of a corporation be differernt persons. If a registered agent changes his address the corporation may change its registered office without a resolution of the board by filing notice with the Secretary of State. The registered agent may give such notice for the corporation. A corporation may merge with a subsidiary in which it owns 90 per cent of the stock without a vote of the shareholders. The surviving corporation must notify outside shareholders within 10 days. Within 20 days outside shareholders may demand payment for their shares as valued immediately prior to the merger.

SENATE BILL 120 (MAGISTRATE EMPLOYEE SALARIES)— Provides a $2,500 per county increase in state contributions for salaries of all clerks, deputy clerks and employees of magistrate courts.

HCS FOR SENATE BILLS 122 & 289 (SECOND CLASS COUNTIES)— Requires the county collector in second class counties to certify to the county court annually the amount of state and county current and delinquent taxes. Provides additional compensation of $3,000 for this extra duty. Requires the county auditor in 2nd class counties to audit all investment programs of the county and all special road districts in the county and report to the county court. Provides $3,000 additional compensation for this extra duty. Requires the sheriff to establish a personal property identification system. Any county resident shall be assigned an identification number upon application to the sheriff. Provides $3,000 additional compensation for this extra duty.

SENATE BILL 136 (PUBLIC SERVICE COMMISSION)— Permits the Public Service Commission to adopt rules prescribing the conditions of rendering public utility services, disconnecting, refusing to reconnect, and billing.

SENATE BILL 143 (SCHOOL BOARDS)— Permits a school district to purchase insurance to protect school board members against judgments caused by negligence of the member while acting in the scope of his office.

SENATE BILL 151 (WATERCRAFT)— Prohibits operation of a motor boat so as to exceed a noise level of 86 decibels at a distance of 50 feet. (Previously required noise to be muffled in a reasonable manner.) Not applicable to regattas or races and trial races within 24 hours prior to a regatta or race.

SENATE BILL 159 (KANSAS CITY RETIREMENT)— Permits Kansas City teachers to transfer from one retirement option to another.

SENATE BILL 160 (KANSAS CITY RETIREMENT)— Makes minor changes in the Kansas City Public School Retirement System.

SENATE BILL 185 (NURSING HOMES)— Requires the Divison of Health to inspect each licensed nursing home at least twice per year.

SENATE BILL 194 (WATER PATROL)— Repeals the provision creating the Missouri Boat Commission and authorizing it to hire employees. The Division of Water Safety is given the authority to hire employees to patrol the waters of this state. Grants water patrolmen all powers of peace officers except search and seizure upon the waterways of the state and land adjoining the lakes and rivers of the state.

SENATE BILL 198 (SPECIAL DISTRICTS)— Permits a special district (sewer district, drainage district, etc.) to be dissolved by the voters in an election called after filing of a petition signed by 8 per cent of the voters.

HCS FOR SENATE BILL 214 (DEFERRED MAINTENANCE)— Prohibits the tax assessor from adding to the assessment of owner occupied dwellings with four or fewer units for 5 year any increase to the value of the property caused by major repairs to improve the quality and safety of the house. Applies to repairs performed between January 1, 1978, and December 31, 1983.

SENATE BILL 234 (COUNTY SALES TAX)— Permits first class counties except those containing part of Kansas City to levy a county-wide sales tax with approval of the voters.

SENATE BILL 245 (MALPRACTICE INSURANCE)— Persons forming a business entity to provide medical malpractice insurance upon an assessment plan may provide general liability insurance as well for any person it insures against malpractice.

SENATE BILL 252 (KANSAS CITY COURTS)— Adds one additional judge to the Jackson County Circuit Court.

SENATE BILL 262 (FOOD HANDLING)— Repeals specific and outdated sanitation requirements for food establishments (such as requiring cuspidors). Replaces these requirements with a prohibition on permitting a person affected with a communicable disease to work in any capacity which brings him into contact with food. Also permits all establishments which manufacture or distribute to register with the Division of Health.

SENATE BILL 267 (INDUSTRIAL DEVELOPMENT CORPORATIONS)— Authorizes cities and counties to form Industrial Development Corporations to own, lease or dispose of property to promote industry and develop trade. The corporation may issue revenue bonds to pay all or part of the cost of any project. Such bonds may be sold at not less than 95 per cent of par value. The bonds are payable only from revenue of the corporation from the project for which they were issued. The bonds are not an obligation of the city, county, state or any individual. Such projects are tax exempt. All public officials and financial institutions are authorized to invest in such bonds.

SENATE BILL 272 (STATE FIRE MARSHAL)— Designates the state fire marshal and his employes as peace officers when investigating fires or explosions involving a possibility of arson.

SENATE BILL 274 (OUT OF STATE INSURERS)— Permits insurance companies not authorized to do busines in Missouri to write insurance for risks in Missouri when the class of insurance sought is not available from insurance. Such insurance may be issued only through persons licensed as surplus line broker. Imposes a 5 per cent tax on the privilege of doing business as a surplus line broker. Surplus line broker must report each contract of insurance to the Divison of Insurance within 20 days.

SENATE BILL 277 (TAX ASSESSORS)— Repeals the provision authorizing county assessors to appoint assistants. Repeals the provisions requiring the state to pay one-half the salaries of county and township assessors and their staffs. Requires the state to pay one-half the costs an expenses of county and township assessors incurred in making assessments and preparing abstracts.

SENATE BILL 317 (SMALL LOANS)— Raises to $2,500 the maximum loan to which the small loan interest rate applies. Applies the small loan interest rate to all open end credit contracts regardless of amount, whether or not a credit card is issued.

SENAT BILL 322 (GROUP HEALTH INSURANCE)— Requires all group health insurance plans which provide hospitalization coverage to cover hospital treatment of alcoholism.

SENATE BILL 325 (TEACHER RETIREMENT) — Permits the executive officer of a college, university, or junior college to certify teachers to meet the technical requirement that teachers must be certified in order to become members of the Missouri State Teacher Retirement System.

SENATE BILL 326 (CORPORATE FARM LAW)— Amends the corporate farming law to permit a bank or trust company to operate a farm as an executor or trustee under the terms of a will or trust.

SENATE BILL 334 MEDICAL ASSISTANCE)— Permits medical assistance payments to be made for orthopedic or prosthetic devices including glasses, hearing aids, and wheel chairs.

SENATE BILL 344 (SALES TAX BRACKETS)— Establishes a new set of sale tax brackets to accommodate the new one-eighth cent sales tax.

SENATE BILL 357 (BONDS)— Permits the sate auditor to endorse bonds issued by political subdivisions by a facsimile of his signature rather than being required to sign bonds by hand.

SENATE BILL 359 (SHELTERED WORKSHOPS) — Permits the board of any county sheltered workshop to contract with corporations to provide services consistent with the act.

Cont. to page 8

PARTNER in what Western observers speculate may be a developing two-man top leadership in Peking is Defense Minister Yeh Chien-ying. Yeh, also a vice chairman of the Communist party, is believed to be the power behind the rise of Chairman Hua Kuo-feng. The Chinese press recently has been giving prominent play to both Hua and Yeh.

Moscow attacks on neutron bomb grow

WASHINGTON (AP) — Moscow is stepping up its attack against U.S. development of the neutron bomb as President Carter considers whether to move ahead with production of the weapon.

After disclosure Thursday that the warhead has been tested underground in Nevada, a Russian commentator wrote in a dispatch reported by the Soviet news agency Tass that instead of seeking a satisfactory settlement of the U.S.-Soviet strategic arms talks, "the American administration is doing everything possible to complicate these negotiations."

The commentator, Yuri Kornilov, wrote, "This round in the race for illusive military superiority is an extremely dangerous venture which jeopardizes the cause of deepening and strengthening detente."

Administration officials refused to respond to the Soviet commentary.

Secretary of State Cyrus Vance said last week in Paris that U.S.-Soviet relations have been strained by "very substantial" differences over strategic arms limitations and human rights.

In confirming the bomb tests in Nevada, a spokesman for the Energy Research and Development Administration declined to say when the testing began or how extensive it has been. He said the tests were conducted underground in accordance with existing treaties.

The spokesman said weapons are tested before production as "a matter of procedure."

The White House says President Carter will decide personally whether to recommend production of the warhead after reviewing the results of studies expected to reach his desk about Aug. 15.

The neutron warhead is designed to kill people through radiation while leaving buildings intact. Pentagon planners say the new bomb would be a greater deterrent than conventional nuclear warheads to a Soviet bloc invasion of Europe.

The Soviets know the United States may be reluctant to use conventional nuclear weapons in Europe because they would devastate allied territory. The neutron bomb would cause less fire and blast damage than a conventional nuclear warhead but would spread radiation further.

A Pentagon spokesman said the neutron bomb would improve deterrence "because the Soviets know our use of it is safe to our allies and us and it decreases their chances of surviving an assault."

Opened in '32

The original theater of the Royal Opera House, Covent Garden in London, opened in 1732 and presented plays, pantomimes and opera. George Frederic Handel served as its music director from 1734-1737. The area encompassing the opera house was originally a convent garden owned by the Abbey of Westminster.

Thanks

State Senate Happenings

by
SEN. NELSON B. TINNIN
25th DISTRICT

JEFFERSON CITY — At midnight on June 15, 1977, the Missouri General Assembly concluded what is probably the most productive legislative session in its history. A total of 213 bills were passed including complete overhauls of the state's criminal laws and election laws. My district fared very well this year. We were able to increase this area's share of state school funds by including income in determination of state aid. Also no fewer than 16 farm-related bills were passed. It was a very satisfying year for me personally, because I was able to get five of my bills passed.

SENATE BILL 82—This is the only one of my bills which pased in the last week of the session and was not reported in an earlier news letter. This bill permits payment of state school funds directly to the district treasurer. Previously the state paid the funds to the county treasurer who then distributed the fund to the schools in the county. The new procedure will save both time and money.

—

The following are bills that have been Truly Agreed To and Finally Passed which have not been mentioned in previous news letters. These bills have either been signed by the Governor or are on his desk awaiting his signature.

SENATE BILL 12 (BLIND RIGHTS) — Guarantees the blind the equal right to use the streets, sidewalks and other public places. Guarantees equal accommodations and use of public conveyances. Prohibits charging an additional fee for a guide dog for public transportation, public accommodations, or for housing.

SS FOR SENATE BILL 48 (MEDICAL CONSENT)— Permits the following persons to consent to medical procedures: (1) Any person 18 years old; (2) A parent for a minor child in his custody; (3) A married or minor parent for himself or a child in his legal custody; (4) Minors for pregnancy (except abortions), venereal disease or drug abuse; (5) Any adult in control of a child for the child in an emergency; and (6) A grandparent or adult brother or sister in absence of a parent. Consent is implied where an emergency exists and a person authorized to consent fails to object.

SENATE BILL 60 (CRIMINAL CODE)— Completely revises and restructures all the state criminal laws. Organizes all the state criminal laws into four classes of felonies, three classes of misdemeanors, and infractions. Infractions are violations of the law which may be punished only by a fine. The most significant substantive change in the law is the provision making child pornography a form of child abuse and providing severe penalties for violation.

SENATE BILL 73 (KANSAS CITY MUSEUM) — Requires a majority of the directors of the Kansas City museum to be residents of Kansas City. Permits Kansas City to increase the museum tax from two cents to nine cents per $100 assessed valuation with approval of the voters.

SENATE BILL 94 (JUDGES'INSURANCE)— Requires the retirement board to purchase life and medical insurance to cover all retired judges and commissioners.

SENATE BILL 104 (POLLUTION CONTROL DEVICES)— Exempts from the sales tax replacement machinery and equipment required by product changes or expansion of physical plant. Also exempts equipment and devices used for the purpose of monitoring air pollution and material and supplies used to construct such devices.

SENATE BILL 105 (UNIFORM SECURITIES ACT)— Authorizes the commissioner of securities to designate persons to be exempt from regulation as agents or brokers. Exempts from regulation securities sold as employee stock options if the commissioner is given prior written notice. Permits the commissioner to exempt any transaction from regulation if in the public interest.

SENATE BILL 111 (SCHOOL FUNDS) — Repeals the requirement that payments from school district funds must be made by warrant. Provides for payment by check signed by the president and treasurer of the school board. Requires the check to state the purpose of the payment.

SENATE BILL 115 (CORPORATIONS)— All shares required by the corporation would be deemed retired and would be treated as authorized but unissued shares. Permits the corporation to reduce its stated capital by an amount equal to the stated capital of the retired shares. Permits an irrevocable proxy if it is coupled with an interest. Permits any committee of directors to act without a formal meeting if all members concur. Repeals the requirement that the president and secretary of a corporation be differernt persons. If a registered agent changes his address the corporation may change its registered office without a resolution of the board by filing notice with the Secretary of State. The registered agent may give such notice for the corporation. A corporation may merge with a subsidiary in which it owns 90 per cent of the stock without a vote of the shareholders. The surviving corporation must notify outside shareholders within 10 days. Within 20 days outside shareholders may demand payment for their shares as valued immediately prior to the merger.

SENATE BILL 120 (MAGISTRATE EMPLOYEE SALARIES)— Provides a $2,500 per county increase in state contributions for salaries of all clerks, deputy clerks and employees of magistrate courts.

HCS FOR SENATE BILLS 122 & 289 (SECOND CLASS COUNTIES)— Requires the county collector in second class counties to certify to the county court annually the amount of state and county current and delinquent taxes. Provides additional compensation of $3,000 for this extra duty. Requires the county auditor in 2nd class counties to audit all investment programs of the county and all special road districts in the county and report to the county court. Provides $3,000 additional compensation for this extra duty. Requires the sheriff to establish a personal property identification system. Any county resident shall be assigned an identification number upon application to the sheriff. Provides $3,000 additional compensation for this extra duty.

SENATE BILL 136 (PUBLIC SERVICE COMMISSION)— Permits the Public Service Commission to adopt rules prescribing the conditions of rendering public utility services, disconnecting, refusing to reconnect, and billing.

SENATE BILL 143 (SCHOOL BOARDS)— Permits a school district to purchase insurance to protect school board members against judgments caused by negligence of the member while acting in the scope of his office.

SENATE BILL 151 (WATERCRAFT)— Prohibits operation of a motor boat so as to exceed a noise level of 86 decibels at a distance of 50 feet. (Previously required noise to be muffled in a reasonable manner.) Not applicable to regattas or races and trial races within 24 hours prior to a regatta or race.

SENATE BILL 159 (KANSAS CITY RETIREMENT)— Permits Kansas City teachers to transfer from one retirement option to another.

SENATE BILL 160 (KANSAS CITY RETIREMENT)— Makes minor changes in the Kansas City Public School Retirement System.

SENATE BILL 185 (NURSING HOMES)— Requires the Divison of Health to inspect each licensed nursing home at least twice per year.

SENATE BILL 194 (WATER PATROL)— Repeals the provision creating the Missouri Boat Commission and authorizing it to hire employees. The Division of Water Safety is given the authority to hire employees to patrol the waters of this state. Grants water patrolmen all powers of peace officers except search and seizure upon the waterways of the state and land adjoining the lakes and rivers of the state.

SENATE BILL 198 (SPECIAL DISTRICTS)— Permits a special district (sewer district, drainage district, etc.) to be dissolved by the voters in an election called after filing of a petition signed by 8 per cent of the voters.

HCS FOR SENATE BILL 214 (DEFERRED MAINTENANCE)— Prohibits the tax assessor from adding to the assessment of owner occupied dwellings with four or fewer units for 5 year any increase to the value of the property caused by major repairs to improve the quality and safety of the house. Applies to repairs performed between January 1, 1978, and December 31, 1983.

SENATE BILL 234 (COUNTY SALES TAX)— Permits first class counties except those containing part of Kansas City to levy a county-wide sales tax with approval of the voters.

SENATE BILL 245 (MALPRACTICE INSURANCE)— Persons forming a business entity to provide medical malpractice insurance upon an assessment plan may provide general liability insurance as well for any person it insures against malpractice.

SENATE BILL 252 (KANSAS CITY COURTS)— Adds one additional judge to the Jackson County Circuit Court.

SENATE BILL 262 (FOOD HANDLING)— Repeals specific and outdated sanitation requirements for food establishments (such as requiring cuspidors). Replaces these requirements with a prohibition on permitting a person affected with a communicable disease to work in any capacity which brings him into contact with food. Also permits all establishments which manufacture or distribute to register with the Division of Health.

SENATE BILL 267 (INDUSTRIAL DEVELOPMENT CORPORATIONS)— Authorizes cities and counties to form Industrial Development Corporations to own, lease or dispose of property to promote industry and develop trade. The corporation may issue revenue bonds to pay all or part of the cost of any project. Such bonds may be sold at not less than 95 per cent of par value. The bonds are payable only from revenue of the corporation from the project for which they were issued. The bonds are not an obligation of the city, county, state or any individual. Such projects are tax exempt. All public officials and financial institutions are authorized to invest in such bonds.

SENATE BILL 272 (STATE FIRE MARSHAL)— Designates the state fire marshal and his employes as peace officers when investigating fires or explosions involving a possibility of arson.

SENATE BILL 274 (OUT OF STATE INSURERS)— Permits insurance companies not authorized to do busines in Missouri to write insurance for risks in Missouri when the class of insurance sought is not available from insurance. Such insurance may be issued only through persons licensed as surplus line broker. Imposes a 5 per cent tax on the privilege of doing business as a surplus line broker. Surplus line broker must report each contract of insurance to the Divison of Insurance within 20 days.

SENATE BILL 277 (TAX ASSESSORS)— Repeals the provision authorizing county assessors to appoint assistants. Repeals the provisions requiring the state to pay one-half the salaries of county and township assessors and their staffs. Requires the state to pay one-half the costs an expenses of county and township assessors incurred in making assessments and preparing abstracts.

SENATE BILL 317 (SMALL LOANS)— Raises to $2,500 the maximum loan to which the small loan interest rate applies. Applies the small loan interest rate to all open end credit contracts regardless of amount, whether or not a credit card is issued.

SENAT BILL 322 (GROUP HEALTH INSURANCE)— Requires all group health insurance plans which provide hospitalization coverage to cover hospital treatment of alcoholism.

SENATE BILL 325 (TEACHER RETIREMENT) — Permits the executive officer of a college, university, or junior college to certify teachers to meet the technical requirement that teachers must be certified in order to become members of the Missouri State Teacher Retirement System.

SENATE BILL 326 (CORPORATE FARM LAW)— Amends the corporate farming law to permit a bank or trust company to operate a farm as an executor or trustee under the terms of a will or trust.

SENATE BILL 334 MEDICAL ASSISTANCE)— Permits medical assistance payments to be made for orthopedic or prosthetic devices including glasses, hearing aids, and wheel chairs.

SENATE BILL 344 (SALES TAX BRACKETS)— Establishes a new set of sale tax brackets to accommodate the new one-eighth cent sales tax.

SENATE BILL 357 (BONDS)— Permits the sate auditor to endorse bonds issued by political subdivisions by a facsimile of his signature rather than being required to sign bonds by hand.

SENATE BILL 359 (SHELTERED WORKSHOPS) — Permits the board of any county sheltered workshop to contract with corporations to provide services consistent with the act.

Supreme Court's youngest judge also outspoken

JEFFERSON CITY, Mo. (AP) — From his seat on the highest court in Missouri, John Bardgett has gained—some would say earned—a reputation as an outspoken young jurist.

It is really a combination of factors that brings the youngest judge on the seven-man state Supreme Court such notoriety. His rapport with state lawmakers and his often and easily expressed opinions outside the courtroom create a climate that has landed the 50-year-old judge in hot water at least once since arriving in the capital city.

Although he admits to a new, lower profile these days, he still fervently believes: "Non-expression doesn't make a person a better judge at all. But why bother with the heat?"

An impulsive outburst five years ago in a Jefferson City night club brought the then-new Supreme Court judge a reprimand from his fellow jurists. The public eye also trained on him when he was issued a citation for shooting a protected bird on a dove hunting expedition.

Bardgett, dressed in his light, short-sleeved shirt with loosened tie, is a personable and informal attorney. One suspects he disdains the formality of even the black robes the court wears during oral arguments.

His compact, paper-filled office on the third floor of the Supreme Court building gently hugs his shoulders. And his grimace at the topic of his reprimand indicates those are memories he would sooner put far behind him.

Those words in the night club berated a state legislator—an attorney— who had made unkind remarks about judges on the floor of the Missouri House. But it is Bardgett's own remarks that sear his memory.

"That statement made for six or seven months of miserable life," Bardgett said.

"It just made me mad. I know I didn't deserve a reprimand, but it had to end.

"In St. Louis or St. Louis County that kind of thing wouldn't happen because you're not visible. I found out that in Jeff City, you're visible."

Still Bardgett has spent considerable time with state legislators in recent years, greasing the skids for approval of judicial pay hikes.

A deep-rooted love of politics, the Democrat says, keeps him active in the political questions of the day.

Pride transcended money in prodding Bardgett to move from lawyer to judge in the late 1950s.

"A number of us were young lawyers trying lawsuits in St. Louis courts. A good number of the judges were rather old and not in touch with the rest of us."

Whenever a circuit bench post opened, Bardgett said he would urge his colleagues to seek appointment. They would refuse, he said, because the pay for judges at that time was much less than what most lawyers could earn.

"I guess I said that to so many guys that when a vacancy was announced, I thought I ought to put myself where my mouth is."

Bardgett's appointment to the circuit court bench was his first step to the highest state court.

Now more than 20 years later, Bardgett acknowledges that the questions he asks of attorneys appearing before his court may appear severe at times.

"I don't think I'm an easy judge—sometimes I don't even think I'm a nice guy." He added, thoughtfully: "I sometimes ask too many questions, and in maybe not as polite a manner as they should be asked."

The importance of Supreme Court cases, he said, compels him to probe the law and the lawyer's mind with penetrating questions.

But then, he adds, "A lot of this job is just plain looking out a window and thinking."

Information Please

The Daily Standard is now gathering information for the publication of an Information Please tabloid, to be included in a regular edition of the newspaper later this month.

In order to make this publication as comprehensive as possible for the four county area, we are asking that all clubs and civic groups send in the names of their groups, meeting dates and times, and current officers and their telephone numbers, so that they may be included.

If your town has an annual festival, celebration or parade, we would like to have all the information available about it, including this year's chairman and phone number, a brief history of the celebration, and the dates and schedule of events for this year. It does not matter if the celebration has already passed for this year, we would still like to have the information.

The publication is to be circulated throughout Scott, Stoddard, Mississippi and New Madrid counties and any organization in this area is invited to submit its information.

Local school administrations in the four county area, are reminded that we need information about your schools. This information was requested several weeks ago, but the response has been slight. To remind public and private school administrators, we need the school classification, 1976-77 enrollment figures, number of faculty members, principals and superintendents names, special achievements of the school teams or representatives, semester starting dates, the year the school was established and a brief history, if available.

Time is growing short and information to be included should arrive at The Daily Standard newsroom, no later than July 12.

House-Senate showdown near on computer system

WASHINGTON (AP) — The House and Senate square off next week over a proposed $200 million computer system that an unpublished General Accounting Office report calls "risky."

The House wants to give the Veterans Administration the money needed to buy the initial equipment for its "Target" computer system.

But the Senate has voted to hold off, saying the draft GAO report and other investigations suggest the system is bigger than the VA needs and would be too expensive.

Critics charge Target would cost too much, is poorly designed and couldn't protect adequately the personal information it would contain on millions of veterans. The VA says it needs the system to improve service to veterans.

"Target is a risky venture," said the draft GAO report on the costs and benefits of the projected system.

A copy of the draft report, requested by Reps. John Moss, D-Calif., and Charles Rose, D-N.C., was obtained by The Associated Press from congressional sources.

The VA has been pushing for Target for more than five years, saying its current system is outmoded and cannot serve adequately the millions of veterans and their dependents who get pensions, disability payments, education benefits and other VA services.

But the VA's plans and cost projections for Target have been criticized repeatedly by the GAO and congresssional staff investigators, who charge that costs are underestimated and benefit forecasts are overly optimistic.

The VA's latest cost-benefit analysis — the fourth in the project's history — estimated $25.5 million in savings for the 12-year life of the system compared with continuing the present, largely manual system.

But the GAO suggested in its draft report that not all the projected savings might occur and another $8.9 million in uncounted costs could hit the project — wiping out all the potential monetary benefits.

"There is considerable uncertainty concerning the costs and benefits of the Target system.

Senator receives top speech funds

WASHINGTON (AP) — Sen. Herman Talmadge, D-Ga., received $25,000 above his senatorial salary last year by giving speeches at colleges and before business, union and lobbying groups.

The sum in the maximum allowable under Senate rules, which limit senators to $2,000 per speech and a total of $25,000 annually in outside speaking fees.

Close behind Talmadge was Sen. Robert Packwood, R-Ore., who was paid $24,289 in speaking fees, according to Senate records. Daniel Moynihan, D-N.Y., who was elected to the Senate last year and thus was not subject to the limits, earned $165,393.

Other big earners with speaking fees totaling more than $20,000 last year were George McGovern, D-S.D.; Jake Garn, R-Utah; William Proxmire, D-Wis.; Daniel K. Inouye, D-Hawaii; Birch Bayh, D-Ind.; Joe Biden Jr., D-Del.; John Tower, R-Tex., and Hubert Humphrey, D-Minn.

Sen. Bob Dole, R-Kan. and the GOP vice presidential nominee last year,reported speaking fees of $14,875. Sen. James B. Pearson, R-Kan., reported fees of $6,500, and Sen. Thomas Eagleton, D-Mo., had fees totaling $7,500.

Stronger warning urged

WASHINGTON (AP) — Stronger warning labels are needed on aspirin and acetaminophen, the two major nonprescription pain relievers, a government advisory panel says.

The scientific panel also concluded that the pain relievers are safe and effective.

At the same time, the panel warned against permitting claims that the products relieve symptoms of arthritis or rheumatism for fear such claims would lead to self-treatment.

The recommendations were made Thursday to the Food and Drug Administration after a four-year study of over-the-counter analgesic pain relievers and fever reducers.

FDA Commissioner Donald Kennedy said he expected the report would lead to "more explicit labeling, including essential new warnings, that will make it easier for consumers to select a product to relieve pain and fever."

Slavin final PSC appointee

JEFFERSON CITY, Mo. (AP) — Consumer Advocate Alberta Slavin became Gov. Joseph Teasdale's final appointee Friday to the Missouri Public Service Commission, saying she believes the balance of the PSC has now shifted to the consumer.

"I think my views on utilities and consumers are pretty widely known and I don't expect them to change," the founder of the Utility Consumers Council of Missouri said in a telephone interview from Milwaukee. Mrs. Slavin was there to address a seminar of state and local government consumer agency directors.

Teasdale, calling the 47-year-old Clayton housewife and mother of four a "citizens' advocate dedicated to serving the best interests of all Missourians," said she will help "insure that the PSC is more responsive to the consumer viewpoint."

PSC Chairman James Mulvaney, considered the PSC strongest consumer advocate, said Mrs. Slavin "should bring with her some new ideas pertaining to utility regulation," having fought for consumer issues before the PSC for more than six years.

She is the second women named to the panel by Teasdale, who won office on an anti-utility platform, and only the third to serve since the commission was formed in 1913. Along with Mulvaney and Leah Brock McCartney, Teasdale says Mrs. Slavin now gives the state a commission that views utility regulation in the same light he does.

Mrs. Slavin, whose husband is a successful St. Louis physician, succeeds A. Robert Pierce, who resigned from the $36,000-a-year job last month with nearly two years left in his term.

She will begin serving on the five-member utility regulating body immediately, but to keep the job she will have to gain approval by the Senate when it convenes either next January in regular session or later this year in a special session.

The prospects for her acceptance by the Senate are not assured since that chamber is generally more inclined to consider the views of business over those of consumers. Reports more than a month ago that Mrs. Slavin had been offered the PSC post by the Teasdale administration received a cool greeting from the Senate.

But she says she has faced the possibility that she may only be an interim commission member.

"If I last six months, I last six months," she told The Associated Press in the interview. "I'm going to do my duty as I see it and they (the Senate) can confirm me or not."

Although offered the job more than a month ago, Mrs. Slavin waited until earlier this week before advising the governor she would accept, spending the time wrestling with problems the appointment would cause her.

Primary among those problems was the requirement that she must live in efferson City. She had earlier said she would not move her family from St. Louis, and has decided to commute between the fulltime job at the capital and her home. She also said she will be spending some of her working time at the PSC St. Louis consumer office.

Coming before the commission during Mrs. Slavin's initial months will be a $65.4 million rate increase request by Union Electric Co., which she has opposed at previous commission proceedings, and the PSC's unprecedented plan to revamp the way consumers are charged for power.

Thomas Jefferson's father, Peter, was a civil engineer of Welsh descent.

Supreme Court's youngest judge also outspoken

JEFFERSON CITY, Mo. (AP) — From his seat on the highest court in Missouri, John Bardgett has gained—some would say earned—a reputation as an outspoken young jurist.

It is really a combination of factors that brings the youngest judge on the seven-man state Supreme Court such notoriety. His rapport with state lawmakers and his often and easily expressed opinions outside the courtroom create a climate that has landed the 50-year-old judge in hot water at least once since arriving in the capital city.

Although he admits to a new, lower profile these days, he still fervently believes: "Non-expression doesn't make a person a better judge at all. But why bother with the heat?"

An impulsive outburst five years ago in a Jefferson City night club brought the then-new Supreme Court judge a reprimand from his fellow jurists. The public eye also trained on him when he was issued a citation for shooting a protected bird on a dove hunting expedition.

Bardgett, dressed in his light, short-sleeved shirt with loosened tie, is a personable and informal attorney. One suspects he disdains the formality of even the black robes the court wears during oral arguments.

His compact, paper-filled office on the third floor of the Supreme Court building gently hugs his shoulders. And his grimace at the topic of his reprimand indicates those are memories he would sooner put far behind him.

Those words in the night club berated a state legislator—an attorney— who had made unkind remarks about judges on the floor of the Missouri House. But it is Bardgett's own remarks that sear his memory.

"That statement made for six or seven months of miserable life," Bardgett said.

"It just made me mad. I know I didn't deserve a reprimand, but it had to end.

"In St. Louis or St. Louis County that kind of thing wouldn't happen because you're not visible. I found out that in Jeff City, you're visible."

Still Bardgett has spent considerable time with state legislators in recent years, greasing the skids for approval of judicial pay hikes.

A deep-rooted love of politics, the Democrat says, keeps him active in the political questions of the day.

Pride transcended money in prodding Bardgett to move from lawyer to judge in the late 1950s.

"A number of us were young lawyers trying lawsuits in St. Louis courts. A good number of the judges were rather old and not in touch with the rest of us."

Whenever a circuit bench post opened, Bardgett said he would urge his colleagues to seek appointment. They would refuse, he said, because the pay for judges at that time was much less than what most lawyers could earn.

"I guess I said that to so many guys that when a vacancy was announced, I thought I ought to put myself where my mouth is."

Bardgett's appointment to the circuit court bench was his first step to the highest state court.

Now more than 20 years later, Bardgett acknowledges that the questions he asks of attorneys appearing before his court may appear severe at times.

"I don't think I'm an easy judge—sometimes I don't even think I'm a nice guy." He added, thoughtfully: "I sometimes ask too many questions, and in maybe not as polite a manner as they should be asked."

The importance of Supreme Court cases, he said, compels him to probe the law and the lawyer's mind with penetrating questions.

But then, he adds, "A lot of this job is just plain looking out a window and thinking."

Information Please

The Daily Standard is now gathering information for the publication of an Information Please tabloid, to be included in a regular edition of the newspaper later this month.

In order to make this publication as comprehensive as possible for the four county area, we are asking that all clubs and civic groups send in the names of their groups, meeting dates and times, and current officers and their telephone numbers, so that they may be included.

If your town has an annual festival, celebration or parade, we would like to have all the information available about it, including this year's chairman and phone number, a brief history of the celebration, and the dates and schedule of events for this year. It does not matter if the celebration has already passed for this year, we would still like to have the information.

The publication is to be circulated throughout Scott, Stoddard, Mississippi and New Madrid counties and any organization in this area is invited to submit its information.

Local school administrations in the four county area, are reminded that we need information about your schools. This information was requested several weeks ago, but the response has been slight. To remind public and private school administrators, we need the school classification, 1976-77 enrollment figures, number of faculty members, principals and superintendents names, special achievements of the school teams or representatives, semester starting dates, the year the school was established and a brief history, if available.

Time is growing short and information to be included should arrive at The Daily Standard newsroom, no later than July 12.

House-Senate showdown near on computer system

WASHINGTON (AP) — The House and Senate square off next week over a proposed $200 million computer system that an unpublished General Accounting Office report calls "risky."

The House wants to give the Veterans Administration the money needed to buy the initial equipment for its "Target" computer system.

But the Senate has voted to hold off, saying the draft GAO report and other investigations suggest the system is bigger than the VA needs and would be too expensive.

Critics charge Target would cost too much, is poorly designed and couldn't protect adequately the personal information it would contain on millions of veterans. The VA says it needs the system to improve service to veterans.

"Target is a risky venture," said the draft GAO report on the costs and benefits of the projected system.

A copy of the draft report, requested by Reps. John Moss, D-Calif., and Charles Rose, D-N.C., was obtained by The Associated Press from congressional sources.

The VA has been pushing for Target for more than five years, saying its current system is outmoded and cannot serve adequately the millions of veterans and their dependents who get pensions, disability payments, education benefits and other VA services.

But the VA's plans and cost projections for Target have been criticized repeatedly by the GAO and congresssional staff investigators, who charge that costs are underestimated and benefit forecasts are overly optimistic.

The VA's latest cost-benefit analysis — the fourth in the project's history — estimated $25.5 million in savings for the 12-year life of the system compared with continuing the present, largely manual system.

But the GAO suggested in its draft report that not all the projected savings might occur and another $8.9 million in uncounted costs could hit the project — wiping out all the potential monetary benefits.

"There is considerable uncertainty concerning the costs and benefits of the Target system.

Senator receives top speech funds

WASHINGTON (AP) — Sen. Herman Talmadge, D-Ga., received $25,000 above his senatorial salary last year by giving speeches at colleges and before business, union and lobbying groups.

The sum in the maximum allowable under Senate rules, which limit senators to $2,000 per speech and a total of $25,000 annually in outside speaking fees.

Close behind Talmadge was Sen. Robert Packwood, R-Ore., who was paid $24,289 in speaking fees, according to Senate records. Daniel Moynihan, D-N.Y., who was elected to the Senate last year and thus was not subject to the limits, earned $165,393.

Other big earners with speaking fees totaling more than $20,000 last year were George McGovern, D-S.D.; Jake Garn, R-Utah; William Proxmire, D-Wis.; Daniel K. Inouye, D-Hawaii; Birch Bayh, D-Ind.; Joe Biden Jr., D-Del.; John Tower, R-Tex., and Hubert Humphrey, D-Minn.

Sen. Bob Dole, R-Kan. and the GOP vice presidential nominee last year,reported speaking fees of $14,875. Sen. James B. Pearson, R-Kan., reported fees of $6,500, and Sen. Thomas Eagleton, D-Mo., had fees totaling $7,500.

Stronger warning urged

WASHINGTON (AP) — Stronger warning labels are needed on aspirin and acetaminophen, the two major nonprescription pain relievers, a government advisory panel says.

The scientific panel also concluded that the pain relievers are safe and effective.

At the same time, the panel warned against permitting claims that the products relieve symptoms of arthritis or rheumatism for fear such claims would lead to self-treatment.

The recommendations were made Thursday to the Food and Drug Administration after a four-year study of over-the-counter analgesic pain relievers and fever reducers.

FDA Commissioner Donald Kennedy said he expected the report would lead to "more explicit labeling, including essential new warnings, that will make it easier for consumers to select a product to relieve pain and fever."

Slavin final PSC appointee

JEFFERSON CITY, Mo. (AP) — Consumer Advocate Alberta Slavin became Gov. Joseph Teasdale's final appointee Friday to the Missouri Public Service Commission, saying she believes the balance of the PSC has now shifted to the consumer.

"I think my views on utilities and consumers are pretty widely known and I don't expect them to change," the founder of the Utility Consumers Council of Missouri said in a telephone interview from Milwaukee. Mrs. Slavin was there to address a seminar of state and local government consumer agency directors.

Teasdale, calling the 47-year-old Clayton housewife and mother of four a "citizens' advocate dedicated to serving the best interests of all Missourians," said she will help "insure that the PSC is more responsive to the consumer viewpoint."

PSC Chairman James Mulvaney, considered the PSC strongest consumer advocate, said Mrs. Slavin "should bring with her some new ideas pertaining to utility regulation," having fought for consumer issues before the PSC for more than six years.

She is the second women named to the panel by Teasdale, who won office on an anti-utility platform, and only the third to serve since the commission was formed in 1913. Along with Mulvaney and Leah Brock McCartney, Teasdale says Mrs. Slavin now gives the state a commission that views utility regulation in the same light he does.

Mrs. Slavin, whose husband is a successful St. Louis physician, succeeds A. Robert Pierce, who resigned from the $36,000-a-year job last month with nearly two years left in his term.

She will begin serving on the five-member utility regulating body immediately, but to keep the job she will have to gain approval by the Senate when it convenes either next January in regular session or later this year in a special session.

The prospects for her acceptance by the Senate are not assured since that chamber is generally more inclined to consider the views of business over those of consumers. Reports more than a month ago that Mrs. Slavin had been offered the PSC post by the Teasdale administration received a cool greeting from the Senate.

But she says she has faced the possibility that she may only be an interim commission member.

"If I last six months, I last six months," she told The Associated Press in the interview. "I'm going to do my duty as I see it and they (the Senate) can confirm me or not."

Although offered the job more than a month ago, Mrs. Slavin waited until earlier this week before advising the governor she would accept, spending the time wrestling with problems the appointment would cause her.

Primary among those problems was the requirement that she must live in efferson City. She had earlier said she would not move her family from St. Louis, and has decided to commute between the fulltime job at the capital and her home. She also said she will be spending some of her working time at the PSC St. Louis consumer office.

Coming before the commission during Mrs. Slavin's initial months will be a $65.4 million rate increase request by Union Electric Co., which she has opposed at previous commission proceedings, and the PSC's unprecedented plan to revamp the way consumers are charged for power.

BIG TROT JULY 10

WESTBURY, N.Y. (AP) — Billy Haughton's Savoir, the 1975 winner, is expected to be a starter in the $200,000 Roosevelt International Trot to be held at the Nassau County course July 10. The big test is a feature of the 53-night summer harness meeting which runs through July 17.

Savoir not only took the one-mile-and-a-quarter trot last season but waltzed off with other rich events including the American Trot.

A BARRERA TRIPLE

NEW YORK (AP) — Horses trained by Laz Berrera scored a rare triple on May 1. Laz saddled Bold Forbes when the 3-year-old upset 2 to 5 favorite Honest Pleasure in the Kentucky Derby. He also trained Life's Hope, winner of the Illinois Derby the same day. And, also on the same day, Due Diligence scored an upset in taking the Carter Handicap at Aqueduct in New York.

Chicago	0	0	0	2	0	1	0	0	—	3

CHICAGO (AP) — Keith Hernandez smashed three hits and scored two runs and Tony Scott drove two runs in the first inning Saturday to lead the St. Louis Cardinals to 4-3 victory over the Chicago Cubs in a nationally televised game.

Tom Underwood, 5-4, picked up the victory and Clay Carroll, who balked in the tying run in Friday's loss to the Cubs, gained his third save of the season with 3 2-3 innings of relief.

The Cardinals scored three times in the first inning off loser Steve Renko, 0-1. With two out, Hernandez doubled and Hector Cruz and Ted Simmons walked to load the bases. Scott followed his run-scoring single and then stole second. On the steal, catcher Steve Swisher threw the ball into centerfield allowing Simmons to score.

St. Louis scored what proved to be the game-winner in in the third on a single by Hernandez.

a pair of walks and a run-scoring single by Ken Reitz.

The Cubs loaded the bases in the fourth with none out on singles by Larry Biittner and Jerry Morales sandwiched around a walk to Bobby Murcer. Biittner scored as Steve Ontiveros grounded into a double play and Murcer socred on an infield single by Mick Kelleher.

Singles by Morales and Ontiveros with one out in the sixth kayoed Underwood. Carroll relieved and gave up a pinch-hit sacrifice fly to Gross before putting down the rally.

The Cubs came up with a pair of brilliant defensive plays. Shortstop Ivan DeJesus went behind second for Mike Tyson's grounder in the second and threw him out.

Mrs. Luella Donaldson of Escondido, Calif., made a hole-in-one with a newly-purchased ball. Two days later, her husband borrowed it and also posted an ace.

Saints left holding bag; Alton squad doesn't show

The Sikeston Saints' layoff is going to be at least one day longer. When the Bi-State League squad hosts Anna this afternoon in a 1 p.m. doubleheader it will be the first action for the Saints in three weeks. Alton didn't show for the scheduled twinbill Saturday.

"This is the second time this has happened to us in three years," noted interim manager Dale Forbis. "We received no call requesting a postponement and have had no explanation from the Alton club."

"This loss of games is hurting our pitching staff terribly. They aren't getting the work they need to stay sharp."

The loss of two games against Alton made it eight games in a row that appeared on the Saints schedule that haven't been played. A game with the Don Kessinger baseball camp was postponed when their lights weren't ready. A conflict in games forced the rescheduling of a game against Leadwood. Too many Saints players had work commitments and the team canceled a doubleheader with the Villa Reds. Then, a doubleheader on the last Sunday of June with Perryville was rained out. No games were scheduled on July 3 because of he holiday weekend.

The team was going good when the break in action came. Five wins in six outings had boosted Sikeston to second place in the league. The team batting mark had crept above the lofty .300 mark and the team pitching was finally starting to jell.

"Now we'll have to start all over again."

Glen Alexander and Ricky Taylor will start the twinbill with Anna at V. F. W. Stadium this afternoon. In the first meeting between the two teams Anna swept a pair.

"We'll look into the Alton situation this weekend and find out why they weren't here," Forbis noted. "But, you can bet they won't be scheduled again."

The Perryville games have been rescheduled as a doubleheader at V. F. W. Stadium Sunday afternoon, July 24th.

The remainder of the Sikeston schedule:

July 14 Sikeston at Perryville	8:00
July 15 Ste. Genevieve at Sikeston	8:00
July 17 Sikeston at Herrin (2)	1:00
July 20 Sikeston at Ste. Genevieve	8:00
July 22 Sikeston at Cape	7:30
July 24 Perryville at Sikeston (2)	1:00
July 27 Sikeston at Don Kessinger Camp	8:00
Week of July 24-31 League playoffs start	

Second IN COMMAND

By DALE FORBIS
Daily Standard Sportswriter

I never liked Cassius (Muhammad Ali) Clay. But I did afford him grudging admiration. In his prime the situation was this: He may have had a big mouth, but he could back up every word that flowed out of that mouth with his performance. You could nearly put St. Louis Cardinal catcher Ted Simmons in the same category -- in my book at least.

During the past winter Simmons was in Sikeston with the Cardinal caravan. The stocky receiver had been a personal favorite of mine since even BEFORE he was in the major leagues. As a 19-year old, a Sporting News story featured him as a future star while leading the California League in homers and average during his second pro season. Always on Cardinal broadcasts the Michigan product had sounded sincere, dedicated and totally devoted to the team. At the reception for the Cardinals, he was something less.

He gave the impression that he felt he was giving the people gathered a break by even talking to them. When a fellow newspaper colleague, Stan Hall, asked an embarrassing question he was hostile, then sarcastic. He seemed very money-conscious and very haughty, implying that he was Johnny Bench's defensive equal and hitting superior. I was less than enchanted -- maybe even disillusioned.

But, you know, "Simba" in the first half of the 1977 season has been everything he said he was. He has to be the finest clutch hitter in the National League. His defense has improved twice over and he is a team leader in the true sense of the word. If Johnny Bench is the NL starting catcher, and it looks like he will be, a grave miscarriage of justice will have been done. Ted Simmons is today the best catcher in the National League.

He may not be the nice, humble guy he seemed to be whenever talking with Jack Buck on the "Star of the Game" show, but he certainly has done even more than he said he would on that cold day last winter.

I'll not try to outdo the All-Star team that Sports Editor Charlie Francis suggested deserved your votes last week. No real criticisms can be offered for the choices he put forth. I do offer some selections of my own.

AMERICAN LEAGUE: Carlton Fisk, Boston, catcher; Rod Carew, Minnesota, firstbase; Don Money, Milwaukee, secondbase; Rick Burleson, Boston, shortstop; Buddy Bell, Cleveland, thirdbase, and, Richie Zisk, Chicago, Larry Hisle, Minnesota, and Ken Singleton, Baltimore, outfield.

NATIONAL LEAGUE: Simmons, Cards, catcher; Steve Garvey, Los Angeles, firstbase; Rennie Stennett, Pittsburgh, secondbase; Gary Templeton, Cards, shortstop; Mike Schmidt, Philadelphia, thirdbase, and, George Foster, Cincinnati, Dave Parker, Pittsburgh, and Ken Griffey, Cincinnati, outfield.

Believe it or not it will be basketball time in less than a week. Starting Monday, July 11, Connie Spears will be conducting a basketball clinic for young ladies in grades 8-12 at the SHS Fieldhouse. A week later boys varsity coach Bud Spears will hold a similar clinic for young men in the same grades.

There will be no opinions expressed in this column about the local Saints team, other than recognizing their existence and any problems or situations encountered. The reason is obviously my involvement with the organization.

The failure of scheduled opposition to show Saturday afternoon was a disturbing happenstance, although not totally unexpected. When Alton didn't call sometime this past week and verify the date, as most visiting teams do, the possibility of a no-show came to mind.

The long layoff is not the main problem for the Saints. Several of the team members made special plans to be free from their jobs so that they could attend the game. Team members David McClarty and Sammy Taylor not only had job responsibilities on Saturday, they also drove a 50 mile roundtrip for no reason. Rick Eisenbach, Jim Saulter and a couple of others made special arrangements to attend the game.

That is why the development is disturbing, and why I hope it won't ever be repeated.

Cards set new *ticket record*

ST. LOUIS (AP) — The St. Louis Cardinals have set a club record by selling 41,746 season tickets for the 1977 National Football League season, managing general partner William V. Bidwill said Thursday.

The total exceeds the old record of 41,542 set in 1972 and represents an increase of 3,090 from last fall's figure. The 1977 season will be the Cardinals' 18th in St. Louis.

OUTDOOR TOPICS

MERCURY OUTDOOR CONSULTANT

STRANGE WAYS TO CATCH FISH

In the early 1500's, the Indians of Cuba were reported to be using remora suckerfish as living fishing hooks.

They would tie a line to the tail of the suckerfish, point it in the direction of nearby sea turtles and wait for the remora to attach itself to the quarry before pulling the line in.

Using remora suckers to snare other marine life is one of many strange fishing methods which have come to the attention of Mercury outboards' fishing department.

Equally as original is the Japanese tsuke raft, a device made of bamboo poles lashed together to form a large floating platform.

Anchored at sea, the tsuke raft becomes a favorite feeding spot for large fish which gorge themselves upon bait fish attracted to the shade provided by the raft.

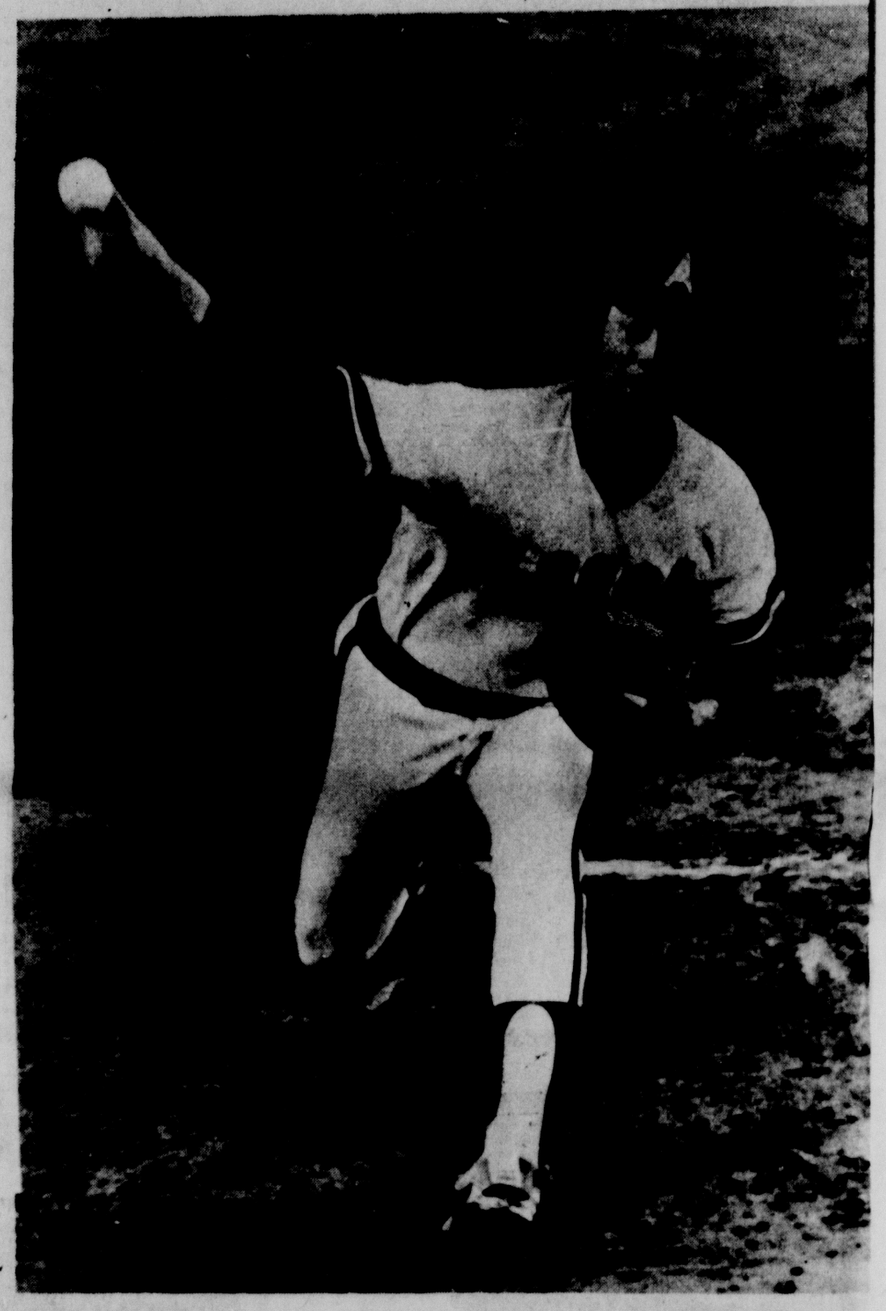
Similar methods are used by anglers along the southern coast of the United States, and even on inland lakes where floating rafts are placed above power generation dams to keep boaters away from intake pipes.

One of the most effective primitive fishing methods evolved in South America where Amazon basin Indians learned that the roots of certain plants, when ground to fine texture and cast upon the water, would kill fish.

The concoction, now used commercially as a fish management tool called rotenone, constricts the blood vessels in a fish's gills, thereby blocking the flow of oxygen to the bloodstream.

Affected fish swim to the top of the water where they're quickly grabbed by the waiting Indian fishermen.

GO TO CHURCH SUNDAY



Nolan Ryan is shown firing a fastball past Oakland's Marty Perez last week, striking the A's player out and tying Sandy Koufax' record of 97 games of 10-plus strikeouts. Ryan also won his 11th. game of the season by winning 4-2. (AP Wirephoto)

Scotland goes wild for golf

TURNBERRY, Scotland (AP) — "I wouldn't dare get caught up in that stampede," an elderly Scotsman was heard telling a companion. "One could get crushed to death out there."

"It's like the Romans," commented a demure lady standing on the safety of a knoll overlooking the last-day drama of the British Open golf championship. "You know, gladiators and all that sort of thing."

This old seacoast resort went jubilantly mad Saturday over the climactic shootout between 37-year-old Jack Nicklaus and young Tom Watson, going head-to-head not for just the British crown but perhaps the supremacy of golf itself.

"Both great golfers, these lads," said another Scottish spectator. "As for the championship, you could take these two and scrub the rest."

Not since the late 1920s when Bob Jones, the boy wonder from Atlanta, was fashioning three British Open championships and adding a link to his unprecedented grand slam has a round of golf so shaken this ancient cradle of the game.

More than 20,000 fans swarmed over the Ailsa Course, nestling off the Firth of Clyde in the shadow of the majestic bridal white Turnberry Hotel.

They disregarded the rope barriers and poured over the fairways, often pressing so close to the competitors that they were in danger of being hit by a back swing.

"Atta boy, Jack," they yelled in American slang.

"Hey big Jack, knock it home, laddie."

Nicklaus was obviously the crowd favorite but there was appreciative applause when the boyish freckle-faced Watson, 27, leading money winner of the American tour, unleashed a good shot.

Fans battled for vantage points on the knobby hillocks dotting the course and pressed eight and 10 deep around the fairways. As soon as the last putt on a hole was struck, there was a wild, screaming rush to the next hole.

It was no place for the weak or the infirm.

"Haven't seen anything like it since Jones' day," an official of the ruling Royal and Ancient Club said. "Of course, in those days we had no ropes. When Jones played, it was almost impossible for all other players."

Thousands occupied the temporary stands at the 18th and other holes and failed to move for hours.

With all their wild enthusiasm, Scottish golf galleries are perhaps the most knowledgeable and best behaved in the world.

Unlike American spectators, who will cheer a wedge shot to the middle of the green or an Arnold Palmer sneeze, they react only to outstanding shots.

They become deathly still when a player is in the process of making a stroke. To the Scots, golf is akin to religion. And they'd rather get a look at Bob Jones, Ben Hogan or Jack Nicklaus than the queen.

Football players get physical early

Athletes planning to compete in football this fall at Sikeston High School should make arrangements to receive physical examinations now, head coach Terry Smith reminded players Friday.

"Doctors are awfully busy this summer," said Smith in encouraging potential Bulldogs not to wait until the last minute to make appointments for physicals.

Players must have their proof of physical examination in to coach Smith by August 14, the day before practice begins for thew Bulldogs.

Forms can be picked up at the high school, although a letter from the doctor will be sufficient, Smith said.

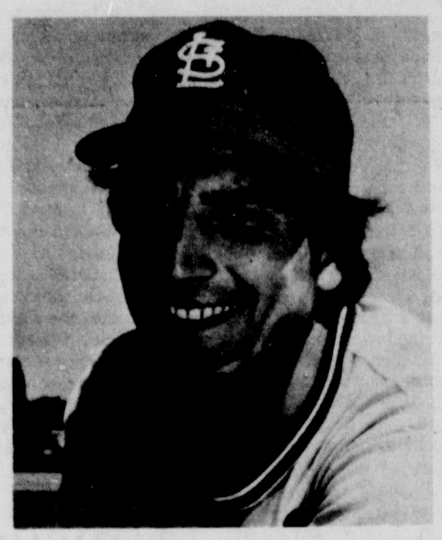
BIG TROT JULY 10

WESTBURY, N.Y. (AP) — Billy Haughton's Savoir, the 1975 winner, is expected to be a starter in the $200,000 Roosevelt International Trot to be held at the Nassau County course July 10. The big test is a feature of the 53-night summer harness meeting which runs through July 17.

Savoir not only took the one-mile-and-a-quarter trot last season but waltzed off with other rich events including the American Trot.

A BARRERA TRIPLE

NEW YORK (AP) — Horses trained by Laz Berrera scored a rare triple on May 1. Laz saddled Bold Forbes when the 3-year-old upset 2 to 5 favorite Honest Pleasure in the Kentucky Derby. He also trained Life's Hope, winner of the Illinois Derby the same day. And, also on the same day, Due Dilligence scored an upset in taking the Carter Handicap at Aqueduct in New York.



Keith Hernandez

Hernandez 3-for-4

Redbirds hold off Cubbies, 4-3

St. Louis	3	0	1	0	0	0	0	0	— 4
Chicago	0	0	0	2	0	1	0	0	— 3

CHICAGO (AP) — Keith Hernandez smashed three hits and scored two runs and Tony Scott drove two runs in the first inning Saturday to lead the St. Louis Cardinals to 4-3 victory over the Chicago Cubs in a nationally televised game.

Tom Underwood, 5-4, picked up the victory and Clay Carroll, who balked in the tying run in Friday's loss to the Cubs, gained his third save of the season with 3 2-3 innings of relief.

The Cardinals scored three times in the first inning off loser Steve Renko, 0-1. With two out, Hernandez doubled and Hector Cruz and Ted Simmons walked to load the bases. Scott followed his run-scoring single and then stole second. On the steal, catcher Steve Swisher threw the ball into centerfield allowing Simmons to score.

St. Louis scored what proved to be the game-winner in in the third on a single by Hernandez.

a pair of walks and a run-scoring single by Ken Reitz.

The Cubs loaded the bases in the fourth with none out on singles by Larry Biittner and Jerry Morales sandwiched around a walk to Bobby Murcer. Biittner scored as Steve Ontiveros grounded into a double play and Murcer socred on an infield single by Mick Kelleher.

Singles by Morales and Ontiveros with one out in the sixth kayoed Underwood. Carroll relieved and gave up a pinch-hit sacrifice fly to Greg Gross before putting down the rally.

The Cubs came up with a pair of brilliant defensive plays. Shortstop Ivan DeJesus went behind second for Mike Tyson's grounder in the second and threw him out.

Mrs. Luella Donaldson of Escondido, Calif., made a hole-in-one with a newly-purchased ball. Two days later, her husband borrowed it and also posted an ace.

Saints left holding bag; Alton squad doesn't show

The Sikeston Saints' layoff is going to be at least one day longer. When the Bi-State League squad hosts Anna this afternoon in a 1 p.m. doubleheader it will be the first action for the Saints in three weeks. Alton didn't show for the scheduled twinbill Saturday.

"This is the second time this has happened to us in three years," noted interim manager Dale Forbis. "We received no call requesting a postponement and have had no explanation from the Alton club."

"This loss of games is hurting our pitching staff terribly. They aren't getting the work they need to stay sharp."

The loss of two games against Alton made it eight games in a row that appeared on the Saints schedule that haven't been played. A game with the Don Kessinger baseball camp was postponed when their lights weren't ready. A conflict in games forced the rescheduling of a game against Leadwood. Too many Saints players had work commitments and the team canceled a doubleheader with the Villa Reds. Then, a doubleheader on the last Sunday of June with Perryville was rained out. No games were scheduled on July 3 because of he holiday weekend.

The team was going good when the break in action came. Five wins in six outings had boosted Sikeston to second place in the league. The team batting mark had crept above the lofty .300 mark and the team pitching was finally starting to jell.

"Now we'll have to start all over again."

Glen Alexander and Ricky Taylor will start the twinbill with Anna at V. F. W. Stadium this afternoon. In the first meeting between the two teams Anna swept a pair.

"We'll look into the Alton situation this weekend and find out why they weren't here," Forbis noted. "But, you can bet they won't be scheduled again."

The Perryville games have been rescheduled as a doubleheader at V. F. W. Stadium Sunday afternoon, July 24th.

The remainder of the Sikeston schedule:

July 14 Sikeston at Perryville	8:00
July 15 Ste. Genevieve at Sikeston	8:00
July 17 Sikeston at Herrin (2)	1:00
July 20 Sikeston at Ste. Genevieve	8:00
July 22 Sikeston at Cape	7:30
July 24 Perryville at Sikeston (2)	1:00
July 27 Sikeston at Don Kessinger Camp	8:00
Week of July 24-31 League playoffs start	

Second IN COMMAND

By DALE FORBIS
Daily Standard Sportswriter

I never liked Cassius (Muhammad Ali) Clay. But I did afford him grudging admiration. In his prime the situation was this: He may have had a big mouth, but he could back up every word that flowed out of that mouth with his performance. You could nearly put St. Louis Cardinal catcher Ted Simmons in the same category -- in my book at least.

During the past winter Simmons was in Sikeston with the Cardinal caravan. The stocky receiver had been a personal favorite of mine since even BEFORE he was in the major leagues. As a 19-year old, a Sporting News story featured him as a future star while leading the California League in homers and average during his second pro season. Always on Cardinal broadcasts the Michigan product had sounded sincere, dedicated and totally devoted to the team. At the reception for the Cardinals, he was something less.

He gave the impression that he felt he was giving the people gathered a break by even talking to them. When a fellow newspaper colleague, Stan Hall, asked an embarrassing question he was hostile, then sarcastic. He seemed very money-conscious and very haughty, implying that he was Johnny Bench's defensive equal and hitting superior. I was less than enchanted -- maybe even disillusioned.

But, you know, "Simba" in the first half of the 1977 season has been everything he said he was. He has to be the finest clutch hitter in the National League. His defense has improved twice over and he is a team leader in the true sense of the word. He may not be the nice, humble guy he seemed to be whenever talking with Jack Buck on the "Star of the Game" show, but he certainly has done even more than he said he would on that cold day last winter.

I'll not try to outdo the All-Star team that Sports Editor Charlie Francis suggested deserved your votes last week. No real criticisms can be offered for the choices he put forth. I do offer some selections of my own.

AMERICAN LEAGUE: Carlton Fisk, Boston, catcher; Rod Carew, Minnesota, firstbase; Don Money, Milwaukee, secondbase; Rick Burleson, Boston, shortstop; Buddy Bell, Cleveland, thirdbase, and, Richie Zisk, Chicago, Larry Hisle, Minnesota, and Ken Singleton, Baltimore, outfield.

NATIONAL LEAGUE: Simmons, Cards, catcher; Steve Garvey, Los Angeles, firstbase; Rennie Stennett, Pittsburgh, secondbase; Gary Templeton, Cards, shortstop; Mike Schmidt, Philadelphia, thirdbase, and, George Foster, Cincinnnati, Dave Parker, Pittsburgh, and Ken Griffey, Cincinnati, outfield.

Believe it or not it will be basketball time in less than a week. Starting Monday, July 11, Connie Spears will be conducting a basketball clinic for young ladies in grades 8-12 at the SHS Fieldhouse. A week later boys varsity coach Bud Spears will hold a similar clinic for young men in the same grades.

There will be no opinions expressed in this column about the local Saints team, other than recognizing their existence and any problems or situations encountered. The reason is obviously my involvement with the organization.

The failure of scheduled opposition to show Saturday afternoon was a disturbing happenstance, although not totally unexpected. When Alton didn't call sometime this past week and verify the date, as most visiting teams do, the possibility of a no-show came to mind.

The long layoff is not the main problem for the Saints. Several of the team members made special plans to be free from their jobs so that they could attend the game. Team members David McClarty and Sammy Taylor not only had job responsibilities on Saturday, they also drove a 50 mile roundtrip for no reason. Rick Eisenbach, Jim Saulter and a couple of others made special arrangements to attend the game.

That is why the development is disturbing, and why I hope it won't ever be repeated.

Cards set new *ticket record*

ST. LOUIS (AP) — The St. Louis Cardinals have set a club record by selling 41,746 season tickets for the 1977 National Football League season, managing general partner William V. Bidwill said Thursday.

The total exceeds the old record of 41,542 set in 1972 and represents an increase of 3,090 from last fall's figure. The 1977 season will be the Cardinals' 18th in St. Louis.

STRANGE WAYS TO CATCH FISH

In the early 1500's, the Indians of Cuba were reported to be using remora suckerfish as living fishing hooks.

They would tie a line to the tail of the suckerfish, point it in the direction of nearby sea turtles and wait for the remora to attach itself to the quarry before pulling the line in.

Using remora suckers to snare other marine life is one of many strange fishing methods which have come to the attention of Mercury outboards' fishing department.

Equally as original is the Japanese tsuke raft, a device made of bamboo poles lashed together to form a large floating platform.

Anchored at sea, the tsuke raft becomes a favorite feeding spot for large fish which gorge themselves upon bait fish attracted to the shade provided by the raft.

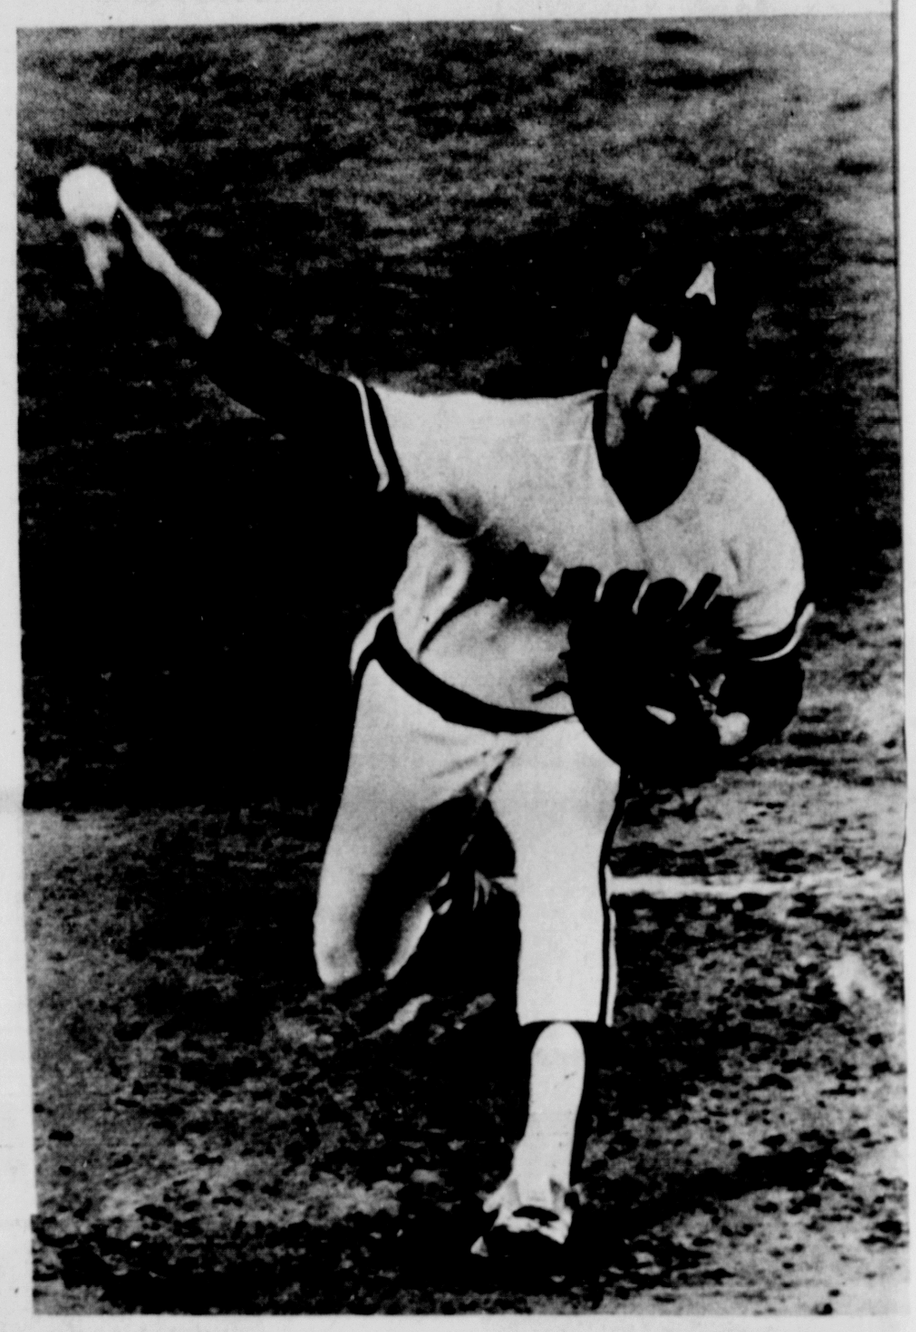
Similar methods are used by anglers along the southern coast of the United States, and even on inland lakes where floating rafts are placed above power generation dams to keep boaters away from intake pipes.

One of the most effective primitive fishing methods evolved in South America where Amazon basin Indians learned that the roots of certain plants, when ground to fine texture and cast upon the water, would kill fish.

The concoction, now used commercially as a fish management tool called rotenone, constricts the blood vessels in a fish's gills, thereby blocking the flow of oxygen to the bloodstream.

Affected fish swim to the top of the water where they're quickly grabbed by the waiting Indian fishermen.

GO TO CHURCH SUNDAY



Nolan Ryan is shown firing a fastball past Oakland's Marty Perez last week, striking the A's player out and tying Sandy Koufax' record of 97 games of 10-plus strikeouts. Ryan also won his 11th. game of the season by winning 4-2. (AP Wirephoto)

Scotland goes wild for golf

TURNBERRY, Scotland (AP) — "I wouldn't dare get caught up in that stampede," an elderly Scotsman was heard telling a companion. "One could get crushed to death out there."

"It's like the Romans," commented a demure lady standing on the safety of a knoll overlooking the last-day drama of the British Open golf championship. "You know, gladiators and all that sort of thing."

This old seacoast resort went jubilantly mad Saturday over the climactic shootout between 37-year-old Jack Nicklaus and young Tom Watson, going head-to-head not for just the British crown but perhaps the supremacy of golf itself.

"Both great golfers, these lads," said another Scottish spectator. "As for the championship, you could take these two and scrub the rest."

Not since the late 1920s when Bob Jones, the boy wonder from Atlanta, was fashioning three British Open championships and adding a link to his unprecedented grand slam has a round of golf so shaken this ancient cradle of the game.

More than 20,000 fans swarmed over the Ailsa Course, nestling off the Firth of Clyde in the shadow of the majestic bridal white Turnberry Hotel.

They disregarded the rope barriers and poured over the fairways, often pressing so close to the competitors that they were in danger of being hit by a back swing.

"Atta boy, Jack," they yelled in American slang.

"Hey big Jack, knock it home, laddie."

Nicklaus was obviously the crowd favorite but there was appreciative applause when the boyish freckle-faced Watson, 27, leading money winner of the American tour, unleashed a good shot.

Fans battled for vantage points on the knobby hillocks dotting the course and pressed eight and 10 deep around the fairways. As soon as the last putt on a hole was struck, there was a wild, screaming rush to the next hole.

It was no place for the weak or the infirm.

"Haven't seen anything like it since Jones' day," an official of the ruling Royal and Ancient Club said. "Of course, in those days we had no ropes. When Jones played, it was almost impossible for all other players."

Thousands occupied the temporary stands at the 18th and other holes and failed to move for hours.

With all their wild enthusiasm, Scottish golf galleries are perhaps the most knowledgeable and best behaved in the world.

Unlike American spectators, who will cheer a wedge shot to the middle of the green or an Arnold Palmer sneeze, they react only to outstanding shots.

They become deathly still when a player is in the process of making a stroke. To the Scots, golf is akin to religion. And they'd rather get a look at Bob Jones, Ben Hogan or Jack Nicklaus than the queen.

Football players get physical early

Athletes planning to compete in football this fall at Sikeston High School should make arrangements to receive physical examinations now, head coach Terry Smith reminded players Friday.

"Doctors are awfully busy this summer," said Smith in encouraging potential Bulldogs not to wait until the last minute to make appointments for physicals.

Players must have their proof of physical examination in to coach Smith by August 14, the day before practice begins for thew Bulldogs.

Forms can be picked up at the high school, although a letter from the doctor will be sufficient, Smith said.

Watson wins British Open

TURNBERRY, Scotland (AP) — Just as he did at the Masters, Tom Watson absorbed the best that Jack Nicklaus could offer, responded with a courageous, five-under-par 65 and won the British Open Saturday in one of golf's greatest duels.

Watson, now offering the greatest challenge ever to Nicklaus' long-time role as the world's premier performer, acquired his second British Open title and his second major tournament victory of the year with a record 268 total.

That's 12 below par on Turnberry's Ailsa course, stretching 6,875 yards by the Irish Sea and and an incredible eight strokes better than the 276 that ranked as the best previous total in the 106-year history of golf's oldest tournament.

Nicklaus, now a six-time British Open runnerup, went down fighting. He holed an across-the-green birdie putt of 60 feet on the final hole. But it wasn't good enough.

Watson had thrown his approach to within 2½ feet. He boldly rammed it home for a one-stroke decision. It was his third consecutive victory and sixth of the season.

Nicklaus, who played the last two rounds head-to-head with Watson, didn't make a bogey in his round of 66. He finished perhaps the greatest confrontation the game has ever seen with a 269 total.

It was simply magnificent.

For 36 holes, for two rounds in rain and wind, storm and sunshine, Nicklaus, the finest player the world has seen, and Watson, the man who would supplant him, fought each other with some of the finest golf ever played.

They'd gone through the first two rounds with matching scores of 68 and 70. Playing in the same twosome in Friday's storm-interrupted round, they matched 65s—until this year the tournament record score.

And then Saturday they kept up a pace that seemed impossible. Watson played his last 36 holes in 130, Nicklaus in 131—unbelievable scores.

In the end, Watson's little putt on the 18th decided it.

Nicklaus, trailing by one after Watson had birdied the 17th, missed the fairway badly and was lucky to get his second shot on the green. Watson, who ripped a roaring salute from the throats of the golf-mad Scots with his brilliant approach, had only 30 inches left for birdie.

"As we came down the 18th fairway, I said to my caddie, 'Alfie, Nicklaus is going to make that long putt. I know him too well. I've just got to get that little one,'" Watson said later.

He was right. Nicklaus holed the long one, and Watson needed his to win.

It was an appropriate finish to an incredible struggle that may have signaled a turning point in the game.

U.S. open champion Hubert Green was the only other man in subpar figures for four rounds. He finished with a 67 and a 279 total, 10 shots back of Watson and nine behind Nicklaus.

Lee Trevino, with a 70, was at 280.

American tour players captured the first eight positions, but no one got into the battle between Nicklaus and Watson.

Ben Crenshaw, with a 75, and George Burns, with 69, were at 281. Arnold Palmer, twice a winner of this title in the early 60s, was at 69-282. Ray Floyd was next at 72-283.

The group at 284 was composed of defending champion Johnny Miller, 74; John Schroeder, 71; Mark Hayes, 73; and the only non-American to crack the top 12, England's Tommy Horton with a 75.

Other American scores included Jerry Pate, 73-287; Tom Weiskopf, 72-288; Rik Massengale, 76-289; Roger Maltbie, 80-289, and Hale Irwin, 80-294.

The victory was worth $17,000 to Watson from the total purse of $170,000, but his winnings do not count on his leading official money-winnings of $269,000 for the season.

Good pitching marks Sikeston Little League

Due to a number of rainouts, eleven games were played Saturday in the Sikeston Little League. In those games, some fine play and big innings were seveseen from the Musial League.

In the first game, Collins downed Bank of Sikeston 12-7. However, the final score does not tell the whole story. Neither team scored until the fourth inning when both teams got three runs. Then, no runs were scored in the fifth. Collins then came up with nine in the sixth and tit was too much for Bank of Sikeston to overcome. Mike Lambert was the winner while Bill Ruby took the loss. Ted Kelley started for the Bank of Sikeston and Brain Self for Collins. Both turned in fine performances.

The third game was much like the first in that Rotary won with the big inning and good pitching. They defeated the Sikeston Standard 10-1 with Stan Templeton getting the win. Rotary scored eight times in the third to ice the win over losing pitcher Jeff Coffey.

A hot Malone and Hyde team won big in the second game, as they used a balanced attack that ended in a 20-8 win over the Flower Basket. Eddie Jenkins was the loser in that game. Charles Sanders got the win.

The wild fight for American League supremacy continued Saturday as Bridger Plumbing squeaked past Moore's Firestone 5-4. Scott Carmody was hung with the loss for his Moore's team and David Peridore picked up the win for Bridger.

Fabick and First National Bank hooked up in a real battle that was finally won by Fabick in eight long innings. First National scored a run in the bottom of the fifth that knotted the game at 7-7. Two scoreless innings followed. Fabick then got four in the top of the eight to go ahead for good. Henry Eckles was the winning hurler and Mike Buchanans the loser.

Ziegenhorn kept their hopes alive by downing Nunnelee 9-0. Lee Taylor was the winning pitcher in a fine performance that shut down Nunnelee's offense. Tim Wheetley got the loss in the ball game.

Collins Realty scored nine runs in the third inning to power them past a tough Ryan team 15-7. That big inning insured Jon Fair his second win in as many days and gave Scott Bogle the loss.

Fine pitching performances seemed to be the rule and not the exception in National League action. Mike Arnold held a good A & B team to four hits and was backed by a grand slam homer by newcomer Melvin Stewart to get the win for Lewis Furniture 9-3. Mike Cook allowed only three hits for A & B but the homer by Stewart put the game out of reach. Cook took the loss for A & B.

Ken Deal pitched a solid game for Legion allowing ony three hits on his way to shutting out Jaycees 10-0. Doug Chessor was the loser for the Jaycees.

The third game was a big one as undefeated Pizza Inn faced an improved Kiwanis squad in the third game of action. Todd Baker tossed three innings of no-hit baseball to seal the win for Pizza Inn 6-0. Mike Moore came in to relieve for Pizza Inn and Phil Stinnitt got one of the very few base hits allowed by Moore. Brooks Sherman got the loss for the Kiwanis.

In the final game of the day, both Marlin Beaudean fof the Lions and Mike Lee of Security National Bank threw four-hitters but the Lions managed twelve runs to ease past Security National 12-2. Lee got the loss and Beaudean ended up with the win for Lions.

In Friday night action the American League provided some late fireworks. Sidney Lee knocked his second home run of the week over the left field fence to spark a 17-6 victory for Moore's Firestone over Fabick.

The second game was a thirth hit slugfest that saw Collins score ten times in the first tinning and hold to beat Bridger Plumbing 11-8. Both team banged out fifteen hits but a double play by Collins helped to put them over the top. Mike Price was the losing hurler for Bridger while Jon Fair got another win for Collins.

Scott Carmody held Fabick to only hits while his Moore's team rapped out fourteen. In addition to hims homer, Lee also ripped a single and triple to star at the platter. Henry Eckles was the loser for Fabick.

National League action was highlighted by a wild one that went to the wire. A & B finally emerged the winner as they scored three times in an extra inning to defeat Lions 12-211. The Lions fell just short as they could get onyonly two in the home half of that final inning. John Childers was the winner with David Braden taking the loss for the Lions.

Pizza Inn continued their undefeated season by downing Legion 5-2 in the second contest. Todd Baker was the winner as he allowed two hits in two innings. Vince Howard got the loss for Legion. In this game, Mike Moore continued his fine play by pitching four innings of no-hit relief and going 3-for-3 with a home run.

In the first game of Musial action, Jim Edsall pitched a two-hitter for Meredith Realty and went on to get the win 9-5 over Collins. Brian Self was the loser for Collins as h e gave up ten hits to Meredith battesrs.

Rotary edged Hart's Bread 11-10 in the second game Friday. Both teams scored all their runs in the first two innings and went scoreless in the final frame. Bob Crowley got the win for first place Rotary while Mike Goergen was the loser for Hart's.

Cunningham named basketball coach

LOS ANGELES (AP) — Gary Cunningham, who turned down a chance two years ago to succeed the legendary John Wooden as UCLA basketball coach, was named to the position Saturday, replacing Gene Bartow.

UCLA Athletic Director J.D. Morgan said Cunningham "is a great teacher and his experience and accomplishments in the UCLA basketball program will be of great value as he assumes the Bruins' head coaching position."

Terms and length of the contract were not disclosed.

Cunningham, 37, was considered a prime choice to succeed Wooden when the latter retired following the 1974-75 season. Morgan said Cunningham would have been his first choice when Wooden stepped down but "Gary took himself out of the picture before John retired, saying he wanted to go into administration."

Cunningham played at UCLA from 1960-62 and was an assistant coach under Wooden from 1965 to 1975 but left coaching when Wooden retired. He has served as executive director of the UCLA Alumni Association since then.

"I think sometimes a person has to get away from what he's doing to know what he really enjoys," said Cunningham. "When this opportunity came I felt it was something I wanted very much.

"I am really elated," he added. "When Mr. Morgan offered me the job I immediately said yes.

memo to advertisers

NOW YOU SEE IT...NOW YOU DON'T

But pay as though you did?

We don't believe advertisers should have to play guessing games with circulation figures. The facts are too important to th effectiveness of their sales messages and the cost of advertising space.

To eliminate the element of chance, our facts and figures are audited and vertified by the Audit Bureau of Circulations. Through an audit report, ABC tells us and our advertisers exactly how much circulation we have, where it is distributed, what readers pay, and the answers to many other questions about our circulation audience.

Watson wins British Open

TURNBERRY, Scotland (AP) — Just as he did at the Masters, Tom Watson absorbed the best that Jack Nicklaus could offer, responded with a courageous, five-under-par 65 and won the British Open Saturday in one of golf's greatest duels.

Watson, now offering the greatest challenge ever to Nicklaus' long-time role as the world's premier performer, acquired his second British Open title and his second major tournament victory of the year with a record 268 total,

That's 12 below par on Turnberry's Ailsa course, stretching 6,875 yards by the Irish Sea and and an incredible eight strokes better than the 276 that ranked as the best previous total in the 106-year history of golf's oldest tournament.

Nicklaus, now a six-time British Open runnerup, went down fighting. He holed an across-the-green birdie putt of 60 feet on the final hole. But it wasn't good enough.

Watson had thrown his approach to within 2½ feet. He boldly rammed it home for a one-stroke decision. It was his third consecutive victory and sixth of the season.

Nicklaus, who played the last two rounds head-to-head with Watson, didn't make a bogey in his round of 66. He finished perhaps the greatest confrontation the game has ever seen with a 269 total.

It was simply magnificent.

For 36 holes, for two rounds in rain and wind, storm and sunshine, Nicklaus, the finest player the world has seen, and Watson, the man who would supplant him, fought each other with some of the finest golf ever played.

They'd gone through the first two rounds with matching scores of 68 and 70. Playing in the same twosome in Friday's storm-interrupted round, they matched 65s—until this year the tournament record score.

And then Saturday they kept up a pace that seemed impossible. Watson played his last 36 holes in 130, Nicklaus in 131—unbelievable scores.

In the end, Watson's little putt on the 18th decided it.

Nicklaus, trailing by one after Watson had birdied the 17th, missed the fairway badly and was lucky to get his second shot on the green. Watson, who ripped a roaring salute from the throats of the golf-mad Scots with his brilliant approach, had only 30 inches left for birdie.

"As we came down the 18th fairway, I said to my caddie, 'Alfie, Nicklaus is going to make that long putt. I know him too well. I've just got to get that little one,'" Watson said later.

He was right. Nicklaus holed the long one, and Watson needed his to win.

It was an appropriate finish to an incredible struggle that may have signaled a turning point in the game.

U.S. open champion Hubert Green was the only other man in subpar figures for four rounds. He finished with a 67 and a 279 total, 10 shots back of Watson and nine behind Nicklaus.

Lee Trevino, with a 70, was at 280.

American tour players captured the first eight positions, but no one got into the battle between Nicklaus and Watson.

Ben Crenshaw, with a 75, and George Burns, with 69, were at 281. Arnold Palmer, twice a winner of this title in the early 60s, was at 69-282. Ray Floyd was next at 72-283.

The group at 284 was composed of defending champion Johnny Miller, 74; John Schroeder, 71; Mark Hayes, 73; and the only non-American to crack the top 12, England's Tommy Horton with a 75.

Other American scores included Jerry Pate, 73-287; Tom Weiskopf, 72-288; Rik Massengale, 76-289; Roger Maltbie, 80-289, and Hale Irwin, 80-294.

The victory was worth $17,000 to Watson from the total purse of $170,000, but his winnings do not count on his leading official money-winnings of $269,000 for the season.

Cunningham named basketball coach

LOS ANGELES (AP) — Gary Cunningham, who turned down a chance two years ago to succeed the legendary John Wooden as UCLA basketball coach, was named to the position Saturday, replacing Gene Bartow.

UCLA Athletic Director J.D. Morgan said Cunningham "is a great teacher and his experience and accomplishments in the UCLA basketball program will be of great value as he assumes the Bruins' head coaching position."

Terms and length of the contract were not disclosed.

Cunningham, 37, was considered a prime choice to succeed Wooden when the latter retired following the 1974-75 season. Morgan said Cunningham would have been his first choice when Wooden stepped down but "Gary took himself out of the picture before John retired, saying he wanted to go into administration."

Cunningham played at UCLA from 1960-62 and was an assistant coach under Wooden from 1965 to 1975 but left coaching when Wooden retired. He has served as executive director of the UCLA Alumni Association since then.

"I think sometimes a person has to get away from what he's doing to know what he really enjoys," said Cunningham. "When this opportunity came I felt it was something I wanted very much.

"I am really elated," he added. "When Mr. Morgan offered me the job I immediately said yes.

Good pitching marks Sikeston Little League

Due to a number of rainouts, eleven games were played Saturday in the Sikeston Little League. In those games, some fine play and big innings were seveseen from the Musial League.

In the first game, Collins downed Bank of Sikeston 12-7. However, the final score does not tell the whole story. Neither team scored until the fourth inning when both teams got three runs. Then, no runs were scored in the fifth. Collins then came up with nine in the sixth and tit was too much for Bank of Sikeston to overcome. Mike Lambert was the winner while Bill Ruby took the loss. Ted Kelley started for the Bank of Sikeston and Brain Self for Collins. Both turned in fine performances.

The third game was much like the first in that Rotary won with the big inning and good pitching. They defeated the Sikeston Standard 10-1 with Stan Templeton getting the win. Rotary scored eight times in the third to ice the win over losing pitcher Jeff Coffey.

A hot Malone and Hyde team won big in the second game, as they used a balanced attack that ended in a 20-8 win over the Flower Basket. Eddie Jenkins was the loser in that game. Charles Sanders got the win.

The wild fight for American League supremacy continued Saturday as Bridger Plumbing squeaked past Moore's Firestone 5-4. Scott Carmody was hung with the loss for his Moore's team and David Peridore picked up the win for Bridger.

Fabick and First National Bank hooked up in a real battle that was finally won by Fabick in eight long innings. First National scored a run in the bottom of the fifth that knotted the game at 7-7. Two scoreless innings followed. Fabick then got four in the top of the eight to go ahead for good. Henry Eckles was the winning hurler and Mike Buchanans the loser.

Ziegenhorn kept their hopes alive by downing Nunnelee 9-0. Lee Taylor was the winning pitcher in a fine performance that shut down Nunnelee's offense. Tim Wheetley got the loss in the ball game.

Collins Realty scored nine runs in the third inning to power them past a tough Ryan team 15-7. That big inning insured Jon Fair his second win in as many days and gave Scott Bogle the loss.

Fine pitching performances seemed to be the rule and not the exception in National League action. Mike Arnold held a good A & B team to four hits and was backed by a grand slam homer by newcomer Melvin Stewart to get the win for Lewis Furniture 9-3. Mike Cook allowed only three hits for A & B but the homer by Stewart put the game out of reach. Cook took the loss for A & B.

Ken Deal pitched a solid game for Legion allowing ony three hits on his way to shutting out Jaycees 10-0. Doug Chessor was the loser for the Jaycees.

The third game was a big one as undefeated Pizza Inn faced an improved Kiwanis squad in the third game of action. Todd Baker tossed three innings of no-hit baseball to seal the win for Pizza Inn 6-0. Mike Moore came in to relieve for Pizza Inn and Phil Stinnitt got one of the very few base hits allowed by Moore. Brooks Sherman got the loss for the Kiwanis.

In the final game of the day, both Marlin Beaudean fof the Lions and Mike Lee of Security National Bank threw four-hitters but the Lions managed twelve runs to ease past Security National 12-2. Lee got the loss and Beaudean ended up with the win for Lions.

In Friday night action the American League provided some late fireworks. Sidney Lee knocked his second home run of the week over the left field fence to spark a 17-6 victory for Moore's Firestone over Fabick.

The second game was a thirth hit slugfest that saw Colilins score ten times in the first tinning and hold to beat Bridger Plumbing 11-8. Both team banged out fifteen hits but a double play by Collins helped to put them over the top. Mike Price was the losing hurler for Bridger while Jon Fair got another win for Collins.

Scott Carmody held Fabick to only hits while his Moore's team rapped out fourteen. In addition to hims homer, Lee also ripped a single and triple to star at the platter. Henry Eckles was the loser for Fabick.

National League action was highlighted by a wild one that went to the wire. A & B finally emerged the winner as they scored three times in an extra inning to defeat Lions 12-211. The Lions fell just short as they could get onyonly two in the home half of that final inning. John Childers was the winner with David Braden taking the loss for the Lions.

Pizza Inn continued their undefeated season by downing Legion 5-2 in the second contest. Todd Baker was the winner as he allowed two hits in two innings. Vince Howard got the loss for Legion. In this game, Mike Moore continued his fine play by pitching four innings of no-hit relief and going 3-for-3 with a home run.

In the first game of Musial action, Jim Edsall pitched a two-hitter for Meredith Realty and went on to get the win 9-5 over Collins. Brian Self was the loser for Collins as h e gave up ten hits to Meredith battesrs.

Rotary edged Hart's Bread 11-10 in the second game Friday. Both teams scored all their runs in the first two innings and went scoreless in the final frame. Bob Crowley got the win for first place Rotary while Mike Goergen was the loser for Hart's.

Senate Happenings

Cont. from Page 4

SENATE BILL 364 (PROBATE COURT)— Establishes a probate commissioner in each 1st class county containing part of Kansas City. The commissioner would have all the powers of a judge, would be paid the same as a circuit judge and would be eligible for the judicial retirement system.

SENATE BILL 367 (SALES TAX)— Permits the purchaser to pay sales tax only on the difference between the trade-in and the purchase price if the difference is $200 or more. (Previously $500). Permits a division of a corporation to operate separeately as an auto leasing company by filing a consent form with the Director of Revenue. Permits a refund of the sale tax paid on a motor vehicle is the sale is rescinced within 60 days.

SENATE BILL 368 (INSURANCE COMPANIES)— Increases from $200,000 to $600,000 the minimum capital a life insurance company must have to commence to do business. For health and casaulty insurers the minimum is increased for mutual fire and marine insurers from $300,000 to $600,000.

SENATE BILL 373 (ST. LOUIS COURT OF APPEALS)— Adds two judges to the St. Louis Court of Appeals.

SENATE BILL 375 (NEIGHBORHOOD ASSISTANCE ACT)— Provides a tax credit of up to 50 per cent (70 per cent for special program priorities) of any amount invested by business in neighborhood assistance, job training, education, crime prevention, and community service. To qualify for a tax credit a proposed investment must be approved by the Director of the Division of Community Development.

SCS FOR SENATE BILLS 387, 348 & 297 (SENIOR CITIZENS)— Increases the property tax credit for senior citizens allowable against the state income tax.

SENATE BILL 399 (WORKMEN'S COMPENSATION)— Repeals provisions limiting workmen's compensation payments for treatment to 180 days and giving the industrial commission discretion as to whether payment should continue after 180 days.

SENATE BILL 400 (WORKMEN'S COMPENSATION)— Makes the workmen's compensation referee an administrative law judge. Increases the number of administrative law judges from 16 to 18. Permits the industrial commission to remand a decision back to the administrative law judge for a more complete finding of facts. Permits administrative law judges to be assigned temporarily to a branch office.

SENATE BILL 416 (BI-STATE DEVELOPMENT AGENCY)— Raises the maximum interest rate for bonds issued by the Bi-State Development Agency from 6 per cent to 8 per cent.

SENATE BILL 419 (LEGISLATIVE RESEARCH)— Makes the committee on legislative research rather than the revisor of statutes the authroized selier of sets of the Revised Statutes. Removes control of the chambers and other space on the 3rd and 4th floors of the Capitol from the committee and places control in the House and Senate Accounts Committees. Gives the House and Senate Accounts committees rather than the committee on legislative research authority to employ custodians.

SENATE BILL 420 (BANKS)— Permits the commissioner to conduct his bank examinations on the basis of FDIC or Federal Reserve reports or audits by certified public accountants. Miscellaneous provisions concerning regulation of banks.

SENATE BILL 424 (SNOW DAYS)— Provides that no school district be required to make up more than 8 days of school cancelled due to inclement weather during the 1976-77 school year.

SENATE BILL 426 (JURY SELECTION)— Makes the provision permitting additional challenges without cause to potential jurors applicable only to St. Louis. Previously also applied to Kansas City.

SENATE BILL 430 (GRANDPARENTS' VISITATION)— Permits the court in a divorce proceeding to award reasonable visitation rights to either set of grandparents. Where one parent is deceased and the survivng parent refuses to grant reasonable visitation, the grandparents may petition the juvenile court which may grant reasonable visitation if in the child's best interest.

SENATE BILL 431 (STATE FAIR ADMISSION)— Raises the admission fee for the state fair from $1 to $1.50 and exempts children under six from paying any admission fee.

SENATE BILL 439 (PROFESSIONAL ENGINEERS)— Removes the provision requiring engineers to take the engineering exam within 2 years after graduation. Permits the exam to be taken at a later date. Permits a student in his final year of study to take the exam.

HCS SS FOR SENATE BILL 451 (STATE INCOME TAX)— Makes changes in the standard deduction on the state income tax form necessitated by changes in the Federal Income Tax Law.

SCS FOR SENTATE BILL 458 (STATE CANCER HOSPITAL EMPLOYEES)— Repeals the provision prohibiting persons employed by the state cancer hospital from receiving compensation for treating or caring for a patient other than compensation provided by the state.

SENATE BILL 461 (COUNTY CLERKS)— Repeals the provision which required the county clerk to keep a ward book.

SENATE BILL 478 (HARDSHIP DRIVING PRIVILEGES)— Gives all circuit and magistrate courts jurisdiction to hear applications for hardship driving privileges. Presently only circuit courts and magistrate courts which are a part of a multi-county judicial circuit have such jurisdiction.

SENATE BILL 488 (STATE PROPERTY)— Authorizes the Governor to convey certain state land in Lafayette County to the Department of Natural Resources and permits the Department of Natural Resources to remove the "Confederate Chapel of Higginsville" from land belonging to the Department of Mental Health and place it on the land conveyed by the governor.

SENATE BILL 489 PROBATE JUDGES)— Increases the salaries of probate judges in counties with a court of common pleas from $25,000 as provided by House Bill 521 to $27,000.

SENATE JOINT RESOLUTION 18 (REAPPORTIONMENT)— Proposed constitutional amendment which would transfer the responsibility for apportionment, in the event that the reapportionment commission is unable to agree, from the commissioners of the Supreme Court to a commission chosen by the Governor from lists of appellate judges recommended by the chairmen of both major parties.

SENATE JOINT RESOLUTION 19 (STATE TREASURER)— Proposed constitutional amendment which would permit the state treasurer to invest state funds in savings and loan associations as well as banks and to act as investing agent for state agencies or political subdivision.

—

HOUSE BILL 21 (SUNDAY CLOSING)— Permits voters in Jackson, Platte and Clay counties to vote on whether they shall be exempted from the Sunday closing law.

HCS FOR HOUSE BILLS 38, 219 & 244 (COUNTIES)— Permits voters in a county with an assessed valuation of $300-$400 million to elect to remain a second class county. Previously the county automatically became a first class county at $300 million. Permits counties with an assessed valuation of $75-$1255 million to elect to remain a Third Class County. Previously became a Second Class County automatically at $75 million. Provides that a county shall not move to a lower class solely because the assessed valuation necessary to achieve the higher classes are raised.

SCS FOR HOUSE BILL 40 (INSURANCE)— Prohibits lending institutions from requiring purchase of life insurance from a particular agent. Requires the institution to inform the borrower that he may furnish the coverage from any licensed agent.

SCS FOR HCS FOR HOUSE BILLS 42 & 157 (PUBLIC SERVICE COMMISSION)— Permits the Public Service Commission to appoint an attorney as general counsel. Prohibits the commissioners and public counsel from recommending that utilities appoint any person to office. Prohibits any utility regulated by the PSC from giving gratuities to PSC members or employees. Gives the public counsel the right to be heard in any hearing before the PSC. Gives the public counsel full access to all PSC records. Requires that the public counsel receive a copy of all proposed tartiffs, pleadings, applications, and orders of the commission.

HCS FOR HOUSE BILL 48 (CREDIT UNIONS)— Authorizes credit unions to contract for group insurance for its member and to invest its funds in corporate stock. Establishes a procedure to guarantee "due process" in all decisions that effect handicapped students. Requires al schools to provide a comprehensive health education program. Provides for readers for blind students at the elementary an secondary level at state expense. Permits up to 4 children to be transported in a vehicle other than a school bus. Authorizes the Department of Elementary and Secondary Education to give high school equivaliency tests and issue high school equivalency certificates. Abolishes the office of County Superintendent of Schools.

HOUSE BILL 135 (NON TEACHER RETIREMENT)— Lowers the retirement age for non teaching school employees from 65 to 60. Bases benefits on the average compensation for any 10 consecutive years rather than final average salary. Requires interest to be paid on all returned contributions. (Previously only if employment terminated after five years). Permits a member to select reduced monthly benefits during his lifetime but with death benefits to his designated beneficiary.

HOUSE BILL 161 (LAW LIBRARY DEPOSITS)— Increases from $3 to $5 the law library deposits of attorneys filing suit in 1st class counties.

HOUSE BILL 166 (CITY SALES TAX)— Removes minimum population limits and permits any incorporated city, town or village to adopt a sales tax.

HOUSE BILL 167 (GRAIN DEALERS)— Requires all person in the business of buying grain for resale to have a license issued by the Department of Agriculture and meet certain standards of financial stability. Authorizes the Department of Agriculture to inspect the dealer's premises and his records to insure financial solvency and compliance with the law.

HOUSE BILL 175 (CLERGYMEN)— Makes priests and ministers incompetent to testify as to communications made to him for the purpose of obtaining spiritual counseling.

HOUSE BILL 176 (BOAT SAFETY)— Requires all boats not underway or docked after dark to display a light visible from all directions. Requires all boats to have at least one life preserver for each person on board. All motorboats must carry fire extinguishers. A water safety officer may direct the operator of a boat operated in an unsafe manner to take steps for the safety of those aboard. He may order the operator to return to the nearest safe mooring and remain there until the condition is corrected. A water safety officer may remove an unattended vessel from the water if it creates a hazard.

HOUSE BILL 178 (STATE TREASURER)— Makes the State Treasurer, rather than the Director of Revenue, secretary to the Board of Bond Commissioners. Requires the State Treasurer, rather than the Director of Revenue, to endorse surrendered bonds and to keep a register of all cancelled bonds.

HOUSE BILL 180 (FUNDS IN COURT)— Permits the court to order funds paid into court invested in savings accounts or U.S. Treasury Bills. If one of the parties to the suit makes application within 60 days the income is to be added to the principal. If no application is made the interest is payable to the clerk to be used for operating expenses. Any excess shall be payable to the county.

HOUSE BILL 182 (WORKMEN'S COMPENSATION)— Permits workmen's compensation funds to be deposited in interest bearing accounts. Interest is added to the fund and is not transferred to general revenue at the end of the year.

HOUSE BILL 185 (SURPLUS PROPERTY)— Permits the Highway Department to sell surplus property to Highway Department employees, but only if sold at a public sale open to the public.

HOUSE BILL 186 (WEIGHT STATIONS)— Commercial vehicles licensed for a gross weight of not more than 12,000 pounds are not required to stop at a weigh station unless so directed by a peace officer.

HOUSE BILL 187 (PART-TIME STUDENTS)— Permits consideration of part-time students in determining average daily attendance for the purpose of computing state school aid.

HOUSE BILL 190 (STATE PARKS)— Repeals the provision limiting persons who contract to provide concession services in state parks to a maximum profit of $17,500.

HOUSE BILL 216 (FIRE PROTECTION DISTRICTS)— Authorizes fire protection districts to levy an additional twenty-five cents per $100 assessed valuation with approval of the voters. Authorizes a further increase of fifteen cents in order to provide ambulance service and an additional three cents to provide joint fire and emergency dispatching service. Requires an audit of each fire protection district at least once every 2 years.

HOUSE BILL 217 (FERTILIZER PIPELINES)— Gives water-based fertilizer pipelines the right to condemn land for its right-of-way.

HOUSE BILL 220 (DRIVERS)— Requires drivers to stop 15 feet from railroad tracks if a signal device warns of an approaching train, if a gate is lowered, or if a flagman signals the approach of a train The driver may not proceed until safe to do so. Violation is a misdemeanor.

SENATE BILL 478 (HARDSHIP DRIVING PRIVILEGES)— Gives all circuit and magistrate courts jurisdiction to hear applications for hardship driving privileges. Presently only circuit courts and magistrate courts which are a part of a multi-county judicial circuit have such jurisdiction.

SENATE BILL 488 (STATE PROPERTY)— Authorizes the Governor to convey certain state land in Lafayette County to the Department of Natural Resources and permits the Department of Natural Resources to remove the "Confederate Chapel of Higginsville" from land belonging to the Department of Mental Health and place it on the land conveyed by the governor.

SENATE BILL 489 PROBATE JUDGES)— Increases the salaries of probate judges in counties with a court of common pleas from $25,000 as provided by House Bill 521 to $27,000.

SENATE JOINT RESOLUTION 18 (REAPPORTIONMENT)— Proposed constitutional amendment which would transfer the responsibility for apportionment, in the event that the reapportionment commission is unable to agree, from the commissioners of the Supreme Court to a commission chosen by the Governor from lists of appellate judges recommended by the chairmen of both major parties.

SENATE JOINT RESOLUTION 19 (STATE TREASURER)— Proposed constitutional amendment which would permit the state treasurer to invest state funds in savings and loan associations as well as banks and to act as investing agent for state agencies or political subdivision.

—

HOUSE BILL 21 (SUNDAY CLOSING)— Permits voters in Jackson, Platte and Clay counties to vote on whether they shall be exempted from the Sunday closing law.

HCS FOR HOUSE BILLS 38, 219 & 244 (COUNTIES)— Permits voters in a county with an assessed valuation of $300-$400 million to elect to remain a second class county. Previously the county automatically became a first class county at $300 million. Permits counties with an assessed valuation of $75-$1255 million to elect to remain a Third Class County. Previously became a Second Class County automatically at $75 million. Provides that a county shall not move to a lower class solely because the assessed valuation necessary to achieve the higher classes are raised.

SCS FOR HOUSE BILL 40 (INSURANCE)— Prohibits lending institutions from requiring purchase of life insurance from a particular agent. Requires the institution to inform the borrower that he may furnish the coverage from any licensed agent.

SCS FOR HCS FOR HOUSE BILLS 42 & 157 (PUBLIC SERVICE COMMISSION)— Permits the Public Service Commission to appoint an attorney as general counsel. Prohibits the commissioners and public counsel from recommending that utilities appoint any person to office. Prohibits any utility regulated by the PSC from giving gratuities to PSC members or employees. Gives the public counsel the right to be heard in any hearing before the PSC. Gives the public counsel full access to all PSC records. Requires that the public counsel receive a copy of all proposed tartiffs, pleadings, applications, and orders of the commission.

HCS FOR HOUSE BILL 48 (CREDIT UNIONS)— Authorizes credit unions to contract for group insurance for its member and to invest its funds in corporate stock. Authorizes creation of central credit unions to purchase loans from credit unions. Requires all credit unions to become members of a credit union share guaranty corporation or have its shares federally insured.

HOUSE BILL 53 (ST. LOUIS RETIREMENT SYSTEM)— Permits any member of the St. Louis retirement system to retire with 25 years service or at age 55.

HOUSE BILL 61 (SPECIAL LICENSE PLATES)— Permits the director to issue special license plates free of charge to veterans with a total service connected disability.

HOUSE BILL 73 (SALES TAX)— Exempts from the sales tax fees charged for participation in activities at governmentally owned or operated recreation areas.

HOUSE BILL 75 (DANGEROUS LOADS)— Prohibits placing of railroad cars carrying dangerous loads immediately behind an occupied locomotive. Previously the law prohibited placing a dangerous load immediately behind any locomotive, even if unoccupied.

HOUSE BILL 77 (TAX COMMISSION)— Increases the salary of members of the tax commission from $8,000 to $15,000.

HOUSE BILL 79 (BICYCLE SAFETY)— Requires all bicycles to have an adequate brake. All bicycles ridden after dark must have a headlight and reflectors on the rear and both sides. A bicycle rider is subject to the duties and limitations of a driver of a motor vehicle. Bicycle riders must ride as close to the right side of the road as possible and exercise due care when passing a standing vehicle. Bikes must not be ridden on the road which has a bike path adjacent to it. Any person 17 or older who violates this act may be fined from $5 to $25. A person under 17 who violates this act may have his bicycle impounded for up to 5 days.

HOUSE BILL 84 (EMPLOYMENT AGENCIES) — Requires all private profit making employment agencies to be licensed by the Department of Consumer Affairs, Regulations and Licensing. Requires disclosure of ownership and of previous employment of management. Requires a $5,000 bond. Agencies must keep accurate records and must give each applicant a copy of each contract and full information on any prospective employers. Prohibits unfair practices such as misrepresentation, kickbacks and solicitation for immoral employment. provides for inspection by the department. Permits suspension or revocation of a license for violation of this act.

HOUSE BILL 90 (CAPITAL PUNISHMENT)— Reinstates the death penalty in Missouri for commission of the crime of capital murder. A person who kills with premeditation and deliberation is guilty of capital murder. The jury (or if setting without a jury the judge) shall render the verdict without considering punishment. The defendant may be sentenced only after a pre-sentence hearing at which evidence in mitigation and aggravation may be presented. The jury may impose the death penalty only if aggravating circumstances are present and only if the aggravating circumstances outweigh the mitigating circumstances.

HOUSE BILL 100 (ELECTIONS)— Repeals the provision prohibiting any person from hauling voters to the polls on election day. Repeals the provision making each bribe, illegal vote, etc. a separate offense.

HOUSE BILL 101 (ELECTIONS)— This bill is a comprehensive revision of all the state's election laws. It collects all the election laws which had been scattered throughout the statute books, brings them together, and reorganizes them into an orderly manner.

HOUSE BILL 102 (PSC REGULATION)— Exempts vehicles used to transport cotton, cotton seed, cotton seed hulls, fire clay, and fire clay compounds from regulation by the Public Service Commission.

HOUSE BILL 130 (OMNIBUS EDUCATION BILL)— Makes numerous minor changes in the laws concerning schools. Establishes a procedure to guarantee "due process" in all decisions that effect handicapped students. Requires all schools to provide a comprehensive health education program. Provides for readers for blind students at the elementary an secondary level at state expense. Permits up to 4 children to be transported in a vehicle other than a school bus. Authorizes the Department of Elementary and Secondary Education to give high school equivaliency tests and issue high school equivalency certificates. Abolishes the office of County Superintendent of Schools.

HOUSE BILL 135 (NON TEACHER RETIREMENT)— Lowers the retirement age for non teaching school employees from 65 to 60. Bases benefits on the average compensation for any 10 consecutive years rather than final average salary. Requires interest to be paid on all returned contributions. (Previously only if employment terminated after five years). Permits a member to select reduced monthly benefits during his lifetime but with death benefits to his designated beneficiary.

HOUSE BILL 161 (LAW LIBRARY DEPOSITS)— Increases from $3 to $5 the law library deposits of attorneys filing suit in 1st class counties.

HOUSE BILL 165 (CITY SALES TAX)— Removes minimum population limits and permits any incorporated city, town or village to adopt a sales tax.

HOUSE BILL 167 (GRAIN DEALERS)— Requires all person in the business of buying grain for resale to have a license issued by the Department of Agriculture and meet certain standards of financial stability. Authorizes the Department of Agriculture to inspect the dealer's premises and his records to insure financial solvency and compliance with the law.

HOUSE BILL 175 (CLERGYMEN)— Makes priests and ministers incompetent to testify as to communications made to him for the purpose of obtaining spiritual counseling.

HOUSE BILL 176 (BOAT SAFETY)— Requires all boats not underway or docked after dark to display a light visible from all directions. Requires all boats to have at least one life preserver for each person on board. All motorboats must carry fire extinguishers. A water safety officer may direct the operator of a boat operated in an unsafe manner to take steps for the safety of those aboard. He may order the operator to return to the nearest safe mooring and remain there until the condition is corrected. A water safety officer may remove an unattended vessel from the water if it creates a hazard.

HOUSE BILL 178 (STATE TREASURER)— Makes the State Treasurer, rather than the Director of Revenue, secretary to the Board of Bond Commissioners. Requires the State Treasurer, rather than the Director of Revenue, to endorse surrendered bonds and to keep a register of all cancelled bonds.

HOUSE BILL 180 (FUNDS IN COURT)— Permits the court to order funds paid into court invested in savings accounts or U.S. Treasury Bills. If one of the parties to the suit makes application within 60 days the income is to be added to the principal. If no application is made the interest is payable to the clerk to be used for operating expenses. Any excess shall be payable to the county.

HOUSE BILL 182 (WORKMEN'S COMPENSATION)— Permits workmen's compensation funds to be deposited in interest bearing accounts. Interest is added to the fund and is not transferred to general revenue at the end of the year.

HOUSE BILL 185 (SURPLUS PROPERTY)— Permits the Highway Department to sell surplus property to Highway Department employees, but only if sold at a public sale open to the public.

HOUSE BILL 186 (WEIGHT STATIONS)— Commercial vehicles licensed for a gross weight of not more than 12,000 pounds are not required to stop at a weigh station unless so directed by a peace officer.

HOUSE BILL 187 (PART-TIME STUDENTS)— Permits consideration of part-time students in determining average daily attendance for the purpose of computing state school aid.

HOUSE BILL 190 (STATE PARKS)— Repeals the provision limiting persons who contract to provide concession services in state parks to a maximum profit of $17,500.

HOUSE BILL 216 (FIRE PROTECTION DISTRICTS)— Authorizes fire protection districts to levy an additional twenty-five cents per $100 assessed valuation with approval of the voters. Authorizes a further increase of fifteen cents in order to provide ambulance service and an additional three cents to provide joint fire and emergency dispatching service. Requires an audit of each fire protection district at least once every 2 years.

HOUSE BILL 217 (FERTILIZER PIPELINES)— Gives water-based fertilizer pipelines the right to condemn land for its right-of-way.

HOUSE BILL 220 (DRIVERS)— Requires drivers to stop 15 feet from railroad tracks if a signal device warns of an approaching train, if a gate is lowered, or if a flagman signals the approach of a train The driver may not proceed until safe to do so. Violation is a misdemeanor.

HOUSE BILL 224 (MOUNTAIN GROVE)— Authorizes the Governor to convey certain state land in Wright County to the City of Mountain Grove.

HOUSE BILL 241 (SPEEDY TRIALS)— All defendants must be arraigned within 10 days after being charged and trial set within 180 days. Excludes from the 180 days certain necessary delays such as unavailability of necessary witnesses or the defendant, and any delay requested by the defendant. If the defendant is not brought to trial within the time limits the judge may dismiss the charges.

HOUSE BILL 248 (LIVESTOCK DEALERS)— Requires livestock dealers to keep written livestock sales records. Permits the state veterinarian to request the records of any livestock believed to be diseased in order to itrace the diseased livestock and the source of the disease.

HOUSE BILL 253 (SPECIAL CONSULTANTS)— Requires special consultants to retirement systems to give a statement on the problem of retirement under the current monthly benefits whenever requested by the board. Provides compensation of 4 per cent of the previous years retirement benefits.

HOUSE BILL 254 (COMMUNITY AFFAIRS)— Repeals the provision defining as a political subdivision any local public body exercising governmental functions (such as Bi-State Transit Authority, or other bodies jointly created by cities and counties.)

SCS HCS FOR HOUSE BILL 255 (PSYCHOLOGISTS)— Requires state licensing of psychologists.

HOUSE BILL 258 (KANSAS CITY SCHOOLS)— Permits the Kansas City board of election commissioners to combine precincts in school elections and moves the date of the elections from the 3rd Tuesday in January to the 1st Tuesday in April.

HOUSE BILL 260 (SCHOOL BOARDS ASSOCIATION)— Repeals provision prohibiting the Missouri School Boards' Association from spending money to influence the passage or defeat of bills before the General Assembly.

HOUSE BILL 266 (ALCOHOLIC BEVERAGES) — Permits caterers to sell liquor by the drink at other than their licensed premises for up to five days. Requires a beer wholesaler to designate the geographic area in which he will operate prior to receiving a license. He has an exclusive right to sell the brands he represents to retailers in that area, but may not sell to retailers in another area.

HOUSE BILL 278 (AMBULANCE DISTRICTS)— If a director of an ambulance district moves outside the district, he is disqualified. One or two vacancies may be filled by the remaining directors. If the board is unable to agree or if 3 or more vacancies occur at the same time, the county court shall fill the vacancies.

HOUSE BILL 286 (SPEED LIMITS)— Permits second class counties to set a speed limit for unincorporated areas of the county. The limit may be no lower than 25 miles per hour. The speed limit may not be enforced until the roads are properly marked with speed limit signs.

HOUSE BILL 288 (OFFENSES AGAINST PROPERTY)— Makes tampering with a gas or water main, valve or pipeline, or cable television cable a misdemeanor. Knowing use of gas, water, or cable television services which have been diverted so as not to pass through a meter is also a misdemeanor. Presence of a device to avoid a meter creates a presumption tha the person in control of the place where the device is located knows of its existence and has intent to defraud.

HOUSE BILL 289 (JUDICIAL CONFERENCE)— Increases the number of circuit judges on the Judicial Conference of the State of Missiouri, from 3 to 9. Would add to the membership one probate judge, one magistrate judge. Permits the executive council to meet more than 4 times per year. Raises the per diem for attendance at meetings from $10 to $25.

HOUSE BILL 297 (JOHNSON GRASS)— Permits an adjacent landowner who is undertaking a Johnson Grass Control Program to sue for an injunction against a landowner who has Johnson Grass. Permits a county to vote on whether to become a Johnson Grass Extermination Area not more than once every two years.

HOUSE BILL 301 (ELECTION COMMISSION)— Sets compensation for employees of St. Louis Board of Election Commissioners.

HOUSE BILL 308 (FIREMEN)— Permits St. Louis firemen to retire after 25 years service regardless of age.

CCS FOR HOUSE BILL 318 (HAZARDOUS WASTES)— Creates a Hazardous Waste Management Commission within the Department of Natural Resources to regulate the disposal of hazardous wastes. Members are appointed by the director of the Department of Natural Resources. The commission may require records of hazardous waste production to disposal, safe handling of wastes, licensing of hazardous waste production to disposal, safe handling of wastes, licensing of hazardous waste transporters and generators to use only approved disposal sites. Permits the Department of Natural Resources to obtain a court order against hazardous waste practices that pose a serious threat to life or the environment. Violation subjects a person to a fine of up to $10,000 per day of violation. Willful or wanton violations carry a penalty of up to $25,000 per day and up to one year imprisonment.

HOUSE BILL 328 (NUMBERING BALLOTS)— Would repeal the requirement that each ballot be consecutively numbered and the number covered with a black sticker. If a ballot appears without the initials of two election judges it shall be rejected unless due to a mistake of the judges and the ballot is otherwise proper.

HOUSE BILL 333 (UNION DUES)— Permits a payroll deduction to pay state employees union dues when authrorized in writing by the employee.

HOUSE BILL 341 (PUBLIC DRUNKENNESS)— Repeals the provision making public drunkenness a misdemeanor and prohibits political subdivisions from imposing a penalty for public drunkenness. Does not affect any law or ordinance concerning operation of a vehicle, firearms or equipment while intoxicated.

HOUSE BILL 366 (PROBATE COURTS)— Repeals the provision requiring each probate judge to give the county assessor an annual list of each person in legal control of an estate.

HCS FOR HOUSE BILLS 367, 236, 39 & 503 LICENSE PLATES)— Requires license plates to be issued for at least 5 years with annual tabs to show payment of registration fees. Permits issuance of special plates to the disabled bearing the international wheel chair symbol. Authorizes issuance of special personalized license plates for an additional $12 fee. Gives the person first obtaining a particular plate priority on that plat in future years.

HCS FOR HOUSE BILL 375 (SPEED LIMIT)— Extends the 55 miles per hour speed limit for 2 years to January 1, 1980.

HOUSE BILL 377 (DEAD BODIES)— Permits transportation of dead bodies and their removal from the registratrion district without a permit from the local registrar.

HOUSE BILL 378 (COUNTY HOSPITALS)— Permits county hospitals to employ a private attorney to represent the hospital when the board of trustees deem it necessary.

HOUSE BILL 381 (EMPLOYMENT SECURITY)— Excludes National Guard pay from consideration in determining whether a person is partially unemployed and in figuring the amount of his benefit. (THIS BILL HAS BEEN VETOED BY THE GOVERNOR.)

HOUSE BILL 384 (NATIONAL GUARD)— Permits public employees to serve on active duty as members of the National Guard without any loss of pay or other benefits for so long as the active duty lasts. Previously this provision was limited to a maximum of 15 days.

HOUSE BILL 394 (TAX BOOKS)— Repeals the provision requiring the Director of Revenue to furnish tax books to each probate judge.

HOUSE BILL 401 (MOTOR FUEL TAX)— All motor fuel tax money collected but not refunded to the purchaser must be returned to certain counties to maintain public roads.

HOUSE BILL 402 (STREET LIGHT DISTRICTS)— Raises the maximum levy by street light districts from ten cents to twenty cents per $100 assessed valuation.

HOUSE BILL 427 (INCARCERATION)— Makes clear that no person convicted of a crime shall be required to pay the cost of his own incarceration.

HCS FOR HOUSE BILLS 428 & 602 (FEDERAL GRANT FUND)— Creates a Federal Grant Program Fund in which all federal funds received as grants shall be deposited. Creates a State Institutions Gift Trust Fund for the deposit of gifts and bequests.

HOUSE BILL 447 (WHITEWASHING)— Repeals a provision requiring factories employing women and children where dusty work is carried on to paint or whitewash the walls at least annually.

HOUSE BILL 457 (SUBDISTRICTS)— Where a soil or water conservation sub-district lies in more than one district, the supervisors o the districts may act as a single board with respect to the affairs of the subdistricts or may meet separately to act on minutes of the meetings of the subdistricts' trustees. No action of the trustees is effective until approved by each board of supervisors. If the boards meet as a single body the trustees shall be merely an advisory body.

HOUSE BILL 462 (PUBLIC ASSISTANCE)— Gives the state a right to file a claim against the estate of any deceased person who received public assistance. The claim must not be filed if it will interfere with the need of dependents for support from the estate.

HOUSE BILL 465 (KIRKSVILLE LAND)— Authorizes the Governor to convey a portion of Northeast Missouri State University to Missouri Power and Light Company for use as an electrical transformer substation.

HOUSE BILL 470 (DIVORCE)— Repeals the provision that a respondent in a divorce case must be given notice that unless he objects within 10 day a divorce will be granted.

HOUSE BILL 471 (INJUNCTIONS)— Permits a person suing for a temporary injunction to deposit cash in court in lieu of posting a bond.

HOUSE BILL 477 (TEACHER RETIREMENT)— Reduces the age at which teachers may retire with 30 years service from 60 to 55 and permits retirement at 60 with 25 years service. Increases the employee contribution from 9½ per cent to 10½ per cent. Lowers from 40 to 30 years the years of service required to receive the maximum benefit when retiring at age 60. Requires interest to be paid on the contributions of any employee who leaves the system after 2 years (previously 5 years).

HOUSE BILL 478 (MISSOURI VETERANS' HOME)— Changes the name o the Federal Soldiers Home at St. James to the Missouri Veterans Home. The home is to be administered by a supervisor appointed by the Director of Veterans Affairs. The superintendent must make annual or biannual reports to the Director of Veterans Affairs upon request.

HOUSE BILL 479 (VETERANS' AFFAIRS0— Permits the Director of Veterans Affairs to be appointed by the Director of the Department of Social Services with advice of the veterans board. (Previously appointed by the Governor with consent of the Senate). Creates a 6 to 9 member veterans board appointed by the Director of the Department of Social Services to replace the present advisory board appointed by the Governor with the consent of the Senate. Members of the board must be members of a nationally chartered veterans group.

HOUSE BILL 482 (DEFERRED COMPENSATION0— Removes the requirement that funds withheld from an employee as deferred compensation may not be invested without the employee's consent.

HOUSE BILL 488 (KANSAS CITY TRANSPORTATION)— Extends the provision authorizing a transportation sales tax for Kansas City until December 31, 1979.

HOUSE BILL 489 KANSAS CITY AND ST. LOUIS TRANSPORTATION)— Extends the provisions authorizing the transportation sales tax for St. Louis and Kansas City until December 31, 1979.

HOUSE BILL 492 (STORM WATER)— Permits the General Assembly to appropriate funds to control storm water in 1st class counties.

HCS FOR HOUSE BILLS 493 & 458 (TRANSITION FUNDS)— Provides transition funds for the Governor of $100,000 and $5,000 for the Lieutenant Governor. All other statewide elected officials are provided transition funs of $10,000 each.

HOUSE BILL 502 (RAPE VICTIMS)— Evidence of a rape victim's prior sexual conduct may be admitted only if the judge after a hearing finds that the evidence is relevant to a material fact and its value outweighs its prejudicial nature.

HOUSE BILL 513 (NOTARIES PUBLIC)— Authorizes notaries public to act statewide and places them under the direct supervision of the Secretary of State. Previously they could act only in their county of residence and were supervised by the county clerk.

HOUSE BILL 519 (LEGISLATORS SALARIES)— Increases salaries of members of the House and Senate from $8,400 to $15,000 per year. Also provides an additoinal $2,500 for the Speaker of the House and President Pro Tem ofthe Senate and an additional $1,500 for the Speaker Pro Tem and the Majority and Minority Floor Leaders.

HOUSE BILL 520 (STATE OFFICERS SALARIES)— Increases salaries of state officers as follows: Governor from $37,500 to $55,000; Lt. Governor from $16,000 to $30,000; Attorney General from $25,000 to $45,000; Secretary of State from $25,000 to $42,500; State Auditor from $20,000 to $42,500; and Treasurer from $20,000 to $45,000.

HCS FOR HOUSE BILL 521 (JUDGES SALARIES)— Increases the salaries of judges as follows: Supreme Court from $36,500 to $50,000; Court of Appeals from $34,000 to $47,500; Circuit Court from $31,000 to $45,000; St. Louis Court of Criminal Corrections from $31,000 to $45,000; Probate Judge with 30,000 or less population from $19,200 to $27,000; Probate Judge with 30,000-65,000 population from $19,800 to $27,800; Probate Judge with 65,000 or more population would be equal to Circuit Judge; Magistrate Judge with 30,000-65,000 population from $19,900 to $27,900; Magistrate Judge in second class counties and counties with 65,000-400,000 population from $20,800 to $32,900; and Magistrate Judge in 1st class counties and City of St. Louis from $25,400 to $33,000.

HCS FOR HOUSE BILL 541 (DEAF STUDENTS) — Requires each local school district which has 3 or more deaf students to provide special educational services for such children.

KSCS FOR HOUSE BILL 562 (PROFESSIONAL REVIEW BOARDS)— Exempts licensed pharmacists from actions for damages for acts as a member of pharmacy review committee which meets to maintain professional standards.

HCS FOR HOUSE BILL 577 (EMPLOYMENT OF HANDICAPPED)— Establishes a committee on Employment of the Handicapped.

HOUSE BILL 578 FORSTER CARE)— Requires the state to pay the full cost of foster care for homeless, dependent or neglected children. (Previously 50 per cent paid by state and 50 per cent by county.) Care includes room, board, clothing, medical care, dental care, social services and incidentals.

HOUSE BILL 601 (AID TO DEPENDENT CHILDREN)— Requires that as a condition to receiving aid to dependent children benefits a person must assign to the state his rights to support from an absent parent. Requires the state to establish a program for the collection of support payments from absent parents. Requires the prosecuting attorney to engage in any litigation necessary to collect such support. Determines the amount of benefit payments on a basis of a percentage of need set by the Division of Family Services within the limit of appropriations.

HOUSE BILL 610 (CREDIT INSURANCE)— Requires all credit life and credit accident and health insurers to issue a policy or certificate of insurance to the debtor. The amount of the insurance shall at no time exceed the balance due on the loan. Requires all credit insurance forms and policies to be on file with the Director of Insurance before use. No insurer shall issue credit insurance at a rate higher than that approved by the director. The amount charged to the debtor fof insurance shall not exceed the amount charged by the insurer. Debtor must be informed that he has the option of furnishing his own insurance from another souve. Compensation to the creditor shall not exceed 40 per cent o the permissible insurance rate.

HOUSE BILL 651 (SPECIAL BUSINESS DISTRICTS)— Permis a special business district to levy a tax on all persons doing business within the district rather than only those licensed to do business in the district.

HOUSE BILL 665 (PESTICIDES)— Amends the Missouri Pesticide Act to conform to federal law. Sets up a new category "non-certified applicators" who may use restricted use pesticides only on their own land or that of their employers. Makes a privat applicator's license expire in 5 years rather than 2. Permits the director to enter certified applicator's premises during normal working hours for purposes of inspection.

HOUSE BILL 702 (LOCAL GOVERNMENT RETIREMENT)— Gives members of the Local Government Employees' Retirement System an option to select an increased benefit until he qualifies for Social Security and a reduced benefit thereafter.

HOUSE BILL 703 (HIGHWAY COMMISSION)— Permits ths highway commission to contribute $12 per month toward medical and life insurance for its employees who are members of the Highway Employees and Highway Patrol Retirement System.

HOUSE BILL 707 (EMPLOYMENT SECURITY)— Would make the following classes of people eligible for unemployment benefits: school employees, elected government officials, judges, national guard, emergency employees, certain farm laborers, and prison inmates. Determines extended benefits of nthe basis of the last 13 weeks rather than th last 3 months.

HOUSE BILL 720 (INVENTORIES OF PROPERTY)— Permits the Stae Auditor to prescribe a value below which state property need not be tagged. Also limits tagging to nonexpendible items of property.

HOUSE BILL 726 (AUTOPSIES)— Permits a coroner or a medical examiner who performs an autopsy to retain the pituitary gland for purposes fo medical research education and therapy unless a contrary indication was given by the decedent or is declared by the next of kin.

HOUE BILL 841 (PAY RAISES)— Pay raises and uniform system of compensation for officials of state departments.

Death

A.D. Richardson

CLARKTON--Abner Driver Richardson, 51, a former alderman in Gideon, died Friday in Doctors Hospital at Poplar Bluff.

He was born April 29, 1926 in Blytheville, Ark., to the late Sam B. and Effie Hopper Richardson, and had lived in the Clarkton-Gideon area since 1937.

On April 19,1952 in Piggott, Ark., he married Ruth Cooper, who survives.

He was member of Lynn Oak General Baptist Church, served on the Gideon Board of Aldermen until he was disabled in 1965 and was an Army veteran of World War II.

Other survivors include: three daughters, Kathy Hewitt of Malden, Janice Hampton of Jonesboro, Ark., and Becky Richardson of the home; one brother, Sam Richardson Jr. of Clarkton; three sisters, Rachel Williams of Clarkton, Geraldi Davis of Malden and Hazel Vinson of Malden; and one grandson.

Services are scheduled at 2 p.m. today in Bradshaw Funeral Home at Gideon with the Rev. Jack Cole officiating.

Burial will follow in Mount Gilead Cemetery.

WILLIAM MOORE

SCOTT CITY--William Henry "Bill" Moore, 76, died at 5 p.m. Friday at his home.

He was born Jan. 27, 1901 at Farmington to the late Rev. and Mrs. George C. Moore.

He worked for District 10 Missouri State Highway Department as a patrolman and maintenance man in 1944. He had also worked for Department No. 1 of Illmo Special Road District for 14 years as an operator, and ran a service station in Illmo from 1958 until his retirement in 1965.

On Aug.2, 1920 at Farmington, he married Maude Elizabeth Jansen, who survives. Two daughters preceded him in death.

He was a member of St. Joseph Catholic Church, a past president of St. Joseph Holy Society and a former member of St. Vincent's Council No. 4 of Knights of Columbus.

Other survivors include: one son, Melvin S. Moore of Jonesboro, Ark., three daughters Mrs. Leon (Eula) Schmidt of French Village, Mary L. Moore of St. Louis and Mrs. Charles (Vida Mae) Hahn of Dupo, Ill.,: two brothers, John Moore of Tyler, Tex., and Fred Moore of Desert Hot Springs, Calif.; four sisters, Mrs. Roy (Latisha) Honer and Mrs. Joe (Betty) Goetz and Mrs. William (Barbara) McClellan of St. Louis and Mrs. Paul (Naomi) Menden of Farmington; and 15 grandchildren and 12 great-grandchildren.

Friends may call after 11 a.m. today at Amick-Burnett Funeral Chapel in Illmo, his rosary will be recited at 7:30 p.m. today.

A funeral mass is scheduled at 11 a.m. Tuesday in St. Joseph Catholic Church with the Rev. Robert Schumacher, pastor, officiating.

Burial, will follow in Calvary Cemetery at Fredericktown.

Pallbearers will be Bob and Bill Schmidt, Tony and Michael Moore and Richard and Kenny Hahn.

Helen McCrary

CAPE GIRARDEAU--Mrs. Helen O. McCrary, 66, died at 12:05 a.m. Saturday in St. Francis Medical Center.

She was born Dec. 19,1910 at Fornfelt to the late Mr. and Mrs. Harry Mifflin.

She was a riverboat cook and member of New Testament Baptist Church in Cape Girardeau.

Survivors include: one son, Richard Hink of Scott City; two sisters, Julia Masters and Charlotte Wilkerson of Cape Girardeau; and three grandchildren.

Friends may call at Amick-Burnett Funeral Chapel in Illmo, where services are scheduled at 2 p.m. Monday with te Rev. Harold Rankin, pastor of New Testament Baptist Church, officiating.

Burial will follow in Lightner Cemetery near Illmo.

Henry O. Harris

DEXTER--Henry Oscar Harris, 89, formerly of Catron, died at 9:40 a.m. Friday in Reeve's Nursing Home, where he had lived about three years.

He was born Sept. 3, 1887 in Brownwood to the late Edward and Mary Molly Harris, and was a member of the Assembly of God Church in Tallapoosa.

On March 1, 1907 in Brinkley, Ark., he married Willie Rheuark, who died June 7, 1974.

Survivors include: one son, E. C. Harris of Little Rock,Ark.; four daughters, Mrs. John Graham of Advance, Mrs. Tommy Chiles of Catron and Mrs. Ralph Oakley and Mrs. Frances Walker of St. Louis; and 24 grandchildren, 30 great-grandchildren and four great-great-grandchildren.

Services are scheduled at 2 p.m. today in O'Guinn Funeral Home at Sikeston with the Rev. Marvin Walters, pastor of the Tallapoosa Assembly of God Church, officiating.

Burial will follow in Pleasant Grove Cemetery near Bell City.

Lena Jordan

DETROIT, MICH.--Lena Cole Jordan, 84, of New Madrid, Mo., died Wednesday while visiting her daughters here.

Born Nov. 29,1892, she was the daughter of the late John and Mary Wilson Cole. In 1909, she married the late William Fox. In 1928, she married Jerry Jordan, who also preceded her in death.

She is survived by one son, Eugene Simpson Fox of Centerville, Ill., four daughters, Empress Freeman and Luvenia Brown of Detroit, Mary Hereford of St. Louis and Alice Johnson of New Madrid; two brothers, John Henry Cole of New Madrid and Jim Daniel Cole of Memphis; three sisters, Riller Warren of St. Louis, Cora Fisher of Tyronza, Ark., and Willie Dee Bunch of Chicago; and numerous grandchildren , great-grandchildren and great-great-grandchildren.

Friends may call after 10 a.m. today at Richards Funeral Home in New Madrid.

Services are scheduled at 2 p.m. today in the CME Baptist Church at New Madrid with the Rev. Joseph Buckner officiating.

Burial will be in Sand Hill Cemetery at New Madrid.

Ida Mae Wade

EAST PRAIRIE--Ida Mae Wade, 73, died Friday in Farmington State Hospital after an extended illness.

She was born May 9, 1904, the daughter of the late William and Sarah Ann Allen Smith.

She is survived by one son, James Clayton Wade of Gary, Ind., and a brother, Arthur Smith of Huntington Beach, Calif.

Grave rites were conducted in Oak Grove Cemetary at Charleston Saturday at 10 a.m. with Shelby Funeral Home of East Prairie in charge of arrangements.

Frank Herman Scheffer Jr.

CHARLESTON--A funeral mass for Frank Herman Scheffer Jr., 44, of Columbus, Miss., who died at 3 a.m. Friday while on a business trip to Lake City, Fla., is scheduled at 9 a.m. Monday in St. Henry Catholic Church.

Friends may call after 4 p.m. today at McMikle Funeral St. Henry Parish will assemble at 7 p.m. today for scripture reading and prayer.

Burial will be in IOOF Cemetery at Charleston.

Born Oct. 9,1932 in Mississippi County, he had lived in Columbus since 1959.

A member of St. Henry Catholic Church at Charleston, he was a sale representative for Gulf Economy Buildings in Columbus.

On Nov. 22, 1952, he married Verna Mae Shelby, who survives.

Other survivors include: his father, Frank H. Scheffer Sr. of Charleston; his mother, Mrs. Eathel Scheffer of Charleston; three daughters, Mrs. Robert (Martie) Stratton of West Point, Miss., and Michelle and Hallie Scheffer of the home; and three sisters, Mrs. Jim (Rosie) Chandler of Port Smith , Va., Mrs. Jacob (Barbara) Estes of Harvey, La., and Mrs. Jake (Glenda) Donaldson of Charleston.

Chinchilla firm charged with fraudulent acts

KANSAS CITY, Kan. (AP) — A local chinchilla breeding company has been charged with using fraudulent sales practices to attract investors, according to a suit filed by the Securities and Exchange Commission.

The suit, entered earlier this week in U.S. District Court, alleges that about 1,600 persons in 26 states have invested some $3 million in Royal American chinchilla breeding programs.

The complaint lists 14 alleged misrepresentations by the company to prospective investors and 18 critical omissions in advertising and sales pitches.

Manager of Oran funeral chapel dies

ORAN--James E. Cheek, 64, manager of Amick-Burnett Funeral Chapel, died at 3 a.m. Saturday of an apparent heart attack.

He was born Sept. 1, 1912 at Parma to the late Noah and Rebecca Prior Cheek.

On Nov. 4, 1933, he married Ruth McMillan, who survives.

He was employed as a locomotive engineer by Frisco Railway Co. until 1963, when he retired due to ill health. Since Dec. 18, 1965, he had been manager of the Amick-Burnett Funeral Chapel here.

He was a member of the Oran Trinity United Methodist Church, Chaffee Masonic Lodge No. 615, Cape Court No. 14 of Order of the Amaranth, Cavalry Shrine No. 8 of Order of White Shrine of Jerusalem and Brotherhood of Locomotive Engineers.

Other survivors include: two sons, Donald E. Cheek of Indianapolis and James D. Cheek of Farmington; one brother, Fred G. Cheek of Cape Girardeau; and four granddaughters.

One brother, John Cheek, preceded him in death in 1945.

Friends may call after 3 p.m. today at Amick-Burnett Funeral Chapel, where Masonic rites will be conducted at 7:30 p.m. Sunday.

Services are scheduled at 2 p.m. Monday in the funeral chapel with the Rev. Leland Butler, pastor of First United Methodist Church at Kennett, officiating.

Burial will follow in Forest Hills Memorial Gardens near Morley.

Pallbearers will be Lawrence Williams, Nick Bruckner, John Gosche, Curtis Halford, Ben Sietman and Harold Sietman.

Eagleton joins feast

Sen. Thomas F. Eagleton discusses a problem with Martha H. Jones of Cape Girardeau at a watermelon feast held in Dexter Friday night by local Democrats. About 75 persons showed up to talk with Eagleton and eat watermelon.

New deputy assessor

Scott County Assessor Gerald Inman, left, welcomes Mary Alice Schweer, to the assessor's office following her appointment as deputy assessor on July 5.

No. 1

Cont. from page 1

The accident occurred when a westbound tractor-trailer truck driven by George Shawn, 30, of St. Louis was struck while making a U-turn by a westbound car driven by Johnnie Lee Campbell, 22,of Charleston.

Campbell and two passengers in his car, Retta Harris, 19, of Charleston and Johnnie Harris, 8 months, of Charleston, received minor injuries and were taken to Missouri Delta Community Hospital.

Two persons received minor injuries in a one-car accident at 11:15 p.m. Friday on Village Creek Road two miles east of Fredericktown.

The accident occufred when a westbound car driven by James David Fox, 19, of Fredericktown ran off the road on a curve and struck a tree.

Fox and a passenger in the car, Martin Christian Kruger III, 19, of Fredericktown, received injuries and were taken to Madison County Memorial Hospital.

Two persons received minor injuries at 11 a.m. Saturday on a township gravel road three and a half miles northwest of Kennett.

The accident occurred when a southbound car driven by Brian D. Lankford, 15, of Kennett ran off the road at a high rate of speed, overturned and struck a utility pole.

Injured was the driver and a passenger, David Evans Shemanski, 15, of Valencia, Calif. They were taken to Dunklin County Memorial Hospital at Kennett.

Death

A.D. Richardson

CLARKTON--Abner Driver Richardson, 51, a former alderman in Gideon, died Friday in Doctors Hospital at Poplar Bluff.

He was born April 29, 1926 in Blytheville, Ark., to the late Sam B. and Effie Hopper Richardson, and had lived in the Clarkton-Gideon area since 1937.

On April 19,1952 in Piggott, Ark., he married Ruth Cooper, who survives.

He was member of Lynn Oak General Baptist Church, served on the Gideon Board of Aldermen until he was disabled in 1965 and was an Army veteran of World War II.

Other survivors include: three daughters, Kathy Hewitt of Malden, Janice Hampton of Jonesboro, Ark., and Becky Richardson of the home; one brother, Sam Richardson Jr. of Clarkton; three sisters, Rachel Williams of Clarkton, Geraldi Davis of Malden and Hazel Vinson of Malden; and one grandson.

Services are scheduled at 2 p.m. today in Bradshaw Funeral Home at Gideon with the Rev. Jack Cole officiating.

Burial will follow in Mount Gilead Cemetery.

WILLIAM MOORE

SCOTT CITY--William Henry "Bill" Moore, 76, died at 5 p.m. Friday at his home.

He was born Jan. 27, 1901 at Farmington to the late Rev. and Mrs. George C. Moore.

He worked for District 10 Missouri State Highway Department as a patrolman and maintenance man in 1944. He had also worked for Department No. 1 of Illmo Special Road District for 14 years as an operator, and ran a service station in Illmo from 1958 until his retirement in 1965.

On Aug.2, 1920 at Farmington, he married Maude Elizabeth Jansen, who survives. Two daughters preceded him in death.

He was a member of St. Joseph Catholic Church, a past president of St. Joseph Holy Society and a former member of St. Vincent's Council No. 4 of Knights of Columbus.

Other survivors include: one son, Melvin S. Moore of Jonesboro, Ark., three daughters Mrs. Leon (Eula) Schmidt of French Village, Mary L. Moore of St. Louis and Mrs. Charles (Vida Mae) Hahn of Dupo, Ill.,; two brothers, John Moore of Tyler, Tex., and Fred Moore of Desert Hot Springs, Calif.; four sisters, Mrs. Roy (Latisha) Honer and Mrs. Joe (Betty) Goetz and Mrs. William (Barbara) McClellan of St. Louis and Mrs. Paul (Naomi) Menden of Farmington; and 15 grandchildren and 12 great-grandchildren.

Friends may call after 11 a.m. today at Amick-Burnett Funeral Chapel in Illmo, his rosary will be recited at 7:30 p.m. today.

A funeral mass is scheduled at 11 a.m. Tuesday in St. Joseph Catholic Church with the Rev. Robert Schumacher, pastor, officiating.

Burial, will follow in Calvary Cemetery at Fredericktown.

Pallbearers will be Bob and Bill Schmidt, Tony and Michael Moore and Richard and Kenny Hahn.

Helen McCrary

CAPE GIRARDEAU--Mrs. Helen O. McCrary, 66, died at 12:05 a.m. Saturday in St. Francis Medical Center.

She was born Dec. 19,1910 at Fornfelt to the late Mr. and Mrs. Harry Mifflin.

She was a riverboat cook and member of New Testament Baptist Church in Cape Girardeau.

Survivors include: one son, Richard Hink of Scott City; two sisters, Julia Masters and Charlotte Wilkerson of Cape Girardeau; and three grandchildren.

Friends may call at Amick-Burnett Funeral Chapel in Illmo, where services are scheduled at 2 p.m. Monday with te Rev. Harold Rankin, pastor of New Testament Baptist Church, officiating.

Burial will follow in Lightner Cemetery near Illmo.

Henry O. Harris

DEXTER--Henry Oscar Harris, 89, formerly of Catron, died at 9:40 a.m. Friday in Reeve's Nursing Home, where he had lived about three years.

He was born Sept. 3, 1887 in Brownwood to the late Edward and Mary Molly Harris, and was a member of the Assembly of God Church in Tallapoosa.

On March 1, 1907 in Brinkley, Ark., he married Willie Rheuark, who died June 7, 1974.

Survivors include: one son, E. C. Harris of Little Rock,Ark.; four daughters, Mrs. John Graham of Advance, Mrs. Tommy Chiles of Catron and Mrs. Ralph Oakley and Mrs. Frances Walker of St. Louis; and 24 grandchildren, 30 great-grandchildren and four great-great-grandchildren.

Services are scheduled at 2 p.m. today in O'Guinn Funeral Home at Sikeston with the Rev. Marvin Walters, pastor of the Tallapoosa Assembly of God Church, officiating.

Burial will follow in Pleasant Grove Cemetery near Bell City.

Lena Jordan

DETROIT, MICH.--Lena Cole Jordan, 84, of New Madrid, Mo., died Wednesday while visiting her daughters here.

Born Nov. 29,1892, she was the daughter of the late John and Mary Wilson Cole. In 1909, she married the late William Fox. In 1928, she married Jerry Jordan, who also preceded her in death.

She is survived by one son, Eugene Simpson Fox of Centerville, Ill., four daughters, Empress Freeman and Luvenia Brown of Detroit, Mary Hereford of St. Louis and Alice Johnson of New Madrid; two brothers, John Henry Cole of New Madrid and Jim Daniel Cole of Memphis; three sisters, Riller Warren of St. Louis, Cora Fisher of Tyronza, Ark., and Willie Dee Bunch of Chicago; and numerous grandchildren , great-grandchildren and great-great-grandchildren.

Friends may call after 10 a.m. today at Richards Funeral Home in New Madrid.

Services are scheduled at 2 p.m. today in the CME Baptist Church at New Madrid with the Rev. Joseph Buckner officiating.

Burial will be in Sand Hill Cemetery at New Madrid.

Other survivors include: his father, Frank H. Scheffer Sr. of Charleston; his mother, Mrs. Eathel Scheffer of Charleston; three daughters, Mrs. Robert(Martie) Stratton of West Point, Miss., and Michelle and Hallie Scheffer of the home; and three sisters, Mrs. Jim (Rosie) Chandler of Port Smith , Va., Mrs. Jacob (Barbara) Estes of Harvey, La., and Mrs. Jake (Glenda) Donaldson of Charleston.

Chinchilla firm charged with fraudulent acts

KANSAS CITY, Kan. (AP) — A local chinchilla breeding company has been charged with using fraudulent sales practices to attract investors, according to a suit filed by the Securities and Exchange Commission.

The suit, entered earlier this week in U.S. District Court, alleges that about 1,600 persons in 26 states have invested some $3 million in Royal American chinchilla breeding programs.

The complaint lists 14 alleged misrepresentations by the company to prospective investors and 18 critical omissions in advertising and sales pitches.

Manager of Oran funeral chapel dies

ORAN--James E. Cheek, 64, manager of Amick-Burnett Funeral Chapel, died at 3 a.m. Saturday of an apparent heart attack.

He was born Sept. 1, 1912 at Parma to the late Noah and Rebecca Prior Cheek.

On Nov. 4, 1933, he married Ruth McMillan, who survives.

He was employed as a locomotive engineer by Frisco Railway Co. until 1963, when he retired due to ill health. Since Dec. 18, 1965, he had been manager of the Amick-Burnett Funeral Chapel here.

He was a member of the Oran Trinity United Methodist Church, Chaffee Masonic Lodge No. 615, Cape Court No. 14 of Order of the Amaranth, Cavalry Shrine No. 8 of Order of White Shrine of Jerusalem and Brotherhood of Locomotive Engineers.

Other survivors include: two sons, Donald E. Cheek of Indianapolis and James D. Cheek of Farmington; one brother, Fred G. Cheek of Cape Girardeau; and four granddaughters.

One brother, John Cheek, preceded him in death in 1945.

Friends may call after 3 p.m. today at Amick-Burnett Funeral Chapel, where Masonic rites will be conducted at 7:30 p.m. Sunday.

Services are scheduled at 2 p.m. Monday in the funeral chapel with the Rev. Leland Butler, pastor of First United Methodist Church at Kennett, officiating.

Burial will follow in Forest Hills Memorial Gardens near Morley.

Pallbearers will be Lawrence Williams, Nick Bruckner, John Gosche, Curtis Halford, Ben Sietman and Harold Sietman.

Eagleton joins feast

Sen. Thomas F. Eagleton discusses a problem with Martha H. Jones of Cape Girardeau at a watermelon feast held in Dexter Friday night by local Democrats. About 75 persons showed up to talk with Eagleton and eat watermelon.

New deputy assessor

Scott County Assessor Gerald Inman, left, welcomes Mary Alice Schweer, to the assessor's office following her appointment as deputy assessor on July 5.

No. 1 Cont. from page 1

The accident occurred when a westbound tractor-trailer truck driven by George Shawn, 30, of St. Louis was struck while making a U-turn by a westbound car driven by Johnnie Lee Campbell, 22,of Charleston.

Campbell and two passengers in his car, Retta Harris, 19, of Charleston and Johnnie Harris, 8 months, of Charleston, received minor injuries and were taken to Missouri Delta Community Hospital.

Two persons received minor injuries in a one-car accident at 11:15 p.m. Friday on Village Creek Road two miles east of Fredericktown.

The accident occurred when a westbound car driven by James David Fox, 19, of Fredericktown ran off the road on a curve and struck a tree.

Fox and a passenger in the car, Martin Christian Kruger III, 19, of Fredericktown, received injuries and were taken to Madison County Memorial Hospital.

Two persons received minor injuries at 11 a.m. Saturday on a township gravel road three and a half miles northwest of Kennett.

The accident occurred when a southbound car driven by Brian D. Lankford, 15, of Kennett ran off the road at a high rate of speed, overturned and struck a utility pole.

Injured was the driver and a passenger, David Evans Siemanski, 15, of Valencia, Calif. They were taken to Dunklin County Memorial Hospital at Kennett.

PCA men receive awards

Local Production Credit men received five of six gold awards presented at the Annual Missouri Production Credit Association Conference held at the Lodge of The Four Seasons June 30. Pictured from left, front row, Gordon Hill of Sikeston, Fred Alexander of Portageville, William Settles of Dexter; Curtis Robb of Poplar Bluff and Ray Edmonds of Charleston. Back row, Robert A. Wright, president of the Sikeston PCA; Ken Walters of Sikeston; Tom Love of Dexter; Fred Higdon of Poplar Bluff and Bill Chambers of Charleston. Jim Gosche of Portageville also participating.

PCA creditmen attend seminar

Robert A. Wright, Kenneth Williams, Wallace E. Waters, Gordon Hill and Kenneth Walters, all of the Sikeston Production Credit Association participated in the Missouri Production Credit Association Conference held June 30 through July 1 at The Lodge of The Four Seasons, Lake of the Ozarks.

The program entitled, "A Better Tomorrow" featured speakers giving the latest agricultural credit developments that will be of interest to both PCA personnel and PCA members.

The credit men gained information from Chris Johannsen, University of Missouri-Columbia associate agronomy professor on infra-red photographic crop and soils surveying, one of the newest tools becoming available to Missouri agriculture specialists and farmers. Johannsen explained that by using satellite photography and computers, agriculture specialists can make precise estimates of crop production, crop conditions and soil qualities around the world. By using infra-red photography from low flying airplanes, each individual farmer's soil and crop conditions can be monitored for more effective management.

Ronald Dozier, vice president, Federal Land Bank of St. Louis, explained that long-term lenders consider not only the collateral value of land, but also a farmer's plans, repayment abilities, and financial progress. "The days of collateral or equity lending appear to be over," stated Dozier, "we must consider income, as well as equity, in tailoring a loan to a particular applicant." Dozier told the group that long term lenders want an applicant to have sufficient working capital and a dependable source of short-term credit before committing to long term agreements.

Harold "Pete" Gay, vice president, operations, Dairymen, Inc., a milk producers' cooperative, claims one of the great strengths of America lies in her ability to put capital right along side the American farmer. Gay told the Production Credit loan officers that cooperatives need to make members feel like the true owners they are, and to constantly improve service. Gay asserted that if a cooperative and its members can adapt to change and render efficient service, "the future is about as bright as we want to make it."

The Sikeston PCA serves the seven counties of Bollinger, Butler, Cape Girardeau, Mississippi, New Madrid, Scott and Stoddard, and has made almost $50 million of loans the first six months of the year. The loans outstanding have reached $55,540,557 which is an all-time high record for the association.

Agri-Tour

Louis Martin, left and Herbert Bird discuss the annual Agri-Tour for Sikeston businessmen and women, to be held July 14. About half of the 60 first come first serve seats for the tour, and those interested in attending are encouraged to contact Trisha Pointer at 471-6385, for a reservation. The tour is to leave the Sikeston Chamber of Commerce office at 8 a.m. on the 14th, and return about 4 p.m. The tour itinerary includes visits to a grape vineyard, rice fields, an 8,000 acre plantation, the Martin Farm for lunch, the Delta Center, near Portageville, and a produce farm near Bertrand. (Daily Standard photo)

Irrigation water costs outlined by Ag engineer

NOVELTY, Mo. — Farmers who decide they can't afford not to irrigate are learning well the costs of putting extra water on fields – not the least is the cost of the extra water intself, says Robert Schottman, agricultural engineer at the University of Missouri-Columbia.

Schottman outlined some of those costs at the Greenley Center Field Day June 16 near here.

"Irrigation sources in Missouri include streams, reservoirs, municipal lagoons, livestock lagoons, shallow wells and deep rock wells," he said.

Of three sources Schottman studied, "the shallow well seems to be a remarkably cheap source of water." He also looked at deep wells and reservoirs.

"Annual costs for irrigation water from a deep well can run at about $8300," he said. Annual costs for pumping reservoir and shallow well water can run about $2200 and $16,00 respectively.

Schottman computes these fitures on the basis of pumping 5 inches of extra water onto 240 acres. So, annual costs for the deep well run at $34.65 an acre, with the reservoir at $9.05 and shallow well at $6.80.

Schottman said at the Greenley Center that irrigation studies at the University of Missouri-Columbia research farm will get started now that an earth dam is finished and the reservoir is filling.

"Annual fixed costs" for irrigation water from the deep well, including turbine pump and diesel engine, run about $5400, Schottman said. For the reservoir, farmers would need a centrifugal pump and a diesel engine and the total would go close to $2200 yearly for fixed costs. Farmers would need a turbine pump and engine for the shallow well and fixed costs would be about $1300, he said.

For pumping water to the surface, costs per acre inch of water again run highest for the deep well, at $2.40. The figure for the shallow well is 50 cents per acre inch. These figures assume fuel costing 50 cents a gallon "which is what farmers may anticipate in the furure," he said.

"All of these costs are ballpark figures," Schottman said. "Local conditions vary considerably.

"Also the price tag on the reservoir does not include the consideration of the land value of the reservoir site which has been lost to agricultural production."

"While costs for the deep well are far more expensive than the other two sources if land costs are not considered, the costs are still less than those quoted for water in the Western states," Schottman said.

"Also more irrigators should take a hard look at pumping water from streams or other points which at first seem to be too far away for practical use."

SeMo Angus activities will begin today

The Southeast Missouri Angus Association has plans for several summer activities. These are designed to be both educational as well as promotional.

Today at the Altenburg Fairgrounds at Altenburg, the association will hold its annual trade show. Also, a family picnic will be held at noon followed by a short business meeting. The picnic will be at 12:30 p.m. and show time should be about 2:30 p.m. If someone has some registered Angus they would like to show, have them there by 11 a.m. for weighing in.

A field day, conducted jointly by the Missouri Angus Association and the Missouri Cattleman's Association, will be held Aug. 6 at Hogard Brothers Angus Farm, St. Mary's and hosted by Larry Hogard and John Schumer. The program will benefit all beef producers, including the commercial cattleman.

Anyone interested is urged to come and participate in both these activities.

The larger brown seaweed or kelp that flourishes in the waters along the Pacific Coast grows one inch an hour or two feet a day, and eventually reaches lengths of 200 feet.

Adams selected chairman of Young Bankers

Richard Adams

Richard Adams, vice president of the Bank of Sikeston, was elected to be the chairman of the Young Bankers Committee of the Missouri Bankers Association at the annual meeting held June 15-17 at Tan-Tar-A Resort, Lake of the Ozarks. Bill C. Lee, executive vice president of the StateBank of Seneca, was chosen as the vice chairman for 1977-78.

The Young Bankers Committee annually sponsors an educational seminar for young people involved in banking. Additionally, the committee works actively on economics and money management at junior and senior high school levels.

The Missouri Bankers Association consists of more than 600 member banks across the state with headquarters in Jefferson City.

Higgerson attends Freedom Forum

Danny Higgerson, son of Mr. and Mrs. Wesley Higgerson of New Madrid, represented New Madrid County Farm Bureau at the 16th annual FreedomForum June 26-30 at the Missouri Military Academy in Mexico. The four-day forum, which is co-sponsored by Missouri Farm Bureau, the Missouri Chamber of Commerce and the Academy, is a seminar on Americanism and patriotism. Students attended classes stressing our American heritage, the basic principles upon which out country was founded and the American competitive enterprise system.

Tagging lobsters for study is ineffective because the crustaceans shed their shell as they grow. When marine biologists in Canada proposed marking the lobster with numbers, a tattoo artist balked because of their fearsome claws. The lobsters were placed in buckets of water generously laced with alcohol then tattooed before they sobered up.

Discusses dairy operation

Palmer Fritsche discusses his dairy operation with University of Missouri Extension Area Agricultural Engineering Specialist Steve Sanders. Fritsch raised his herd average to over 16,000 pounds of milk and 610 pounds of butterfat by mixing grain and haylage from the silos in rear and feeding to the milking herd in the feed bunk where animals are seen eating.

Fritsche Dairy automates for top dairy production

How can 5 percent of the American people feed the other 95 per cent, when in most of the world the figures reverse? According to Perry County dairy farmer Palmer Fritsche, one key is automation.

After 11 years in operation 3 miles east of Perryville, the 40th. anniversary of "June Dairy Month" is special to the Fritsche herd. The 97 Holsteins will produce approximately 148,000 pounds of milk this June (68,837 quarts). This This is a 48 per cent increase over last June, better than any "June Dairy Month" before.

Part of the reason--automation. "I can handle more cows," Fritsche states. Only 83 cows made up the milking herd last year.

Daily production per cow is also up--from 45.4 pounds last year to 52.0 pounds currently. The reason? Automation--indirectly. "I can mix grain with my haylage or silage, Fritsche affirmed, adding, "it has been proven that a complete ration of this kind gets the very best production."

Before Fritsche installed two sealed storage silos and a belt feeder a year ago, a complete ration was just a dream. In the spring of 1976, he first filled one structure with alfalfa haylage, the other with wheatlage. "The cows liked the sealed storage better," assured Fritsche, adding, "I had very little waste."

In October, good things really started to happen. "I fed out the wheat lage(wheat silage) and started mixing haylage with high moisture corn from the small silo, " he said. Production started to climb.

The12-month rolling herd average rose from 14,691 pounds milk and 538 pounds butterfat on October 1, 1976, to the current level of 16,189 pounds milk and 610 pounds butterfat. Automation enabled him to increase grain from 15 pounds per cow daily up to 23 pounds. Daily income over feed cost climbed 40 per cent.

"Herd health is better than its ever been since I started feeding a complete ration. Fritsche stated that indigestion of individual cows is almost eliminated.

The Fritsche farm consists of 255 acres, 110 acres was the original purchase and 75 acres across the road and 70 acres in the Mississippi River bottom were added later. There is a total of 137 acress cropland, 62 acres in pasture. An additional 70 acres is rented.

His new silos are 20 foot by 80 foot and 20 foot by 40 foot in size. He has a new 30 foot belt feeder and a pre-cast concrete bunk.

Three free-stall barns serve the milking and dry herd. A new barn, 38 feet by 76 feet by 18 feet, provides hay storage primarily for dry cows and heifers. The original hay barn, 32 feet wide by 90 feet long, supplies the milking herd when dry hay is fed.

Does Fritsche recommend investing in automation? "It depends on the individual," he states, but quickly adds, "if an investment pays off, the cost makes no difference. My investment is sizable, but it is paying off."

Official D.H.I.(Dairy Herd Improvement) records provide a guiding light for the Fritsche operation. "You can see where you are and which cows are making money," he states. Culling less profitable cows is obviously one of the herd's strong points.

"I use the record to watch for breeding dates, dry dates, and calving dates. The feeding guide helps me control grain feeding in the parlor," he continued. When asked if he could do without D.H.I., he readily admitted, "I don't think I could get the production average. Without the D.H.I. culling guide, my profits would be lower."

When asked about the future, Fritsche confessed that he is too involved with field work, raising heifers (about 125 on the place), and milking the cows. With only one hired hand, he is thinking of cutting down. "I enjoy working with the animals, but am spending too much time," he said, adding that he is considering selling third of the herd.

One of the Fritsche registered cows, Paula, recently milked 129 pounds on test day. With a few like that, he could retire the rest of the herd.

"June Dairy Month", finds the Palmer Fritsche dairy a very productive, vital operation.

Ag director is honored

JEFFERSON CITY — Jim Sprake, deputy director of the Missouri Department of Agriculture was recently presented the 1977 Friend of 4-H Award. He received the honor for his television and radio coverage of the University of Missouri Extension Youth and Missouri 4-H programs before his appointment as deputy director.

Sprake owned and published the Journal of Livestock and Agricultural before his appointment in April. He was farm service director of KFEQ radio station in St. Joseph until he purchased the Journal.

New Learue-McKinnie Store

Ground breaking ceremonies were held Friday for the new Learue-McKinnie Food Store on E. Malone. Onis Learue and Lynn McKinnie teamed up in the grocery business in 1963 when they bought a store on Smith St. Then bought another store in 1964 and consolidated both stores into the one in Miner in 1971. The new facilityy will increase their store area from 6,000 square feet to 10,120 square feet. Those attending the ground breaking are from left Larry Frankum, of Sikeston; Milton Sadler, of Miner; Mary Doggett of Sikeston; Al Fulton, of Sikeston; McKinnie; Learue; Lee Shell, of Sikeston; Bob Matthews, of Sikeston; Linda Humphrey and Ruth Ann Northcutt of the Sikeston Chamber of Commerce.

PCA men receive awards

Local Production Credit men received five of six gold awards presented at the Annual Missouri Production Credit Association Conference held at the Lodge of The Four Seasons June 30. Pictured from left, front row, Gordon Hill of Sikeston, Fred Alexander of Portageville, William Settles of Dexter; Curtis Robb of Poplar Bluff and Ray Edmonds of Charleston. Back row, Robert A. Wright, president of the Sikeston PCA; Ken Walters of Sikeston; Tom Love of Dexter; Fred Higdon of Poplar Bluff and Bill Chambers of Charleston. Jim Gosche of Portageville also participating.

PCA creditmen attend seminar

Robert A. Wright, Kenneth Williams, Wallace E. Waters, Gordon Hill and Kenneth Walters, all of the Sikeston Production Credit Association participated in the Missouri Production Credit Association Conference held June 30 through July 1 at The Lodge of The Four Seasons, Lake of the Ozarks.

The program entitled, "A Better Tomorrow" featured speakers giving the latest agricultural credit developments that will be of interest to both PCA personnel and PCA members.

The credit men gained information from Chris Johannsen, University of Missouri-Columbia associate agronomy professor on infra-red photographic crop and soils surveying, one of the newest tools becoming available to Missouri agriculture specialists and farmers. Johannsen explained that by using satellite photography and computers, agriculture specialists can make precise estimates of crop production, crop conditions and soil qualities around the world. By using infra-red photography from low flying airplanes, each individual farmer's soil and crop conditions can be monitored for more effective management.

Ronald Dozier, vice president, Federal Land Bank of St. Louis, explained that long-term lenders consider not only the collateral value of land, but also a farmer's plans, repayment abilities, and financial progress. "The days of collateral or equity lending appear to be over," stated Dozier, "we must consider income, as well as equity, in tailoring a loan to a particular applicant." Dozier told the group that long term lenders want an applicant to have sufficient working capital and a dependable source of short-term credit before committing to long term agreements.

Harold "Pete" Gay, vice president, operations, Dairymen, Inc., a milk producers' cooperative, claims one of the great strengths of America lies in her ability to put capital right along side the American farmer. Gay told the Production Credit loan officers that cooperatives need to make members feel like the true owners they are, and to constantly improve service. Gay asserted that if a cooperative and its members can adapt to change and render efficient service, "the future is about as bright as we want to make it."

The Sikeston PCA serves the seven counties of Bollinger, Butler, Cape Girardeau, Mississippi, New Madrid, Scott and Stoddard, and has made almost $50 million of loans the first six months of the year. The loans outstanding have reached $55,540,557 which is an all-time high record for the association.

Agri-Tour

Louis Martin, left and Herbert Bird discuss the annual Agri-Tour for Sikeston businessmen and women, to be held July 14. About half of the 60 first come first serve seats for the tour, and those interested in attending are encouraged to contact Trisha Pointer at 471-6385, for a reservation. The tour is to leave the Sikeston Chamber of Commerce office at 8 a.m. on the 14th, and return about 4 p.m. The tour itinerary includes visits to a grape vineyard, rice fields, an 8,000 acre plantation, the Martin Farm for lunch, the Delta Center, near Portageville, and a produce farm near Bertrand. Irrigation water costs outlined by Ag engineer

NOVELTY, Mo. — Farmers who decide they can't afford not to irrigate are learning well the costs of putting extra water on fields – not the least is the cost of the extra water intself, says Robert Schottman, agricultural engineer at the University of Missouri-Columbia.

Schottman outlined some of those costs at the Greenley Center Field Day June 16 near here.

"Irrigation sources in Missouri include streams, reservoirs, municipal lagoons, livestock lagoons, shallow wells and deep rock wells," he said.

Of three sources Schottman studied, "the shallow well seems to be a remarkably cheap source of water." He also looked at deep wells and reservoirs.

"Annual costs for irrigation water from a deep well can run at about $8300," he said. Annual costs for pumping reservoir and shallow well water can run about $2200 and $16,00 respectively.

Schottman computes these fitures on the basis of pumping 5 inches of extra water onto 240 acres. So, annual costs for the deep well run at $34.65 an acre, with the reservoir at $9.05 and shallow well at $6.80.

Schottman said at the Greenley Center that irrigation studies at the University of Missouri-Columbia research farm will get started now that an earth dam is finished and the reservoir is filling.

"Annual fixed costs" for irrigation water from the deep well, including turbine pump and diesel engine, run about $5400, Schottman said. For the reservoir, farmers would need a centrifugal pump and a diesel engine and the total would go close to $2200 yearly for fixed costs. Farmers would need a turbine pump and engine for the shallow well and fixed costs would be about $1300, he said.

For pumping water to the surface, costs per acre inch of water again run highest for the deep well, at $2.40. The figure for the shallow well is 50 cents per acre inch. These figures assume fuel costing 50 cents a gallon "which is what farmers may anticipate in the furure," he said.

"All of these costs are ballpark figures," Schottman said. "Local conditions vary considerably.

"Also the price tag on the reservoir does not include the consideration of the land value of the reservoir site which has been lost to agricultural production."

"While costs for the deep well are far more expensive than the other two sources if land costs are not considered, the costs are still less than those quoted for water in the Western states," Schottman said.

"Also more irrigators should take a hard look at pumping water from streams or other points which at first seem to be too far away for practical use."

SeMo Angus activities will begin today

The Southeast Missouri Angus Association has plans for several summer activities. These are designed to be both educational as well as promotional.

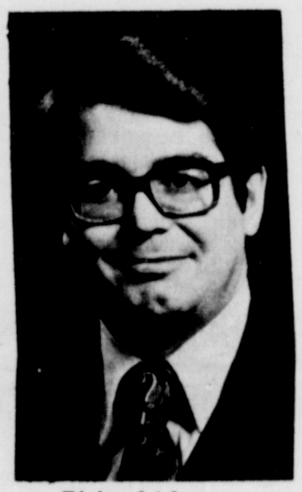
Today at the Altenburg Fairgrounds at Altenburg, the association will hold its annual trade show. Also, a family picnic will be held at noon followed by a short business meeting. The picnic will be at 12:30 p.m. and show time should be about 2:30 p.m. If someone has some registered Angus they would like to show, have them there by 11 a.m. for weighing in.

A field day, conducted jointly by the Missouri Angus Association and the Missouri Cattleman's Association, will be held Aug. 6 at Hogard Brothers Angus Farm, St. Mary's and hosted by Larry Hogard and John Schumer. The program will benefit all beef producers, including the commercial cattleman.

Anyone interested is urged to come and participate in both these activities.

The larger brown seaweed or kelp that flourishes in the waters along the Pacific Coast grows one inch an hour or two feet a day, and eventually reaches lengths of 200 feet.

Adams selected chairman of Young Bankers



Richard Adams

Richard Adams, vice president of the Bank of Sikeston, was elected to be the chairman of the Young Bankers Committee of the Missouri Bankers Association at the annual meeting held June 15-17 at Tan-Tar-A Resort, Lake of the Ozarks. Bill C. Lee, executive vice president of the StateBank of Seneca, was chosen as the vice chairman for 1977-78.

The Young Bankers Committee annually sponsors an educational seminar for young people involved in banking. Additionally, the committee works actively on economics and money management at junior and senior high school levels.

The Missouri Bankers Association consists of more than 600 member banks across the state with headquarters in Jefferson City.

Higgerson attends Freedom Forum

Danny Higgerson, son of Mr. and Mrs. Wesley Higgerson of New Madrid, represented New Madrid County Farm Bureau at the 16th annual FreedomForum June 26-30 at the Missouri Military Academy in Mexico. The four-day forum, which is co-sponsored by Missouri Farm Bureau, the Missouri Chamber of Commerce and the Academy, is a seminar on Americanism and patriotism. Students attended classes stressing our American heritage, the basic principles upon which out country was founded and the American competitive enterprise system.

Tagging lobsters for study is ineffective because the crustaceans shed their shell as they grow. When marine biologists in Canada proposed marking the lobster with numbers, a tattoo artist balked because of their fearsome claws. The lobsters were placed in buckets of water generously laced with alcohol then tattooed before they sobered up.

Discusses dairy operation

Palmer Fritsche discusses his dairy operation with University of Missouri Extension Area Agricultural Engineering Specialist Steve Sanders. Fritsch raised his herd average to over 16,000 pounds of milk and 610 pounds of butterfat by mixing grain and haylage from the silos in rear and feeding to the milking herd in the feed bunk where animals are seen eating.

Fritsche Dairy automates for top dairy production

How can 5 percent of the American people feed the other 95 per cent, when in most of the world the figures reverse? According to Perry County dairy farmer Palmer Fritsche, one key is automation.

After 11 years in operation 3 miles east of Perryville, the 40th. anniversary of "June Dairy Month" is special to the Fritsche herd. The 97 Holsteins will produce approximately 148,000 pounds of milk this June (68,837 quarts). This This is a 48 per cent increase over last June, better than any "June Dairy Month" before.

Part of the reason--automation. "I can handle more cows," Fritsche states. Only 83 cows made up the milking herd last year.

Daily production per cow is also up--from 45.4 pounds last year to 52.0 pounds currently. The reason? Automation--indirectly. "I can mix grain with my haylage or silage, Fritsche affirmed, adding, "it has been proven that a complete ration of this kind gets the very best production."

Before Fritsche installed two sealed storage silos and a belt feeder a year ago, a complete ration was just a dream. In the spring of 1976, he first filled one structure with alfalfa haylage, the other with wheatlage. "The cows liked the sealed storage better," assured Fritsche, adding, "I had very little waste."

In October, good things really started to happen. "I fed out the wheat lage(wheat silage) and started mixing haylage with high moisture corn from the small silo," he said. Production started to climb.

The12-month rolling herd average rose from 14,691 pounds milk and 538 pounds butterfat on October 1, 1976, to the current level of 16,189 pounds milk and 610 pounds butterfat. Automation enabled him to increase grain from 15 pounds per cow daily up to 23 pounds. Daily income over feed cost climbed 40 per cent.

"Herd health is better than its ever been since I started feeding a complete ration. Fritsche stated that indigestion of individual cows is almost eliminated.

The Fritsche farm consists of 255 acres, 110 acres was the original purchase and 75 acres across the road and 70 acres in the Mississippi River bottom were added later. There is a total of 137 acress cropland, 62 acres in pasture. An additional 70 acres is rented.

His new silos are 20 foot by 80 foot and 20 foot by 40 foot in size. He has a new 30 foot belt feeder and a pre-cast concrete bunk.

Threfree-stall barns serve the milking and dry herd. A new barn, 38 feet by 76 feet by 18 feet, provides hay storage primarily for dry cows and heifers. The original hay barn, 32 feet wide by 90 feet long, supplies the milking herd when dry hay is fed.

Does Fritsche recommend investing in automation? "It depends on the individual," he states, but quickly adds, "if an investment pays off, the cost makes no difference. My investment is sizable, but it is paying off."

Official D.H.I.(Dairy Herd Improvement) records provide a guiding light for the Fritsche operation. "You can see where you are and which cows are making money," he states. Culling less profitable cows is obviously one of the herd's strong points.

"I use the record to watch for breeding dates, dry dates, and calving dates. The feeding guide helps me control grain feeding in the parlor," he continued. When asked if he could do without D.H.I., he readily admitted, "I don't think I could get the production average. Without the D.H.I. culling guide, my profits would be lower."

When asked about the future, Fritsche confessed that he is too involved with field work, raising heifers (about 125 on the place), and milking the cows. With only one hired hand, he is thinking of cutting down. "I enjoy working with the animals, but am spending too much time," he said, adding that he is considering selling third of the herd.

One of the Fritsche registered cows, Paula, recently milked 129 pounds on test day. With a few like that, he could retire the rest of the herd.

"June Dairy Month", finds the Palmer Fritsche dairy a very productive, vital operation.

Ag director is honored

JEFFERSON CITY — Jim Sprake, deputy director of the Missouri Department of Agriculture was recently presented the 1977 Friend of 4-H Award. He received the honor for his television and radio coverage of the University of Missouri Extension Youth and Missouri 4-H programs before his appointment as deputy director.

Sprake owned and published the Journal of Livestock and Agricultural before his appointment in April. He was farm service director of KFEQ radio station in St. Joseph until he purchased the Journal.

Farm roundup

Cotton reserve expected to rebound this year

WASHINGTON (AP) — With a substantial boost in cotton acreage this year, Agriculture Department experts say that the U. S. reserve of cotton probably will rebound from its current 26-year low.

The department will not issue its first 1977 cotton production estimate until Aug. 11 and is prohibited by law from making projections on the crop until then. But officials are cautiously raising the possibility that this year's harvest will be significantly larger.

"Relatively favorable weather throughout the Cotton Belt during recent months suggests that yields may exceed 1976's national average of 465 pounds per harvested acre," the departmEnt's outlook board said Tuesday. "If yields, for instance, should average 480-500 pounds, production would total 12.5-to 13-million bales, up from 10.6 million in 1976."

The cotton carryover on Aug. 1, the beginning of the 1977-78 marketing year, is expected to be about 2.7 million bales, the smallest reserve since about that much was on hand in 1951 and 1952. A year ago, the cotton carryover was 3.7 million bales; two years ago, it was 5.7 million.

But reduced crops and strong demand from overseas markets have depleted the stockpile and have meant much higher prices for farmers. Exports this marketing year are estimated at 5.1 million bales against 3.3 million in 1975-76.

Officials said that exports in the coming year may decline to 4 million to 5 million bales. Despite some improvement in domestic cotton use, the situation points to a rebuilding of cotton stocks to perhaps 45 million bales by Aug. 1. 1978. Although the cotton supply remains "extremdly tight" now, prices recently have dropped in anticipation of the larger 1977 crop, the report said. Cpot prices for most grades of cotton are 10 to 20 cents below a year ago.

Based on July 1 indications, farmers planted 13.4 million acres of cotton this year, up from 11.7 million in 1976.

"Most of the increase from last year is originating in Texas, where weak sorghum prices encourage a 29 per cent expansion in cotton planthng, the report said.

WASHINGTON (AP) — Production of sunflower seed, used primarily to produce vegetable oil, is up this year, according to the Agriculture Department.

Farmers in North Dakota planted 1.2 million acres, a 94 per cent increase from 620,000 planted in 1976. Sunflower planting in Minnesota, at 460,000 acres, was more than double the 214,000 acres last year, according to USDA's Crop Reporting Board.

About 83 per cent of the North Dakota crop was planted for the seed's oil and about 89 per cent of the Minnesota crop was for that purpose, officials said. Other uses include sunflower seed for roasting as food.

Two other states — South Dakota and Texas — have been added to USDA's sunflower seed statistics. The South Dakota crop is about 180,000 acres this year, and Texas 250,000. No previous statistics were kept by the department.

In all, the agency said that 1976 sunflower seed production was worth $27.8 million to farmers in Minnesota and $66.4 million to growers in North Dakota.

WASHINGTON (AP) — Government scientists say that flour made from peanuts shows some promise as a protein food supplement and that it may be superior to soybeans in some respects.

The Agriculture Department says that peanut flours have a bland flavor and have low amounts of gas-producing sugars. Soybeans, on the other hand, generally have "an objectionable beany flavor" and are rich in gas-producing carbohydrates.

The peanut flour research is being conducted at the Southern Regional Research Center in New Orleans, La., and was described in the current assue of Agricultural Research, published by USDA's Agricultural Research Service.

"Peanut flours have been used experimentally (1 one per cent) in pineapple juice to triple the protein content, as a meat extender (42 per cent) and in bread (15 per cent)," the report said. "All of the products containing peanut flour were considered acceptable when compared with the conventional products."

The research involved three types of peanuts: Virginia, red-skin Spanish and white-skin Spanish.

"Interestingly, the white-skin peanut, which is not grown commercially because it lacks flavor, appears to have more potential as a source of oilseed protein because of its white skin," the report said.

"Since the skins have no color, the blanching or skin removal step in processing can be eliminated to save 2 to 4 cents per pound."

Also, the scientists said that the calcium content of flour made from white-skin peanuts "is considerably higher" than in the red-skin peanut flours.

WASHINGTON (AP) — One of the Agriculture Department's foreign trade experts says Egypt may be a billion-dollar market for American farmers by 1980.

John B. Parker Jr., of the department's Economic Research Service said in a report today that Egypt's demand for farm commodities "has skyrocketed and at present shows no sign of abating."

Although the report, which was published by USDA in a weekly issue of "Foreign Agriculture," did not include Parker's 1980 export projection, he told a reporter that the $1-billion mark "is developing faster than most people have thought."

Farm sales to Egypt totaled $454 million last year, only a slight increase from $425 million in calender 1975. But Parker said Egypt's surging demand for more meat, poultry and other consumer items is likely to push U.S. sales to around $650 million to $700 million this year.

Total U.S. farm exports to all countries were a record of $23 billion in 1976, up from $21.9 billion in 1975.

Only five countries were in the billion-dollar class last year: Japan, $3 billion; the Netherlands, $1.7 billion; West Germany, $1.6 billion; Canada, $1.3 billion, and the Soviet Union, $1.1 billion.

In his report, Parker said the rising Egyptian demand has been aided by economic assistance from OPEC countries, the United States and Western Europe.

About one-fourth of Egypt's $1.6 billion in total agricultural imports last year, in fact, was financed under concessional terms by the United States, the European Common Market and Australia, the report said.

The analysis also was based on reports from H. Reiter Webb Jr., who is the U.S. agricultural attache in Cairo.

"The upward trend in Egypt's agricultural imports will be difficult to reverse," the report said. "Consumer prices are fixed at artificially low levels, while demand is increasing."

One reason for the expected large gain this year is that Egypt has expanded its own poultry industry and is requiring more corn and soybean meal, two of the major commodities provided by the United States.

But wheat and flour continue to be the leading commodities sold to Egypt, last year accounting for almost half of the U.S. farm sales, the report said.

Despite the United States being the largest provider in the Egyptian market, stiff competition has developed from a number of other countries, including those in the Common Market, Australia, Canada and Brazil.

Parker said that, as a result, the U.S. share of Egypt's market dropped to 28.4 per cent of the total value in 1976, compared with 41.2 per cent in 1973.

But the rapid growth of Egypt as a major importer of U.S. farm commodities is unmistakable, he said. Sales were $43.6 million in 1972, $123 million in 1973, $363 million in 1974, $425 million in 1975 and $454 million in 1976.

WASHINGTON (AP) — A study of new federal beef grades adopted last year says there has been little effect on consumer demand or prices of beef.

The Agriculture Department said the new grading system has meant "farmers have been getting prices that more accurately reflect the quality of their cattle," but over-all there has been only a slight change in the value of carcass beef.

Officials said the new regulations have resulted in "larger premiums and discounts for cattle of differing yield and quality grades" since the system went into effect early in 1976.

Yield grading establishes the amount of usable retail cuts in beef carcasses. It was optional under previous regulations but has been mandatory under the new system.

"Two choice carcasses which were formerly priced the same might now be priced very differently, depending on their yield grades," the department said. "This gives cattle producers a strong incentive to raise meatier animals."

But the wider price differences for individual beef carcasses "did not cause retail beef prices to change, because these individual price distinctions tend to cancel each other out," the report said.

One result of the grading changes was that the amount of meat graded Prime and Choice — the two highest grades — increased, while the amount of Good-grade beef declined.

"Since no significant change in meat prices due to these additional quantities could be found, the study suggests that there was no lessening of demand by consumers in response to the changed grading rules," officials said.

WASHINGTON (AP) — Just as U.S. farmers are doing, cotton growers in four South American countries are stepping up production and are eyeing an expanded world market for their crops.

The Foreign Agricultural Service in the Agriculture Department said today that 1976-77 cotton exports by Argentina, Brazil, Colombia and Peru collectively are estimated at 915,000 bales. Looking to 1977-78, the agency said exports by the four countries may rise to 1.2 million bales.

By comparison, U.S. cotton exports this season are put at 5.1 million bales, up from 3.3 million in 1975-76. No firm estimate has been made by USDA on 1977-78 exports, but the department has tentatively projected those at four million to five million bales, depending on how the 1977 crop turns out in this country and abroad.

WASHINGTON (AP) — The government's farm price index, which includes major crops and meat animals, dropped 5 per cent between May 15 and June 15, the sharpest decline in 20 months.

Lower prices for soybeans, grain, beef cattle, vegetables and fruits were the main factors in the decline, the Agriculture Department said Wednesday.

Higher prices for hogs and milk helped moderate the overall decline. The decline was the first since farm product prices dropped 3 per cent from Oct. 15 to Nov. 15 and began climbing for six consecutive months.

According to USDA records, the May-June price drop was the sharpest since the index declined 5 per cent from Oct. 15 to Nov. 15, 1975.

As of mid-June, farm prices averaged 6 per cent below a year ago, the Department's Crop Reporting Board said. Meanwhile, prices which farmers pay to meet expenses also declined .5 per cent from May 15 but still averaged 5 per cent more than on June 15 last year.

The report said that the farm price of wheat was $2 a bushel, down from $2.29 on May 15 and $3.42 a bushel a year ago.

Corn was $2.09 a bushel, compared with $2.21 on May 15 and $2.74 on June 15 of last year.

Soybeans, which had set near-record prices earlier, were $8.18 a bushel at mid-June against $9.40 on May 15 and $6.16 a year ago, the report said.

The price of meat animals as a group declined 3 per cent during the month, although hog prices at $41.90 per hundred pounds were up from $40.70 on May 15. Beef cattle were $34.10 per hundred weight against $36.10 in May.

The index of vegetable prices dropped 9 per cent during the month, and fruit prices were 5 per cent below their May 15 average.

The department's parity ratio, which relates farm prices with cost, was 67 per cent on June 15 compared with 70 per cent in May and 74 per cent on June 15 of last year.

"Rainmaker" used in study of water run-off in NE

NOVELTY, MO.— A "rainmaker" is being used to research the water run-off from plots under various tillage methods at the Greenley Research Center near here.

It's all apart of an effort to determine tillage methods which will result in the least use of energy and maximum infiltration of water with the minimum loss to crop yield, said Jim Frisby, University of Missouri-Columbia agricultural engineer.

Farmers attending the Greenley Center Field Day June 16 got a chance to see how the rainmaker is used in the research, as operated by Jim Gregory, another UMC ag engineer, and Matt Nail, UMC graduate student.

"Our rainmaker is an attempt to stimulate actual rainfall as closely as possible, while allowing us to set the amount of 'rain' and the kinetic energy (impact force) of the spray at the soil surface," said Gregory.

The rainmaker consists of a water tank on a truck bed; a nozzle and hose runs the water into a sprinkler set up on top of a frame covering a plot. Parachute silk is used as a canopy over frame. The sprinkler oscillates over the plot, "to allow the adjustment of 'rainfall' amount and kinetic energy," Gregory said.

A suction device much like a vacuum sweeper picks up the water that does not "infiltrate" into the soil. The run-off is measured back into a second tank on the truck bed.

"This 'rain' research is part of a team effort of ag engineers," said Gregory. He, Nail and Jim Steichen, UMC ag engineer, are studying the infiltration phase of the research. Frisby and graduate assistant Jim Summers are doing the research on energy requirements of the tillage systems, which started about a year ago. The water use phase is just now getting started.

Six tillage preparations are being studied by the group: Moldboard plow; disc; chisel plow; chisel followed by disc; field (light) cultivation and no-tillage.

Frisby and Gregory said it'll be some time before they'll find the tillage method which results in the "greatest conservation of energy and water with minimum loss of yield."

Gregory said that other research has indicated that no-till, the method using least energy, has caused more water run-off.

"This may be because the no-tillage treatment results in more surface sealing in the soil (which prevents water infiltration) or it may be because snow tends to drift onto plots more since stubble is left on the field.

"But we'll have to see what we find out," said Gregory.

Part of the research time used to study "micro relief," requiring meticulous and tedious measurement of soil topography done before and after tillage, as soon as there is any water run-off and after all the 'rain' has been sprayed on the plot.

"Soil is a porous material with surface conditions changing with tillage and rain.

"The micro relief is done to measure the surface sealing of the soil," said Gregory.

While most people probably have never heard of the "rainmaker," one was used in the laboratory as long ago as the 1930's, said Gregory.

While most people probably have never heard of the "rainmaker," one was used in the laboratory as long ago as the 1930's, said Gregory.

"A portable rainmaker which can be taken to the field has been in use at the University of Missouri since 1967," he said. The USDA's Agricultural Research Service has used UMC's rainfall simulation equipment to conduct research near Kingdom City.

Gregory used a rainmaker as a part of his Ph.D. disertation at Iowa State, done last year, to measure water run-off on strip-mined lands.

Variety seen at UMC field day

NOVELTY, MO.— A variety of varieties is what visitors saw at a field day June 16 at the Greenley Center, a University of Missouri research farm.

The variety of varieties was 40 wheat and 40 oat varieties grown in test plot for a crop evaluation and comparison program. Visitors also inspected 82 grain sorghum hybrids.

The wheat and oat plots are used to develop new varieties and to evaluate these and varieties developed by commercial companies and other state experiment stations, said Dale Sechler, a University of Missouri-Columbia agronomist.

"In comparison tests, we look at disease and insect resistance, lodging and shattering resistance and other characteristics that contribute to high yields of good quality grain," he said.

Evaluations also are made at six other locations in the state.

Among the new varieties shown was Hart, an awned soft red winter wheat developed in Missouri. "Hart is the first awned soft wheat released for production in Missouri or surrounding areas. Generally, the awn improves the wheat's drought tolerance," Sechler said.

Other new varieties being released from state experiment stations and evaluated in Missouri are BEAU, Sullivan and Downy from Indiana, Parker 76 and Larned from Kansas, and Agree from Wisconsin. Among new oat varieties shown were Bates from Missouri and Lang from Illinois. Commercial companies' new varieties also are being evaluated.

The 82 grain sorghum plots at the Greenley Center provide information on the response of hybrids to environmental conditions, said R.D. Horrocks, another UMC agronomist. The plots at Greenley Center represent one of six testing sites in the state.

"By considering data from several locations, we are able to see a trend in hybrids best adopted and among top producers at each location. Those hybrids adapted to a wider range of environmental conditions--both weather and soil--are more likely to provide superior performance year in and year out," Horrocks said.

Wheat and oat crops are being harvested now, Sechler said, and results of the comparison tests will be available through extension centers in early August. Production and performance data for the grain sorghum hybrids will be available in December.

EPA suspends proposed air standards for grain elevators

WASHINGTON, D.C.— The U.S. Environmental Protection Agency is suspending its proposed air pollution regulations to reduce particulate matter emissions from new and modified grain elevators, EPA Administrator Douglas M. Costle said recently.

Generally, these standards would have affected only new elevators, and not existing ones. However, misunderstanding over the content and applicability of the reguations has led to considerable confusion. The suspension relieves any compliance burden associated with the original proposal.

"On Jan. 13, 1977 EPA peoposed standards of performance under Section III of the Clean Air Act for certain types of new, modified, and reconstructed grain elevators." Costle said. "The standards reflect the degree of emission reduction achievable using the best adequately demonstrated technology, taking into account the cost to the grain elevator industry. Final standards of performance have been set for for 24 other industrial categories."

"A great deal of controversy has been generated on this proposal, which is due in part to some basic misunderstandings of EPA's intent. EPA is now reconsidering certain issues--particularly the scope of coverage. In addition, amendments to the Clean Air Act passed by Congress, if enacted into law, would require further changes to the proposal.

"The comment period was originally scheduled to end March 14, 1977, 60 days after proposal; however, an additional 60 days was granted in response to requests by the Governor of Kansas (Robert F. Bennett) and others.

"Section III of the Clean Air Act provides that any source which commences construction on or after the date of proposal of a standard of performance is subject to the final standard. Because of the unusual circumstances associated with the proposed standards and grain elevator industry, this provision has created problems for owners and operators who need to begin construction or modification of grain elevators but are not sure what the final standard will be, or whether they will be affected. Among the unusual circumstances are these: The time between commencement of construction andstartupof a grain elevator is relatively short compared to many other industries covered by standards of performance; a substantial length of time has already passed since proposal because of the comment period extension; EPA is continuing to re-examine the proposed standard; and pending Clean Air Act Amendments, if enacted into law, would affect the standards applicability. Leaving the proposal in effect under these circumstances would unfairly create major legal uncertainties for those who need to construct or modify grain grain elevators at the present time. We are therefore suspending the proposal and will reinstate it upon completion of our reexamination of the proposed standard."

"EPA will give public notice when it decides to reinstate the proposal," Costle said. "Only those facilities commencing construction or modification on or after the date of such reinstatement would be affected."

The regulations originally proposed, called "New Source Performance Standards," were issued under the authority of Section III of the Clean Air Act, which requires EPA to set direct Federal emission limitations for categories of industries causing or contributing to the endangerment of public health or welfare. The standards reflect the degree of emission reduction achievable using the best adequately demonstrated technology, taking into account the cost to the affected industry.

For further information on the suspension contact Don Goodwin, EPA, Research Triangle Park, North Carolina 27711, phone (919) 688-8146, ext. 271.

The suspension notice will appear soon in the Federal Register.

Farm roundup

Cotton reserve expected to rebound this year

WASHINGTON (AP) — With a substantial boost in cotton acreage this year, Agriculture Department experts say that the U. S. reserve of cotton probably will rebound from its current 26-year low.

The department will not issue its first 1977 cotton production estimate until Aug. 11 and is prohibited by law from making projections on the crop until then. But officials are cautiously raising the possibility that this year's harvest will be significantly larger.

"Relatively favorable weather throughout the Cotton Belt during recent months suggests that yields may exceed 1976's national average of 465 pounds per harvested acre," the departmEnt's outlook board said Tuesday. "If yields, for instance, should average 480-500 pounds, production would total 12.5-to 13-million bales, up from 10.6 million in 1976."

The cotton carryover on Aug. 1, the beginning of the 1977-78 marketing year, is expected to be about 2.7 million bales, the smallest reserve since about that much was on hand in 1951 and 1952. A year ago, the cotton carryover was 3.7 million bales; two years ago, it was 5.7 million.

But reduced crops and strong demand from overseas markets have depleted the stockpile and have meant much higher prices for farmers. Exports this marketing year are estimated at 5.1 million bales against 3.3 million in 1975-76.

Officials said that exports in the coming year may decline to 4 million to 5 million bales. Despite some improvement in domestic cotton use, the situation points to a rebuilding of cotton stocks to perhaps 45 million bales by Aug. 1. 1978. Although the cotton supply remains "extremdly tight" now, prices recently have dropped in anticipation of the larger 1977 crop, the report said. Cpot prices for most grades of cotton are 10 to 20 cents below a year ago.

Based on July 1 indications, farmers planted 13.4 million acres of cotton this year, up from 11.7 million in 1976.

"Most of the increase from last year is originating in Texas, where weak sorghum prices encourage a 29 per cent expansion in cotton planthng, the report said.

WASHINGTON (AP) — Production of sunflower seed, used primarily to produce vegetable oil, is up this year, according to the Agriculture Department.

Farmers in North Dakota planted 1.2 million acres, a 94 per cent increase from 620,000 planted in 1976. Sunflower planting in Minnesota, at 460,000 acres, was more than double the 214,000 acres last year, according to USDA's Crop Reporting Board.

About 83 per cent of the North Dakota crop was planted for the seed's oil and about 89 per cent of the Minnesota crop was for that purpose, officials said. Other uses include sunflower seed for roasting as food.

Two other states — South Dakota and Texas — have been added to USDA's sunflower seed statistics. The South Dakota crop is about 180,000 acres this year, and Texas 250,000. No previous statistics were kept by the department.

In all, the agency said that 1976 sunflower seed production was worth $27.8 million to farmers in Minnesota and $66.4 million to growers in North Dakota.

WASHINGTON (AP) — Government scientists say that flour made from peanuts shows some promise as a protein food supplement and that it may be superior to soybeans in some respects.

The Agriculture Department says that peanut flours have a bland flavor and have low amounts of gas-producing sugars. Soybeans, on the other hand, generally have "an objectionable beany flavor" and are rich in gas-producing carbohydrates.

The peanut flour research is being conducted at the Southern Regional Research Center in New Orleans, La., and was described in the current assue of Agricultural Research, published by USDA's Agricultural Research Service.

"Peanut flours have been used experimentally (1 one per cent) in pineapple juice to triple the protein content, as a meat extender (42 per cent) and in bread (15 per cent)," the report said. "All of the products containing peanut flour were considered acceptable when compared with the conventional products."

The research involved three types of peanuts: Virginia, red-skin Spanish and white-skin Spanish.

"Interestingly, the white-skin peanut, which is not grown commercially because it lacks flavor, appears to have more potential as a source of oilseed protein because of its white skin," the report said.

"Since the skins have no color, the blanching or skin removal step in processing can be eliminated to save 2 to 4 cents per pound."

Also, the scientists said that the calcium content of flour made from white-skin peanuts "is considerably higher" than in the red-skin peanut flours.

WASHINGTON (AP) — One of the Agriculture Department's foreign trade experts says Egypt may be a billion-dollar market for American farmers by 1980.

John B. Parker Jr., of the department's Economic Research Service said in a report today that Egypt's demand for farm commodities "has skyrocketed and at present shows no sign of abating."

Although the report, which was published by USDA in a weekly issue of "Foreign Agriculture," did not include Parker's 1980 export projection, he told a reporter that the $1-billion mark "is developing faster than most people have thought."

Farm sales to Egypt totaled $454 million last year, only a slight increase from $425 million in calender 1975. But Parker said Egypt's surging demand for more meat, poultry and other consumer items is likely to push U.S. sales to around $650 million to $700 million this year.

Total U.S. farm exports to all countries were a record of $23 billion in 1976, up from $21.9 billion in 1975.

Only five countries were in the billion-dollar class last year: Japan, $3 billion; the Netherlands, $1.7 billion; West Germany, $1.6 billion; Canada, $1.3 billion, and the Soviet Union, $1.1 billion.

In his report, Parker said the rising Egyptian demand has been aided by economic assistance from OPEC countries, the United States and Western Europe.

About one-fourth of Egypt's $1.6 billion in total agricultural imports last year, in fact, was financed under concessional terms by the United States, the European Common Market and Australia, the report said.

The analysis also was based on reports from H. Reiter Webb Jr., who is the U.S. agricultural attache in Cairo.

"The upward trend in Egypt's agricultural imports will be difficult to reverse," the report said. "Consumer prices are fixed at artificially low levels, while demand is increasing."

One reason for the expected large gain this year is that Egypt has expanded its own poultry industry and is requiring more corn and soybean meal, two of the major commodities provided by the United States.

But wheat and flour continue to be the leading commodities sold to Egypt, last year accounting for almost half of the U.S. farm sales, the report said.

Despite the United States being the largest provider in the Egyptian market, stiff competition has developed from a number of other countries, including those in the Common Market, Australia, Canada and Brazil.

Parker said that, as a result, the U.S. share of Egypt's market dropped to 28.4 per cent of the total value in 1976, compared with 41.2 per cent in 1973.

But the rapid growth of Egypt as a major importer of U.S. farm commodities is unmistakable, he said. Sales were $43.6 million in 1972, $123 million in 1973, $343 million in 1974, $425 million in 1975 and $454 million in 1976.

WASHINGTON (AP) — A study of new federal beef grades adopted last year says there has been little effect on consumer demand or prices of beef.

The Agriculture Department said the new grading system has meant "farmers have been getting prices that more accurately reflect the quality of their cattle," but over-all there has been only a slight change in the value of carcass beef.

Officials said the new regulations have resulted in "larger premiums and discounts for cattle of differing yield and quality grades" since the system went into effect early in 1976.

Yield grading establishes the amount of usable retail cuts in beef carcasses. It was optional under previous regulations but has been mandatory under the new system.

"Two choice carcasses which were formerly priced the same might now be priced very differently, depending on their yield grades," the department said. "This gives cattle producers a strong incentive to raise meatier animals."

But the wider price differences for individual beef carcasses "did not cause retail beef prices to change, because these individual price distinctions tend to cancel each other out," the report said.

One result of the grading changes was that the amount of meat graded Prime and Choice — the two highest grades — increased, while the amount of Good-grade beef declined.

"Since no significant change in meat prices due to these additional quantities could be found, the study suggests that there was no lessening of demand by consumers in response to the changed grading rules," officials said.

WASHINGTON (AP) — Just as U.S. farmers are doing, cotton growers in four South American countries are stepping up production and are eyeing an expanded world market for their crops.

The Foreign Agricultural Service in the Agriculture Department said today that 1976-77 cotton exports by Argentina, Brazil, Colombia and Peru collectively are estimated at 915,000 bales. Looking to 1977-78, the agency said exports by the four countries may rise to 1.2 million bales.

By comparison, U.S. cotton exports this season are put at 5.1 million bales, up from 3.3 million in 1975-76. No firm estimate has been made by USDA on 1977-78 exports, but the department has tentatively projected those at four million to five million bales, depending on how the 1977 crop turns out in this country and abroad.

WASHINGTON (AP) — The government's farm price index, which includes major crops and meat animals, dropped 5 per cent between May 15 and June 15, the sharpest decline in 20 months.

Lower prices for soybeans, grain, beef cattle, vegetables and fruits were the main factors in the decline, the Agriculture Department said Wednesday.

Higher prices for hogs and milk helped moderate the overall decline. The decline was the first since farm product prices dropped 3 per cent from Oct. 15 to Nov. 15 and began climbing for six consecutive months.

According to USDA records, the May-June price drop was the sharpest since the index declined 5 per cent from Oct. 15 to Nov. 15, 1975.

As of mid-June, farm prices averaged 6 per cent below a year ago, the Department's Crop Reporting Board said. Meanwhile, prices which farmers pay to meet expenses also declined .5 per cent from May 15 but still averaged 5 per cent more than on June 15 last year.

The report said that the farm price of wheat was $2 a bushel, down from $2.29 on May 15 and $3.42 a bushel a year ago.

Corn was $2.09 a bushel, compared with $2.21 on May 15 and $2.74 on June 15 of last year.

Soybeans, which had set near-record prices earlier, were $8.18 a bushel at mid-June against $9.40 on May 15 and $6.16 a year ago, the report said.

The price of meat animals as a group declined 3 per cent during the month, although hog prices at $41.90 per hundred pounds were up from $40.70 on May 15. Beef cattle were $34.10 per hundred weight against $36.10 in May.

The index of vegetable prices dropped 9 per cent during the month, and fruit prices were 5 per cent below their May 15 average.

The department's parity ratio, which relates farm prices with cost, was 67 per cent on June 15 compared with 70 per cent in May and 74 per cent on June 15 of last year.

"Rainmaker" used in study of water run-off in NE

NOVELTY, MO.— A "rainmaker" is being used to research the water run-off from plots under various tillage methods at the Greenley Research Center near here.

It's all apart of an effort to determine tillage methods which will result in the least use of energy and maximum infiltration of water with the minimum loss to crop yield, said Jim Frisby, University of Missouri-Columbia agricultural engineer.

Farmers attending the Greenley Center Field Day June 16 got a chance to see how the rainmaker is used in the research, as operated by Jim Gregory, another UMC ag engineer, and Matt Nail, UMC graduate student.

"Our rainmaker is an attempt to stimulate actual rainfall as closely as possible, while allowing us to set the amount of 'rain' and the kinetic energy (impact force) of the spray at the soil surface," said Gregory.

The rainmaker consists of a water tank on a truck bed; a nozzle and hose runs the water into a sprinkler set up on top of a frame covering a plot. Parachute silk is used as a canopy over frame. The sprinkler oscillates over the plot, "to allow the adjustment of 'rainfall' amount and kinetic energy," Gregory said.

A suction device much like a vacuum sweeper picks up the water that does not "infiltrate" into the soil. The run-off is measured back into a second tank on the truck bed.

"This 'rain' research is part of a team effort of ag engineers," said Gregory. He, Nail and Jim Steichen, UMC ag engineer, are studying the infiltration phase of the research. Frisby and graduate assistant Jim Summers are doing the research on energy requirements of the tillage systems, which started about a year ago. The water use phase is just now getting started.

Six tillage preparations are being studied by the group: Moldboard plow; disc; chisel plow; chisel followed by disc; field (light) cultivation and no-tillage.

Frisby and Gregory said it'll be some time before they'll find the tillage method which results in the "greatest conservation of energy and water with minimum loss of yield."

Gregory said that other research has indicated that no-till, the method using least energy, has caused more water run-off.

"This may be because the no-tillage treatment results in more surface sealing in the soil (which prevents water infiltration) or it may be because snow tends to drift onto plots more since stubble is left on the field.

"But we'll have to see what we find out," said Gregory.

Part of the research time used to study "micro relief," requiring meticulous and tedious measurement of soil topography done before and after tillage, as soon as there is any water run-off and after all the 'rain' has been sprayed on the plot.

"Soil is a porous material with surface conditions changing with tillage and rain.

"The micro relief is done to measure the surface sealing of the soil," said Gregory.

While most people probably have never heard of the "rainmaker," one was used in the laboratory as long ago as the 1930's, said Gregory.

While most people probably have never heard of the "rainmaker," one was used in the laboratory as long ago as the 1930's, said Gregory.

"A portable rainmaker which can be taken to the field has been in use at the University of Missouri since 1967," he said. The USDA's Agricultural Research Service has used UMC's rainfall simulation equipment to conduct research near Kingdom City.

Gregory used a rainmaker as a part of his Ph.D. disertation at Iowa State, done last year, to measure water run-off on strip-mined lands.

Variety seen at UMC field day

NOVELTY, MO.— A variety of varieties is what visitors saw at a field day June 16 at the Greenley Center, a University of Missouri research farm.

The variety of varieties was 40 wheat and 40 oat varieties grown in test plot for a crop evaluation and comparison program. Visitors also inspected 82 grain sorghum hybrids.

The wheat and oat plots are used to develop new varieties and to evaluate these and varieties developed by commercial companies and other state experiment stations, said Dale Sechler, a University of Missouri-Columbia agronomist.

"In comparison tests, we look at disease and insect resistance, lodging and shattering resistance and other characteristics that contribute to high yields of good quality grain," he said.

Evaluations also are made at six other locations in the state.

Among the new varieties shown was Hart, an awned soft red winter wheat developed in Missouri. "Hart is the first awned soft wheat released for production in Missouri or surrounding areas. Generally, the awn improves the wheat's drought tolerance," Sechler said.

Other new varieties being released from state experiment stations and evaluated in Missouri are BEAU, Sullivan and Downy from Indiana, Parker 76 and Larned from Kansas, and Agree from Wisconsin. Among new oat varieties shown were Bates from Missouri and Lang from Illinois. Commercial companies' new varieties also are being evaluated.

The 82 grain sorghum plots at the Greenley Center provide information on the response of hybrids to environmental conditions, said R.D. Horrocks, another UMC agronomist. The plots at Greenley Center represent one of six testing sites in the state.

"By considering data from several locations, we are able to see a trend in hybrids best adopted and among top producers at each location. Those hybrids adapted to a wider range of environmental conditions--both weather and soil--are more likely to provide superior performance year in and year out," Horrocks said.

Wheat and oat crops are being harvested now, Sechler said, and results of the comparison tests will be available through extension centers in early August. Production and performance data for the grain sorghum hybrids will be available in December.

Hydrogen may be next tractor fuel

COLUMBIA, Mo.--"The long, upward climb in tractor engine efficiency seems destined to end in the next two to three years," according to a report by University of Missouri-Columbia agricultural engineers.

That's when the shift to diesel will be completed at the official U.S. tractor testing station in Nebraska.

"Since diesel oil is a fossil fuel," the engineers went on, "it too will someday be phased out.

"By 1990, we may see some other fuel--probably hydrogen--displacing diesel oil as a fuel for new tractors tested at the Nebraska station."

Carroll E. Goering, and his graduate student, Rafi K. Yahya, analyzed trends in tractor power and efficiency during the 55-year history of the Nebraska tests. Then they made projections to 1990.

"If present trends continue, the size of the new tractors will continue to increase sharply," they said. "Drawbar power will increase slightly faster.

"The average tractor tested is projected to increase 67 per cent in drawbar power between 1975 and 1990--mainly through increases in speed and tractor weight."

Goering emphasized that these trends referred to "new models of tractors tested at Nebraska." It will take several more years before American farmers feel these trends. For example, the last tractor powered by distillate was tested approximately 20 years ago in Nebraska, and the retirement of these tractors from active farm service is essentially completed. The last LPG (Liquified Petroleum Gas, or propane) tractor was tested at Nebraska about 10 years ago, and many of these tractors are still active on American farms.

"Tractors have become increasingly more efficient since the Nebraska tests began in 1920," said Goering. "The improvements prior to 1949 were undoubtedly due to design improvements, such as higher compression ratios. Since 1949, the shift to diesel tractors has helped keep energy efficiency rising.

"Diesel tractors are certainly more efficient than gasoline models. A diesel engine is about 25-30 per cent efficient, while a spark ignition engine)gasoline) is only 20-25 per cent efficient."

Goering said the next tractor fuel will likely be hydrogen, "because it packs a lot of energy in a small space."

Hydrogen had been in the "bulky" category with methane and nautral gas until Utah scientists worked out a hydride which allows storage in a considerably smaller volume than hydrogen as a gas. The hydrogen chemically binds to the hydride and forms a more compact fuel.

The futuristic hydrogen fuel would be stored in the form of a powder. Heating would release the gas for power. The hydrogen carburator would be similar th that on a LP gas tractor.

"We'd never have to worry about a shortage of hydrogen," said Goering, "but we would have to extend energy to separate it from water.

"The technology for separation and distribution to fuel supply places has not yet been set up to be efficient. In the future, we might use nuelear energy or possibly a solar plant to separate hydrogen from water."

When hydrogenb burns as a gas, it combines with oxygen in the air to form steam. So, no pollution problems.

Goering said hydrogen seems most likely as the "fuel of the future," but fuel cells also offer a possibility. Essentially, this operates like a continous battery. Hydrogen and oxygen are supplied to it, and it produces electricity.

These fuel cells, which have already been used in spacecraft, have almost 100 per cent efficiency, said Goering. "They are three times more efficient thant either diesel or gasoline engines at converting fuel to energy."

He said a steam engine doesn't offer much promise, because it's no more efficient than either gasoline or diesel. However, it does produce much less pollution and would be a possibility if non-fossil fuels could be used to produce the steam.

The chance of solar-powered tractors in the future "is nil," said Goering. "Even with continous sun, you'd need such a large collector area, it would be impractical."

Atomic engines don't show much promise either, he said, "because they haven't been proven economical on a small scale."

Big round bales can be dangerous

REALEIGH, N.C.--Few innovtions in agriculture have caught on as rapidly as the big, round bale. They save labor in baling and they lose little feed value while left in the field for months for livestock grazing.

But, baling these big bales has also cost life and limb to some farmers, said David Baker, University of Missouri-Columbia rural safety specialist.

"A three-pronged safety education program on big baler accidents is starting, with the help of manufacturers, extension safety specialists and the National Safety Council," Baker said.

Baker, along with William Fletcher of the National Safety Council in Chicago and Edmund Zeglen of Massey Feruson in Detroit, outlined "the anatomy of a safety problem" of big round bales June 27 before the American Society of Agricultural Engineers meeting in Raleigh, N.C.

"The first production machines reached the field in 1972," Baker noted. "Today, a conservative estimate puts the number of big round balers in use in the nation at over 50,000." The big round balers make up about one-third of the forage baler market.

As was true with other farm machinery innovations, not long after the machines got to the fields, the accident reports began hitting the newspapers, Fletcher said.

A recital of the accident occurences is as convincing as it is depressing.

"A Missouri farmer watching the discharge of bales was killed when the machine operator failed to notice him inspecting the machine and lowered the rear gates of the big round baler," Fletcher said.

"A Kentucky farmer was premanently crippled when he lifted a big round bale too high with his front-end loader. The bale rolled down the arms of the loader and crushed him. (A round bale weighs upwards of 800 to 1500 pounds.)

"An Iowa farmer lost one arm and mutiliated the other when he attempted to clear the clogged intake of a big round baler while it was operating. Another Iowa farmer transporting a big round heavy bale with a small tractor and front-end loader lost his life when his rig upset and caught on fire."

"While there is no completely accurate figure available on the number of accidnets resulting from big baler systems, newspaper clippings do indicate that we have a problem."

"While there is no completely accurate figure available on the number of accidents resulting from big baler systems, newspaper clippings do indicate that we have a problem."

However, coming up with "appropriate accident countermeasures" is more important that statistical analysis, Baker said.

However, coming up with "appropriate accident countermeasures" is more important that statistical analysis, Baker said.

Operators need to be made aware of hazards at several stages in the baling process, Baker said.

A detailed study by the National Safety Council of 14 big bale accidents found two types of accidents:

"Five of the incidents involved the baling machine while nine were the result of bale handling and transport accidents," Baker said.

"Machine related accidents were mostly triggered when an attempt was made to clear a plugged machine with the power take off engaged. These accidents were all serious, several were fatal. The non-fatal accidents usually resulted in amputation of one or both arms."

"Realizing that all hazards cannot be removed, manufacturers are making every effort to enclose or guard the hazard at its source so that exposure is controlled," Zeglen said.

"Also special consideration should be given to the operator who will be using the product so that warnings and instructions are as clear, complete, conspicuous and unambiguous as possible."

Also advertising and literature concerning the balers need to represent safety considerations as well as the products' good points, Zeglen said.

But additional education programs are also needed for operators.

"To be effective, and educational program is needed for all new employees and-or operators; when new equipment is introduced or purchased; when procedures have been revised or updated; and periodically thereafter, to refresh and retrain the operator to all the system's hazards," said Baker.

To do the job effectively, Baker said, "the entire system, from crop conditioning to handling and storage must be considered. Also the entirentire agricultural community including employees, farm wives and youth must be involved."

Baker noted that in the 1940's and early 50's, safety experts tackled and reduced cornpicker accidents.

"Although there was a marked reduction in snapping roller accidents, there was a marked in cease in stalk ejector type accidents. Therefore, any safety awareness program must concern itself with the entire system or product for which the program is developed."

To deal with the big bale safety problem, a slide set is currently being produced by the Universities of Missouri and Nebraska, with cooperation of the National Insttute for Farm Safety, the Farm Conference of the National Safety Council and the Farm and Industrial Equipment Institution.

The slide set to be produced will outline "countermeasures" to improve the big bale safety record and will have a training function for operators.

Extension safety specialists and equipment dealers will be able to use these slide sets to stress safety.

Some "countermeasures," as outlined by Baker, are as follows:

Shut off power before servicing or unclogging machinery.

Keep all shields and safety guards in place.

When possible, use a rear mounted bale transport device, rather than a front-end loader.

Keep the load low and the speed slow, if a front-end loader is used.

Ballast the rear of the tractor to improve traction and stability when using a front-mounted loader.

Don't raise the bale high enough on a front-end loader to see underneath.

Watch for bystanders when operating baler gates.

Stay away from moving parts.

Discharge bales on level ground, whenever possible, to prevent rolling.

If necessary to operate a front-end loader on a slope, head uphill when carrying a big bale.

Install four-post roll-over protective structure (ROPS) on loader tractors used for bale handling, and do not use a front end loader without an anti-roll-back device.

Make sure loader controls are "standard" aand use a tractor large enough to handle the load.

"While agriculture will always remain a hazardous industry, programs such as a big round baler safety program can reduce accident and improve the quality of life in rural America," Baker said.

Check stockbrokers out at the bank

By CROCKETT SCOTT

In selecting a stockbroker it might be wise to check him out with the leading banks in the community and determine how successful he has been in building up his own net worth.

Better still, go to the banks and ask for recommendations. Chances are you will come up with the name of some older practitioners; as it takes a while to pile up wealth.

Very likely when you finally select your broker and sit down with him for a chat, you will be disillusioned, because he probably won't tell you very much; and in all likelihood he won' t hand you any buy elections with the prediction you can double your money in a couple of months.

Quite possibly he will suggest the purchase of General Motors and du Pont with the recommendation that you place the certificates in your lockbox, and go on about your business of making a living.

Possible too is that this is excellent advice. For the chance of selecting a stock with a fast run-up is probably much less likely than putting your money on the right horse.

And with GM and du Pont in that box you are not going broke, --not for now, anyway.

Despite the status of common stocks in relation to real estate (which in a great many instances has continued to appreciate), most seasoned investment bankers preach the need for looking for earnings growth in common stocks; and then sticking with them.

Not many advise trading. Though its money for them, they will advise you that brokerage fees and losses will eat you up, and close you out; an elemental truth in the experience of many people.

If you are a person with substantial income and available cash, your successful broker (who has made some money for himself along the way) might put you into tax free municipal bonds; that is some of your portfolio.

Very probably he has obtained good results there himself.

It is well to remember that successful stockbrokers are not apt to tell you very much until they get to know you; until they can appraise the worth of your holdings.

Even then, they may not tell you much if they don't like you. So it may be wise not to be too pushy.

Of course, one has to make his own decisions; but if you ask your broker for advice on a continuing basis; and then buy an equity other than what he recommended, it is just possible that he may not want to continue counseling you.

Another consideration in choosing a stockbroker is to search of a professional who has a number of successful accounts, successful, that is ,. in buying the right common stock, preferred or bond.

A way to do that is to spend some time in brokerage houses. When you go to Memphis or St. Louis or Chicago or Kansas City, drop in to the boardrooms and sit a spell--- and listen.

In time you will strike up some acquaintances; and in time too you may pick up some valuable information.

The most currently dressed and fastest talking individual obviously is not the type to listen to.

Like the most successful stockbroker, the most successful invester or trader quite often is sparse with his comments. He is too busy thinking and doing his homework to have much time for dispensing knowledge.

Furthermore, he undoubtedly has had to work to find out what he knows; and he feels no compunction to generously bestow this profitable information on some Johnny come lately he sees frequenting the surroundings.

After he gets to know you he may be willing to trade information; but remember, it better be good. Else you are not likely to get even a pleasant "good morning" from your newly found acqwuaintance.

Investing in thestock market is serious business; and most certainly no place for a free loader.

Penney adds $107.9 million to state economy in '76

Dallas, Tex. . . . Marvin L. Tanner, regional vice president of J. C. Penney Company, Inc., announced today that the Company contributed more than $107.9 million to Missouri's economy during 1976.

Purchases from state manufacturers accounted for $78 million in merchandise which was distributed throughout the company's 1,989 J. C. Penney, The Treasury and Thrift Drug stores in the U. S., he said.

Combined payrolls in Missouri amounted to more than $28.1 million, going to approximately 9,383 full and part-time associates. The company employs 183,000 full-time nationally and overseas.

Tanner said the retailer paid about $1.8 million in corporate, property, use and unemployment insurance taxes in Missouri.

"Additionally, our retail stores collected many millions of dollars in sales taxes for state and local governments," he said.

"Missouri has been very important to our company throughout the years. We opened our first store in the state at Moberly in 1918 and we've always tried to operate in a manner that best benefits our Missouri customers," Tanner added.

At year-end, J. C. Penney operated 59 retail and support units in the state. Included are 54 J. C. Penney department stores and five other facilities and offices.

Tanner said 2,198 Missourians are stockholders in the company. One of the largest general retailers in the nation, J. C. Penney achieved $8.35 billion in sales last year.

Tanner indicated that the company is greatly pleased with its growth in the state over the past 59 years. Our continued growth and expansion in Missouri will be in direct relationship to the continued growth of the Missouri economy and a healthy Missouri business climate.

U.S. not to be involved in wheat surplus war in '77

WASHINGTON (AP) — The United States is not going to be involved in a wheat price war with other big grain countries, despite the biggest U.S. surplus in 14 years and prospects for another huge world harvest, says Agriculture Secretary Bob Bergland.

But if the world harvests turn out as large as now seems likely, American wheat farmers may have to cut back on 1978 production in order to qualify for federal price supports, Bergland said Monday. Meanwhile, Bergland is waiting for the 1977 world crops to materilize - and for Congress to complete new farm legislation before deciding whether to require farmers to "set aside" part of their land in 1978.

"If we go to the set-aside for the 1978 crop, it'll be if all else fails," he told a news conference.

Bergland said he does not know at this time how much land farmers might be required to hold back next year.

"It could be 10 per cent, it could be 20," Bergland said."My guess is it will be in that range."

Although the program, if adopted, will be voluntary, farmers will have to take part of their land from production to qualify for price support loans and other benefits.

"We think that in itself is a rather strong incentive to gain voluntary compliance in the program," Bergland said.

Hydrogen may be next tractor fuel

COLUMBIA, Mo.--"The long, upward climb in tractor engine efficiency seems destined to end in the next two to three years," according to a report by University of Missouri-Columbia agricultural engineers.

That's when the shift to diesel will be completed at the official U.S. tractor testing station in Nebraska.

"Since diesel oil is a fossil fuel," the engineers went on, "it too will someday be phased out.

"By 1990, we may see some other fuel--probably hydrogen--displacing diesel oil as a fuel for new tractors tested at the Nebraska station."

Carroll E. Goering, and his graduate student, Rafi K. Yahya, analyzed trends in tractor power and efficiency during the 55-year history of the Nebraska tests. Then they made projections to 1990.

"If present trends continue, the size of the new tractors will continue to increase sharply," they said. "Drawbar power will increase slightly faster.

"The average tractor tested is projected to increase 67 per cent in drawbar power between 1975 and 1990--mainly through increases in speed and tractor weight."

Goering emphasized that these trends referred to "new models of tractors tested at Nebraska." It will take several more years before American farmers feel these trends. For example, the last tractor powered by distillate was tested approximately 20 years ago in Nebraska, and the retirement of these tractors from active farm service is essentially completed. The last LPG (Liquified Petroleum Gas, or propane) tractor was tested at Nebraska about 10 years ago, and many of these tractors are still active on American farms.

"Tractors have become increasingly more efficient since the Nebraska tests began in 1920," said Goering. "The improvements prior to 1949 were undoubtedly due to design improvements, such as higher compression ratios. Since 1949, the shift to diesel tractors has helped keep energy efficiency rising.

"Diesel tractors are certainly more efficient than gasoline models. A diesel engine is about 25-30 per cent efficient, while a spark ignition engine)gasoline) is only 20-25 per cent efficient."

Goering said the next tractor fuel will likely be hydrogen, "because it packs a lot of energy in a small space."

Hydrogen had been in the "bulky" category with methane and nautral gas until Utah scientists worked out a hydride which allows storage in a considerably smaller volume than hydrogen as a gas. The hydrogen chemically binds to the hydride and forms a more compact fuel.

The futuristic hydrogen fuel would be stored in the form of a powder. Heating would release the gas for power. The hydrogen carburator would be similar th that on a LP gas tractor.

"We'd never have to worry about a shortage of hydrogen," said Goering, "but we would have to extend energy to separate it from water.

"The technology for separation and distribution to fuel supply places has not yet been set up to be efficient. In the future, we might use nuclear energy or possibly a solar plant to separate hydrogen from water."

When hydrogenb burns as a gas, it combines with oxygen in the air to form steam. So, no pollution problems.

Goering said hydrogen seems most likely as the "fuel of the future," but fuel cells also offer a possibility. Essentially, this operates like a continous battery. Hydrogen and oxygen are supplied to it, and it produces electricity.

These fuel cells, which have already been used in spacecraft, have almost 100 per cent efficiency, said Goering. "They are three times more efficient thant either diesel or gasoline engines at converting fuel to energy."

He said a steam engine doesn't offer much promise, because it's no more efficient than either gasoline or diesel. However, it does produce much less pollution and would be a possibility if non-fossil fuels could be used to produce the steam.

The chance of solar-powered tractors in the future "is nil," said Goering. "Even with continous sun, you'd need such a large collector area, it would be impractical."

Atomic engines don't show much promise either, he said, "because they haven't been proven economical on a small scale."

Big round bales can be dangerous

REALEIGH, N.C.--Few innovtions in agriculture have caught on as rapidly as the big, round bale. They save labor in baling and they lose little feed value while left in the field for months for livestock grazing.

But, baling these big bales has also cost life and limb to some farmers, said David Baker, University of Missouri-Columbia rural safety specialist.

"A three-pronged safety education program on big baler accidents is starting, with the help of manufacturers, extension safety specialists and the National Safety Council," Baker said.

Baker, along with William Fletcher of the National Safety Council in Chicago and Edmund Zeglen of Massey Feruson in Detroit, outlined "the anatomy of a safety problem" of big round bales June 27 before the American Society of Agricultural Engineers meeting in Raleigh, N.C.

"The first production machines reached the field in 1972," Baker noted. "Today, a conservative estimate puts the number of big round balers in use in the nation at over 50,000." The big round balers make up about one-third of the forage baler market.

As was true with other farm machinery innovations, not long after the machines got to the fields, the accident reports began hitting the newspapers, Fletcher said.

A recital of the accident occurences is as convincing as it is depressing.

"A Missouri farmer watching the discharge of bales was killed when the machine operator failed to notice him inspecting the machine and lowered the rear gates of the big round baler," Fletcher said.

"A Kentucky farmer was premanently crippled when he lifted a big round bale too high with his front-end loader. The bale rolled down the arms of the loader and crushed him. (A round bale weighs upwards of 800 to 1500 pounds.)

"An Iowa farmer lost one arm and mutiliated the other when he attempted to clear the clogged intake of a big round baler while it was operating. Another Iowa farmer transporting a big round heavy bale with a small tractor and front-end loader lost his life when his rig upset and caught on fire."

"While there is no completely accurate figure available on the number of accidnets resulting from big baler systems, newspaper clippings do indicate that we have a problem."

"While there is no completely accurate figure available on the number of accidents resulting from big baler systems, newspaper clippings do indicate that we have a problem."

However, coming up with "appropriate accident countermeasures" is more important that statistical analysis, Baker said.

However, coming up with "appropriate accident countermeasures" is more important that statistical analysis, Baker said.

Operators need to be made aware of hazards at several stages in the baling process, Baker said.

A detailed study by the National Safety Council of 14 big bale accidents found two types of accidents:

"Five of the incidents involved the baling machine while nine were the result of bale handling and transport accidents," Baker said.

"Machine related accidents were mostly triggered when an attempt was made to clear a plugged machine with the power take off engaged. These accidents were all serious, several were fatal. The non-fatal accidents usually resulted in amputation of one or both arms."

"Realizing that all hazards cannot be removed, manufacturers are making every effort to enclose or guard the hazard at its source so that exposure is controlled," Zeglen said.

"Also special consideration should be given to the operator who will be using the product so that warnings and instructions are as clear, complete, conspicuous and unambiguous as possible."

Also advertising and literature concerning the balers need to represent safety considerations as well as the products' good points, Zeglen said.

But additional education programs are also needed for operators.

"To be effective, and educational program is needed for all new employees and-or operators; when new equipment is introduced or purchased; when procedures have been revised or updated; and periodically thereafter, to refresh and retrain the operator to all the system's hazards," said Baker.

To do the job effectively, Baker said, "the entire system, from crop conditioning to handling and storage must be considered. Also the entirentire agricultural community including employees, farm wives and youth must be involved."

Baker noted that in the 1940's and early 50's, safety experts tackled and reduced cornpicker accidents.

"Although there was a marked reduction in snapping roller accidents, there was a marked in cease in stalk ejector type accidents. Therefore, any safety awareness program must concern itself with the entire system or product for which the program is developed."

To deal with the big bale safety problem, a slide set is currently being produced by the Universities of Missouri and Nebraska, with cooperation of the National Insttute for Farm Safety, the Farm Conference of the National Safety Council and the Farm and Industrial Equipment Institution.

The slide set to be produced will outline "countermeasures" to improve the big bale safety record and will have a training function for operators.

Extension safety specialists and equipment dealers will be able to use these slide sets to stress safety.

Some "countermeasures," as outlined by Baker, are as follows:

Shut off power before servicing or unclogging machinery.

Keep all shields and safety guards in place.

When possible, use a rear mounted bale transport device, rather than a front-end loader.

Keep the load low and the speed slow, if a front-end loader is used.

Ballast the rear of the tractor to improve traction and stability when using a front-mounted loader.

Don't raise the bale high enough on a front-end loader to see underneath.

Watch for bystanders when operating baler gates.

Stay away from moving parts.

Discharge bales on level ground, whenever possible, to prevent rolling.

If necessary to operate a front-end loader on a slope, head uphill when carrying a big bale.

Install four-post roll-over protective structure (ROPS) on loader tractors used for bale handling, and do not use a front end loader without an anti-roll-back device.

Make sure loader controls are "standard" aand use a tractor large enough to handle the load.

"While agriculture will always remain a hazardous industry, programs such as a big round baler safety program can reduce accident and improve the quality of life in rural America," Baker said.

Check stockbrokers out at the bank

By CROCKETT SCOTT

In selecting a stockbroker it might be wise to check him out with the leading banks in the community and determine how successful he has been in building up his own net worth.

Better still, go to the banks and ask for recommendations. Chances are you will come up with the name of some older practitioners; as it takes a while to pile up wealth.

Very likely when you finally select your broker and sit down with him for a chat, you will be disillusioned, because he probably won't tell you very much; and in all likelihood he won' t hand you any buy elections with the prediction you can double your money in a couple of months.

Quite possibly he will suggest the purchase of General Motors and du Pont with the recommendation that you place the certificates in your lockbox, and go on about your business of making a living.

Possible too is that this is excellent advice. For the chance of selecting a stock with a fast run-up is probably much less likely than putting your money on the right horse.

And with GM and du Pont in that box you are not going broke, --not for now, anyway.

Despite the status of common stocks in relation to real estate (which in a great many instances has continued to appreciate), most seasoned investment bankers preach the need for looking for earnings growth in common stocks; and then sticking with them.

differences . . . YET

What's been happening with the children of the "counter-culture" – the offspring of those young Americans who broke away from the traditional marriage system in the late 1960's and went in for communal living and other unorthodox family styles?

A tentative answer has been reported by the Family Lifestyles Project of the University of California, which for the past four years has been gathering data on 150 "alternative' families and living groups and comparing them with 50 traditional families.

The researchers have so far found almost no differences between the children of traditional and various forms of nontraditional families. Furthermore, parental upbringing during the first year of the children's lives did not vary appreciably, despite the philosophical and ideological differences between the parents. Indeed, it was discovered that in most cases, it was the child's presence that molded the parents' behavior.

Even in supposedly egalitarian "social-contract" marriages, the mother was the primary caretaker of the child in 95 per cent of the families. The results were the same in communal situations, even though the child was exposed to more adults. Also, surprisingly, the "alternative" mothers wanted to be at home more with the kids than did the traditional mothers.

The researchers suggest that one reason for this is that traditional mothers have been more affected by the women's movement because they already have the support of a family and have yet to break with accepted practices in some way.

They also believe that more pronounced differences among alternative lifestyle youngsters may show up as the grow older, primarily in the direction of more independence for their parents.

ALLIGATOR COMEBACK

The alligator is making a comeback in Florida – so much so that "urban alligators" have become a pest problem in communities bordering the Everglades.

Only a couple of decades ago this descendant of the dinosaurs was in danger of being hunted to extinction. Thanks to a federal ban on the sale of alligator hides and products, it has grown to such numbers that last year the Florida Game and Fresh Water Commission received 10,000 complaints of alligators invading residential canals and swimming pools or sunning themselves in backyards.

Fortunately, the alligators are more of a nuisance than a danger, though they can range up to 12 feet in length. There have been few reported attacks on humans (pets and poultry are another matter), and most Floridians welcome their reappearance.

If these lowly reptiles can survive urbanization, maybe we smart mammals can, too.

IT AIN'T A CRIME

WASHINGTON— If a neighbor came into your house and started to poison your water you would immediately call the police, have the person arrested, press charges of attempted murder and do everything to see that he got sent away to the slammer for a long time.

But if a company poisons your water and also the fish and wildlife in your rivers and lakes there really isn't much you can do.

You could show up at the company office and say "I want to see the man in charge of poisoning the lake water in this community."

"We have no such person," the receptionist will reply.

"Then I want to see the guy in charge of this factory."

If you're lucky you may get in to see the junior vice-president, in charge of cranks.

"Why are you poisoning my water and making my family sick?" you might ask.

"I'm sorry. We have no idea what you're talking about."

"Look out there. You see all that sludge pouring into the lake. Where the hell do you think it's going?"

"That's just a by-product of what we make here. We have to dispose of it some way."

"Why in the lake? Why can't you dispose of it some other way?"

"If we did it any other way we would have to charge more for the product and pass the cost on to the consumer. You wouldn't want us to do that would you?"

"I don't care what it costs the consumer. Why should I be poisoned because you can't figure out what to do with your sludge?"

"Our laboratory technicians have measured the waste from our plant and have assured us that there is no danger to anyone's health."

"Big deal. Suppose they came in with a report that it did endanger our health."

"Our technicians would never do that. They're scientists."

"Well, I'm going to go to the government and tell them you're poisoning the water."

"I wouldn't do it if I were you. If we had to close this plant we'd put 500 people out of work. You wouldn't want to be responsible for putting 500 people out of work, would you?"

"You mean my choice is drinking poisoned water or putting people on the unemployment rolls?"

"It will be on your conscience - - not mine."

Let's suppose that you did go to the government and complain.

"Do you know that the Polluted Corporation is spewing millions of gallons of water into the lake?" you ask the government official.

"We're aware of it. We have a citation against them now."

"What does that mean?"

"It means they have to show cause as to what they're doing to stop polluting the lake."

"So?"

"They've taken it to court. As a matter of fact it's been in the courts for two years. They have very good lawyers."

"Why don't you arrest them and throw the whole gang in jail?"

"We can't do that. If they plead 'No Contest' and promise to stop doing it we would accept it as a pledge of good faith. But if they fight it and then appeal, we have to let justice take its course."

"What does that mean?"

"They could be fined as much as $50,000."

"What's $50,000 to that corporation?"

"I know it's not much, but you can't send men to jail just for poisoning a lake."

"They're poisoning my family and everyone else around here. Isn't that a form of murder?"

"The courts don't consider it a crime. The only way the managers of the factory could be sent to jail is if the judge told them to stop it and they didn't. Then they could be held in contempt of court."

"And what do I do till then?"

"I would go and see the comapny and formally complain. It couldn't hurt."

20 YEARS AFTER THE HUNGARIAN REVOLT

From The New York Times

Wide attention is properly being paid these days to the anniversary of the Hungarian Revolution of 1956. The man installed in power by Soviet tanks, Janos Kadar, is still there. Hungary is so completely a Soviet satellite that Hungarian troops were required to participate in the invasion of Czechoslovakia in 1968. Skeptics may well ask why the anniversary of a short, abortive uprising should be honored in the democratic world.

The answer derives from the fact that in the long run men are ruled by ideas more than by guns. The aims of the Hungarian Revolution were in fact partially realized even though the revolt itself was drowned in treachery and in blood.

Today the average Hungarian is not only materially far better off than he was two decades ago, but is in effect a co-conspirator with his national leaders in an arrangement providing constrained liberty-which is better than no liberty at all. Russia will not voluntarily free Hungary and the Hungarians are too weak to evict their Soviet masters. But with that situation accepted as a fact of life, the Hungarian people are today enjoying a far wider range of discussion, knowledge and international contacts than would have seemed possible in 1956.

The most important accomplishment of the Hungarian Revolution was to remove any doubt in the Kremlin that the old Stalinist order was no longer viable and that fundamental changes had to be made in the Soviet Union as well as in the captive nations. The result, in Hungary, was the conclusion that the citizens had to be won over by a program of appeasement instead of by repression. The Kremlin determined that the basis of state policy had to be a broad coalition based on national conciliation, as expressed in Kadar's formula: "He who is not against us is with us."

But Moscow deceives itself if it thinks the woulds of 1956 have healed. Neither the Hungarian people nor the world has forgotten the martyrs of the revolution, headed by Prime Minister Imre Nagy and Defense Minister Pal Maletar, both of whom were murdered as a result of almost unbelievable Russian treachery. Pal Maletar, invited to negotiate in good faith with Soviet representatives for the withdrawal of Russian troops from Hungary, was seized and executed; Nagy was similarly seized by the Russians despite a safe-conduct guarantee by their own new puppet regime. Their sacrifice, and that of the others who died in those two glorious and terrible weeks, will be remembered as long as the Hungarian people value freedom.

XXX

A Better Bicycle
From The Miami Herald

Research at Massachusetts Institute of Technology has developed two new versions of what the world really needs-a better bicycle. Both versions are safer, speedier and more comfortable-or should we say less uncomfortable?—than conventional bicycles. Both are very logical and scientific.

And both will fail. They will fail because, logic or no, both versions require the rider to assume a posture which, though anatomically and aerodynamically efficient, looks ridiculous on a bicycle-namely, leaning back. Way back.

So although we applaud MIT's efforts to reinvent the wheel, we suggest that next time the profs in engineering consult with the profs in psychology (or marketing) before they proceed. If that fails, they should talk to the guys who invented the Edsel.

XXX

THE ROOTS OF 'ROOTS'
From The Boston Globe

A dispute over the sources used by author Alex Haley to assemble "Roots" should not detract from the book's important contribution to our understanding of black history in America.

A British journalist, Mark Ottaway, has challenged the accuracy of the part of Haley's book dealing with his family's origins in a village now part of Gambia. The details hang on a verbal account by an African griot or oral historian that appeared to Haley to match his family's own lore, passed word of mouth from generation to generation for nearly two centuries.

That there should be such a challenge is hardly surprising. Haley's own description of his methods, of his travel to Africa and to London looking for details of slave ship movements, make it quite clear there could be errors about whether he had actually found the right village and the right family. Haley expressed confidence he had succeeded but gave readers ample material to exercise their own skepticism if they so chose.

The detail is really beside the point. Haley was working with a much broader and well-documented truth: that blacks were brought in large numbers, under appalling conditions, to serve as slaves in this country. Haley deals with the unhappy fact that their capture often involved black as well as white slave traders, and that some of these black captors themselves became enslaved. His portrayal of the basic character of this aspect of Afro-American slavery is not challenged and is valid and useful. Its utility remains intact even if Haley turns out not to have succeeded in finding the village of his great-great-great-grandfather, Kunta Kinte.

Haley's book is fascinating because it gives a sense of sweep covering six generations. He could only flesh out its skeleton with inevitably fictionalized details of daily life in a slave family.

Some of those who watched the television adaptation of Haley's book in January seem to have reacted to its depictions of brutality by denying they existed or asserting Haley's view was one-sided. Such doubts may be fed by the British journalist's challenge. But denials will only deprive the critics of an opportunity to see our society more clearly through Haley's saga.

XXX

REACHING THE VERY NEEDY
From The Kansas City Star

There is a national consensus that the food stamp program is in need of serious reform, but how to achieve improvement is a matter of considerable debate in Congress and the Carter Administration. The fact that all participants are settled on the need for overhauling, however, is encouraging.

Currently there are 17,300,000 recipients who pay more than 3 billion dollars in cash to some 15,000 firms, banks, post offices, welfare offices, churches, corner stores and even fire stations which sell stamps. No other federal assistance program involves the collection of so much money from so many persons through so many private and public agents. The resulting problems in controlling the use and flow of so much money have become monumental. Every recent administration has sought reform unsuccessfully.

Now, however, a deadline is approaching. The program will expire at the end of this fiscal year without new legislation. Bob Bergland, agriculture secretary, recently outlined what the Administration would like to see achieved. He proposes to eliminate from benefits about 1,500,000 persons, whose incomes fall above the poverty limit for a family of four. The revamped program would add possibly as many as 2,500,000 persons, now too poor to purchase stamps, by providing $76 a month in free stamps. Bergland says the plan might save as much as $300,000,000 a year.

Given the resources and food production capacity of the United States and the inherent generosity of its citizens, it is imperative that every American should have enough to eat for proper nutrition. That is accepted virtually without reservation. But, while reaching toward that objective, the Government also has an obligation to taxpayers to reduce food stamp frauds, which have become a national scandal. Any program must be designed to increase justified participation by those in need, while eliminating those who do not belong there.

Inside Labor

By Victor Riesel

End of UN?

U. S. Delegates, Angered by Marxist Bloc's Constant Abuse, Demands Quitting the ILO

NEW YORK – The first tiny, but bold, step on the long road out of the United Nations has been taken by an angry UN specialized agency – a frustrated delegation finally in revolt against buying the spiked shoes for Arab, African and Communist blocs to bloody and boot the U.S. publicly, passionately and derisively.

That's the bottom line of this story. These delegates have just returned from the 63rd annual world conference of the International Labor Organization in overcrowded, overpriced, commercialized Geneva, Switzerland.

For example: there for three weeks the U.S., which has been assessed $42 million in dues as its 25 per cent share of the ILO's new biennial budget, was assaulted by the Panamanian representative as a colonial exploiter and by the gentleman from the Somali Democratic Republic, a torturous Marxist dictatorship, as an imperialist nation which could get the hell out of the ILO and no one would care.

Somalia pays $34 a week in dues.

The Panamanian delegate, Angel Gomez, and the East African from Somali (now invading democratic Kenya) and scores like them who attend for the hors d'oeuvres, the free whiskey, the expensive hotel rooms and some gay living as well as for the pleasure of blasting the U.S., were cheered by the Cubans, the Soviets and the rest of the Communist bloc.

There were other abuses during the three-week world assembly. Like the absolute disregard of due process and violation of the ILO constitution. It was written in 1919 (under the League of Nations) by a commission whose chairman was the then AFL president Samuel Gompers.

To the Arab-African-Soviet and Group of 77 coalition, due process and everything capitalist or non-collectivist went out with pterodactyls. But I'll get to the maneuverings in a minute.

It's vital to report that during the June ILO world assembly the anti-democratic Marxist coalition so brutalized the U. S. and due process that our tripartite delegation abstained from voting on the 1978-79 budget.

The U. S. refused to commit itself. We may well quit the ILO on Nov. 5, 1977. This is the deadline for the end of the mandatory two-year notice of departure given the ILO on Nov. 5, 1975 by ex-Secretary of State Kissinger.

Thus the U. S. took the first small but hardly mincing step out of the UN.

When we refused to pledge our millions of dollars insiders predicted "this may well be the end of the ILO." This would be the first American bolt from a UN agency. It would pull the underpinnings of the United Nations itself – since demeaning of the U. S. in the ILO is merely an echo of what happens daily in the big glass house over on the East River.

What finally angered the U.S. government-labor-industry delegation in Geneva was the deliberate drubbing given us by what's been called "the tyrannical majority" of the 135 member nations of the ILO in sheer disdainful disregard of the Americans' plea for due process.

All this began during the ILO's 1974 annual June congress. Led by the Arab bloc the Marxist coalition forced through a resolution condemning Israel for alleged expleitation of and discrimination against Arab workers on the West Bank, in Gaza and other occupied territories. There was of course no mention of the big standing Soviet army in Czechoslovakia, Poland, Hungary or East Germany or verifiable Soviet labor camps.

And then the Marxist majority disregarded the ILO constitution which called for submitting resolutions through channels. And for first investigating complaints against oppression of labor, etc. The Arab-Soviet sponsored resolution was simply railroaded through. Further, no evidence was presented. Merely the pronouncement which in effect said that Israel's occupation of the territories was the equivalent of racial discrimination and exploitation.

And the resolution ordered the ILO 's $100,000-a-year director general Francis Blanchard to do something about it immediately. Meaning, get the Israelis out of the occupied territories. Military action hardly is in the jurisdiction of the ILO, which was created to give democratic governments, management and labor a free enterprise arena in which to cooperate.

For several years now Israel has been ready to present its views. And last month the American delegation merely sought to have it all go through due process. Give it to a committee of specialists. Let them investigate. After all, the ILO invented fact-finding and conciliation.

The technical U.S. strategy last month was to get the whole matter properly examined by moving the discussion to the Standing Orders Committee. But the body into which the Marxist coalition maneuvered the resolution was something called the conference's Structure Committee which they control. There, it was bottled up.

Thus the old anti-Israeli resolution, pushed through in 1974 without due process, without due committee hearings or probes as called for by the constitution, still holds as the opinion of the ILO.

In preparation for the recent global ILO conference, the Marxist coalition left nothing to chance. First, in March the Arab labor ministers met in Cairo. They worked out the strategy for stonewalling the U.S. They then passed their game plan on to the African labor ministers who met later in Tripoli, Libya. Then both blocs went to the official Group of 77. That was it. Together they have over 110 anti-U.S. votes.

You can't beat it. Why pay for it? So on June 24, the U.S. Chamber of Commerce board of directors, which speaks for America's employer delegation, voted to pull out of the ILO. Their chief delegate is the articulate Charles Smith who, talking for himself, says we must leave.

The AFL-CIO agrees. So do the government representatives. In a few weeks the cabinet-level committee on the ILO will meet. Most of its members are for bolting.

But now it will be up to the American chief of state Jimmy Carter. If he takes his advisers' advice, and that of the recent delegation, he'll lead the parade by taking the U.S. out of the ILO Nov. 5. Just quit. Save the $67 million – and America's dignity.

WASHINGTON MERRY-GO-ROUND

CIA Gave Money to Israel, Too

by Jack Anderson and Les Whitten

WASHINGTON -- The story broke last February that Jordan's King Hussein had collected millions in secret payments from the Central Intelligence Agency (CIA). We have now learned that similar secret payments were made to Israel beginning the same time.

Back in 1957, the CIA began slipping money to King Hussein for intelligence purposes. That same year, the CIA began a similar subsidy for Israel. The total has now reached about $80 million.

Some sources say the money was delivered to the Israeli prime minister. Other sources claim it was channeled through the Israeli foreign ministry. But all sources agree the cash was used at first to underwrite Israeli aid programs for black African nations. In return, the Israelis hoped to earn black political support in the United Nations.

But after the Arab-Israeli conflicts in 1967 and 1973, most black nations linked up with the Arabs and broke diplomatic relations with Israel. Explained one Israeli official: "The blacks were virtually blackmailed with the oil weapon."

The blacks have continued, nevertheless, to maintain contacts with Israel through trade missions and other delegations. According to this official, they have told Israel to "stand fast, things will improve."

Most Israeli aid programs in black Africa have now been halted. The secret CIA payments are now subsidizing another extremely sensitive Israeli operation.

Footnote: The CIA had no comment.

Piano Truth: At the prodding of President Carter, the Pentagon poobahs have given up some of their limousines. But they still like to fly around the country in style.

Last week, the big brass flew to Scott Air Force Base in Illinois for a routine conference. There were enough bigwigs to fill an Air Force plane. But they took not one but two planes, both of them half empty.

The Joint Chiefs, with their assorted aides, filled up 21 seats in a VC-9 jet. This left another 21 seats empty. Two hours later, Defense Secretary Harold Brown commandeered a separate VC-140 jet to fly to the same spot. He was accompanied by three aides.

A Pentagon spokesman explained to our reporter, Tom Rosenstiel, that the extra plane gave Brown an extra two hours at his desk in Washington. He was also able to return more than four hours earlier. The spokesman did not explain why Brown couldn't have taken his paperwork with him.

For "security reasons," the spokesman added, the Pentagon doesn't like all the top commanders to fly in the same plane. The extra plane was provided, however, solely for Brown's convenience.

Corporate Capers: Lobbyists for the nation's biggest corporations have been active on Capitol Hill lately seeking tax breaks and other special incentives. When they are pressed to explain the economic justification for their special privileges, they say that new jobs will be created.

But a confidential congressional memo contends, on the contrary, that the 50 top corporations have not increased employment as rapidly as the population has grown.

The memo was prepared by the House Small Business Committee staff for Rep. John Breckinridge, D.-Ky. Between 1969 and 1974, according to the study, national employment increased at a rate of about 2.1 per cent a year. Yet during the same period, "the top 50 only increased employment .07 per cent." This figure is also less than "the one per cent annual growth of the nation's population."

In fact, 21 of the top 50 companies, the memo states, reduced the number of available jobs. General Motors' sales, for example, rose almost 30 per cent over the five-year period from $24 billion to $31 billion. Yet almost 60,000 employees were dropped from the GM payroll -- a decrease of eight per cent.

Similarly, U.S. Steel recorded sales of just over $9 billion for 1974, an increase of 93 per cent in five years. During the same period, however, the company eliminated 17,220 jobs.

"Big Business is begging for increase incentives, investment tax credits and whopping government defense and procurement contracts under the guise that they are necessary to create jobs," declares the memo. "But the statistics indicate they do not create anywhere near the private jobs that the nation needs."

In contrast, small businesses are creating new jobs at an annual rate of at least four per cent. According to committee sources, one group of selected small businesses managed to create 34,000 jobs over a five-year period. This was an increase of more than 40 per cent on combined sales of less than $1 billion. The increase was 40 times the national population growth.

Footnote: A GM spokesman said the energy crisis had a "very significant impact" on employment. Nevertheless, he insisted, employment is up to "about the same levels" they were before the crisis. A U.S. Steel spokesman declined comment.

NATIONAL CHERRY FESTIVAL. July 11-16. Purpose: To promote the cherry industry and to provide a week of entertainment varied to suit all tastes and ages. Sponsor: Nat'l Cherry Fest, Mrs. Dorothy L. Walkmeyer, Exec Mgr, Box 141,Traverse City, MI49684.

NATIONAL CZECH DAY. July 11. Purpose: To honor all the Czech people throughout the nation. Info from: Frank Pesek, 66 Maryland Dr. Battle Creek, MI 49017.

SMITH, JAMES: DEATH ANNIVERSARY. July 11. Signer of the Declaration of Independencce, born in Ireland about 1719(exact date unknown). Died, July 11,1806.

XXX

20 YEARS AFTER THE HUNGARIAN REVOLT

From The New York Times

Wide attention is properly being paid these days to the anniversary of the Hungarian Revolution of 1956. The man installed in power by Soviet tanks, Janos Kadar, is still there. Hungary is so completely a Soviet satellite that Hungarian troops were required to participate in the invasion of Czechoslovakia in 1968. Skeptics may well ask why the anniversary of a short, abortive uprising should be honored in the democratic world.

The answer derives from the fact that in the long run men are ruled by ideas more than by guns. The aims of the Hungarian Revolution were in fact partially realized even though the revolt itself was drowned in treachery and in blood.

Today the average Hungarian is not only materially far better off than he was two decades ago, but is in effect a co-conspirator with his national leaders in an arrangement providing constrained liberty-which is better than no liberty at all. Russia will not voluntarily free Hungary and the Hungarians are too weak to evict their Soviet masters. But with that situation accepted as a fact of life, the Hungarian people are today enjoying a far wider range of discussion, knowledge and international contacts than would have seemed possible in 1956.

The most important accomplishment of the Hungarian Revolution was to remove any doubt in the Kremlin that the old Stalinist order was no longer viable and that fundamental changes had to be made in the Soviet Union as well as in the captive nations. The result, in Hungary, was the conclusion that the citizens had to be won over by a program of appeasement instead of by repression. The Kremlin determined that the basis of state policy had to be a broad coalition based on national conciliation, as expressed in Kadar's formula: "He who is not against us is with us."

But Moscow deceives itself if it thinks the woulds of 1956 have healed. Neither the Hungarian people nor the world has forgotten the martyrs of the revolution, headed by Prime Minister Imre Nagy and Defense Minister Pal Maletar, both of whom were murdered as a result of almost unbelievable Russian treachery. Pal Maletar, invited to negotiate in good faith with Soviet representatives for the withdrawal of Russian troops from Hungary, was seized and executed; Nagy was similarly seized by the Russians despite a safe-conduct guarantee by their own new puppet regime. Their sacrifice, and that of the others who died in those two glorious and terrible weeks, will be remembered as long as the Hungarian people value freedom.

XXX

A Better Bicycle

From The Miami Herald

Research at Massachusetts Institute of Technology has developed two new versions of what the world really needs-a better bicycle. Both versions are safer, speedier and more comfortable-or should we say less uncomfortable?—than conventional bicycles. Both are very logical and scientific.

And both will fail. They will fail because, logic or no, both versions require the rider to assume a posture which, though anatomically and aerodynamically efficient, looks ridiculous on a bicycle-namely, leaning back. Way back.

So although we applaud MIT's efforts to reinvent the wheel, we suggest that next time the profs in engineering consult with the profs in psychology(or marketing) before they proceed. If that fails, they should talk to the guys who invented the Edsel.

XXX

THE ROOTS OF 'ROOTS'

From The Boston Globe

A dispute over the sources used by author Alex Haley to assemble "Roots" should not detract from the book's important contribution to our understanding of black history in America.

A British journalist, Mark Ottaway, has challenged the accuracy of the part of Haley's book dealing with his family's origins in a village now part of Gambia. The details hang on a verbal account by an African griot or oral historian that appeared to Haley to match his family's own lore, passed word of mouth from generation to generation for nearly two centuries.

That there should be such a challenge is hardly surprising. Haley's own description of his methods, of his travel to Africa and to London looking for details of slave ship movements, make it quite clear there could be errors about whether he had actually found the right village and the right family. Haley expressed confidence he had succeeded but gave readers ample material to exercise their own skepticism if they so chose.

The detail is really beside the point. Haley was working with a much broader and well-documented truth: that blacks were brought in large numbers, under appalling conditions, to serve as slaves in this country. Haley deals with the unhappy fact that their capture often involved black as well as white slave traders, and that some of these black captors themselves became enslaved. His portrayal of the basic character of this aspect of Afro-American slavery is not challenged and is valid and useful. Its utility remains intact even if Haley turns out not to have succeeded in finding the village of his great-great-great-grandfather, Kunta Kinte.

Haley's book is fascinating because it gives a sense of sweep covering six generations. He could only flesh out its skeleton with inevitably fictionalized details of daily life in a slave family.

Some of those who watched the television adaptation of Haley's book in January seem to have reacted to its depictions of brutality by denying they existed or asserting Haley's view was one-sided. Such doubts may be fed by the British journalist's challenge. But denialswill only deprive the critics of an opportunity to see our society more clearly through Haley's saga.

REACHING THE VERY NEEDY

From The Kansas City Star

There is a national consensus that the food stamp program is in need of serious reform, but how to achieve improvement is a matter of considerable debate in Congress and the Carter Administration. The fact that all participants are settled on the need for overhauling, however, is encouraging.

Currently there are 17,300,000 recipients who pay more than 3 billion dollars in cash to some 15,000 firms, banks, post offices, welfare offices, churches, corner stores and even fire stations which sell stamps. No other federal assistance program involves the collection of so much money from so many persons through so many private and public agents. The resulting problems in controlling the use and flow of so much money have become monumental. Every recent administration has sought reform unsuccessfully.

Now, however, a deadline is approaching. The program will expire at the end of this fiscal year without new legislation. Bob Bergland, agriculture secretary, recently outlined what the Administration would like to see achieved. He proposes to eliminate from benefits about 1,500,000 persons, whose incomes fall above the poverty limit for a family of four. The revamped program would add possibly as many as 2,500,000 persons, now too poor to purchase stamps, by providing $76 a month in free stamps. Bergland says the plan might save as much as $300,000,000 a year.

Given the resources and food production capacity of the United States and the inherent generosity of its citizens, it is imperative that every American should have enough to eat for proper nutrition. That is accepted virtually without reservation. But, while reaching toward that objective, the Government also has an obligation to taxpayers to reduce food stamp frauds, which have become a national scandal. Any program must be designed to increase justified participation by those in need, while eliminating those who do not belong there.

Inside Labor

By Victor Riesel

End of UN?

U. S. Delegates, Angered by Marxist Bloc's Constant Abuse, Demands Quitting the ILO

NEW YORK – The first tiny, but bold, step on the long road out of the United Nations has been taken by an angry UN specialized agency – a frustrated delegation finally in revolt against buying the spiked shoes for Arab, African and Communist blocs to bloody and boot the U.S. publicly, passionately and derisively.

That's the bottom line of this story. These delegates have just returned from the 63rd annual world conference of the International Labor Organization in overcrowded, overpriced, commercialized Geneva, Switzerland.

For example: there for three weeks the U.S., which has been assessed $42 million in dues as its 25 per cent share of the ILO's new biennial budget, was assaulted by the Panamanian representative as a colonial exploiter and by the gentleman from the Somali Democratic Republic, a torturous Marxist dictatorship, as an imperialist nation which could get the hell out of the ILO and no one would care.

Somalia pays $34 a week in dues.

The Panamanian delegate, Angel Gomez, and the East African from Somali (now invading democratic Kenya) and scores like them who attend for the hors d'oeuvres, the free whiskey, the expensive hotel rooms and some gay living as well as for the pleasure of blasting the U.S., were cheered by the Cubans, the Soviets and the rest of the Communist bloc.

There were other abuses during the three-week world assembly. Like the absolute disregard of due process and violation of the ILO constitution. It was written in 1919 (under the League of Nations) by a commission whose chairman was the then AFL president Samuel Gompers.

To the Arab-African-Soviet and Group of 77 coalition, due process and everything capitalist or non-collectivist went out with pterodactyls. But I'll get to the maneuverings in a minute.

It's vital to report that during the June ILO world assembly the anti-democratic Marxist coalition so brutalized the U. S. and due process that our tripartite delegation abstained from voting on the 1978-79 budget.

The U. S. refused to commit itself. We may well quit the ILO on Nov. 5, 1977. This is the deadline for the end of the mandatory two-year notice of departure given the ILO on Nov. 5, 1975 by ex-Secretary of State Kissinger.

Thus the U. S. took the first small but hardly mincing step out of the UN.

When we refused to pledge our millions of dollars insiders predicted "this may well be the end of the ILO." This would be the first American bolt from a UN agency. It would pull the underpinnings of the United Nations itself -- since demeaning of the U. S. in the ILO is merely an echo of what happens daily in the big glass house over on the East River.

What finally angered the U.S. government-labor-industry delegation in Geneva was the deliberate drubbing given us by what's been called "the tyrannical majority" of the 135 member nations of the ILO in sheer disdainful disregard of the Americans' plea for due process.

All this began during the ILO's 1974 annual June congress. Led by the Arab bloc the Marxist coalition forced through a resolution condemning Israel for alleged exploitation of and discrimination against Arab workers on the West Bank, in Gaza and other occupied territories. There was of course no mention of the big standing Soviet army in Czechoslovakia, Poland, Hungary or East Germany or verifiable Soviet labor camps.

And then the Marxist majority disregarded the ILO constitution which called for submitting resolutions through channels. And for first investigating complaints against oppression of labor, etc. The Arab-Soviet sponsored resolution was simply railroaded through. Further, no evidence was presented. Merely the pronouncement which in effect said that Israel's occupation of the territories was the equivalent of racial discrimination and exploitation.

And the resolution ordered the ILO 's $100,000-a-year director general Francis Blanchard to do something about it immediately. Meaning, get the Israelis out of the occupied territories. Military action hardly is in the jurisdiction of the ILO, which was created to give democratic governments, management and labor a free enterprise arena in which to cooperate.

For several years now Israel has been ready to present its views. And last month the American delegation merely sought to have it all go through due process. Give it to a committee of specialists. Let them investigate. After all, the ILO invented fact-finding and conciliation.

The technical U.S. strategy last month was to get the whole matter properly examined by moving the discussion to the Standing Orders Committee. But the body into which the Marxist coalition maneuvered the resolution was something called the conference's Structure Committee which they control. There, it was bottled up.

Thus the old anti-Israeli resolution, pushed through in 1974 without due process, without due committee hearings or probes as called for by the constitution, still holds as the opinion of the ILO.

In preparation for the recent global ILO conference, the Marxist coalition left nothing to chance. First, in March the Arab labor ministers met in Cairo. They worked out the strategy for stonewalling the U.S. They then passed their game plan on to the African labor ministers who met later in Tripoli, Libya. Then both blocs went to the official Group of 77. That was it. Together they have over 110 anti-U.S. votes.

You can't beat it. Why pay for it? So on June 24, the U.S. Chamber of Commerce board of directors, which speaks for America's employer delegation, voted to pull out of the ILO. Their chief delegate is the articulate Charles Smith who, talking for himself, says we must leave.

The AFL-CIO agrees. So do the government representatives. In a few weeks the cabinet-level committee on the ILO will meet. Most of its members are for bolting.

But now it will be up to the American chief of state Jimmy Carter. If he takes his advisers' advice, and that of the recent delegation, he'll lead the parade by taking the U.S. out of the ILO Nov. 5. Just quit. Save the $47 million -- and America's dignity.

WASHINGTON MERRY-GO-ROUND

CIA Gave Money to Israel, Too

by Jack Anderson
and Les Whitten

WASHINGTON -- The story broke last February that Jordan's King Hussein had collected millions in secret payments from the Central Intelligence Agency (CIA). We have now learned that similar secret payments were made to Israel beginning the same time.

Back in 1957, the CIA began slipping money to King Hussein for intelligence purposes. That same year, the CIA began a similar subsidy for Israel. The total has now reached about $80 million.

Some sources say the money was delivered to the Israeli prime minister. Other sources claim it was channeled through the Israeli foreign ministry. But all sources agree the cash was used at first to underwrite Israeli aid programs for black African nations. In return, the Israelis hoped to earn black political support in the United Nations.

But after the Arab-Israeli conflicts in 1967 and 1973, most black nations linked up with the Arabs and broke diplomatic relations with Israel. Explained one Israeli official: "The blacks were virtually blackmailed with the oil weapon."

The blacks have continued, nevertheless, to maintain contacts with Israel through trade missions and other delegations. According to this official, they have told Israel to "stand fast, things will improve."

Most Israeli aid programs in black Africa have now been halted. The secret CIA payments are now subsidizing another extremely sensitive Israeli operation.

Footnote: The CIA had no comment.

Plane Truth: At the prodding of President Carter, the Pentagon poobahs have given up some of their limousines. But they still like to fly around the country in style.

Last week, the big brass flew to Scott Air Force Base in Illinois for a routine conference. There were enough bigwigs to fill an Air Force plane. But they took not one but two planes, both of them half empty.

The Joint Chiefs, with their assorted aides, filled up 21 seats in a VC-9 jet. This left another 21 seats empty. Two hours later, Defense Secretary Harold Brown commandeered a separate VC-140 jet to fly to the same spot. He was accompanied by three aides.

A Pentagon spokesman explained to our reporter, Tom Rosenstiel, that the extra plane gave Brown an extra two hours at his desk in Washington. He was also able to return more than four hours earlier. The spokesman did not explain why Brown couldn't have taken his paperwork with him.

For "security reasons," the spokesman added, the Pentagon doesn't like all the top commanders to fly in the same plane. The extra plane was provided, however, solely for Brown's convenience.

Corporate Capers: Lobbyists for the nation's biggest corporations have been active on Capitol Hill lately seeking tax breaks and other special incentives. When they are pressed to explain the economic justification for their special privileges, they say that new jobs will be created.

But a confidential congressional memo contends, on the contrary, that the 50 top corporations have not increased employment as rapidly as the population has grown.

The memo was prepared by the House Small Business Committee staff for Rep. John Breckinridge, D.-Ky. Between 1969 and 1974, according to the study, national employment increased at a rate of about 2.1 per cent a year. Yet during the same period, "the top 50 only increased employment .07 per cent." This figure is also less than "the one per cent annual growth of the nation's population."

In fact, 21 of the top 50 companies, the memo states, reduced the number of available jobs. General Motors' sales, for example, rose almost 30 per cent over the five-year period from $24 billion to $31 billion. Yet almost 60,000 employees were dropped from the GM payroll -- a decrease of eight per cent.

Similarly, U.S. Steel recorded sales of just over $9 billion for 1974, an increase of 93 per cent in five years. During the same period, however, the company eliminated 17,220 jobs.

"Big Business is begging for increase incentives, investment tax credits and whopping government defense and procurement contracts under the guise that they are necessary to create jobs," declares the memo. "But the statistics indicate they do not create anywhere near the private jobs that the nation needs."

In contrast, small businesses are creating new jobs at an annual rate of at least four per cent. According to committee sources, one group of selected small businesses managed to create 34,000 jobs over a five-year period. This was an increase of more than 40 per cent on combined sales of less than $1 billion. The increase was 40 times the national population growth.

Footnote: A GM spokesman said the energy crisis had a "very significant impact" on employment. Nevertheless, he insisted, employment is up to "about the same levels" they were before the crisis. A U.S. Steel spokesman declined comment.

BOOK REVIEW

THE CRYSTAL GARDEN
by Elaine Feinstein
(Avon 32532. $1.50
Fiction)

THE CRYSTAL GARDEN marks the American literary debut of Elaine Feinstein. The novel dissects sensual relationships within and without marriage among a group of biologists and their wives, children, friends' wives, and wives' friends. THE CRYSTAL GARDEN centers around Matthew who is obsessed with finding in life the same patterns that recur in his laboratory. He is separated from his wife and when she and their sullen teenage daughter unexpectedly arrive for a visit, each getting involved with the same boy, conventions shatter and connections fall away.

THE CRYSTAL GARDEN is Elaine Feinstein's third novel, and the first to be published in the United States. Her translation of the poems of Marina Tsvetayeva was published recently in this country. Elaine Feinstein lives with her family in Cambridge, England.

XXX

A REMARKABLE CASE OF BURGLARY
by H.R.F. Keating
(Avon 32667. $1.50.
Fiction).

Set in the "Upstairs, Downstairs" world of Victorian England, A REMARKABLE CASE OF BURGLARY begins in April, 1871, when handsome, personable and penniless Val Leary ventured into one of London's fashionable and most respectable districts and meets a pretty, young maidservant scrubbing the front steps of No. 53 Northbourne Park Village. In a single moment, the idea for a remarkable case of burglary was born. The setup seemed perfect, as Val courted and wooed the maidservant, until breathless with love, she became his willing partner in crime. With the assistance of London's slyest and most notorious theif, they carried out their intricate plan for what they deemed to be the most perfect of crimes.

Your Birthday

July 10, 1977

Material prospects look encouraging for you this coming year provided you don't take foolish flyers. The slow, but steady, route is your best path to the bank.

CANCER (June 21-July 22) Select activities today that are fun but also inexpensive. Pleasurable pursuits with a high price tag will give a bad case of the grumbles. Find out more about yourself by sending for your copy of Astro-Graph Letter. Mail 50 cents for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify your birth sign.

LEO (July 23-Aug. 22) Someone working quietly behind the scene will help you pull something off today that you couldn't on your own. Share the credit.

VIRGO (Aug. 23-Sept. 22) Dwell on that which is hopeful in your involvements today. In this instance, the good far outweighs the bad if you look for it.

LIBRA (Sept. 23-Oct 23) There's an excellent possibility that you can change something important today for the better. Be of stout heart, for it will take some doing.

SCORPIO (Oct. 24-Nov. 22) A situation that's been troubling you can be alleviated today through compromise. Negotiate. You'll be the one who ultimately benefits the most.

SAGITTARIUS (Nov. 23-Dec. 21) The pride you'll feel from overcoming challenges is well worth any effort you'll expend. Do not duck when duty calls today.

CAPRICORN (Dec. 22-Jan. 19) Limiting your generosity toward one who has always freely given to you is not in keeping with your nobler instincts. Ante up if asked today.

AQUARIUS (Jan. 20-Feb. 19) You are more fortunate in endings today than in beginnings. Recall the story of the hare and tortoise if you get off to a slow start.

PISCES (Feb. 20-March 20) The only thing that could keep this from being an enjoyable day is your own attitude. Look for sunshine, not shadows.

ARIES (March 21-April 19) Your chances for acquisition are mixed today. Gains could come through relatives, possible losses through something speculative.

TAURUS (April 20-May 20) Early in the day others may find you a trifle difficult, but later in the afternoon your cheery disposition emerges.

GEMINI (May 21-June 20) Responsibilities will be easier to cope with today if you keep before you the ultimate good they'll engender by being handled properly.

weddings

Mr. and Mrs. Mark Edward Ahlvin

A garden ceremony at the groom's home united in marriage Linda Dianne Blaylock and Mark Edward Ahlvin on June 13. The Rev. Tom Bass, pastor of the Hunter Memorial First Presbyterian Church officiated.

The couples parents are Mr. and Mrs. Thomas Blaylock and Dr. and Mrs. Robert C. Ahlvin, both of Sikeston.

The bride chose a floor length A-line gown of polyester chiffon featuring an empire waist, mandarin neckline and Edwardian sleeves. The bodice of the gown, the cuffs of the sleeves and the hemline of the chapel length train were accented with elegant Venice lace. Her fingertip mantilla veil was also trimmed with Venice lace.

A cascade bouquet of yellow roses and white daisies with white satin streamers was carried by the bride.

Rhonda Davis of Sikeston was the bride's maid of honor. Her bridesmaids were Mrs. Lisa Myers and Liz Ahlvin, sister of the groom, both of Sikeston.

Joe Myers of Sikeston was the groom's best man. Groomsnen were Tony Blaylock, brother of the bride and David Ahlvin, brother of the groom, both of Sikeston.

Following the ceremony a reception for the couple was held at the grooms home. Servers were Mrs. Bette Jobe of Bertrand, Mrs. Debbie Beck of Matthews and Dawn Johnson of Sikeston.

The bride is a senior at Sikeston Senior High School.

The groom is a 1973 graduate of Sikeston High School and attended Westminster College at Fulton. He is employed in the advertising department at J.C. Penny's of Sikeston

Mr. and Mrs. Ahlvin are now living at 808 W. Gladys.

Mr. and Mrs. James Rhodes

Debbie Nichols of Canalou and James Rhodes of Matthews were married June 18 at the Shady Acres Church of Christ in Sikeston. Doug Downs of Camden, Ala,, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Vincent Nichols of Canalou, the groom is the son of Mr. and Mrs. Charles Rhodes of Matthews.

The bride chose for her wedding a white dacron polyester gown featuring the A-line silhoutte with cresent waistline highlighted by long fitted sleeves that came to a point at the back of her hand.

The A-line skirt with double flounce swept to a chapel train. Sequins adorned the bodice and sleeves. A fingertip mantilla of silk illusion and Venise lace was worn by the bride.

As her bouquet, the bride chose a nosegay of white and powder blue daisies with lace streamers to match.

Tina Nichols of Canalou, sister of the bride, served as her sister's maid of honor. Bridesmaids were Mary Nichols of Canalou.

Best man was Glen Rhodes, brother of the groom of Crown Point, Indiana. Groomsmen were Andy Polk of Matthews and Steve Plunk of Sikeston. Lori Davis of Caruthersville and Charlette Morgan of Matthews served as flower girls. Trey Davis of Caruthersville was ringbearere.

Candlelighters were Stephanie Plunk of Sikeston and Angie Rhodes of Crown Point, Ind.

A reception for the couple and their guest followed at the Fellowship Hall at the church.

The bride is a 1977 graduate of Matthews High School and is employed at Agrico Chemical Co. of Matthews.

The groom is a 1974 graduate of Matthews School and is employed by Joe Riney Construction of Sikeston.

Mr. and Mrs. Rhodes are now making their home at Sikeston Route 5

Delicious cake filling: pitted dates and slivered preserved ginger cooked in a little orange juice.

Ensign and Mrs. Scott Thomas

CHAFFEE -- Gail Shy, 612 Hubbard Drive and Ensign Scott Thomas of the United States Navy were married recently at St. Ambrose Catholic Church at Chaffee. The Rev. Raymond Kungle of Chaffee officiated. The bride is the daughter of Mr. and Mrs. Gordon Shy of Chaffee and the groom is the son of Mrs. Betty Thomas of Chaffee.

The bride chose a soft candlelight Quiana gown with silk floss venice lace. A fitted sleeveless Bodice, scoop neckline, and raised waist. The A-line skirt swept into a chapel length train. Lace accented the neckline and encircled the waist and bodice. Appliques graced the skirt of the gown and edged the hemline and train.

A profile face framer of pleated chiffon accented at the side with a self fabric rose held the fingertip kankerchief style veil of candlelight chiffon.

A cascade bouquet of bridal pink roses and natural greenery was carried by the bride.

Mrs. Jana Dooley of Chaffee was the bride's matron of honor.

Bridesmaids were Mary Shy of Chaffee, Cheryl Young of Brownstown, Ill., Carol Trost of Dupo, Ill. and Paula Shy of Illmo.

Jim Vickery of Scott City served as the groom's best man. Groomsmen were John Richbourg and Pete Dooley of Chaffee, Ensign Pat Walsh of Dallas, Texas and Ensign Bob Vassar of Santa Clara, Calif.

Nicole Golightly of Chaffee and Laura Young of Brownstown, Ill. were flower girls.

Guests were seated by David Shy of Illmo, John Shy of Chaffee and David Hart of Chaffee.

A reception and dance for the couple followed at the Chaffee Elks Lodge.

The bride is a 1973 graduate of Chaffee High School and a 1977 Southeast Missouri State University graduate at Cape Girardeau. She was employed at Graser-Shy Super Market at Chaffee.

The groom is a 1973 graduate of Chaffee high School and a 1977 graduate of the United States Naval Academy at Annapolis, MD. He is stationed with the U.S. Navy in San Diego, Calif.

Ensign and and Mrs. Scott Thomas have made their home in San Diego.

Mr. and Mrs. John Gordon Howard Jr.

In a ceremony at the First United Methodist Church of Sikeston, Vickie Ellen Arnold of Cape Girardeau and John Gordon Howard Jr. of St. Louis were wed. The Rev. Dr. Arthur C. Fulbright officiated, assisted by Rev. Mike McDivitt of Cape Girardeau.

The bride is the daughter of Mr. and Mrs. James M. Arnold, 916 N. Ranney. The groom is the son of Mr. and Mrs. John Gordon Howard of St. Louis.

The bride chose a dacron polester organza gown featuring the empire waistline with transparent bodice, highlighted by a Madarin neckline and long fitted sleeves. The A-line skirt outlined in a wide flounce sweeping to a chapel train motifs of matching chantilace highlighted the skirt, sleeves, neckline and edge of flounce.

A cascade of white daisies attached to the bride's bible accented by baby's breath, springeri and white peek-o-ribbon was carried by the bride. Inside the Bible, the bride carried her grandmother's handerchief.

Mrs. Kathryn Archie of Sikeston served as her sister's matron of honor. Bridesmaids were Vickie Mouchett of Cape Girardeau, Mary Howard, sister of the groom of St. Louis and Janie Miller, cousin of the bride of Bowie, Maryland.

Tom Howard, brother of the groom, of St. Louis, served as best man. Groomsmen were Mike Mack and Terry Hall of St. Louis and George Rozier of Cape Girardeau.

Melissa Jamieson, cousin of the bride of Jackson served as flowergirl. Ringbearer was nephew of the bride Jeffrey Archie of Sikeston.

Michael Arnold brother of the bride of Sikeston and Shannon Jamieson, cousin of the bride of Jackson were candlelighters.

Guests were seated by Larry Archie, brother-in-law of the bride, of Sikeston and Jim Honefenger, brother-in-law of the groom of Houston, Tex.

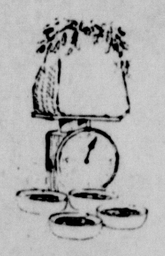
A dinner, dance and reception at the Elks Lodge in Sikeston followed the ceremony.

The bride is a 1971 graduate of Sikeston Senior High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau where she received her associate of arts degree in nursing. She was employed at the St. Francis Medical Center at Cape Girardeau.

The groom is a 1971 graduate of Bishop DuBourg High School at St. Louis and attended Southeast Missouri State University at Cape Girardeau. He is employed at the Evergreen Lawn Co. in credit relations in St. Louis.

The new Mr. and Mrs. John Gordon Howard Jr. are making their home in St. Louis.

Household Hints



Looks can be deceiving. Before it's cooked, a pound of good old fashioned spinach looks as if it may be enough to feed a crowd. Don't let it fool you — it isn't. When cooked it will yield approximately enough for four.

Ask the pastor?

What is tension?

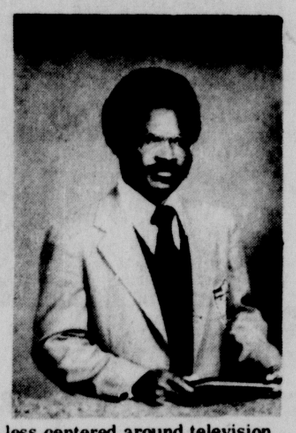
Rev. E. Pembleton

Dear Pastor Pembleton: What exactly is tension, and what are some of the problems in our enviroment today that may lead to tensions? - P.J.

Dear P.J.: The word "tension" means stretched or strained or pressured. So tension is a state which an individual develops because of either internal or external factors. He may find himself in a position where life is very stressful,, or he may, in his mind, become anxious or apprehensive about how things may go. He might develop tensions within himself because of his attitudes or his reactions to his external environment.

There are many problems in our environment today that lead to tensions. They could be in the home in family relationships, or they could involve other relationships - on the job, or in school. I think society is structured today so that the home is no longer the center of things.

We are a very mobile society. We frequently change roots and change envirnment. Marital problems are very common and the divorce rate is high. These problems create tension, insecurity, and anxiety. When we are home, our lives are more or



less centered around television, which in my opinion is frequently detrimental to sound mental health. Often the husband and the wife work, and the children are left to run free.

Children need to grow in an environment that provides not only their physical needs but gives emotional support as well. Love and a sense of belonging which a child experiences within the family are positive forces that help him grow strong and self-confident. Continual conflicts within the family can threaten and make him fearful.

We drive bumper to bumper - sometimes as long as an hour to work and an hour back - and driving is often a stressful situation. We get to , we punch a time clock, and then we have to get so much done in a certain length of time. Overwork, an unkind word from the boss, a feeling of not being appreciated, are a few of the problems in our work that may lead to tension.

It may be good for you to be informed that tension starts in the brain as a result of our attitudes or reactions to certain situations. The brain sends messages to the pituitary and adrenal glands. These glands pour hormones into the bloodstream. Tension can thus raise the blood pressure, quicken the pulse, cause constriction of the blood vessels, dilation of the pupils, and slow down digestion. There are changes in many of the body's cells which lower the resistance to infection and disease. In fact, medical research shows that stress basically is at the bottom of most all illness - whether it be ulcers, colitis, migraine, arthritis, allergies, or coronary heart disease.

Dear Pastor Pembleton: After a person has accepted the Lord as his Saviour and has been baptized, if he blurts out words which in his new life he would not dream of using, is he held responsible? - John.

Dear John: When one accepts Jesus Christ as his Saviour, power is given to him to overcome evil habits. This does not mean, however, that there can never be any lapse or any mistakes. If under the impulse of the moment a Christian blurts out something which he may have said frequently in the days before he came to know Christ, God would not bar him from the kingdom if he is repentant. Such a lapse, however, may serve to shock this individual into realizing that he must keep a greater watch upon his lips and the words which he speaks. King David's prayer in Psalm 141:3 is a good one for all of us to pray frequently! "Set a watch, O Lord, before my mouth; keep the door of my lips."

weddings

Mr. and Mrs. Mark Edward Ahlvin

A garden ceremony at the groom's home united in marriage Linda Dianne Blaylock and Mark Edward Ahlvin on June 13. The Rev. Tom Bass, pastor of the Hunter Memorial First Presbyterian Church officiated.

The couples parents are Mr. and Mrs. Thomas Blaylock and Dr. and Mrs. Robert C. Ahlvin, both of Sikeston.

The bride chose a floor length A-line gown of polyester chiffon featuring an empire waist, mandarin neckline and Edwardian sleeves. The bodice of the gown, the cuffs of the sleeves and the hemline of the chapel length train were accented with elegant Venice lace. Her fingertip mantilla veil was also trimmed with Venice lace.

A cascade bouquet of yellow roses and white daisies with white satin streamers was carried by the bride.

Rhonda Davis of Sikeston was the bride's maid of honor. Her bridesmaids were Mrs. Lisa Myers and Liz Ahlvin, sister of the groom, both of Sikeston.

Joe Myers of Sikeston was the groom's best man. Groomsnen were Tony Blaylock, brother of the bride and David Ahlvin, brother of the groom, both of Sikeston.

Following the ceremony a reception for the couple was held at the grooms home. Servers were Mrs. Bette Jobe of Bertrand, Mrs. Debbie Beck of Matthews and Dawn Johnson of Sikeston.

The bride is a senior at Sikeston Senior High School.

The groom is a 1973 graduate of Sikeston High School and attended Westminster College at Fulton. He is employed in the advertising department at J.C. Penny's of Sikeston

Mr. and Mrs. Ahlvin are now living at 808 W. Gladys.

Mr. and Mrs. James Rhodes

Debbie Nichols of Canalou and James Rhodes of Matthews were married June 18 at the Shady Acres Church of Christ in Sikeston. Doug Downs of Camden, Ala,, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Vincent Nichols of Canalou, the groom is the son of Mr. and Mrs. Charles Rhodes of Matthews.

The bride chose for her wedding a white dacron polyester gown featuring the A-line silhoutte with cresent waistline highlighted by long fitted sleeves that came to a point at the back of her hand.

The A-line skirt with double flounce swept to a chapel train. Sequins adorned the bodice and sleeves. A fingertip mantilla of silk illusion and Venise lace was worn by the bride.

As her bouquet, the bride chose a nosegay of white and powder blue daisies with lace streamers to match.

Tina Nichols of Canalou, sister of the bride, served as her sister's maid of honor. Bridesmaids were Mary Nichols of Canalou.

Best man was Glen Rhodes, brother of the groom of Crown Point, Indiana. Groomsmen were Andy Polk of Matthews and Steve Plunk of Sikeston. Lori Davis of Caruthersville and Charlette Morgan of Matthews served as flower girls. Trey Davis of Caruthersville was ringbearere.

Candlelighters were Stephanie Plunk of Sikeston and Angie Rhodes of Crown Point, Ind.

A reception for the couple and their guest followed at the Fellowship Hall at the church.

The bride is a 1977 graduate of Matthews High School and is employed at Agrico Chemical Co. of Matthews.

The groom is a 1974 graduate of Matthews School and is employed by Joe Riney Construction of Sikeston.

Mr. and Mrs. Rhodes are now making their home at Sikeston Route 5

Delicious cake filling: pitted dates and slivered preserved ginger cooked in a little orange juice.

Ensign and Mrs. Scott Thomas

CHAFFEE – Gail Shy, 612 Hubbard Drive and Ensign Scott Thomas of the United States Navy were married recently at St. Ambrose Catholic Church at Chaffee. The Rev. Raymond Kungle of Chaffee officiated. The bride is the daughter of Mr. and Mrs. Gordon Shy of Chaffee and the groom is the son of Mrs. Betty Thomas of Chaffee.

The bride chose a soft candlelight Quiana gown with silk floss venice lace. A fitted sleeveless Bodice, scoop neckline, and raised waist. The A-line skirt swept into a chapel length train. Lace accented the neckline and encircled the waist and bodice. Appliques graced the skirt of the gown and edged the hemline and train.

A profile face framer of pleated chiffon accented at the side with a self fabric rose held the fingertip kankerchief style veil of candlelight chiffon.

A cascade bouquet of bridal pink roses and natural greenery was carried by the bride.

Mrs. Jana Dooley of Chaffee was the bride's matron of honor. Bridesmaids were Mary Shy of Chaffee, Cheryl Young of Brownstown, Ill., Carol Trost of Dupo, Ill. and Paula Shy of Illmo.

Jim Vickery of Scott City served as the groom's best man. Groomsmen were John Richbourg and Pete Dooley of Chaffee, Ensign Pat Walsh of Dallas, Texas and Ensign Bob Vassar of Santa Clara, Calif.

Nicole Golightly of Chaffee and Laura Young of Brownstown, Ill. were flower girls.

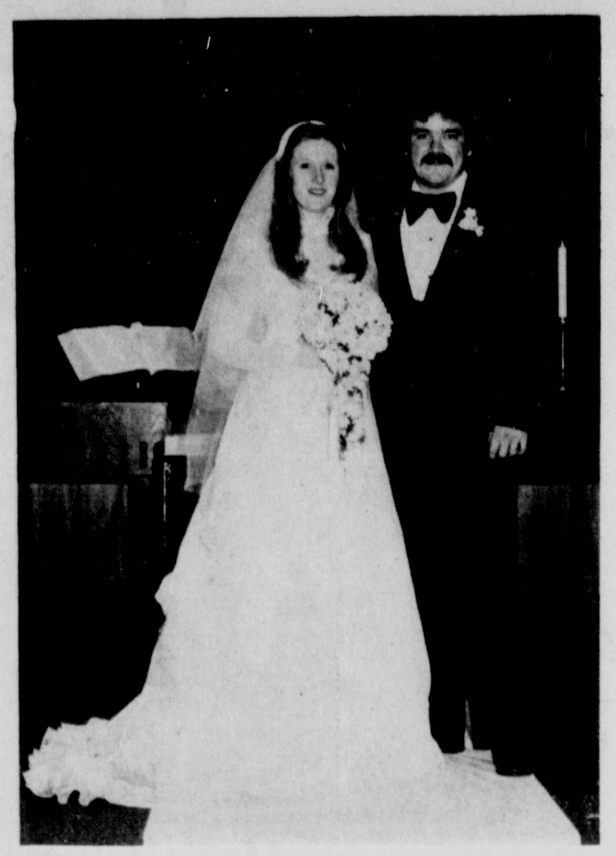
Guests were seated by David Shy of Illmo, John Shy of Chaffee and David Hart of Chaffee.

A reception and dance for the couple followed at the Chaffee Elks Lodge.

The bride is a 1973 graduate of Chaffee High School and a 1977 Southeast Missouri State University graduate at Cape Girardeau. She was employed at Graser-Shy Super Market at Chaffee.

The groom is a 1973 graduate of Chaffee high School and a 1977 graduate of the United States Naval Academy at Annapolis, MD. He is stationed with the U.S. Navy in San Diego, Calif.

Ensign and and Mrs. Scott Thomas have made their home in San Diego.



Mr. and Mrs. John Gordon Howard Jr.

In a ceremony at the First United Methodist Church of Sikeston, Vickie Ellen Arnold of Cape Girardeau and John Gordon Howard Jr. of St. Louis were wed. The Rev. Dr. Arthur C. Fulbright officiated, assisted by Rev. Mike McDivitt of Cape Girardeau.

The bride is the daughter of Mr. and Mrs. James M. Arnold, 916 N. Ranney. The groom is the son of Mr. and Mrs. John Gordon Howard of St. Louis.

The bride chose a dacron polester organza gown featuring the empire waistline with transparent bodice, highlighted by a Madarin neckline and long fitted sleeves. The A-line skirt outlined in a wide flounce sweeping to a chapel train motifs of matching chantilace highlighted the skirt, sleeves, neckline and edge of flounce.

A cascade of white daisies attached to the bride's bible accented by baby's breath, springeri and white peek-o-ribbon was carried by the bride. Inside the Bible, the bride carried her grandmother's handerchief.

Mrs. Kathryn Archie of Sikeston served as her sister's matron of honor. Bridesmaids were Vickie Mouchett of Cape Girardeau, Mary Howard, sister of the groom of St. Louis and Janie Miller, cousin of the bride of Bowie, Maryland.

Tom Howard, brother of the groom, of St. Louis, served as best man. Groomsmen were Mike Mack and Terry Hall of St. Louis and George Rozier of Cape Girardeau.

Melissa Jamieson, cousin of the bride of Jackson served as flowergirl. Ringbearer was nephew of the bride Jeffrey Archie of Sikeston.

Michael Arnold brother of the bride of Sikeston and Shannon Jamieson, cousin of the bride of Jackson were candlelighters.

Guests were seated by Larry Archie, brother-in-law of the bride, of Sikeston and Jim Honefenger, brother-in-law of the groom of Houston, Tex.

A dinner, dance and reception at the Elks Lodge in Sikeston followed the ceremony.

The bride is a 1971 graduate of Sikeston Senior High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau where she received her associate of arts degree in nursing. She was employed at the St. Francis Medical Center at Cape Girardeau.

The groom is a 1971 graduate of Bishop DuBourg High School at St. Louis and attended Southeast Missouri State University at Cape Girardeau. He is employed at the Evergreen Lawn Co. in credit relations in St. Louis.

The new Mr. and Mrs. John Gordon Howard Jr. are making their home in St. Louis.

Erma's kids kick in to save energy

BY ERMA BOMBACK

I tell you, you wouldn't believe the way my children have really pitched in and tried to conserve energy during this nationwide crisis.

They've kicked all their dirty clothes under the bed to save on the gallons of water it takes to wash them.

They've called a moratorium on cutting and watering the grass until President Carter gives the nod.

They've insisted that the stove or oven not be turned on and that we all go out and eat in a modest but exhorbitantly-priced restaurant.

They gave up showers before bed without even being asked.

The other afternoon when we got into the car, my son said, "We've got to pick up Todd, Mike, Wendell, Tony and Steve."

When I slumped over the wheel in anticipation of an extra 45 minutes of driving, he said, "After all, Mom, it's un-American not to carpool."

They cut back on going to the dentist to once a year to save gas.

They put a brick in the commode. (I wish someone had told them it goes in the BACK of the commode.)

They're maintaining their policy of "Never flushing unless she can hear you."

They let the garbage stack up for three days by the sink to keep from opening the door and losing precious air-conditioning.

They play their stereos at 1:00 in the morning to take the load off of peak time.

They leave the ice cube trays empty to reduce the wear and tear on the refrigeration.

The other morning as I counted 63 glasses by the sink, I said, "Boys, you really amaze me at how you picked up on President Carter's plan to conserve energy."

They smiled, "When we get to 85 glasses, then we can start the dishwasher."

"In fact, I'm so proud of you, I think I'll do a column on it and tell my readers of your heroic efforts."

"That's not necessary, Mom," said a son leaning over to unplug my IBM. Just look upon this as a blow for democ.

The pastor speaks

Donatism

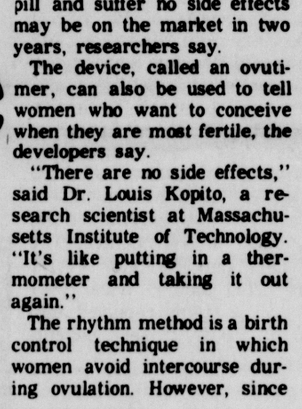
By Arthur C. Fulbright, Th.D.

Late in the fourth century a controversy developed over the relationship between the holiness of a priest and the validity of his sacramental acts.

One leader, Donatus, felt strongly that a priest (or bishop) guilty of a mortal sin could not be a dispenser of God's grace. The particular sin that he was most concerned about was apostasy (denying Christ under threat of death in the persecutions). This led to an actual schism, with the Donatist Church, free of former apostates, claiming to be the only true church.

In response, the larger church had to clarify its thining about what happens in the scaraments. It decided that Donatism makes the effectiveness of God's grace dependent on or conditioned by the human administrator, and this could not be done. It is God that acts in the sacramental act, not the priest, so the effectiveness of God's action is not in any way altered by any imperfections in the priest. This was undoubtedly the right decision. Donatism, however, continued to introduce questions about the validity of the priestly work of the church.

In addition to its service in causing the church to think through this important issue, Donatism stands as a constant reminder that the character of the priest is important. To acknowledge God as the actor in the sacraments can lead to a dangerously tolerant attitude not only toward priestly shortcomings, but toward our own as well.



Dr. Arthur C. Fulbright

By Mrs. Dan Gerber

Mothers have asked me how much sugar is used in baby food and why any is used.

I'm happy to tell them that nearly half of our Gerber baby foods contain no added sugar.

Where a little sugar is added it's for a specific purpose—to balance the acids in the more tart fruits, for instance. And it gives a flavor that's neither too sweet or too tart. The amount added is substantially less than in the canned peaches and pears served on the family dinner table.

There's something else. The experts tell us that some sugar is important for a baby's nutrition: it's a source of energy and it makes things taste good so that infants accept foods that are good sources of nutrients they need.

weddings

Mr. and Mrs. Vic Campbell

The First United Methodist Church of Sikeston was the setting for the evening wedding of Connie Bolden and Vic Campbell. The Rev. Dr. Arthur C. Fulbright assisted by Rev. Brent Mustoe performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Louis A. Bolden of Sikeston. The groom is the son of Mr. and Mrs. Pete Campbell of Marston.

The bride wore a long blue and white sleeveless Chantilly gown with a blue cape like jacket that tied in the front. Her veil was a lace edged blue and white fingertip style.

A bouquet of rose buds, minature carnations and babys breath with long streamers of lace was carried by the bride.

The honor attendants for the couple were Mrs. Barbara Price of Sikeston and Wayne Campbell of Marston.

The daughter of the bride, Coeta Bolden, served as her mother's flower girl.

Scott and Greg Price of Sikeston served as candlelighters.

Guests were seated by Charles Phillip Bolden of Cape Girardeau.

A reception for the couple and their guests followed at the home of the bride.

The bride attended Sikeston High School and is employed at Noranda Aluminum, Inc. of New Madrid.

The groom is employed at Triangle PWC of Sikeston.

Mr. and Mrs. Campbell are making their home at 106 Chris Dr., Sikeston.

Mr. and Mrs. Jerry Alvin Robertson

STRONGSVILLE, OHIO--Donna Sue Kestner of Strongsville and Jerry Alvin Robertson of Sikeston, Mo., werer married recently at the St. Joseph's Church at Strongsville. Father Donohoe assisted by the bride's cousin, Paul Jasheway of Salem St. Lafayette, Ind., officiated.

The bride is the daughter of Mr. and Mrs. Raymond Kestner of Strongsville. The groom is the son of Mr. and Mrs. Carroll Robertson of Sikeston.

The bride chose a white polyester organza over taffetta gown with long fitted sleeves decorated with silk Venice appliquies edged in a self-ruffle trimmed in narrow lace. The U-neckline and empire bodice was trimmed in matching lace. Venise daisies were scattered over the A-line skirt and built in chapel train.

A camelot cap of venise lace was attached to lace edged veil of illusion.

A cascade arrangement of pink roses, white carnations and baby's breath was carried by the bride.

Mrs. Linda Dunn of Cape Girardeau, Mo., served as the bride's matron of honor. Bridesmaids were Mrs. Carolyn Lizenbee, sister of the groom of Sikeston and Mrs. Pamela Kestner, sister-in-law of the bride of Middlesburg Height, Ohio.

Bruce Wolferding of Sikeston served as best man for the groom. Groomsmen were Mike Kestner, brother of the bride of Middleburg Heights and Rodney Lause of St. Genevieve, Mo.

The groom's niece, Christy Lizenbee of Sikeston was flower girl.

Guests were seated by David Kestner, brother of the bride of Strongsville and Larry Viox of st. Genevieve.

A reception for the couple and there guests was held at Michaud's Town-n-Country at Strongsville.

The bride is a 1974 graduate of Strongsville Senior High School. She is a 1977 graduate of Southeast Missouri State University at Cape Girardeau and is employed by Dr. Charles Cozean of Cape Girardeau.

The groom is a 1972 graduate of Sikeston High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau with a bachelor of science degree in business administration and an associate of arts degree in computer science. He is a sales representative for Georgia Pacific Corp of Cape Girardeau.

Mr. and Mrs. Robertson are making their home in Scott City, Mo.

New birth control device developed will improve method

BROOKLINE, Mass. (AP) — A birth control device that will allow women to use the rhythm method as successfully as the pill and suffer no side effects may be on the market in two years, researchers say.

The device, called an ovutimer, can also be used to tell women who want to conceive when they are most fertile, the developers say.

"There are no side effects," said Dr. Louis Kopito, a research scientist at Massachusetts Institute of Technology. "It's like putting in a thermometer and taking it out again."

The rhythm method is a birth control technique in which women avoid intercourse during ovulation. However, since the time of ovulation often varies, the method fails about 30 per cent of the time.

The ovutimer is a seven-inch-long plastic device. The researchers say it makes the rhythm method accurate, because it tells women when sperm can get past their natural defenses and make them pregnant.

"Our first market will be women who are trying to get pregnant," said Kopito. "There are six million in the United States who want to have babies but cannot, and they are very highly motivated.

"Another group is those who cannot take the pill but want to limit family size."

POLLY'S POINTERS

POLLY'S PROBLEM

DEAR POLLY — Do you know of any use for the plastic mesh bags in which oranges are sometimes sold? They are so pretty I hate to discard them.

The white plastic containers in which motor oil, bleaches, etc., are sold can be made into cute little waste baskets by using colored markers. I put a Pennsylvania Dutch design on one of mine and use it in the kitchen to hold the daily garbage. — HELENE.

DEAR HELENE — Remove the string at the top and securely fasten on embroidery hoops to make most practical shopping bags for carrying small items. Also they would be great for the children to carry books to school or the library. — POLLY.

Dear Ann Landers

Ann tells readers how to check if a person is married or not

Dear Ann Landers: Here's some information that might prove helpful to other fools out there who are being strung along, as I was.

Same old story – married man who says he's going to get a divorce and marry me as soon as his wife's health improves. This has been going on for 18 months.

Last week a friend who works in a lawyer's office told me she heard the guy is divorced and suggested I go down to the Divorce Division, clerk's office at the county courthouse and find out for sure.

I took her advice and learned the rat has been divorced since 1973! Just call me too-late-smart and inform the others. – From Cincinnati

Dear Cin.: Thanks for the short course.

To find out if a person is married you can check with the Bureau of Vital Statistics. (You must know the names of both parties.) The charge in Chicago for this service is $3.00. (The records on hand go back five years -- beyond that they must be obrtained from the warehouse.)

Dear Ann: Don't faint. This letter is on bosoms – written by a man. I was moved by the sad letter from the girl who was so desperate to increase her bust size that she sent money to some gyp outfit and got back apicture of a man's hand.

For four years I was married to a big-bosomed flea-brain. She lived in front of the mirror with a tape measure in her hand. Her meals were inedible -- when she cooked, that is. Our apartment looked like a pigsty. If a button came off my shirt, she put it back with a safety pin. I never saw a needle or thread in the place.

Her own clothes were magnificent. That's where all the money went. She wasn't happy unless she was dressed to the teeth and every man in the room was falling over her.

My second wife is a marvelous person, but very self-conscious about her flat front. She keeps comparing herself with my first wife and asking me if I miss it.

No matter how hard I try I can't get it through her head that it doesn't matter.

Please print this letter, Ann. It will make her day. – Doc

Dear Doc: Here it is and I'm sure it will gladden the hearts of many small-busted ladies to know that all men aren't dimension-waxky. What's "up front" ISN'T what counts.

Dear Ann Landers: Today's letter was from a guy who was worried because his wife's pregnancy was going into the 11th month. Here are some facts that might help:

A nine-month pregnancy is more myth than reality. The actual full term is between 266 to 280 days, average. But "average" seems always to be what someone else is. A "normal" term can be much longer depending upon influencing factors, such as a woman's menstrual cycle. For example, a woman whose cycle is 30-31 days is likely to have a longer pregnancy. A short cycle -- 25-28 days -- means a shorter pregnancy.

Heredity also influences the gestation period in terms of length. People from the tropics give birth sooner than those in the frigid zones of the world.

Many women think they know exactly when they become pregnant, but they can be mistaken. These are the Mamas who swear they carried 11 months. (I was one.) – Super Preggie

Dear Super: You can't fool Mother Nature. Thanks for the input.

Erma's kids kick in to save energy

BY ERMA BOMBACK

I tell you, you wouldn't believe the way my children have really pitched in and tried to conserve energy during this nationwide crisis.

They've kicked all their dirty clothes under the bed to save on the gallons of water it takes to wash them.

They've called a moratorium on cutting and watering the grass until President Carter gives the nod.

They've insisted that the stove or oven not be turned on and that we all go out and eat in a modest but exhorbitantly-priced restaurant.

They gave up showers before bed without even being asked.

The other afternoon when we got into the car, my son said, "We've got to pick up Todd, Mike, Wendell, Tony and Steve."

When I slumped over the wheel in anticipation of an extra 45 minutes of driving, he said, "After all, Mom, it's un-American not to carpool."

They cut back on going to the dentist to once a year to save gas.

They put a brick in the commode. (I wish someone had told them it goes in the BACK of the commode.)

They're maintaining their policy of "Never flushing unless she can hear you."

They let the garbage stack up for three days by the sink to keep from opening the door and losing precious air-conditioning.

They play their stereos at 1:00 in the morning to take the load off of peak time.

They leave the ice cube trays empty to reduce the wear and tear on the refrigeration.

The other morning as I counted 63 glasses by the sink, I said, "Boys, you really amaze me at how you picked up on President Carter's plan to conserve energy."

They smiled, "When we get to 85 glasses, then we can start the dishwasher."

"In fact, I'm so proud of you, I think I'll do a column on it and tell my readers of your heroic efforts."

"That's not necessary, Mom," said a son leaning over to unplug my IBM. Just look upon this as a blow for democ.

The pastor speaks

Donatism

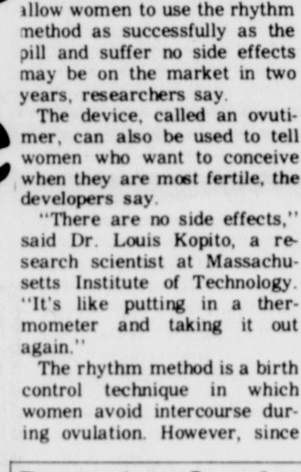
By Arthur C. Fulbright, Th.D.

Late in the fourth century a controversy developed over the relationship between the holiness of a priest and the validity of his sacramental acts.

One leader, Donatus, felt strongly that a priest (or bishop) guilty of a mortal sin could not be a dispenser of God's grace. The particular sin that he was most concerned about was apostasy (denying Christ under threat of death in the persecutions). This led to an actual schism, with the Donatist Church, free of former apostates, claiming to be the only true church.

In response, the larger church had to clarify its thining about what happens in the scaraments. It decided that Donatism makes the effectiveness of God's grace dependent on or conditioned by the human administrator, and this could not be done. It is God that acts in the sacramental act, not the priest, so the effectiveness of God's action is not in any way altered by any imperfections in the priest. This was undoubtedly the right decision. Donatism, however, continued to introduce questions about the validity of the priestly work of the church.

In addition to its service in causing the church to think through this important issue, Donatism stands as a constant reminder that the character of the priest is important. To acknowledge God as the actor in the sacraments can lead to a dangerously tolerant attitude not only toward priestly shortcomings, but toward our own as well.



Dr. Arthur C. Fulbright

By Mrs. Dan Gerber

Mothers have asked me how much sugar is used in baby food and why any is used.

I'm happy to tell them that nearly half of our Gerber baby foods contain no added sugar.

Where a little sugar is added it's for a specific purpose—to balance the acids in the more tart fruits, for instance. And it gives a flavor that's neither too sweet or too tart. The amount added is substantially less than in the canned peaches and pears served on the family dinner table.

There's something else. The experts tell us that some sugar is important for a baby's nutrition: it's a source of energy and it makes things taste good so that infants accept foods that are good sources of nutrients they need.

weddings

Mr. and Mrs. Vic Campbell

The First United Methodist Church of Sikeston was the setting for the evening wedding of Connie Bolden and Vic Campbell. The Rev. Dr. Arthur C. Fulbright assisted by Rev. Brent Mustoe performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Louis A. Bolden of Sikeston. The groom is the son of Mr. and Mrs. Pete Campbell of Marston.

The bride wore a long blue and white sleeveless Chantilly gown with a blue cape like jacket that tied in the front. Her veil was a lace edged blue and white fingertip style.

A bouquet of rose buds, minature carnations and babys breath with long streamers of lace was carried by the bride.

The honor attendants for the couple were Mrs. Barbara Price of Sikeston and Wayne Campbell of Marston.

The daughter of the bride, Coeta Bolden, served as her mother's flower girl.

Scott and Greg Price of Sikeston served as candlelighters.

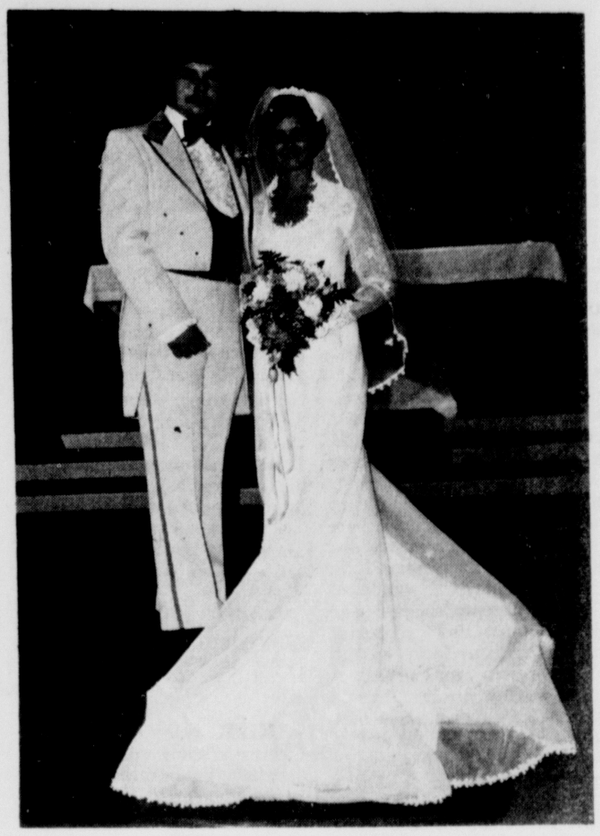
Guests were seated by Charles Phillip Bolden of Cape Girardeau.

A reception for the couple and their guests followed at the home of the bride.

The bride attended Sikeston High School and is employed at Noranda Aluminum, Inc. of New Madrid.

The groom is employed at Triangle PWC of Sikeston.

Mr. and Mrs. Campbell are making their home at 106 Chris Dr., Sikeston.



Mr. and Mrs. Jerry Alvin Robertson

STRONGSVILLE, OHIO-- Donna Sue Kestner of Strongsville and Jerry Alvin Robertson of Sikeston, Mo., werer married recently at the St. Joseph's Church at Strongsville. Father Donohoe assisted by the bride's cousin, Paul Jasheway of Salem St. Lafayette, Ind., officiated.

The bride is the daughter of Mr. and Mrs. Raymond Kestner of Strongsville. The groom is the son of Mr. and Mrs. Carroll Robertson of Sikeston.

The bride chose a white polyester organza over taffetta gown with long fitted sleeves decorated with silk Venice appliquies edged in a self-ruffle trimmed in narrow lace. The U-neckline and empire bodice was trimmed in matching lace. Venise daisies were scattered over the A-line skirt and built in chapel train.

A camelot cap of venise lace was attached to lace edged veil of illusion.

A cascade arrangement of pink roses, white carnations and baby's breath was carried by the bride.

Mrs. Linda Dunn of Cape Girardeau, Mo., served as the bride's matron of honor. Bridesmaids were Mrs. Carolyn Lizenbee, sister of the groom of Sikeston and Mrs. Pamela Kestner, sister-in-law of the bride of Middlesburg Height, Ohio.

Bruce Wolferding of Sikeston served as best man for the groom. Groomsmen were Mike Kestner, brother of the bride of Middleburg Heights and Rodney Lause of St. Genevieve, Mo.

The groom's niece, Christy Lizenbee of Sikeston was flower girl.

Guests were seated by David Kestner, brother of the bride of Strongsville and Larry Viox of st. Genevieve.

A reception for the couple and there guests was held at Michaud's Town-n-Country at Strongsville.

The bride is a 1974 graduate of Strongsville Senior High School. She is a 1977 graduate of Southeast Missouri State University at Cape Girardeau and is employed by Dr. Charles Cozean of Cape Girardeau.

The groom is a 1972 graduate of Sikeston High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau with a bachelor of science degree in business administration and an associate of arts degree in computer science. He is a sales representative for Georgia Pacific Corp of Cape Girardeau.

Mr. and Mrs. Robertson are making their home in Scott City, Mo.

New birth control device developed will improve method

BROOKLINE, Mass. (AP) — A birth control device that will allow women to use the rhythm method as successfully as the pill and suffer no side effects may be on the market in two years, researchers say.

The device, called an ovutimer, can also be used to tell women who want to conceive when they are most fertile, the developers say.

"There are no side effects," said Dr. Louis Kopito, a research scientist at Massachusetts Institute of Technology. "It's like putting in a thermometer and taking it out again."

The rhythm method is a birth control technique in which women avoid intercourse during ovulation. However, since the time of ovulation often varies, the method fails about 30 per cent of the time.

The ovutimer is a seven-inch-long plastic device. The researchers say it makes the rhythm method accurate, because it tells women when sperm can get past their natural defenses and make them pregnant.

"Our first market will be women who are trying to get pregnant," said Kopito. "There are six million in the United States who want to have babies but cannot, and they are very highly motivated.

"Another group is those who cannot take the pill but want to limit family size."

POLLY'S POINTERS

POLLY'S PROBLEM

DEAR POLLY — Do you know of any use for the plastic mesh bags in which oranges are sometimes sold? They are so pretty I hate to discard them.

The white plastic containers in which motor oil, bleaches, etc., are sold can be made into cute little waste baskets by using colored markers. I put a Pennsylvania Dutch design on one of mine and use it in the kitchen to hold the daily garbage. — HELENE.

DEAR HELENE — Remove the string at the top and securely fasten on embroidery hoops to make most practical shopping bags for carrying small items. Also they would be great for the children to carry books to school or the library. — POLLY.

Dear Ann Landers

Ann tells readers how to check if a person is married or not

Dear Ann Landers: Here's some information that might prove helpful to other fools out there who are being strung along, as I was.

Same old story – married man who says he's going to get a divorce and marry me as soon as his wife's health improves. This has been going on for 18 months.

Last week a friend who works in a lawyer's office told me she heard the guy is divorced and suggested I go down to the Divorce Division, clerk's office at the county courthouse and find out for sure.

I took her advice and learned the rat has been divorced since 1973! Just call me too-late-smart and inform the others. – From Cincinnati

Dear Cin.: Thanks for the short course.

To find out if a person is married you can check with the Bureau of Vital Statistics. (You must know the names of both parties.) The charge in Chicago for this service is $3.00. (The records on hand go back five years -- beyond that they must be obrtained from the warehouse.)

Dear Ann: Don't faint. This letter is on bosoms – written by a man. I was moved by the sad letter from the girl who was so desperate to increase her bust size that she sent money to some gyp outfit and got back apicture of a man's hand.

For four years I was married to a big-bosomed flea-brain. She lived in front of the mirror with a tape measure in her hand. Her meals were inedible -- when she cooked, that is. Our apartment looked like a pigsty. If a button came off my shirt, she put it back with a safety pin. I never saw a needle or thread in the place.

Her own clothes were magnificent. That's where all the money went. She wasn't happy unless she was dressed to the teeth and every man in the room was falling over her.

My second wife is a marvelous person, but very self-conscious about her flat front. She keeps comparing herself with my first wife and asking me if I miss it.

No matter how hard I try I can't get it through her head that it doesn't matter.

Please print this letter, Ann. It will make her day. – Doc

Mother's challenged by low-allergy diet

Dear Mrs. Corti:

As a home economics teacher at East Prairie Junior High School, I have always been interested in nutrition and foods. I was challenged in this area several months ago and I would like to share this with you and the readers of the Daily Standard.

I have an eleven month old son who is on a special, low-allergy diet. He can have no food containing milk, eggs, wheat, citrus, strawberries, tomatoes or chocolate. The older he gets the harder it is to offer a variety of foods. He is at the "eating from the table" stage, but, there is little he can eat from the rest of the family's daily menu.

By combining a couple of standard bread recipes and adding a few special ingredients, I have come up with a tasty bread my son can eat.

I do not wish to claim this as an original recipe. Someone may have thought of it before. It is very hard to find low-allergy recipes, however.

There are many people, especially children, who must use low-allergy foods. I hope this recipe can help.

Sincerely,
Mrs. Ann Howell

Neil's Bread

1 pkg. active dry yeast
1 cup warm water
1 cup soybean-based infant formula
1 T. salt
2 T. shortening
2 T. sugar
3 T. dark molasses
1 cup oatmeal infant cereal
3-3½ cup rye flour
2 cub soybean flour

Add yeast to warm water. Let stand a few minutes, stir to dissolve.

In a small saucepan combine infant formula, salt, shortening, sugar, molasses. Heat until warm (shortening need not be completely melted) Pour into large mixing bowl — and cool slightly.

Add soybean flour and cereal. Beat until smooth.

Stir in yeast mixture and mix well.

Add rye flour slowly, mixing thoroughly after each addition. Blend in rye flour until dough leaves the sides of the bowl.

Turn out dough onto floured surface. Knead five to ten minutes until smooth and elastic. Cover with wax paper and a towel. Let rest 20 minutes.

Punch down dough and divide to two equal portions. At this time one loaf can be sufficiently wrapped and frozen if desired. Shape dough into loaf shape and place into greased bread pan. Let rise until doubled in bulk.

Bake at 375 degrees for 35 to 40 minutes. Cool on wire rack. Yield is two loaves.

Note: This product has a texture similar to a nut bread.

U.S. VITAMIN KNOWLEDGE LACKING

NUTLEY, N.J. (AP) — Most Americans know vitamins are important, but a majority lack facts on specific vitamin needs, according to a recent nationwide survey.

The survey, conducted by Response Analysis Corp., shows that 71 per cent of the population believed that smoking robs the body of vitamins, but only 12 per cent realized that smoking may reduce blood levels of vitamin C. And though 47 per cent were of the opinion that women on birth control pills need more vitamins, only 6 per cent knew that these women especially need higher levels of vitamin B6.

Finding missing parents leads to welfare payoffs

By STEVE RUDDOCK
Missouri Press News

JEFFERSON CITY — Missing parents who are not paying child support will be sought by investigators for the new Missouri Child Support Enforcement Unit. The investigators hope to locate the missing parents so county prosecutors can obtain court orders for child support payments.

The new unit, which began work July 1, will employ 76 investigators and will have more than $2 million in state and federal funds to spend tracking down missing parents. The agency is in the division of family services.

"The whole idea is to collect from absent parents to reimburse the taxpayers who otherwise would have to support these children," said Peggy McGuire, coordinator of the agency. She said other states' experiences show that for every dollar spent finding the absent parents, the states collect between $3 and $7 for child support.

Money collected will go into Missouri's Aid to Dependent Children (ADC) fund, which is a type of welfare payment. But the unit will also search for absent parents of children not receiving ADC payments.

Missouri is the last state to set up a child support enforcement unit, and officials agree it is badly needed. Ms. McGuire estimates the unit will be looking for about 125,000 absent parents by the end of the agency's first year. The total will depend on how many non-ADC families use the unit, Ms. McGuire said.

After investigators locate the absent parent, the county prosecutor will have the responsibility of getting the parent to pay child support. Usually, the circuit court will order the parent to pay a certain weekly or monthly sum.

But nonpayment of child support is a misdemeanor in Missouri, and a circuit court judge could sentence an absent parent to jail if he has a history of failing to pay.

County prosecuting attorneys in the past have not been required to prosecute absent parents. The same law that established the agency provides a salary raise for prosecuting attorneys as compensation for the added duties.

Ms. McGuire said several prosecuting attorneys told her they will not have to add extra staff to handle child support cases, but, she said, counties with a large number of Aid to Dependent Children families may need a larger staff.

Counties will be paid 25 per cent of all the child support money for ADC they collect until Oct. 1, and 15 per cent after that. These payments, from federal "incentive funds", will more than make up the expense to the counties, Ms. McGuire said.

The law provides that the governor may appoint a special prosecutor if the county prosecuting attorney refuses to handle child support cases. But Ms. McGuire does not expect many prosecuting attorneys to shy away from the cases.

"I attended a meeting of prosecuting attorneys in June, and they all were enthusiastic and interested," she said. "We reviewed the draft of our cooperative agreement and we took some of their suggestions."

The law requires all persons receiving ADC payments to provide all available information about the absent parent, which will be filed with the unit in Jefferson City. Anyone who does not cooperate with the unit will not be eligible for ADC payments.

Now that Missouri has set up the child support enforcement unit, it will be able to use the federal parent-locator service to look for absent parents who may be outside the state. The service has received about 200,000 requests for addresses ot absent parents since it began work in March 1976

The service uses the computer records of the Social Security Administration, the Internal Revenue Service, the Veterans Administration and the Department of Defense to search for absent parents' addresses.

A 1975 study estimated there were up to 8 million absent fathers not paying child support in the country. The federal parent locator service reported that in fiscal year 1976, 35 states reported that only 250,000 absent parents were located.

You can stretch bacon by cooking it crisply and crumbling it, then folding it into scrambled eggs just before the eggs are set. This way you can use less bacon than possible when each portion of egg is accompanied by cooked bacon slices.

Keep those nuts refrigerated or in the freezer! This way you'll prevent rancidity.

Nutrition

Do vitamins do you good?

Questions from readers about food and diet are welcomed. Letters should be addressed to: Dr. James W. Nordstrom, Cooperative Extension Service, Lincoln University, Jefferson City, MO 65105.

Q. I take a special brand of vitamins that I buy at a health food store. Each day I take one vitamin "C" and one "E" tablet, one of bone meal and also an extra strength yeast pill. Is the analysis give given on the bottles likely to be accurate for these pills?

A. The content of nutrients that are claimed for a nutrition supplement are likely to be correct because of federal regulations. The real is whether the supplements you are buying are doing any good. Unless your diet is deficient in vitamins, eating more vitamins will not be beneficial.

If you consume some citrus fruit or tomatoes each day, or eat green, leafy vegatables or fresh fruit like melons or strawberries, it is quite unlikely that you are lacking in vitamin C. Vitamin E is distributed in a large number of foods and deficiencies are practically unknown in the general population for this vitamin.

It is also true that bonemeal will not be of value unless you are not consuming enough minerals in your diet. This may indeed be the case, if you are not drinking milk or eating cheese (two cups of milk or two ounces of hard cheese are recommended each day.) Whether a yeast supplement will be helpful depends on its content of nutrients (it is usually taken fro the B vitamins it contains) and whether you are in need of those nutrients.

Surveys of nutritional status taken in Missouri and in other parts of the United States and Canada have not found undernutrition to be widespread or common. Food intake records, laboratory assays of blood and other tissues and clinical examinations for deficiency symptoms are methods employed to determine nutritional well-being. When evidence for a lack of specific nutrients is uncovered it is usually present in individuals who tend not to eat adequately--the poor, elderly, infirm, alcoholic, etc.

The fact is that you are likely to be better off nutritionally if you select your foods to provide a balanced diet and stop worrying about supplements. An important point to remember is that you cannot replace food with pills. Foods contain a great variety of nutrients, while pills may have only one nutrient, such as vitamin A or C, or a limited amojnt of specific nutrients. It is also a waste of money to buy something that isn't needed. The selling of special "nutritional" supplements is one of the biggest rip-offs of our present age.

You may really need a vitamin or mineral supplement, of course, and your doctor can then prescribe something for you. If you insist on self-treatment, one of the safest and cheapest ways to buy vitamins is the "one-a-day" kinds sold at your local grocery or supermarket. Buying a multiple vitamin mixture with iron (all in one pill) will give you the most for your money.

Two publications that can help you select a balanced diet are Food for Fitness, Folder 164, and Food is More Than Just Something to Eat, Home and Garden Bulletin 216. You may obtain them by contacting your local University Extension Center, or by writing to the address above.

POLLY'S POINTERS

DEAR POLLY — I find many who use the new automatic coffee makers are complaining that the coffee does not stay hot enough. To get around this I do put a saucer on top of the coffee pot and find it stays as hot as when made. — SALLIE.

DEAR POLLY — I had the problem of lint getting into the drain from my washing machine so I put an old stocking over the hose. This catches any lint that might clog the drain. — TONI.

DEAR POLLY — I drive my car to work daily as well as on many other occasions. Since it is not air conditioned I must keep the driver's window down during the warm weather. To avoid having my purse snatched out of the car when I stop at a traffic light or am caught in a traffic jam, I slip my purse straps through one section of the seat belt as I buckle it up. If a purse happens to be strapless then it goes on the floor on the passenger's side when I am driving alone. This type of purse snatching seems to be getting quite popular. — JO.

I have an eleven month old son who is on a special, low-allergy diet. He can have no food containing milk, eggs, wheat, citrus, strawberries, tomatoes or chocolate. The older he gets the harder it is to offer a variety of foods. He is at the "eating from the table" stage, but, there is little he can eat from the rest of the family's daily menu.

By combining a couple of standard bread recipes and adding a few special ingredients, I have come up with a tasty bread my son can eat.

I do not wish to claim this as an original recipe. Someone may have thought of it before. It is very hard to find low-allergy recipes, however.

There are many people, especially children, who must use low-allergy foods. I hope this recipe can help.

Sincerely,
Mrs. Ann Howell

Neil's Bread

1 pkg. active dry yeast
1 cup warm water
1 cup soybean-based infant formula
1 T. salt
2 T. shortening
2 T. sugar
3 T. dark molasses
1 cup oatmeal infant cereal
3-3½ cup rye flour
2 cub soybean flour

Add yeast to warm water. Let stand a few minutes, stir to dissolve.

In a small saucepan combine infant formula, salt, shortening, sugar, molasses. Heat until warm (shortening need not be completely melted) Pour into large mixing bowl — and cool slightly.

Add soybean flour and cereal. Beat until smooth.

Stir in yeast mixture and mix well.

Add rye flour slowly, mixing thoroughly after each addition. Blend in rye flour until dough leaves the sides of the bowl.

Turn out dough onto floured surface. Knead five to ten minutes until smooth and elastic. Cover with wax paper and a towel. Let rest 20 minutes.

Punch down dough and divide to two equal portions. At this time one loaf can be sufficiently wrapped and frozen if desired. Shape dough into loaf shape and place into greased bread pan. Let rise until doubled in bulk.

Bake at 375 degrees for 35 to 40 minutes. Cool on wire rack. Yield is two loaves.

Note: This product has a texture similar to a nut bread.

U.S. VITAMIN KNOWLEDGE LACKING

NUTLEY, N.J. (AP) — Most Americans know vitamins are important, but a majority lack facts on specific vitamin needs, according to a recent nationwide survey.

The survey, conducted by Response Analysis Corp., shows that 71 per cent of the population believed that smoking robs the body of vitamins, but only 12 per cent realized that smoking may reduce blood levels of vitamin C. And though 47 per cent were of the opinion that women on birth control pills need more vitamins, only 6 per cent knew that these women especially need higher levels of vitamin B6.

Finding missing parents leads to welfare payoffs

By STEVE RUDDOCK
Missouri Press News

JEFFERSON CITY — Missing parents who are not paying child support will be sought by investigators for the new Missouri Child Support Enforcement Unit. The investigators hope to locate the missing parents so county prosecutors can obtain court orders for child support payments.

The new unit, which began work July 1, will employ 76 investigators and will have more than $2 million in state and federal funds to spend tracking down missing parents. The agency is in the division of family services.

"The whole idea is to collect from absent parents to reimburse the taxpayers who otherwise would have to support these children," said Peggy McGuire, coordinator of the agency. She said other states' experiences show that for every dollar spent finding the absent parents, the states collect between $3 and $7 for child support.

Money collected will go into Missouri's Aid to Dependent Children (ADC) fund, which is a type of welfare payment. But the unit will also search for absent parents of children not receiving ADC payments.

Missouri is the last state to set up a child support enforcement unit, and officials agree it is badly needed. Ms. McGuire estimates the unit will be looking for about 125,000 absent parents by the end of the agency's first year. The total will depend on how many non-ADC families use the unit, Ms. McGuire said.

After investigators locate the absent parent, the county prosecutor will have the responsibility of getting the parent to pay child support. Usually, the circuit court will order the parent to pay a certain weekly or monthly sum.

But nonpayment of child support is a misdemeanor in Missouri, and a circuit court judge could sentence an absent parent to jail if he has a history of failing to pay.

County prosecuting attorneys in the past have not been required to prosecute absent parents. The same law that established the agency provides a salary raise for prosecuting attorneys as compensation for the added duties.

Ms. McGuire said several prosecuting attorneys told her they will not have to add extra staff to handle child support cases, but, she said, counties with a large number of Aid to Dependent Children families may need a larger staff.

Counties will be paid 25 per cent of all the child support money for ADC they collect until Oct. 1, and 15 per cent after that. These payments, from federal "incentive funds", will more than make up the expense to the counties, Ms. McGuire said.

The law provides that the governor may appoint a special prosecutor if the county prosecuting attorney refuses to handle child support cases. But Ms. McGuire does not expect many prosecuting attorneys to shy away from the cases.

"I attended a meeting of prosecuting attorneys in June, and they all were enthusiastic and interested," she said. "We reviewed the draft of our cooperative agreement and we took some of their suggestions."

The law requires all persons receiving ADC payments to provide all available information about the absent parent, which will be filed with the unit in Jefferson City. Anyone who does not cooperate with the unit will not be eligible for ADC payments.

Now that Missouri has set up the child support enforcement unit, it will be able to use the federal parent-locator service to look for absent parents who may be outside the state. The service has received about 200,000 requests for addresses of absent parents since it began work in March 1976

The service uses the computer records of the Social Security Administration, the Internal Revenue Service, the Veterans Administration and the Department of Defense to search for absent parents' addresses.

A 1975 study estimated there were up to 8 million absent fathers not paying child support in the country. The federal parent locator service reported that in fiscal year 1976, 35 states reported that only 250,000 absent parents were located.

You can stretch bacon by cooking it crisply and crumbling it, then folding it into scrambled eggs just before the eggs are set. This way you can use less bacon than possible when each portion of egg is accompanied by cooked bacon slices.

Keep those nuts refrigerated or in the freezer! This way you'll prevent rancidity.

Nutrition

Do vitamins do you good?

Questions from readers about food and diet are welcomed. Letters should be addressed to: Dr. James W. Nordstrom, Cooperative Extension Service, Lincoln University, Jefferson City, MO 65105.

Q. I take a special brand of vitamins that I buy at a health food store. Each day I take one vitamin "C" and one "E" tablet, one of bone meal and also an extra strength yeast pill. Is the analysis give given on the bottles likely to be accurate for these pills?

A. The content of nutrients that are claimed for a nutrition supplement are likely to be correct because of federal regulations. The real is whether the supplements you are buying are doing any good. Unless your diet is deficient in vitamins, eating more vitamins will not be beneficial.

If you consume some citrus fruit or tomatoes each day, or eat green, leafy vegatables or fresh fruit like melons or strawberries, it is quite unlikely that you are lacking in vitamin C. Vitamin E is distributed in a large number of foods and deficiencies are practically unknown in the general population for this vitamin.

It is also true that bonemeal will not be of value unless you are not consuming enough minerals in your diet. This may indeed be the case, if you are not drinking milk or eating cheese (two cups of milk or two ounces of hard cheese are recommended each day.) Whether a yeast supplement will be helpful depends on its content of nutrients (it is usually taken fro the B vitamins it contains) and whether you are in need of those nutrients.

Surveys of nutritional status taken in Missouri and in other parts of the United States and Canada have not found undernutrition to be widespread or common. Food intake records, laboratory assays of blood and other tissues and clinical examinations for deficiency symptoms are methods employed to determine nutritional well-being. When evidence for a lack of specific nutrients is uncovered it is usually present in individuals who tend not to eat adequately--the poor, elderly, infirm, alcoholic, etc.

The fact is that you are likely to be better off nutritionally if you select your foods to provide a balanced diet and stop worrying about supplements. An important point to remember is that you cannot replace food with pills. Foods contain a great variety of nutrients, while pills may have only one nutrient, such as vitamin A or C, or a limited amojnt of specific nutrients. It is also a waste of money to buy something that isn't needed. The selling of special "nutritional" supplements is one of the biggest rip-offs of our present age.

You may really need a vitamin or mineral supplement, of course, and your doctor can then prescribe something for you. If you insist on self-treatment, one of the safest and cheapest ways to buy vitamins is the "one-a-day" kinds sold at your local grocery or supermarket. Buying a multiple vitamin mixture with iron (all in one pill) will give you the most for your money.

Two publications that can help you select a balanced diet are Food for Fitness, Folder 164, and Food is More Than Just Something to Eat, Home and Garden Bulletin 216. You may obtain them by contacting your local University Extension Center, or by writing to the address above.

POLLY'S POINTERS

DEAR POLLY — I find many who use the new automatic coffee makers are complaining that the coffee does not stay hot enough. To get around this I do put a saucer on top of the coffee pot and find it stays as hot as when made. — SALLIE.

DEAR POLLY — I had the problem of lint getting into the drain from my washing machine so I put an old stocking over the hose. This catches any lint that might clog the drain. — TONI.

DEAR POLLY — I drive my car to work daily as well as on many other occasions. Since it is not air conditioned I must keep the driver's window down during the warm weather. To avoid having my purse snatched out of the car when I stop at a traffic light or am caught in a traffic jam, I slip my purse straps through one section of the seat belt as I buckle it up. If a purse happens to be strapless then it goes on the floor on the passenger's side when I am driving alone. This type of purse snatching seems to be getting quite popular. — JO.

Craft show set for August 12-14

Sikeston's Second Annual Arts and Crafts Show and Sale will be held during Rodeo Week this year. The three-day craft show will get underway Aug. 12 at the American Legion Park in downtown Sikeston.

The show will run this year from 9 a.m. - 7 p.m. on both Friday and Saturday, Aug. 12 - 13 and from 9 a.m. - 1 p.m. on Sunday, Aug. 14.

Craftsmen from several states surrounding Missouri were attracted to the show last year at the American Legion Building. A total of 77 artists from Missouri, Illinois, Kentucky, Tennessee and Virginia took part in the 1976 affair.

Entry fee is $5 for all three days and those artists interested in participating are urged to send in their entry fee immediately. Entry fees should be sent to the Sikeston Area Chamber of Commerce.

The first president to broadcast in a foreign language was Franklin Delano Roosevelt who addressed the French people on November 7, 1942 from Washington, D.C.

Open mind

What is schizophrenia?

Dear Open Mind:

In four years at clinics and hospitals I have seen many doctors, who gave me over 50 shock treatments and all kinds of medicine. Recently my present doctor dried to explain what other doctors stated about me. They all claim I COULD have schizophrenia, but two of them say something is wrong with my body and affecting me mentally. If this is so, how can I find out what is wrong?

I can't live with anyone, male or female, and it's getting to the point I can't stand myself. I don't want to see psychiatrists the rest of my life. What can I do?

IN SEARCH OF DIAGNOSIS

Schizophrenia is a common illness

Dear In Search of a Diagnosis:

Schizophrenia is one of the most common forms of mental illness, but there are several different types of schizophrenia. Because each of these kinds has some different symptoms and each person has his own individual version of the generalized type, it is hard to speak about the illness schizophrenia without knowing a good deal about the individual case.

You say that two doctors stated there was something wrong with your body, and you want to find out what is physically wrong with you. It stands to reason that if something specific were wrong with you--a persistent infection—a malformation—something like that, the doctors would not only tell you about it; they would be treating your ailment.

There is presently a belief among most clinical psychiatrists that delicate balances in body chemistry may become disturbed and result in mental disorders such as schizophrenia. Could it be that your doctor was trying to explain this to you? If that is what he meant, you cannot expect such a condition to be cleared quickly once and for all. Usually a person so diagnosed has to remain under treatment as an outpatient long after he has left the hospital. Usually he must take medicine that was prescribed to him by a psychiatrist, and he must take it exactly as prescribed so long as the doctor thinks he needs it. You may not WANT to see psychiatrists any more, but it is in your best interests to continue the treatment you are receiving; you have already been to many doctors, and it sounds as if your present physician is willing to talk to you about your diagnosis and to explain what you need to know.

Liam O'Brien, M.D.
Superintendent
St. Joseph State Hospital
St. Joseph, Missouri

Dear In Search of a Diagnosis:

Many times people search for simple answers to complicated problems which take time and effort to resolve. For some people, medical treatment can help them to be more in control of themselves and to be less anxious. If you continue to ask questions with your doctor, he can explain his plan.

In your letter, you say that you can't live with anyone and can't stand your own self. I think that talking with a therapist about your thoughts and feelings could be helpful. You could learn something about how your behavior is seen by other people and how they react to you. You might continue to explore how you think and feel about yourself. You might consider what about yourself you could change. People feel better about themselves when they learn how better to get along with other people. And people can change and grow through understanding themselves.

Psychiatric Social Worker
Psychiatry Department
Jewish Hospital of St. Louis
St. Louis, Missouri

First aid tips

You could be enjoying a quiet conversation over a sumptuous meal at your favorite restaurant when your spouse or friend suddenly gasps for breath and quickly turns pale and then blue. What should you do? There are some emergency first aid measures you can learn that may help you save his or her life.

The Department of the Interior has a new pocket-sized reference guide for treating medical emergencies from strains and sprains to shock, choking or heart attack.

Immediate first aid can mean the difference between life and death for a person who is injured or suddenly ill. For your copy of First Aid, send 80 cents to the Consumer Information Center, Dept. 120E, Pueblo, Colorado 81009.

If the victim is not breathing or gasps for breath, something could be stuck in his or her throat. Try to remove the piece of food or other object from the throat by opening the victim's mouth and grasping the object with your index and middle fingers. If this doesn't work, place the victim's head lower than the body and slap him or her on the back. If these methods don't work, stand behind the person who is choking and wrap your arms around the body, just above the navel and below theribcage.

Lean the victim forward at the waist and let the head and arms hang down. Put one hand on your own wrist; make a fist with the other hand; and squeeze suddenly and firmly against the victim's abdomen. This will force air out of the lungs, and the air will puch the object out of the throat.

Other medical emergencies covered by the reference guide include:

Heart Attack - A person suffering a heart attack may need artificial respiration. Mouth-to-mouth is the most effective, and is described in some detail in the First Aid reference guide. Cardiopulmonary resuscitation, another procedure described in the guide, is used when the heart stops beating completely.

Severe Bleeding - To stop severe bleeding, cover the wound with the cleanest cloth immediately available, and apply direct pressure on the wound. If the wound is in the arm or leg, and they do not seem to be broken, raise the arm or leg as you apply pressure.

Burns - For burns, whether they are caused by a hot stove or hot coffee, apply cool water immediatley.

New Hamburg Homemakers discuss events

NEW HAMBURG--The regular monthly meeting of the New Hamburg Homemakers held on June 27th was opened with a devotional led by the president, Mrs. Lucille Heuring. Roll call was answered with each member giving their gardening experiences this year.

Mrs. Ruth Carroll reported on the recent tour to Nashville for area club members, sponsored by the Stoddard County Homemakers Council. Members of the local club attending were Mrs. Helen Urhahn, Mrs. Rebecca Dirnberger, Mrs. Coonie Essner and Mrs. Carroll. The group visited Grand Old Opry, Opryland, Ryan's Auditorium, the homes of country music stars, and various other places of interest.

It was announced that Achievement Night has been tentatively set for September 26, with the Scott City Homemakers in charge of arrangements. Each club will be responsible for a three to five minute skit. Women's Day will be the week of October 25, and Mrs. Betty Niederkorn and Mrs. Ruth Carroll were appointed to serve on the planning committee for this event. It was voted to pay expenses for one child to attend Little Acorn Camp.

An area sewing machine evaluation program will be held on Thursday, July 28, at the Sikeston Junior High School. Company representatives for Necchi-Elna, Bernina, Singer and Viking machines will be present to explain the different kinds and models of machines, their use and maintenance, dealer services to be expected, and those attending will learn skills and techniques to enable them to make fullest use of their machine. The program will begin at 9:30 A.M. and will consist of four one-hour sessions, closing at 3:00 P.M. This is open to the public, and those interested in sewing are urged to attend.

Motion was made and carried to purchase pins for 20-year and over members; these to be presented on Achievement night. Club members eligible are Mrs. Vera Burger, Mrs. Erma Grojean, Mrs. Betty Niederkorn and Mrs. Lucille Heuring.

Announcement was made of the Oran Fall Festival to be held on August 19 and 20. The club will sponsor a float for the parade. Quilt raffle and social will be Sunday afternoon, July 21st, at the school hall. The annual club picnic will be August 7th at Capaha Park.

A very interesting and educational quiz was the Citizenship program presented by Mrs. Pat Kern.

Mrs. Margaret Heuring installed officers, using a unique and inspirational symbolism of packing for a journey; followed with all members joining in singing the hymn, "Let There Be Peace". Officers installed were: President, Mrs. Lucille Heuring; Vice-President, Mrs. Mary Glastetter; Secretary, Mrs. Lillian Westrich; and Treasurer, Mrs. Sylvia Steimle.

Hostesses for the evening were Mrs. Rosalee Kern and Mrs. Paulette Hamm. Since no meeting is held in July, the next meeting will be on August 22.

USDA increases payments for meal, child care programs

CHICAGO--Carol Tucker Foreman, Assistant Secretary of Agriculture for Food and Consumer Services, announced today that the school lunch, breakfast, and child care programs will receive increased payments adjusted to reflect the change in the Consumer Price Index (CPI) series for food away from home.

The adjustments, effective July 1, reflect the 4.9 percent increase in the CPI for the six month period, Nov. 1976 to May 1977. The increased payments paid to schools and institutions through state agencies help defray meal preparation costs in the national school lunch, school breakfast, and child care food programs.

The national average payment for the school lunch program will be increased from 13.25 cents to 14 cents for each lunch served. Within that average, states are authorized by the U.S. Department fo Agriculture (USDA) to vary the rate of reimbursement up to a maximum of 20 cents per lunch.

The additional average payment for lunches served to needy children will be increased from 50 cents to 53 cents for a reduced-price lunch and from 60 cents to 63 cents for a free lunch.

The maximum total reimbursement states may pay schools and institutions has been increased from 78.25 cents to 82 cents for a reduced-price lunch and from 88.25 cents to 92 cents fro a free lunch.

Under the school breakfast program, the national average payment will be increased from 10.75 cents to 11.25 cents for each breakfast served. The additional average payment for each reduced-price breakfast will be increased from 20 cents to 21 cents. The additional average payment for a free breakfast will be increased from 26.75 cents to 28 cents. Maximum rates to reimbursement states may pay especially needy schools and institutions will remain at 40 cents for each reduced-price breakfast and at 45 cents for each free breakfast served.

Under the child care food program, states will receive the same payments for breakfasts as those for the school breakfast program, and the same payments for lunches and suppers as those for the national school lunch program.

Payments for each mid-morning and mid-afternoon snack allowed under the child care food program have been increased from 5.50 cents to 5.75 cents.

Company representatives for Necchi-Elna, Bernina, Singer and Viking machines will be present to explain the different kinds and models of machines, their use and maintenance, dealer services to be expected, and those attending will learn skills and techniques to enable them to make fullest use of their machine. The program will begin at 9:30 A.M. and will consist of four one-hour sessions, closing at 3:00 P.M. This is open to the public, and those interested in sewing are urged to attend.

Motion was made and carried to purchase pins for 20-year and over members; these to be presented on Achievement night. Club members eligible are Mrs. Vera Burger, Mrs. Erma Grojean, Mrs. Betty Niederkorn and Mrs. Lucille Heuring.

Announcement was made of the Oran Fall Festival to be held on August 19 and 20. The club will sponsor a float for the parade. Quilt raffle and social will be Sunday afternoon, July 21st, at the school hall. The annual club picnic will be August 7th at Capaha Park.

A very interesting and educational quiz was the Citizenship program presented by Mrs. Pat Kern.

Mrs. Margaret Heuring installed officers, using a unique and inspirational symbolism of packing for a journey; followed with all members joining in singing the hymn, "Let There Be Peace". Officers installed were: President, Mrs. Lucille Heuring; Vice-President, Mrs. Mary Glastetter; Secretary, Mrs. Lillian Westrich; and Treasurer, Mrs. Sylvia Steimle.

Hostesses for the evening were Mrs. Rosalee Kern and Mrs. Paulette Hamm. Since no meeting is held in July, the next meeting will be on August 22.

USDA increases payments for meal, child care programs

CHICAGO--Carol Tucker Foreman, Assistant Secretary of Agriculture for Food and Consumer Services, announced today that the school lunch, breakfast, and child care programs will receive increased payments adjusted to reflect the change in the Consumer Price Index (CPI) series for food away from home.

The adjustments, effective July 1, reflect the 4.9 percent increase in the CPI for the six month period, Nov. 1976 to May 1977. The increased payments paid to schools and institutions through state agencies help defray meal preparation costs in the national school lunch, school breakfast, and child care food programs.

The national average payment for the school lunch program will be increased from 13.25 cents to 14 cents for each lunch served. Within that average, states are authorized by the U.S. Department fo Agriculture (USDA) to vary the rate of reimbursement up to a maximum of 20 cents per lunch.

The additional average payment for lunches served to needy children will be increased from 50 cents to 53 cents for a reduced-price lunch and from 60 cents to 63 cents for a free lunch.

The maximum total reimbursement states may pay especially needy schools and institutions has been increased from 78.25 cents to 82 cents for a reduced-price lunch and from 88.25 cents to 92 cents fro a free lunch.

Under the school breakfast program, the national average payment will be increased from 10.75 cents to 11.25 cents for each breakfast served. The additional average payment for each reduced-price breakfast will be increased from 20 cents to 21 cents. The additional average payment for a free breakfast will be increased from 26.75 cents to 28 cents. Maximum rates to reimbursement states may pay especially needy schools and institutions will remain at 40 cents for each reduced-price breakfast and at 45 cents for each free breakfast served.

Under the child care food program, states will receive the same payments for breakfasts as those for the school breakfast program, and the same payments for lunches and suppers as those for the national school lunch program.

Payments for each mid-morning and mid-afternoon snack allowed under the child care food program have been increased from 5.50 cents to 5.75 cents.

Solving life's problems: *Test for handling 'real life' skills will be given in schools*

By SUE A. MERKNER
Missouri Press News

JEFFERSON CITY — A test measuring a child's ability to solve everyday problems and handle real-life situations will be administered soon to Missouri eighth grade students.

The Basic Essential Skills Test (BEST) will be offered on a voluntary basis in April 1978 to school districts throughout Missouri.

The BEST will be required test for eighth graders beginning in April, 1979. Officials haven't decided yet whether it will be a requirement for high school graduation.

The BEST, given at the end of eighth grade, is a competency test that measures a student's proficiency in language arts and reading, mathematics, government and economics. The BEST measures the student's ability to use these skills in managing everyday situations.

The BEST was developed by staff members of the Missouri Department of Elementary and Secondary Education at the request of the Missouri Board of Education.

Arthur Mallory, commissioner of education for the state school board, says the BEST will be used on a voluntary basis first to "allow teachers to see what they are getting and to allow them to ease into it."

After the voluntary period is completed, state educators will decide if the test will be required for high school graduation. They also will determine a passing grade.

The BEST functions as a screening device to identify individual students who need special assistance in mastering certain basic skills and applying those skills to real-life situations. Teachers can decide if a student needs special counseling or an extra course to make up a deficiency.

What's on the test?

When Missouri eighth graders are tested to see how well they can apply what they have learned to handling real-life problems, here are some of the questions they might see.

The questions are from the Basic Essential Skills Test (BEST), designed and copyrighted by the Missouri Department of Elementary and Secondary Education.

"Dissolve before taking" on the label of a medicine bottle means that you:

A. Drink water before taking the medicine.

B. mix the medicine with water.

C. shake the bottle.

D. take the medicine at bedtime.

If a can says, "Do not incinerate," you should not:

A. put the can in a cold place.

B. put the can in fire.

C. put the can in the closet.

D. shake the can.

To learn about jobs that are available, to which section of a newspaper would you turn?

A. Classified ads.

B. Editorial page.

C. Sports page.

D. Society page.

A phone bill includes a connection fee of $8.50, a $4.75 monthly charge and a $1.79 long-distance charge. How much is the total bill?

A. $13.14

B. $13.94

C. $14.94

D. $15.04

A small car travels 341 miles on 11 gallons of gasoline. How many miles to the gallon does it average?

A. 21

B. 31

C. 34

D. 41

How many square yards of carpet are needed to carpet a room that is 12 feet long and 9 feet wide?

A. 9

B. 12

C. 36

D. 108

The Senate and House of Representatives passed a bill. What usually must happen to the bill next before it could become law?

A. Nothing. Once both Houses pass the bill, it is law.

B. The President must sign

The BEST measures three general areas of competency.

Reading and language arts — The student's use of spelling, punctuation, reading skills and oral language are measured in performing daily it.

C. The Supreme Court must rule that it is constitutional.

D. Citizens must vote to approve the bill.

Janis Kohl was arrested last night. According to the U.S. Constitution and U.S. Court decisions:

A. Janis must help the police by answering all of their questions.

B. Janis may get a lawyer only after her trial.

C. Janis must be set free if the police or prosecuting attorney cannot convince a judge that she probably committed a crime.

D. Janis will need to stay in jail until the government has collected all the evidence it needs from her.

Mr. Kelly just bought a new car, but he has a problem: If he would have an accident he would not have enough money to pay for the damage. Of the choices below, what should he do?

A. Buy a second automobile.

B. Buy an automobile insurance policy.

C. Open a savings account.

D. Open a checking account.

tasks such as reading directions to complete a task, completing a job application or interviewing someone to get specific informtion.

Girl Scouts on capitol steps

Senior Girl Scouts from the Cotton Boll Council of the Girl Scouts of America stopped long enough during their tour of the nations capitol to have their picture made with Congressman Bill Burlison. While on tour the girls spent four days in Washington and toured many of the nation's historical places while traveling by bus. The girls were accompanied by Mrs. Virginia Heise, a scout leader from Malden and Mrs. Juanita Alcorn of Sikeston who served as a tour escort.

Area senior scouts return from Washington

Senior Girl Scouts from the Cotton Boll Girl Scout Council returned recently from a tour of the nation's capitol and eastern parts of the United States. The 42 girls accompanied by Mrs. Virginia Heise of Malden and Mrs. Juanita Alcorn of Sikeston traveled through 13 states and visited such spots as the Old Kentucky Home, Natural Bridge, Mt. Vernon as well as the capitol.

Those girls attending from the area were Susan Johnson, Kelly Wade, Laura Lee, Kerry Duncan, Dawn Priday, Laurie Deane, Tory Robertson, Milissa Lee, Allegra Morris, Kim Shell, Laura Tetley, Nancy Bohannon and Cheryl Kruger all of Sikeston.

Karen Byrum of Charleston, Mary Ellen Prim and Carolyn Nolte both of Poplar Bluff; Cindy Menees and Jo Rowell both of Morehouse.

Lisa Moore, Kay Medlin, Terri Dowdle, Gwyn McDonald, Kelly Churchill, Gayle McDonald, Laura Moore and Linda Dorroh of Caruthersville.

Donna Loper, Nancy Vanderheyden, Cynthia Worley, Cathy Owens, Diane Vanderheyden, Crystal Adams, Debbie Gales and Linda Kidd of Dexter.

Elizabeth Gargas, Julie Striegel, Fran Dalton, Christy Jones, Kimberly Waddell, Condy Parmenter, Tina Williams and Kelly Parker all of Kennett.

Below is a letter received by one of the leaders Mrs. Heise from Bill Burlison which accompanied the above picture.

Mrs. V. B. Heise
Malden, Mo. 63863

Dear Mrs. Heise:

It was certainly a pleasure to visit with you while you were here in the Nation's Capitol. You had a fine group of Girl Scouts with you and I enjoyed our tour of the House Floor.

Please find enclosed copies of the picture which we had taken on the Capitol steps. You may desire to retain them as mementos of the occasion, or you might wish to submit a copy of one to your local newspaper, along with an account of your stay in Washington.

Trusting that you had a pleasant and safe trip back to Missouri, and looking forward to visiting with you from time to time in the district, I remain

Respectfully yours,
Bill D. Burlison, M.C.

POLLY'S POINTERS

Hot vinegar lifts glue

POLLY'S PROBLEM

DEAR POLLY — I got a couple of spots of glue on my beautiful new knit pants suit. The spots were small and rather inconspicuous so I tried to remove them with nail polish remover which did soften the glue. But then when I wahsed them the pants were stiff as a brick. Is there any possible way to save these nice pants? — MILDRED.

DEAR MILDRED — Sounds to me as if you did not properly rinse out the polish remover OR the water may have been the wrong temperature as some fabrics require it hot and others cold. Some glue will not loosen at all after it hardens, so you were lucky that far. The usual procedure is to wash with a detergent and water before it sets. Immerse in hot white vinegar and keep to the boiling point until stain is removed (if fabric will take this). This may take 15 minutes or so and then rinse THOROUGHLY with water of the proper temperature for the particular fabric. — POLLY.

DEAR POLLY — My Pet Peeve is with the manufacturers of white shoes such as those worn by nurses and waitresses. It seems that they could come up with eyelets that do not make the tongue and shoe laces black. That black simply will not come off and the shoes look terrible. — MRS. R.G.

DEAR POLLY — I want to tell Mary R.B. who has crepe paper stains on her table top that I have used a fine brand of silver polish to remove stains from table and server tops quite a few times and with excellent results. It does take good hard rubbing but really works, and without harm to the furniture. — MINIE.

DEAR POLLY — To keep one's hat on even on a windy day, roll a strand of hair around a small hair roller on top of the head and fasten it securely in place with one or two hair pins. Put your hat on at the angle you want to wear it and then push a two and a half to three inch hat pin or long corsage pin through the roller perpendicular to the position of the roller. Be sure the pin goes through the roller and out the opposite side. — SHIRLEY.

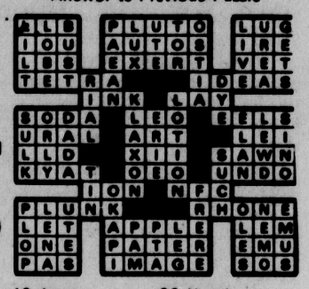
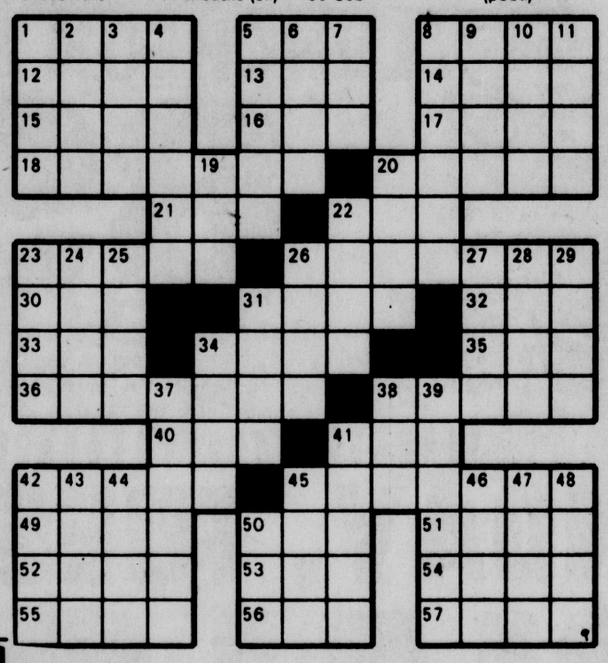
Answer to Previous Puzzle





THE FAMILY CIRCUS . By Bil Keane

"Now, don't touch a thing in the woods 'cause it might be poison ivory."

"NO, IT'S NOT AN OBEDIENCE SCHOOL DIPLOMA. IT'S AN AWARD FROM CITY SANITATION FOR NOT TIPPING OVER A TRASH PAIL FOR THREE WHOLE SUCCESSIVE DAYS."

Today in U.S. history

By The Associated Press

Today is Sunday, July 10th, the 191st day of 1977. There are 174 days left in the year.

Today's highlight in history:

On this date in 1850, Vice President Millard Fillmore succeeded to the presidency on the death of President Zachary Taylor.

On this date:

In 1509, the Protestant reformer, John Calvin, was born in France.

In 1890, Wyoming became the 44th state of the union.

In 1943, Allied forces landed on the island of Sicily in World War II.

In 1953, the Soviet chief of internal security, Lavrenti Beria, was purged from the Communist hierarchy in the Soviet Union.

In 1962, the Telstar communications satellite was launched into orbit from Cape Canaveral, Fla., relaying American television to Europe.

In 1971, the U.S. Senate Foreign Relations Committee estimated that the war in Vietnam had cost nearly $500 for every man, woman and child in the United States.

Ten years ago: A dozen Soviet warships were visiting ports in Egypt, demonstrating that nation's naval strength in the Mediterranean.

Five years ago: Britain sent 1,200 more troops to bolster its force in Northern Ireland as the outlawed Irish Republican Army ended a cease-fire.

One year ago: In Angola, four mercenaries — an American and three British subjects — were executed by firing squad.

Today's birthdays: Novelist Saul Bellow is 62. Broadway composer Jerry Herman is 44. Tennis star Arthur Ashe is 34.

Thought for today: To go slowly and to live a long time are two brothers — a Dutch proverb.

Today in U.S. history

By The Associated Press

Today is Sunday, July 10th, the 191st day of 1977. There are 174 days left in the year.

Today's highlight in history:

On this date in 1850, Vice President Millard Fillmore succeeded to the presidency on the death of President Zachary Taylor.

On this date:

In 1509, the Protestant reformer, John Calvin, was born in France.

In 1890, Wyoming became the 44th state of the union.

In 1943, Allied forces landed on the island of Sicily in World War II.

In 1953, the Soviet chief of internal security, Lavrenti Beria, was purged from the Communist hierarchy in the Soviet Union.

In 1962, the Telstar communications satellite was launched into orbit from Cape Canaveral, Fla., relaying American television to Europe.

In 1971, the U.S. Senate Foreign Relations Committee estimated that the war in Vietnam had cost nearly $500 for every man, woman and child in the United States.

Ten years ago: A dozen Soviet warships were visiting ports in Egypt, demonstrating that nation's naval strength in the Mediterranean.

Five years ago: Britain sent 1,200 more troops to bolster its force in Northern Ireland as the outlawed Irish Republican Army ended a cease-fire.

One year ago: In Angola, four mercenaries — an American and three British subjects — were executed by firing squad.

Today's birthdays: Novelist Saul Bellow is 62. Broadway composer Jerry Herman is 44. Tennis star Arthur Ashe is 34.

Thought for today: To go slowly and to live a long time are two brothers — a Dutch proverb.

Mr. and Mrs. Herbert Finney have purchased a home at 112 West Wakefield and came here from Charleston. Mr. Finney is former owner o the Home Oil Co., in that town. They have three grown sons.

Book review

THE GREAT SANTINI
by Pat Conroy
(Avon 32680. $1.95
Fiction)

THE GREAT SANTINI is a realistic and humorous portrayal of a typical yet unique military family, moving year after year from one southern town to another, from one new school to the next. Lieutenant Colonel Bull Meecham, the Great Santini, is the epitome of a Marine officer. His virtues are simple and unyielding: loyalty, couage, toughness, obedience, and he demands these qualities from his wife and their four scared yet defiant children. As the oldest, eighteen-year-old Ben receives the brunt of Bull's critism and expectations. Nothing less than perfect is considered acceptable to the Great Santini.

In THE GREAT SANTINI Pat Conroy captures the tyrannizing brutality and childish pranks of a grown man living out the legend of the Marine Corps, the mindless devotion and sustaining pride of a military career. He presents a patient and beautiful mother, the referee between fathe and children, interpreter of their actions, and translator of their hard-to-express love.

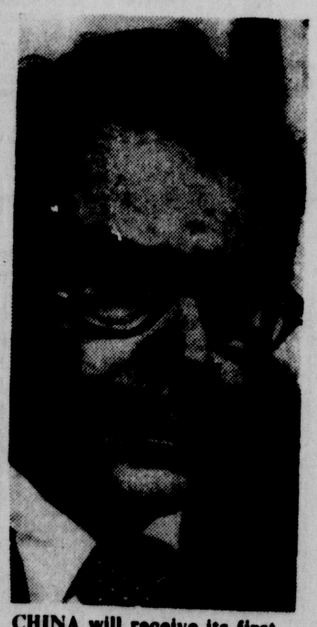
Pat Conroy was born in Atlanta, Georgia, and spent his early years on numerous Marine Corps bases in the South where his father was stationed as a pilot. After graduation from the Citadel, Pat Conroy taught high school in Beaufort, South Carolina. Subsequently he taught in a small school on an island just off the Carolina coast. His experiences there are recorded in his first book, The Water is Wide, on which the motion picture Conrack, starrin Jon Voight, was based.

XXX

The Prayer

"After a little while the bystanders came up and said to Peter, 'Certainly you are also one of them, for your accent betrays you.' " (Matthew 26:73 RSV)

PRAYER: Our Father, may we speak with accents of love and concern which enable others to identify us as Your followers. Thank You, Father, for Your Son. May we become more like Him each day. Amen.



CHINA will receive its first visit from a top Carter administration official with the arrival in Peking Aug. 22 of Secretary of State Cyrus Vance. Voicing continuity of the policies of the Nixon and Ford administrations, Vance has said China has a central role in U.S. foreign policy with the eventual goal being full diplomatic relations.

All the boss contributes to teamwork is cracking of the whip.

Our secretary makes very, very few mistakes, principally because she does so little work.

weddings

Mr. and Mrs. Mark Edward Ahlvin

A garden ceremony at the groom's home united in marriage Linda Dianne Blaylock and Mark Edward Ahlvin on June 13. The Rev. Tom Bass, pastor of the Hunter Memorial First Presbyterian Church officiated.

The couples parents are Mr. and Mrs. Thomas Blaylock and Dr. and Mrs. Robert C. Ahlvin, both of Sikeston.

The bride chose a floor length A-line gown of polyester chiffon featuring an empire waist, mandarin neckline and Edwardian sleeves. The bodice of the gown, the cuffs of the sleeves and the hemline of the chapel length train were accented with elegant Venice lace. Her fingertip mantilla veil was also trimmed with Venice lace.

A cascade bouquet of yellow roses and white daisies with white satin streamers was carried by the bride.

Rhonda Davis of Sikeston was the bride's maid of honor. Her bridesmaids were Mrs. Lisa Myers and Liz Ahlvin, sister of the groom, both of Sikeston.

Joe Myers of Sikeston was the groom's best man. Groomsnen were Tony Blaylock, brother of the bride and David Ahlvin, brother of the groom, both of Sikeston.

Following the ceremony a reception for the couple was held at the grooms home. Servers were Mrs. Bette Jobe of Bertrand, Mrs. Debbie Beck of Matthews and Dawn Johnson of Sikeston.

The bride is a senior at Sikeston Senior High School.

The groom is a 1973 graduate of Sikeston High School and attended Westminster College at Fulton. He is employed in the advertising department at J.C. Penny's of Sikeston

Mr. and Mrs. Ahlvin are now living at 808 W. Gladys.

Mr. and Mrs. James Rhodes

Debbie Nichols of Canalou and James Rhodes of Matthews were married June 18 at the Shady Acres Church of Christ in Sikeston. Doug Downs of Camden, Ala,, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Vincent Nichols of Canalou, the groom is the son of Mr. and Mrs. Charles Rhodes of Matthews.

The bride chose for her wedding a white dacron polyester gown featuring the A-line silhoutte with cresent waistline highlighted by long fitted sleeves that came to a point at the back of her hand.

The A-line skirt with double flounce swept to a chapel train. Sequins adorned the bodice and sleeves. A fingertip mantilla of silk illusion and Venise lace was worn by the bride.

As her bouquet, the bride chose a nosegay of white and powder blue daisies with lace streamers to match.

Tina Nichols of Canalou, sister of the bride, served as her sister's maid of honor. Bridesmaids were Mary Nichols of Canalou.

Best man was Glen Rhodes, brother of the groom of Crown Point, Indiana. Groomsmen were Andy Polk of Matthews and Steve Plunk of Sikeston. Lori Davis of Caruthersville and Charlette Morgan of Matthews served as flower girls. Trey Davis of Caruthersville was ringbearere.

Candlelighters were Stephanie Plunk of Sikeston and Angie Rhodes of Crown Point, Ind.

A reception for the couple and their guest followed at the Fellowship Hall at the church.

The bride is a 1977 graduate of Matthews High School and is employed at Agrico Chemical Co. of Matthews.

The groom is a 1974 graduate of Matthews School and is employed by Joe Riney Construction of Sikeston.

Mr. and Mrs. Rhodes are now making their home at Sikeston Route 5

Delicious cake filling: pitted dates and slivered preserved ginger cooked in a little orange juice.

Ensign and Mrs. Scott Thomas

CHAFFEE – Gail Shy, 612 Hubbard Drive and Ensign Scott Thomas of the United States Navy were married recently at St. Ambrose Catholic Church at Chaffee. The Rev. Raymond Kungle of Chaffee officiated. The bride is the daughter of Mr. and Mrs. Gordon Shy of Chaffee and the groom is the son of Mrs. Betty Thomas of Chaffee.

The bride chose a soft candlelight Quiana gown with silk floss venice lace. A fitted sleeveless Bodice, scoop neckline, and raised waist. The A-line skirt swept into a chapel length train. Lace accented the neckline and encircled the waist and bodice. Appliques graced the skirt of the gown and edged the hemline and train.

A profile face framer of pleated chiffon accented at the side with a self fabric rose held the fingertip kankerchief style veil of candlelight chiffon.

A cascade bouquet of bridal pink roses and natural greenery was carried by the bride.

Mrs. Jana Dooley of Chaffee was the bride's matron of honor. Bridesmaids were Mary Shy of Chaffee, Cheryl Young of Brownstown, Ill., Carol Trost of Dupo, Ill. and Paula Shy of Illmo.

Jim Vickery of Scott City served as the groom's best man. Groomsmen were John Richbourg and Pete Dooley of Chaffee, Ensign Pat Walsh of Dallas, Texas and Ensign Bob Vassar of Santa Clara, Calif.

Nicole Golightly of Chaffee and Laura Young of Brownstown, Ill. were flower girls.

Guests were seated by David Shy of Illmo, John Shy of Chaffee and David Hart of Chaffee.

A reception and dance for the couple followed at the Chaffee Elks Lodge.

The bride is a 1973 graduate of Chaffee High School and a 1977 Southeast Missouri State University graduate at Cape Girardeau. She was employed at Graser-Shy Super Market at Chaffee.

The groom is a 1973 graduate of Chaffee high School and a 1977 graduate of the United States Naval Academy at Annapolis, MD. He is stationed with the U.S. Navy in San Diego, Calif.

Ensign and and Mrs. Scott Thomas have made their home in San Diego.

Mr. and Mrs. John Gordon Howard Jr.

In a ceremony at the First United Methodist Church of Sikeston, Vickie Ellen Arnold of Cape Girardeau and John Gordon Howard Jr. of St. Louis were wed. The Rev. Dr. Arthur C. Fulbright officiated, assisted by Rev. Mike McDivitt of Cape Girardeau.

The bride is the daughter of Mr. and Mrs. James M. Arnold, 916 N. Ranney. The groom is the son of Mr. and Mrs. John Gordon Howard of St. Louis.

The bride chose a dacron polester organza gown featuring the empire waistline with transparent bodice, highlighted by a Madarin neckline and long fitted sleeves. The A-line skirt outlined in a wide flounce sweeping to a chapel train motifs of matching chantilace highlighted the skirt, sleeves, neckline and edge of flounce.

A cascade of white daisies attached to the bride's bible accented by baby's breath, springeri and white peek-o-ribbon was carried by the bride. Inside the Bible, the bride carried her grandmother's handerchief.

Mrs. Kathryn Archie of Sikeston served as her sister's matron of honor. Bridesmaids were Vickie Mouchett of Cape Girardeau, Mary Howard, sister of the groom of St. Louis and Janie Miller, cousin of the bride of Bowie, Maryland.

Tom Howard, brother of the groom, of St. Louis, served as best man. Groomsmen were Mike Mack and Terry Hall of St. Louis and George Rozier of Cape Girardeau.

Melissa Jamieson, cousin of the bride of Jackson served as flowergirl. Ringbearer was nephew of the bride Jeffrey Archie of Sikeston.

Michael Arnold brother of the bride of Sikeston and Shannon Jamieson, cousin of the bride of Jackson were candlelighters.

Guests were seated by Larry Archie, brother-in-law of the bride, of Sikeston and Jim Honefenger, brother-in-law of the groom of Houston, Tex.

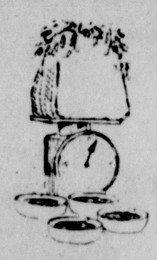
A dinner, dance and reception at the Elks Lodge in Sikeston followed the ceremony.

The bride is a 1971 graduate of Sikeston Senior High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau where she received her associate of arts degree in nursing. She was employed at the St. Francis Medical Center at Cape Girardeau.

The groom is a 1971 graduate of Bishop DuBourg High School at St. Louis and attended Southeast Missouri State University at Cape Girardeau. He is employed at the Evergreen Lawn Co. in credit relations in St. Louis.

The new Mr. and Mrs. John Gordon Howard Jr. are making their home in St. Louis.

Household Hints



Looks can be deceiving. Before it's cooked, a pound of good old-fashioned spinach looks as if it may be enough to feed a crowd. Don't let it fool you — it isn't. When cooked it will yield approximately enough for four.

Ask the pastor?

What is tension?

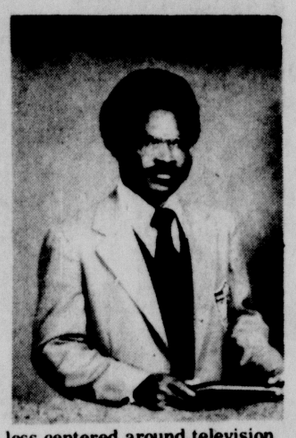
Rev. E. Pembleton

Dear Pastor Pembleton: What exactly is tension, and what are some of the problems in our enviroment today that may lead to tensions? - P.J.

Dear P.J.: The word "tension" means stretched or strained or pressured. So tension is a state which an individual develops because of either internal or external factors. He may find himself in a position where life is very stressful,, or he may, in his mind, become anxious or apprehensive about how things may go. He might develop tensions within himself because of his attitudes or his reactions to his external environment.

There are many problems in our environment today that lead to tensions. They could be in the home in family relationships, or they could involve other relationships - on the job, or in school. I think society is structured today so that the home is no longer the center of things.

We are a very mobile society. We frequently change roots and change envirnment. Marital problems are very common and the divorce rate is high. These problems create tension, insecurity, and anxiety. When we are home, our lives are more or



less centered around television, which in my opinion is frequently detrimental to sound mental health. Often the husband and the wife work, and the children are left to run free.

Children need to grow in an environment that provides not only their physical needs but gives emotional support as well. Love and a sense of belonging which a child experiences within the family are positive forces that help him grow strong and self-confident. Continual conflicts within the family can threaten and make him fearful.

We drive bumper to bumper - sometimes as long as an hour to work and an hour back - and driving is often a stressful situation. We get to , we punch a time clock, and then we have to get so much done in a certain length of time. Overwork, an unkind word from the boss, a feeling of not being appreciated, are a few of the problems in our work that may lead to tension.

It may be good for you to be informed that tension starts in the brain as a result of our attitudes or reactions to certain situations. The brain sends messages to the pituitary and adrenal glands. These glands pour hormones into the bloodstream. Tension can thus raise the blood pressure, quicken the pulse, cause constriction of the blood vessels, dilation of the pupils, and slow down digestion. There are changes in many of the body's cells which lower the resistance to infection and disease. In fact, medical research shows that stress basically is at the bottom of most all illness - whether it be ulcers, colitis, migraine, arthritis, allergies, or coronary heart disease.

Dear Pastor Pembleton: After a person has accepted the Lord as his Saviour and has been baptized, if he blurts out words which in his new life he would not dream of using, is he held responsible? - John.

Dear John: When one accepts Jesus Christ as his Saviour, power is given to him to overcome evil habits. This does not mean, however, that there can never be any lapse or any mistakes. If under the impulse of the moment a Christian blurts out something which he may have said frequently in the days before he came to know Christ, God would not bar him from the kingdom if he is repentant. Such a lapse, however, may serve to shock this individual into realizing that he must keep a greater watch upon his lips and the words which he speaks. King David's prayer in Psalm 141:3 is a good one for all of us to pray frequently: "Set a watch, O Lord, before my mouth; keep the door of my lips."

Erma's kids kick in to save energy

BY ERMA BOMBACK

I tell you, you wouldn't believe the way my children have really pitched in and tried to conserve energy during this nationwide crisis.

They've kicked all their dirty clothes under the bed to save on the gallons of water it takes to wash them.

They've called a moratorium on cutting and watering the grass until President Carter gives the nod.

They've insisted that the stove or oven not be turned on and that we all go out and eat in a modest but exhorbitantly-priced restaurant.

They gave up showers before bed without even being asked.

The other afternoon when we got into the car, my son said, "We've got to pick up Todd, Mike, Wendell, Tony and Steve."

When I slumped over the wheel in anticipation of an extra 45 minutes of driving, he said, "After all, Mom, it's un-American not to carpool."

They cut back on going to the dentist to once a year to save gas.

They put a brick in the commode. (I wish someone had told them it goes in the BACK of the commode.)

They're maintaining their policy of "Never flushing unless she can hear you."

They let the garbage stack up for three days by the sink to keep from opening the door and losing precious air-conditioning.

They play their stereos at 1:00 in the morning to take the load off of peak time.

They leave the ice cube trays empty to reduce the wear and tear on the refrigeration.

The other morning as I counted 63 glasses by the sink, I said, "Boys, you really amaze me at how you picked up on President Carter's plan to conserve energy."

They smiled, "When we get to 85 glasses, then we can start the dishwasher."

"In fact, I'm so proud of you, I think I'll do a column on it and tell my readers of your heroic efforts."

"That's not necessary, Mom," said a son leaning over to unplug my IBM. Just look upon this as a blow for democ.

The pastor speaks

Donatism

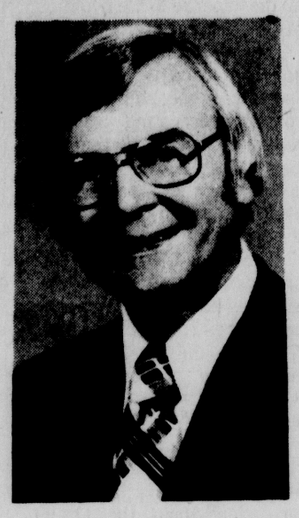
By Arthur C. Fulbright, Th.D.

Late in the fourth century a controversy developed over the relationship between the holiness of a priest and the validity of his sacramental acts.

One leader, Donatus, felt strongly that a priest (or bishop) guilty of a mortal sin could not be a dispenser of God's grace. The particular sin that he was most concerned about was apostasy (denying Christ under threat of death in the persecutions). This led to an actual schism, with the Donatist Church, free of former apostates, claiming to be the only true church.

In response, the larger church had to clarify its thining about what happens in the scaraments. It decided that Donatism makes the effectiveness of God's grace dependent on or conditioned by the human administrator, and this could not be done. It is God that acts in the sacramental act, not the priest, so the effectiveness of God's action is not in any way altered by any imperfections in the priest. This was undoubtedly the right decision. Donatism, however, continued to introduce questions about the validity of the priestly work of the church.

In addition to its service in causing the church to think through this important issue, Donatism stands as a constant reminder that the character of the priest is important. To acknowledge God as the actor in the sacraments can lead to a dangerously tolerant attitude not only toward priestly shortcomings, but toward our own as well.



Dr. Arthur C. Fulbright

By Mrs. Dan Gerber

Mothers have asked me how much sugar is used in baby food and why any is used.

I'm happy to tell them that nearly half of our Gerber baby foods contain no added sugar.

Where a little sugar is added it's for a specific purpose—to balance the acids in the more tart fruits, for instance. And it gives a flavor that's neither too sweet or too tart. The amount added is substantially less than in the canned peaches and pears served on the family dinner table.

There's something else. The experts tell us that some sugar is important for a baby's nutrition: it's a source of energy and it makes things taste good so that infants accept foods that are good sources of nutrients they need.

weddings

Mr. and Mrs. Vic Campbell

The First United Methodist Church of Sikeston was the setting for the evening wedding of Connie Bolden and Vic Campbell. The Rev. Dr. Arthur C. Fulbright assisted by Rev. Brent Mustoe performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Louis A. Bolden of Sikeston. The groom is the son of Mr. and Mrs. Pete Campbell of Marston.

The bride wore a long blue and white sleeveless Chantilly gown with a blue cape like jacket that tied in the front. Her veil was a lace edged blue and white fingertip style.

A bouquet of rose buds, minature carnations and babys breath with long streamers of lace was carried by the bride.

The honor attendants for the couple were Mrs. Barbara Price of Sikeston and Wayne Campbell of Marston.

The daughter of the bride, Coeta Bolden, served as her mother's flower girl.

Scott and Greg Price of Sikeston served as candlelighters.

Guests were seated by Charles Phillip Bolden of Cape Girardeau.

A reception for the couple and their guests followed at the home of the bride.

The bride attended Sikeston High School and is employed at Noranda Aluminum, Inc. of New Madrid.

The groom is employed at Triangle PWC of Sikeston.

Mr. and Mrs. Campbell are making their home at 106 Chris Dr., Sikeston.

Mr. and Mrs. Jerry Alvin Robertson

STRONGSVILLE, OHIO--Donna Sue Kestner of Strongsville and Jerry Alvin Robertson of Sikeston, Mo., werer married recently at the St. Joseph's Church at Strongsville. Father Donohoe assisted by the bride's cousin, Paul Jasheway of Salem St. Lafayette, Ind., officiated.

The bride is the daughter of Mr. and Mrs. Raymond Kestner of Strongsville. The groom is the son of Mr. and Mrs. Carroll Robertson of Sikeston.

The bride chose a white polyester organza over taffetta gown with long fitted sleeves decorated with silk Venice appliquies edged in a self-ruffle trimmed in narrow lace. The U-neckline and empire bodice was trimmed in matching lace. Venise daisies were scattered over the A-line skirt and built in chapel train.

A camelot cap of venise lace was attached to lace edged veil of illusion.

A cascade arrangement of pink roses, white carnations and baby's breath was carried by the bride.

Mrs. Linda Dunn of Cape Girardeau, Mo., served as the bride's matron of honor. Bridesmaids were Mrs. Carolyn Lizenbee, sister of the groom of Sikeston and Mrs. Pamela Kestner, sister-in-law of the bride of Middlesburg Height, Ohio.

Bruce Wolferding of Sikeston served as best man for the groom. Groomsmen were Mike Kestner, brother of the bride of Middleburg Heights and Rodney Lause of St. Genevieve, Mo.

The groom's niece, Christy Lizenbee of Sikeston was flower girl.

Guests were seated by David Kestner, brother of the bride of Strongsville and Larry Viox of st. Genevieve.

A reception for the couple and there guests was held at Michaud's Town-n-Country at Strongsville.

The bride is a 1974 graduate of Strongsville Senior High School. She is a 1977 graduate of Southeast Missouri State University at Cape Girardeau and is employed by Dr. Charles Cozean of Cape Girardeau.

The groom is a 1972 graduate of Sikeston High School and a 1976 graduate of Southeast Missouri State University at Cape Girardeau with a bachelor of science degree in business administration and an associate of arts degree in computer science. He is a sales representative for Georgia Pacific Corp of Cape Girardeau.

Mr. and Mrs. Robertson are making their home in Scott City, Mo.

New birth control device developed will improve method

BROOKLINE, Mass. (AP) — A birth control device that will allow women to use the rhythm method as successfully as the pill and suffer no side effects may be on the market in two years, researchers say.

The device, called an ovutimer, can also be used to tell women who want to conceive when they are most fertile, the developers say.

"There are no side effects," said Dr. Louis Kopito, a research scientist at Massachusetts Institute of Technology. "It's like putting in a thermometer and taking it out again."

The rhythm method is a birth control technique in which women avoid intercourse during ovulation. However, since the time of ovulation often varies, the method fails about 30 per cent of the time.

The ovutimer is a seven-inch-long plastic device. The researchers say it makes the rhythm method accurate, because it tells women when sperm can get past their natural defenses and make them pregnant.

"Our first market will be women who are trying to get pregnant," said Kopito. "There are six million in the United States who want to have babies but cannot, and they are very highly motivated.

"Another group is those who cannot take the pill but want to limit family size."

POLLY'S POINTERS

POLLY'S PROBLEM

DEAR POLLY — Do you know of any use for the plastic mesh bags in which oranges are sometimes sold? They are so pretty I hate to discard them.

The white plastic containers in which motor oil, bleaches, etc., are sold can be made into cute little waste baskets by using colored markers. I put a Pennsylvania Dutch design on one of mine and use it in the kitchen to hold the daily garbage. — HELENE.

DEAR HELENE — Remove the string at the top and securely fasten on embroidery hoops to make most practical shopping bags for carrying small items. Also they would be great for the children to carry books to school or the library. — POLLY.

Dear Ann Landers

Ann tells readers how to check if a person is married or not

Dear Ann Landers: Here's some information that might prove helpful to other fools out there who are being strung along, as I was.

Same old story – married man who says he's going to get a divorce and marry me as soon as his wife's health improves. This has been going on for 18 months.

Last week a friend who works in a lawyer's office told me she heard the guy is divorced and suggested I go down to the Divorce Division, clerk's office at the county courthouse and find out for sure.

I took her advice and learned the rat has been divorced since 1973! Just call me too-late-smart and inform the others. -- From Cincinnati

Dear Cin.: Thanks for the short course.

To find out if a person is married you can check with the Bureau of Vital Statistics. (You must know the names of both parties.) The charge in Chicago for this service is $3.00. (The records on hand go back five years -- beyond that they must be obrtained from the warehouse.)

Dear Ann: Don't faint. This letter is on bosoms – written by a man. I was moved by the sad letter from the girl who was so desperate to increase her bust size that she sent money to some gyp outfit and got back apicture of a man's hand.

For four years I was married to a big-bosomed flea-brain. She lived in front of the mirror with a tape measure in her hand. Her meals were inedible -- when she cooked, that is. Our apartment looked like a pigsty. If a button came off my shirt, she put it back with a safety pin. I never saw a needle or thread in the place.

Her own clothes were magnificent. That's where all the money went. She wasn't happy unless she was dressed to the teeth and every man in the room was falling over her.

My second wife is a marvelous person, but very self-conscious about her flat front. She keeps comparing herself with my first wife and asking me if I miss it.

No matter how hard I try I can't get it through her head that it doesn't matter.

Please print this letter, Ann. It will make her day. – Doc

Dear Doc: Here it is and I'm sure it will gladden the hearts of many small-busted ladies to know that all men aren't dimension-waxky. What's "up front" ISN'T what counts.

Dear Ann Landers: Today's letter was from a guy who was worried because his wife's pregnancy was going into the 11th month. Here are some facts that might help:

A nine-month pregnancy is more myth than reality. The actual full term is between 266 to 280 days, average. But "average" seems always to be what someone else is. A "normal" term can be much longer depending upon influencing factors, such as a woman's menstrual cycle. For example, a woman whose cycle is 30-31 days is likely to have a longer pregnancy. A short cycle -- 25-28 days -- means a shorter pregnancy.

Heredity also influences the gestation period in terms of length. People from the tropics give birth sooner than those in the frigid zones of the world.

Many women think they know exactly when they become pregnant, but they can be mistaken. These are the Mamas who swear they carried 11 months. (I was one.) -- Super Preggie

Dear Super: You can't fool Mother Nature. Thanks for the input.

Mother's challenged by low-allergy diet

Dear Mrs. Corti:

As a home economics teacher at East Prairie Junior High School, I have always been interested in nutrition and foods. I was challenged in this area several months ago and I would like to share this with you and the readers of the Daily Standard.

I have an eleven month old son who is on a special, low-allergy diet. He can have no food containing milk, eggs, wheat, citrus, strawberries, tomatoes or chocolate. The older he gets the harder it is to offer a variety of foods. He is at the "eating from the table" stage, but, there is little he can eat from the rest of the family's daily menu.

By combining a couple of standard bread recipes and adding a few special ingredients, I have come up with a tasty bread my son can eat.

I do not wish to claim this as an original recipe. Someone may have thought of it before. It is very hard to find low-allergy recipes, however.

There are many people, especially children, who must use low-allergy foods. I hope this recipe can help.

Sincerely,
Mrs. Ann Howell

Neil's Bread

1 pkg. active dry yeast
1 cup warm water
1 cup soybean-based infant formula
1 T. salt
2 T. shortening
2 T. sugar
3 T. dark molasses
1 cup oatmeal infant cereal
3-3½ cup rye flour
2 cub soybean flour

Add yeast to warm water. Let stand a few minutes, stir to dissolve.

In a small saucepan combine infant formula, salt, shortening, sugar, molasses. Heat until warm (shortening need not be completely melted) Pour into large mixing bowl — and cool slightly.

Add soybean flour and cereal. Beat until smooth.

Stir in yeast mixture and mix well.

Add rye flour slowly, mixing thoroughly after each addition. Blend in rye flour until dough leaves the sides of the bowl.

Turn out dough onto floured surface. Knead five to ten minutes until smooth and elastic. Cover with wax paper and a towel. Let rest 20 minutes.

Punch down dough and divide to two equal portions. At this time one loaf can be sufficiently wrapped and frozen if desired. Shape dough into loaf shape and place into greased bread pan. Let rise until doubled in bulk.

Bake at 375 degrees for 35 to 40 minutes. Cool on wire rack. Yield is two loaves.

Note: This product has a texture similar to a nut bread.

U.S. VITAMIN KNOWLEDGE LACKING

NUTLEY, N.J. (AP) — Most Americans know vitamins are important, but a majority lack facts on specific vitamin needs, according to a recent nationwide survey.

The survey, conducted by Response Analysis Corp., shows that 71 per cent of the population believed that smoking robs the body of vitamins, but only 12 per cent realized that smoking may reduce blood levels of vitamin C. And though 47 per cent were of the opinion that women on birth control pills need more vitamins, only 6 per cent knew that these women especially need higher levels of vitamin B6.

Finding missing parents leads to welfare payoffs

By STEVE RUDDOCK
Missouri Press News

JEFFERSON CITY — Missing parents who are not paying child support will be sought by investigators for the new Missouri Child Support Enforcement Unit. The investigators hope to locate the missing parents so county prosecutors can obtain court orders for child support payments.

The new unit, which began work July 1, will employ 76 investigators and will have more than $2 million in state and federal funds to spend tracking down missing parents. The agency is in the division of family services.

"The whole idea is to collect from absent parents to reimburse the taxpayers who otherwise would have to support these children," said Peggy McGuire, coordinator of the agency. She said other states' experiences show that for every dollar spent finding the absent parents, the states collect between $3 and $7 for child support.

Money collected will go into Missouri's Aid to Dependent Children (ADC) fund, which is a type of welfare payment. But the unit will also search for absent parents of children not receiving ADC payments.

Missouri is the last state to set up a child support enforcement unit, and officials agree it is badly needed. Ms. McGuire estimates the unit will be looking for about 125,000 absent parents by the end of the agency's first year. The total will depend on how many non-ADC families use the unit, Ms. McGuire said.

After investigators locate the absent parent, the county prosecutor will have the responsibility of getting the parent to pay child support. Usually, the circuit court will order the parent to pay a certain weekly or monthly sum.

But nonpayment of child support is a misdemeanor in Missouri, and a circuit court judge could sentence an absent parent to jail if he has a history of failing to pay.

County prosecuting attorneys in the past have not been required to prosecute absent parents. The same law that established the agency provides a salary raise for prosecuting attorneys as compensation for the added duties.

Ms. McGuire said several prosecuting attorneys told her they will not have to add extra staff to handle child support cases, but, she said, counties with a large number of Aid to Dependent Children families may need a larger staff.

Counties will be paid 25 per cent of all the child support money for ADC they collect until Oct. 1, and 15 per cent after that. These payments, from federal "incentive funds", will more than make up the expense to the counties, Ms. McGuire said.

The law provides that the governor may appoint a special prosecutor if the county prosecuting attorney refuses to handle child support cases. But Ms. McGuire does not expect many prosecuting attorneys to shy away from the cases.

"I attended a meeting of prosecuting attorneys in June, and they all were enthusiastic and interested," she said. "We reviewed the draft of our cooperative agreement and we took some of their suggestions."

The law requires all persons receiving ADC payments to provide all available information about the absent parent, which will be filed with the unit in Jefferson City. Anyone who does not cooperate with the unit will not be eligible for ADC payments.

Now that Missouri has set up the child support enforcement unit, it will be able to use the federal parent-locator service to look for absent parents who may be outside the state. The service has received about 200,000 requests for addresses ot absent parents since it began work in March 1976

The service uses the computer records of the Social Security Administration, the Internal Revenue Service, the Veterans Administration and the Department of Defense to search for absent parents' addresses.

A 1975 study estimated there were up to 8 million absent fathers not paying child support in the country. The federal parent locator service reported that in fiscal year 1976, 35 states reported that only 250,000 absent parents were located.

You can stretch bacon by cooking it crisply and crumbling it, then folding it into scrambled eggs just before the eggs are set. This way you can use less bacon than possible when each portion of egg is accompanied by cooked bacon slices.

Keep those nuts refrigerated or in the freezer! This way you'll prevent rancidity.

Nutrition

Do vitamins do you good?

Questions from readers about food and diet are welcomed. Letters should be addressed to: Dr. James W. Nordstrom, Cooperative Extension Service, Lincoln University, Jefferson City, MO 65105.

Q. I take a special brand of vitamins that I buy at a health food store. Each day I take one vitamin "C" and one "E" tablet, one of bone meal and also an extra strength yeast pill. Is the analysis give given on the bottles likely to be accurate for these pills?

A. The content of nutrients that are claimed for a nutrition supplement are likely to be correct because of federal regulations. The real is whether the supplements you are buying are doing any good. Unless your diet is deficient in vitamins, eating more vitamins will not be beneficial.

If you consume some citrus fruit or tomatoes each day, or eat green, leafy vegatables or fresh fruit like melons or strawberries, it is quite unlikely that you are lacking in vitamin C. Vitamin E is distributed in a large number of foods and deficiencies are practically unknown in the general population for this vitamin.

It is also true that bonemeal will not be of value unless you are not consuming enough minerals in your diet. This may indeed be the case, if you are not drinking milk or eating cheese (two cups of milk or two ounces of hard cheese are recommended each day.) Whether a yeast supplement will be helpful depends on its content of nutrients (it is usually taken fro the B vitamins it contains) and whether you are in need of those nutrients.

Surveys of nutritional status taken in Missouri and in other parts of the United States and Canada have not found undernutrition to be widespread or common. Food intake records, laboratory assays of blood and other tissues and clinical examinations for deficiency symptoms are methods employed to determine nutritional well-being. When evidence for a lack of specific nutrients is uncovered it is usually present in individuals who tend not to eat adequately--the poor, elderly, infirm, alcoholic, etc.

The fact is that you are likely to be better off nutritionally if you select your foods to provide a balanced diet and stop worrying about supplements. An important point to remember is that you cannot replace food with pills. Foods contain a great variety of nutrients, while pills may have only one nutrient, such as vitamin A or C, or a limited amojnt of specific nutrients. It is also a waste of money to buy something that isn't needed. The selling of special "nutritional" supplements is one of the biggest rip-offs of our present age.

You may really need a vitamin or mineral supplement, of course, and your doctor can then prescribe something for you. If you insist on self-treatment, one of the safest and cheapest ways to buy vitamins is the "one-a-day" kinds sold at your local grocery or supermarket. Buying a multiple vitamin mixture with iron (all in one pill) will give you the most for your money.

Two publications that can help you select a balanced diet are Food for Fitness, Folder 164, and Food is More Than Just Something to Eat, Home and Garden Bulletin 216. You may obtain them by contacting your local University Extension Center, or by writing to the address above.

POLLY'S POINTERS

DEAR POLLY — I find many who use the new automatic coffee makers are complaining that the coffee does not stay hot enough. To get around this I do put a saucer on top of the coffee pot and find it stays as hot as when made. — SALLIE.

DEAR POLLY — I had the problem of lint getting into the drain from my washing machine so I put an old stocking over the hose. This catches any lint that might clog the drain. — TONI.

DEAR POLLY — I drive my car to work daily as well as on many other occasions. Since it is not air conditioned I must keep the driver's window down during the warm weather. To avoid having my purse snatched out of the car when I stop at a traffic light or am caught in a traffic jam, I slip my purse straps through one section of the seat belt as I buckle it up. If a purse happens to be strapless then it goes on the floor on the passenger's side when I am driving alone. This type of purse snatching seems to be getting quite popular. — JO.

Letter to Editor

Mother's challenged by low-allergy diet

Dear Mrs. Corti:

As a home economics teacher at East Prairie Junior High School, I have always been interested in nutrition and foods. I was challenged in this area several months ago and I would like to share this with you and the readers of the Daily Standard.

I have an eleven month old son who is on a special, low-allergy diet. He can have no food containing milk, eggs, wheat, citrus, strawberries, tomatoes or chocolate. The older he gets the harder it is to offer a variety of foods. He is at the "eating from the table" stage, but, there is little he can eat from the rest of the family's daily menu.

By combining a couple of standard bread recipes and adding a few special ingredients, I have come up with a tasty bread my son can eat.

I do not wish to claim this as an original recipe. Someone may have thought of it before. It is very hard to find low-allergy recipes, however.

There are many people, especially children, who must use low-allergy foods. I hope this recipe can help.

Sincerely,
Mrs. Ann Howell

Neil's Bread

1 pkg. active dry yeast
1 cup warm water
1 cup soybean-based infant formula
1 T. salt
2 T. shortening
2 T. sugar
3 T. dark molasses
1 cup oatmeal infant cereal
3-3½ cup rye flour
2 cub soybean flour

Add yeast to warm water. Let stand a few minutes, stir to dissolve.

In a small saucepan combine infant formula, salt, shortening, sugar, molasses. Heat until warm (shortening need not be completely melted) Pour into large mixing bowl — and cool slightly.

Add soybean flour and cereal. Beat until smooth.

Stir in yeast mixture and mix well.

Add rye flour slowly, mixing thoroughly after each addition. Blend in rye flour until dough leaves the sides of the bowl.

Turn out dough onto floured surface. Knead five to ten minutes until smooth and elastic. Cover with wax paper and a towel. Let rest 20 minutes.

Punch down dough and divide to two equal portions. At this time one loaf can be sufficiently wrapped and frozen if desired. Shape dough into loaf shape and place into greased bread pan. Let rise until doubled in bulk.

Bake at 375 degrees for 35 to 40 minutes. Cool on wire rack. Yield is two loaves.

Note: This product has a texture similar to a nut bread.

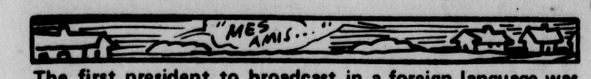
Craft show set for August 12-14

Sikeston's Second Annual Arts and Crafts Show and Sale will be held during Rodeo Week this year. The three-day craft show will get underway Aug. 12 at the American Legion Park in downtown Sikeston.

The show will run this year from 9 a.m. - 7 p.m. on both Friday and Saturday, Aug. 12 - 13 and from 9 a.m. - 1 p.m. on Sunday, Aug. 14.

Craftsmen from several states surrounding Missouri were attracted to the show last year at the American Legion Building. A total of 77 artists from Missouri, Illinois, Kentucky, Tennessee and Virginia took part in the 1976 affair.

Entry fee is $5 for all three days and those artists interested in participating are urged to send in their entry fee immediately. Entry fees should be sent to the Sikeston Area Chamber of Commerce.



The first president to broadcast in a foreign language was Franklin Delano Roosevelt who addressed the French people on November 7, 1942 from Washington, D.C.

Open mind

What is schizophrenia?

Dear Open Mind:

In four years at clinics and hospitals I have seen many doctors, who gave me over 50 shock treatments and all kinds of medicine. Recently my present doctor dried to explain what other doctors stated about me. They all claim I COULD have schizophrenia, but two of them say something is wrong with my body and affecting me mentally. If this is so, how can I find out what is wrong?

I can't live with anyone, male or female, and it's getting to the point I can't stand myself. I don't want to see psychiatrists the rest of my life. What can I do?

IN SEARCH OF DIAGNOSIS

Schizophrenia is a common illness

Dear In Search of a Diagnosis:

Schizophrenia is one of the most common forms of mental illness, but there are several different types of schizophrenia. Because each of these kinds has some different symptoms and each person has his own individual version of the generalized type, it is hard to speak about the illness schizophrenia without knowing a good deal about the individual case.

You say that two doctors stated there was something wrong with your body, and you want to find out what is physically wrong with you. It stands to reason that if something specific were wrong with you--a persistent infection--a malformation--something like that, the doctors would not only tell you about it; they would be treating your ailment.

There is presently a belief among most clinical psychiatrists that delicate balances in body chemistry may become disturbed and result in mental disorders such as schizophrenia. Could it be that your doctor was trying to explain this to you? If that is what he meant, you cannot expect such a condition to be cleared quickly once and for all. Usually a person so diagnosed has to remain under treatment as an outpatient long after he has left the hospital. Usually he must take medicine that was prescribed to him by a psychiatrist, and he must take it exactly as prescribed so long as the doctor thinks he needs it. You may not WANT to see psychiatrists any more, but it is in your best interests to continue the treatment you are receiving; you have already been to many doctors, and it sounds as if your present physician is willing to talk to you about your diagnosis and to explain what you need to know.

Liam O'Brien, M.D.
Superintendent
St. Joseph State Hospital
St. Joseph, Missouri

Dear In Search of a Diagnosis:

Many times people search for simple answers to complicated problems which take time and effort to resolve. For some people, medical treatment can help them to be more in control of themselves and to be less anxious. If you continue to ask questions with your doctor, he can explain his plan.

In your letter, you say that you can't live with anyone and can't stand your own self. I think that talking with a therapist about your thoughts and feelings could be helpful. You could learn something about how your behavior is seen by other people and how they react to you. You might continue to explore how you think and feel about yourself. You might consider what about yourself you could change. People feel better about themselves when they learn how better to get along with other people. And people can change and grow through understanding themselves.

Mrs. Kathyrn Bennett, M.S.W.: A.C.S.W.
Psychiatric Social Worker
Psychiatry Department
Jewish Hospital of St. Louis
St. Louis, Missouri

First aid tips

You could be enjoying a quiet conversation over a sumptuous meal at your favorite restaurant when your spouse or friend suddenly gasps for breath and quickly turns pale and then blue.

What should you do? There are some emergency first aid measures you can learn that may help you save his or her life.

The Department of the Interior has a new pocket-sized reference guide for treating medical emergencies from strains and sprains to shock, choking or heart attack.

Immediate first aid can mean the difference between life and death for a person who is injured or suddenly ill. For your copy of First Aid, send 80 cents to the Consumer Information Center, Dept. 120E, Pueblo, Colorado 81009.

If the victim is not breathing or gasps for breath, something could be stuck in his or her throat. Try to remove the piece of food or other object from the throat by opening the victim's mouth and grasping the object with your index and middle fingers. If this doesn't work, place the victim's head lower than the body and slap him or her on the back. If these methods don't work, stand behind the person who is choking and wrap your arms around the body, just above the navel and below theribcage.

Lean the victim forward at the waist and let the head and arms hang down. Put one hand on your own wrist; make a fist with the other hand; and squeeze suddenly and firmly against the victim's abdomen. This will force air out of the lungs, and the air will puch the object out of the throat.

Other medical emergencies covered by the reference guide include:

Heart Attack - A person suffering a heart attack may need artificial respiration. Mouth-to-mouth is the most effective, and is described in some detail in the First Aid reference guide. Cardiopulmonary resuscitation, another procedure described in the guide, is used when the heart stops beating completely.

Severe Bleeding - To stop severe bleeding, cover the wound with the cleanest cloth immediately available, and apply direct pressure on the wound. If the wound is in the arm or leg, and they do not seem to be broken, raise the arm or leg as you apply pressure.

Burns - For burns, whether they are caused by a hot stove or hot coffee, apply cool water immediatley.

New Hamburg Homemakers discuss events

NEW HAMBURG--The regular monthly meeting of the New Hamburg Homemakers held on June 27th was opened with a devotional led by the president, Mrs. Lucille Heuring. Roll call was answered with each member giving their gardening experiences this year.

Mrs. Ruth Carroll reported on the recent tour to Nashville for area club members, sponsored by the Stoddard County Homemakers Council. Members of the local club attending were Mrs. Helen Urhahn, Mrs. Rebecca Dirnberger, Mrs. Coonie Essner and Mrs. Carroll. The group visited Grand Old Opry, Opryland, Ryan's Auditorium, the homes of country music stars, and various other places of interest.

It was announced that Achievement Night has been tentatively set for September 26, with the Scott City Homemakers in charge of arrangements. Each club will be responsible for a three to five minute skit. Women's Day will be the week of October 25, and Mrs. Betty Niederkorn and Mrs. Ruth Carroll were appointed to serve on the planning committee for this event. It was voted to pay expenses for one child to attend Little Acorn Camp.

An area sewing machine evaluation program will be held on Thursday, July 28, at the Sikeston Junior High School. Company representatives for Necchi-Elna, Bernina, Singer and Viking machines will be present to explain the different kinds and models of machines, their use and maintenance, dealer services to be expected, and those attending will learn skills and techniques to enable them to make fullest use of their machine. The program will begin at 9:30 A.M. and will consist of four one-hour sessions, closing at 3:00 P.M. This is open to the public, and those interested in sewing are urged to attend.

Motion was made and carried to purchase pins for 20-year and over members; these to be presented on Achievement night. Club members eligible are Mrs. Vera Burger, Mrs. Erma Grojean, Mrs. Betty Niederkorn and Mrs. Lucille Heuring.

Announcement was made of the Oran Fall Festival to be held on August 19 and 20. The club will sponsor a float for the parade. Quilt raffle and social will be Sunday afternoon, July 21st, at the school hall. The annual club picnic will be August 7th at Capaha Park.

A very interesting and educational quiz was the Citizenship program presented by Mrs. Pat Kern.

Mrs. Margaret Heuring installed officers, using a unique and inspirational symbolism of packing for a journey; followed with all members joining in singing the hymn, "Let There Be Peace". Officers installed were: President, Mrs. Lucille Heuring; Vice-President, Mrs. Mary Glastetter; Secretary, Mrs. Lillian Westrich; and Treasurer, Mrs. Sylvia Steimle.

Hostesses for the evening were Mrs. Rosalee Kern and Mrs. Paulette Hamm. Since no meeting is held in July, the next meeting will be on August 22.

USDA increases payments for meal, child care programs

CHICAGO--Carol Tucker Foreman, Assistant Secretary of Agriculture for Food and Consumer Services, announced today that the school lunch, breakfast, and child care programs will receive increased payments adjusted to reflect the change in the Consumer Price Index (CPI) series for food away from home.

The adjustments, effective July 1, reflect the 4.9 percent increase in the CPI for the six month period, Nov. 1976 to May 1977. The increased payments paid to schools and institutions through state agencies help defray meal preparation costs in the national school lunch, school breakfast, and child care food programs.

The national average payment for the school lunch program will be increased from 13.25 cents to 14 cents for each lunch served. Within that average, states are authorized by the U.S. Department fo Agriculture (USDA) to vary the rate of reimbursement up to a maximum of 20 cents per lunch.

The additional average payment for lunches served to needy children will be increased from 50 cents to 53 cents for a reduced-price lunch and from 60 cents to 63 cents for a free lunch.

The maximum total reimbursement states may pay schools and institutions has been increased from 78.25 cents to 82 cents for a reduced-price lunch and from 88.25 cents to 92 cents fro a free lunch.

Under the school breakfast program, the national average payment will be increased from 10.75 cents to 11.25 cents for each breakfast served. The additional average payment for each reduced-price breakfast will be increased from 20 cents to 21 cents. The additional average payment for a free breakfast will be increased from 26.75 cents to 28 cents. Maximum rates to reimbursement states may pay especially needy schools and institutions will remain at 40 cents for each reduced-price breakfast and at 45 cents for each free breakfast served.

Under the child care food program, states will receive the same payments for breakfasts as those for the school breakfast program, and the same payments for lunches and suppers as those for the national school lunch program.

Payments for each mid-morning and mid-afternoon snack allowed under the child care food program have been increased from 5.50 cents to 5.75 cents.

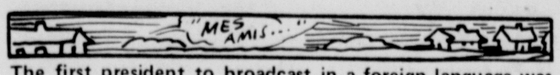
Craft show set for August 12-14

Sikeston's Second Annual Arts and Crafts Show and Sale will be held during Rodeo Week this year. The three-day craft show will get underway Aug. 12 at the American Legion Park in downtown Sikeston.

The show will run this year from 9 a.m. - 7 p.m. on both Friday and Saturday, Aug. 12 - 13 and from 9 a.m. - 1 p.m. on Sunday, Aug. 14.

Craftsmen from several states surrounding Missouri were attracted to the show last year at the American Legion Building. A total of 77 artists from Missouri, Illinois, Kentucky, Tennessee and Virginia took part in the 1976 affair.

Entry fee is $5 for all three days and those artists interested in participating are urged to send in their entry fee immediately. Entry fees should be sent to the Sikeston Area Chamber of Commerce.



The first president to broadcast in a foreign language was Franklin Delano Roosevelt who addressed the French people on November 7, 1942 from Washington, D.C.

Open mind

What is schizophrenia?

Dear Open Mind:

In four years at clinics and hospitals I have seen many doctors, who gave me over 50 shock treatments and all kinds of medicine. Recently my present doctor dried to explain what other doctors stated about me. They all claim I COULD have schizophrenia, but two of them say something is wrong with my body and affecting me mentally. If this is so, how can I find out what is wrong?

I can't live with anyone, male or female, and it's getting to the point I can't stand myself. I don't want to see psychiatrists the rest of my life. What can I do?

IN SEARCH OF DIAGNOSIS

Schizophrenia is a common illness

Dear In Search of a Diagnosis:

Schizophrenia is one of the most common forms of mental illness, but there are several different types of schizophrenia. Because each of these kinds has some different symptoms and each person has his own individual version of the generalized type, it is hard to speak about the illness schizophrenia without knowing a good deal about the individual case.

You say that two doctors stated there was something wrong with your body, and you want to find out what is physically wrong with you. It stands to reason that if something specific were wrong with you--a persistent infection--a malformation--something like that, the doctors would not only tell you about it; they would be treating your ailment.

There is presently a belief among most clinical psychiatrists that delicate balances in body chemistry may become disturbed and result in mental disorders such as schizophrenia. Could it be that your doctor was trying to explain this to you? If that is what he meant, you cannot expect such a condition to be cleared quickly once and for all. Usually a person so diagnosed has to remain under treatment as an outpatient long after he has left the hospital. Usually he must take medicine that was prescribed to him by a psychiatrist, and he must take it exactly as prescribed so long as the doctor thinks he needs it. You may not WANT to see psychiatrists any more, but it is in your best interests to continue the treatment you are receiving; you have already been to many doctors, and it sounds as if your present physician is willing to talk to you about your diagnosis and to explain what you need to know.

Liam O'Brien, M.D.
Superintendent
St. Joseph State Hospital
St. Joseph, Missouri

Dear In Search of a Diagnosis:

Many times people search for simple answers to complicated problems which take time and effort to resolve. For some people, medical treatment can help them to be more in control of themselves and to be less anxious. If you continue to ask questions with your doctor, he can explain his plan.

In your letter, you say that you can't live with anyone and can't stand your own self. I think that talking with a therapist about your thoughts and feelings could be helpful. You could learn something about how your behavior is seen by other people and how they react to you. You might continue to explore how you think and feel about yourself. You might consider what about yourself you could change. People feel better about themselves when they learn how better to get along with other people. And people can change and grow through understanding themselves.

Mrs. Kathyrn Bennett, M.S.W.: A.C.S.W.
Psychiatric Social Worker
Psychiatry Department
Jewish Hospital of St. Louis
St. Louis, Missouri

First aid tips

You could be enjoying a quiet conversation over a sumptuous meal at your favorite restaurant when your spouse or friend suddenly gasps for breath and quickly turns pale and then blue. What should you do? There are some emergency first aid measures you can learn that may help you save his or her life.

The Department of the Interior has a new pocket-sized reference guide for treating medical emergencies from strains and sprains to shock, choking or heart attack. Immediate first aid can mean the difference between life and death for a person who is injured or suddenly ill. For your copy of First Aid, send 80 cents to the Consumer Information Center, Dept. 120E, Pueblo, Colorado 81009.

If the victim is not breathing or gasps for breath, something could be stuck in his or her throat. Try to remove the piece of food or other object from the throat by opening the victim's mouth and grasping the object with your index and middle fingers. If this doesn't work, place the victim's head lower than the body and slap him or her on the back. If these methods don't work, stand behind the person who is choking and wrap your arms around the body, just above the navel and below theribcage.

Lean the victim forward at the waist and let the head and arms hang down. Put one hand on your own wrist; make a fist with the other hand; and squeeze suddenly and firmly against the victim's abdomen. This will force air out of the lungs, and the air will puch the object out of the throat.

Other medical emergencies covered by the reference guide include:

Heart Attack - A person suffering a heart attack may need artificial respiration. Mouth-to-mouth is the most effective, and is described in some detail in the First Aid reference guide. Cardiopulmonary resuscitation, another procedure described in the guide, is used when the heart stops beating completely.

Severe Bleeding - To stop severe bleeding, cover the wound with the cleanest cloth immediately available, and apply direct pressure on the wound. If the wound is in the arm or leg, and they do not seem to be broken, raise the arm or leg as you apply pressure.

Burns - For burns, whether they are caused by a hot stove or hot coffee, apply cool water immediatley.

New Hamburg Homemakers discuss events

NEW HAMBURG--The regular monthly meeting of the New Hamburg Homemakers held on June 27th was opened with a devotional led by the president, Mrs. Lucille Heuring. Roll call was answered with each member giving their gardening experiences this year.

Mrs. Ruth Carroll reported on the recent tour to Nashville for area club members, sponsored by the Stoddard County Homemakers Council. Members of the local club attending were Mrs. Helen Urhahn, Mrs. Rebecca Dirnberger, Mrs. Coonie Essner and Mrs. Carroll. The group visited Grand Old Opry, Opryland, Ryan's Auditorium, the homes of country music stars, and various other places of interest.

It was announced that Achievement Night has been tentatively set for September 26, with the Scott City Homemakers in charge of arrangements. Each club will be responsible for a three to five minute skit. Women's Day will be the week of October 25, and Mrs. Betty Niederkorn and Mrs. Ruth Carroll were appointed to serve on the planning committee for this event. It was voted to pay expenses for one child to attend Little Acorn Camp.

An area sewing machine evaluation program will be held on Thursday, July 28, at the Sikeston Junior High School. Company representatives for Necchi-Elna, Bernina, Singer and Viking machines will be present to explain the different kinds and models of machines, their use and maintenance, dealer services to be expected, and those attending will learn skills and techniques to enable them to make fullest use of their machine. The program will begin at 9:30 A.M. and will consist of four one-hour sessions, closing at 3:00 P.M. This is open to the public, and those interested in sewing are urged to attend.

Motion was made and carried to purchase pins for 20-year and over members; these to be presented on Achievement night. Club members eligible are Mrs. Vera Burger, Mrs. Erma Grojean, Mrs. Betty Niederkorn and Mrs. Lucille Heuring.

Announcement was made of the Oran Fall Festival to be held on August 19 and 20. The club will sponsor a float for the parade. Quilt raffle and social will be Sunday afternoon, July 21st, at the school hall. The annual club picnic will be August 7th at Capaha Park.

A very interesting and educational quiz was the Citizenship program presented by Mrs. Pat Kern.

Mrs. Margaret Heuring installed officers, using a unique and inspirational symbolism of packing for a journey; followed with all members joining in singing the hymn, "Let There Be Peace". Officers installed were: President, Mrs. Lucille Heuring; Vice-President, Mrs. Mary Glastetter; Secretary, Mrs. Lillian Westrich; and Treasurer, Mrs. Sylvia Steimle.

Hostesses for the evening were Mrs. Rosalee Kern and Mrs. Paulette Hamm. Since no meeting is held in July, the next meeting will be on August 22.

USDA increases payments for meal, child care programs

CHICAGO--Carol Tucker Foreman, Assistant Secretary of Agriculture for Food and Consumer Services, announced today that the school lunch, breakfast, and child care programs will receive increased payments adjusted to reflect the change in the Consumer Price Index (CPI) series for food away from home.

The adjustments, effective July 1, reflect the 4.9 percent increase in the CPI for the six month period, Nov. 1976 to May 1977. The increased payments paid to schools and institutions through state agencies help defray meal preparation costs in the national school lunch, school breakfast, and child care food programs.

The national average payment for the school lunch program will be increased from 13.25 cents to 14 cents for each lunch served. Within that average, states are authorized by the U.S. Department fo Agriculture (USDA) to vary the rate of reimbursement up to a maximum of 20 cents per lunch.

The additional average payment for lunches served to needy children will be increased from 50 cents to 53 cents for a reduced-price lunch and from 60 cents to 63 cents for a free lunch.

The maximum total reimbursement states may pay especially needy schools and schools and institutions has been increased from 78.25 cents to 82 cents for a reduced-price lunch and from 88.25 cents to 92 cents fro a free lunch.

Under the school breakfast program, the national average payment will be increased from 10.75 cents to 11.25 cents for each breakfast served. The additional average payment for each reduced-price breakfast will be increased from 20 cents to 21 cents. The additional average payment for a free breakfast will be increased from 26.75 cents to 28 cents. Maximum rates to reimbursement states may pay especially needy schools and institutions will remain at 40 cents for each reduced-price breakfast and at 45 cents for each free breakfast served.

Under the child care food program, states will receive the same payments for breakfasts as those for the school breakfast program, and the same payments for lunches and suppers as those for the national school lunch program.

Payments for each mid-morning and mid-afternoon snack allowed under the child care food program have been increased from 5.50 cents to 5.75 cents.

Solving life's problems: *Test for handling 'real life' skills will be given in schools*

By SUE A. MERKNER
Missouri Press News

JEFFERSON CITY — A test measuring a child's ability to solve everyday problems and handle real-life situations will be administered soon to Missouri eighth grade students.

The Basic Essential Skills Test (BEST) will be offered on a voluntary basis in April 1978 to school districts throughout Missouri.

The BEST will be required test for eighth graders beginning in April, 1979. Officials haven't decided yet whether it will be a requirement for high school graduation.

The BEST, given at the end of eighth grade, is a competency test that measures a student's proficiency in language arts and reading, mathematics, government and economics. The BEST measures the student's ability to use these skills in managing everyday situations.

The BEST was developed by staff members of the Missouri Department of Elementary and Secondary Education at the request of the Missouri Board of Education.

Arthur Mallory, commissioner of education for the state school board, says the BEST will be used on a voluntary basis first to "allow teachers to see what they are getting and to allow them to ease into it."

After the voluntary period is completed, state educators will decide if the test will be required for high school graduation. They also will determine a passing grade.

The BEST functions as a screening device to identify individual students who need special assistance in mastering certain basic skills and applying those skills to real-life situations. Teachers can decide if a student needs special counseling or an extra course to make up a deficiency.

What's on the test?

When Missouri eighth graders are tested to see how well they can apply what they have learned to handling real-life problems, here are some of the questions they might see.

The questions are from the Basic Essential Skills Test (BEST), designed and copyrighted by the Missouri Department of Elementary and Secondary Education.

"Dissolve before taking" on the label of a medicine bottle means that you:

A. Drink water before taking the medicine.
B. mix the medicine with water.
C. shake the bottle.
D. take the medicine at bedtime.

If a can says, "Do not incinerate," you should not:

A. put the can in a cold place.
B. put the can in fire.
C. put the can in the closet.
D. shake the can.

To learn about jobs that are available, to which section of a newspaper would you turn?

A. Classified ads.
B. Editorial page.
C. Sports page.
D. Society page.

A phone bill includes a connection fee of $8.50, a $4.75 monthly charge and a $1.79 long-distance charge. How much is the total bill?

A. $13.14
B. $13.94
C. $14.94
D. $15.04

A small car travels 341 miles on 11 gallons of gasoline. How many miles to the gallon does it average?

A. 21
B. 31
C. 34
D. 41

How many square yards of carpet are needed to carpet a room that is 12 feet long and 9 feet wide?

A. 9
B. 12
C. 36
D. 108

The Senate and House of Representatives passed a bill. What usually must happen to the bill next before it could become law?

A. Nothing. Once both Houses pass the bill, it is law.
B. The President must sign

The BEST measures three general areas of competency.

Reading and language arts — The student's use of spelling, punctuation, reading skills and oral language are measured in performing daily it.

C. The Supreme Court must rule that it is constitutional.
D. Citizens must vote to approve the bill.

Janis Kohl was arrested last night. According to the U.S. Constitution and U.S. Court decisions:

A. Janis must help the police by answering all of their questions.
B. Janis may get a lawyer only after her trial.
C. Janis must be set free if the police or prosecuting attorney cannot convince a judge that she probably committed a crime.
D. Janis will need to stay in jail until the government has collected all the evidence it needs from her.

Mr. Kelly just bought a new car, but he has a problem: If he would have an accident he would not have enough money to pay for the damage. Of the choices below, what should he do?

A. Buy a second automobile.
B. Buy an automobile insurance policy.
C. Open a savings account.
D. Open a checking account.

tasks such as reading directions to complete a task, completing a job application or interviewing someone to get specific informtion.

Girl Scouts on capitol steps

Senior Girl Scouts from the Cotton Boll Council of the Girl Scouts of America stopped long enough during their tour of the nations capitol to have their picture made with Congressman Bill Burlison. While on tour the girls spent four days in Washington and toured many of the nation's historical places while traveling by bus. The girls were accompanied by Mrs. Virginia Heise, a scout leader from Malden and Mrs. Juanita Alcorn of Sikeston who served as a tour escort.

Area senior scouts return from Washington

Senior Girl Scouts from the Cotton Boll Girl Scout Council returned recently from a tour of the nation's capitol and eastern parts of the United States. The 42 girls accompanied by Mrs. Virginia Heise of Malden and Mrs. Juanita Alcorn of Sikeston traveled through 13 states and visited such spots as the Old Kentucky Home, Natural Bridge, Mt. Vernon as well as the capitol.

Those girls attending from the area were Susan Johnson, Kelly Wade, Laura Lee, Kerry Duncan, Dawn Priday, Laurie Deane, Tory Robertson, Milissa Lee, Allegra Morris, Kim Shell, Laura Tetley, Nancy Bohannon and Cheryl Kruger all of Sikeston.

Karen Byrum of Charleston, Mary Ellen Prim and Carolyn Nolte both of Poplar Bluff; Cindy Menees and Jo Rowell both of Morehouse.

Lisa Moore, Kay Medlin, Terri Dowdle, Gwyn McDonald, Kelly Churchill, Gayle McDonald, Laura Moore and Linda Dorroh of Caruthersville.

Donna Loper, Nancy Vanderheyden, Cynthia Worley, Cathy Owens, Diane Vanderheyden, Crystal Adams, Debbie Gales and Linda Kidd of Dexter.

Elizabeth Gargas, Julie Striegel, Fran Dalton, Christy Jones, Kimberly Waddell, Condy Parmenter, Tina Williams and Kelly Parker all of Kennett.

Below is a letter received by one of the leaders Mrs. Heise from Bill Burlison which accompanied the above picture.

Mrs. V. B. Heise
Malden, Mo. 63863

Dear Mrs. Heise:

It was certainly a pleasure to visit with you while you were here in the Nation's Capitol. You had a fine group of Girl Scouts with you and I enjoyed our tour of the House Floor.

Please find enclosed copies of the picture which we had taken on the Capitol steps. You may desire to retain them as mementos of the occasion, or you might wish to submit a copy of one to your local newspaper, along with an account of your stay in Washington.

Trusting that you had a pleasant and safe trip back to Missouri, and looking forward to visiting with you from time to time in the district, I remain

Respectfully yours,
Bill D. Burlison, M.C.

POLLY'S POINTERS

Hot vinegar lifts glue

POLLY'S PROBLEM

DEAR POLLY — I got a couple of spots of glue on my beautiful new knit pants suit. The spots were small and rather inconspicuous so I tried to remove them with nail polish remover which did soften the glue. But then when I wahsed them the pants were stiff as a brick. Is there any possible way to save these nice pants? — MILDRED.

DEAR MILDRED — Sounds to me as if you did not properly rinse out the polish remover OR the water may have been the wrong temperature as some fabrics require it hot and others cold. Some glue will not loosen at all after it hardens, so you were lucky that far. The usual procedure is to wash with a detergent and water before it sets. Immerse in hot white vinegar and keep to the boiling point until stain is removed (if fabric will take this). This may take 15 minutes or so and then rinse THOROUGHLY with water of the proper temperature for the particular fabric. — POLLY.

DEAR POLLY — My Pet Peeve is with the manufacturers of white shoes such as those worn by nurses and waitresses. It seems that they could come up with eyelets that do not make the tongue and shoe laces black. That black simply will not come off and the shoes look terrible. — MRS. R.G.

DEAR POLLY — I want to tell Mary R.B. who has crepe paper stains on her table top that I have used a fine brand of silver polish to remove stains from table and server tops quite a few times and with excellent results. It does take good hard rubbing but really works, and without harm to the furniture. — MINIE.

DEAR POLLY — To keep one's hat on even on a windy day, roll a strand of hair around a small hair roller on top of the head and fasten it securely in place with one or two hair pins. Put your hat on at the angle you want to wear it and then push a two and a half to three inch hat pin or long corsage pin through the roller perpendicular to the position of the roller. Be sure the pin goes through the roller and out the opposite side. — SHIRLEY.

C. Janis must be set free if the police or prosecuting attorney cannot convince a judge that she probably committed a crime.
D. Janis will need to stay in jail until the government has collected all the evidence it needs from her.

Mr. Kelly just bought a new car, but he has a problem: If he would have an accident he would not have enough money to pay for the damage. Of the choices below, what should he do?

A. Buy a second automobile.
B. Buy an automobile insurance policy.
C. Open a savings account.
D. Open a checking account.

tasks such as reading directions to complete a task, completing a job application or interviewing someone to get specific informtion.

Girl Scouts on capitol steps

Senior Girl Scouts from the Cotton Boll Council of the Girl Scouts of America stopped long enough during their tour of the nations capitol to have their picture made with Congressman Bill Burlison. While on tour the girls spent four days in Washington and toured many of the nation's historical places while traveling by bus. The girls were accompanied by Mrs. Virginia Heise, a scout leader from Malden and Mrs. Juanita Alcorn of Sikeston who served as a tour escort.

Area senior scouts return from Washington

Senior Girl Scouts from the Cotton Boll Girl Scout Council returned recently from a tour of the nation's capitol and eastern parts of the United States. The 42 girls accompanied by Mrs. Virginia Heise of Malden and Mrs. Juanita Alcorn of Sikeston traveled through 13 states and visited such spots as the Old Kentucky Home, Natural Bridge, Mt. Vernon as well as the capitol.

Those girls attending from the area were Susan Johnson, Kelly Wade, Laura Lee, Kerry Duncan, Dawn Priday, Laurie Deane, Tory Robertson, Milissa Lee, Allegra Morris, Kim Shell, Laura Tetley, Nancy Bohannon and Cheryl Kruger all of Sikeston.

Karen Byrum of Charleston, Mary Ellen Prim and Carolyn Nolte both of Poplar Bluff; Cindy Menees and Jo Rowell both of Morehouse.

Lisa Moore, Kay Medlin, Terri Dowdle, Gwyn McDonald, Kelly Churchill, Gayle McDonald, Laura Moore and Linda Dorroh of Caruthersville.

Donna Loper, Nancy Vanderheyden, Cynthia Worley, Cathy Owens, Diane Vanderheyden, Crystal Adams, Debbie Gales and Linda Kidd of Dexter.

Elizabeth Gargas, Julie Striegel, Fran Dalton, Christy Jones, Kimberly Waddell, Condy Parmenter, Tina Williams and Kelly Parker all of Kennett.

Below is a letter received by one of the leaders Mrs. Heise from Bill Burlison which accompanied the above picture.

Mrs. V. B. Heise
Malden, Mo. 63863

Dear Mrs. Heise:

It was certainly a pleasure to visit with you while you were here in the Nation's Capitol. You had a fine group of Girl Scouts with you and I enjoyed our tour of the House Floor.

Please find enclosed copies of the picture which we had taken on the Capitol steps. You may desire to retain them as mementos of the occasion, or you might wish to submit a copy of one to your local newspaper, along with an account of your stay in Washington.

Trusting that you had a pleasant and safe trip back to Missouri, and looking forward to visiting with you from time to time in the district, I remain

Respectfully yours,
Bill D. Burlison, M.C.

POLLY'S POINTERS

Hot vinegar lifts glue

POLLY'S PROBLEM

DEAR POLLY — I got a couple of spots of glue on my beautiful new knit pants suit. The spots were small and rather inconspicuous so I tried to remove them with nail polish remover which did soften the glue. But then when I wahsed them the pants were stiff as a brick. Is there any possible way to save these nice pants? — MILDRED.

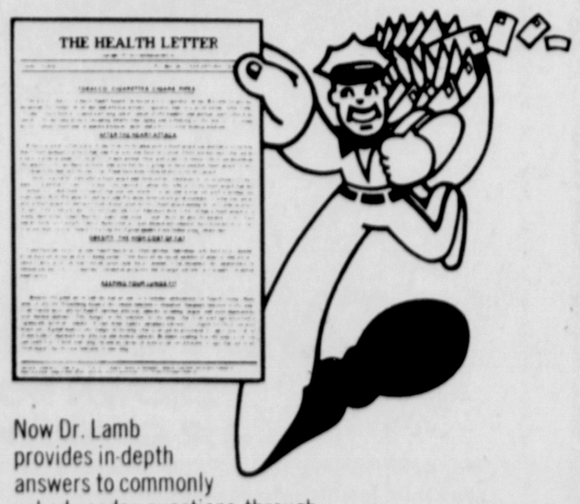
DEAR MILDRED — Sounds to me as if you did not properly rinse out the polish remover OR the water may have been the wrong temperature as some fabrics require it hot and others cold. Some glue will not loosen at all after it hardens, so you were lucky that far. The usual procedure is to wash with a detergent and water before it sets. Immerse in hot white vinegar and keep to the boiling point until stain is removed (if fabric will take this). This may take 15 minutes or so and then rinse THOROUGHLY with water of the proper temperature for the particular fabric. — POLLY.

DEAR POLLY — My Pet Peeve is with the manufacturers of white shoes such as those worn by nurses and waitresses. It seems that they could come up with eyelets that do not make the tongue and shoe laces black. That black simply will not come off and the shoes look terrible. — MRS. R.G.

DEAR POLLY — I want to tell Mary R.B. who has crepe paper stains on her table top that I have used a fine brand of silver polish to remove stains from table and server tops quite a few times and with excellent results. It does take good hard rubbing but really works, and without harm to the furniture. — MINIE.

DEAR POLLY — To keep one's hat on even on a windy day, roll a strand of hair around a small hair roller on top of the head and fasten it securely in place with one or two hair pins. Put your hat on at the angle you want to wear it and then push a two and a half to three inch hat pin or long corsage pin through the roller perpendicular to the position of the roller. Be sure the pin goes through the roller and out the opposite side. — SHIRLEY.

The Health Letter



Now Dr. Lamb provides in-depth answers to commonly asked reader questions through THE HEALTH LETTER, a series of some 50 newsletters presented in four to six letter-sized pages. Your readers may order single issues at 50 cents each or volumes of 12 for $5. Ordering instructions for these NEA Reader Service publications are incorporated within the text of related columns.

Today in U.S. history

By The Associated Press

Today is Sunday, July 10th, the 191st day of 1977. There are 174 days left in the year.

Today's highlight in history:

On this date in 1850, Vice President Millard Fillmore succeeded to the presidency on the death of President Zachary Taylor.

On this date:

In 1509, the Protestant reformer, John Calvin, was born in France.

In 1890, Wyoming became the 44th state of the union.

In 1943, Allied forces landed on the island of Sicily in World War II.

In 1953, the Soviet chief of internal security, Lavrenti Beria, was purged from the Communist hierarchy in the Soviet Union.

In 1962, the Telstar communications satellite was launched into orbit from Cape Canaveral, Fla., relaying American television to Europe.

In 1971, the U.S. Senate Foreign Relations Committee estimated that the war in Vietnam had cost nearly $500 for every man, woman and child in the United States.

Ten years ago: A dozen Soviet warships were visiting ports in Egypt, demonstrating that nation's naval strength in the Mediterranean.

Five years ago: Britain sent 1,200 more troops to bolster its force in Northern Ireland as the outlawed Irish Republican Army ended a cease-fire.

One year ago: In Angola, four mercenaries — an American and three British subjects — were executed by firing squad.

Today's birthdays: Novelist Saul Bellow is 62. Broadway composer Jerry Herman is 44. Tennis star Arthur Ashe is 34.

Thought for today: To go slowly and to live a long time are two brothers — a Dutch proverb.

Baker joins bank staff

60 years ago
July 10, 1917

Oran--Bill Hunter of Benton was in Oran last Friday.

Morehouse--O. D. Edwards spent Saturday in Sikeston.

Crowder--Mr. and Mrs. Louis Barnes of McMullin spent last Sunday here.

Landers Ridge--Walter Dyer left Sunday for Illinois after a few days visit here.

50 years ago
July 10, 1927

Blodgett--Mrs. Logan spent the weekend at Ellington visiting friends.

Morley--Mr. and Mrs. J. O. Brasher spent Sunday in Blodgett.

Mr. and Mrs. Roy Anderson of Malden spent the Fourth here with relatives.

Malone Thetre, today, Adolph Menjou, Virginia Valli, Noah Beery, and Louise Broks in "Evening Clothes."

40 years ago
July 10, 1937

T. F. Baker, jr., took up duties Wednesday as bookkeeper in the bookkeeping department of the Bank of Sikeston as a new addition to the establishment.

Gene Collins, young son of Mr. and Mrs. F. F. Collins, was painfully burned about the hands and forearms Tuesday by blazing gasoline fumes at the Flying Red Horse Tavern. The boy was standing over a tank pipe being filled and the fumes caught fire in some unknown manner.

Mr. and Mrs. Burl Heath and children returned home Monday from a several days vacation in Jonesboro, Ark., and Memphis, Tenn.

Pleasant Valley--Mrs. Albert Miller, her sister, Mrs. Cecil Whiteside of the Miner Switch community, and brothers, Edsel Bradley and Wilbur Bradley, visited their sister, Ms. Velma Clark of Fornfelt on Friday of last week.

Salcedo--Mr. and Mrs. Charley Marchbanks and family of St. Louis, were weekend guests at the home of Mr. and Mrs. Marchbanks.

30 years ago
July 10, 1947

Mr. and Mrs. Vernon Tippy of Charleston became parents of a son on July 7.

Mr. and Mrs. Earl Roper are parents of a girl born today.

Mr. and Mrs. Alfred Clayton, owners of Clayton's Steak House on Highway 61 observed their 25th wedding anniversary yesterday.

Funeral services were conducted yesterday at Mattoon, Ill., for John Albert Clayton, 77 years of age, and a long time resident of Southeast Missouri, who died Sunday, July 6, at his home, east of Bell City.

Mr. and Mrs. Homer H. Spradling of Kewanee are parents of a son born Monday at a Cape hospital.

Mrs. Mary Miederhoff, 803 North Taylor, passed away at her home on the eighth.

J. Ernest Harper, manager of the McKnight Keaton Grocer Co., was elected deputy district governor of Lions Club Region No. 5 at a meeting at the Marquette Hotel in Cape on Wednesday.

The Sikeston Junior Legion Baseball team won a game here yesterday by a score of 13 to 6 from the Dexter Juior Legion team.

Mrs. M. L. Canedy entertained this afternoon at the home, 700 South Kingshighway, with a birthday party for her daughter, Sara Sue, who was nine years old.

E. F. Bynum born in Morley, died at Southeast Missouri Hospital in Cape yestrerday.

Charleston--Benjamin L. Patrick, 76, a retired farmer and resident of Bertrand for the past 30 years, died yesterday at the home of a son and daughter-in-law, Mr. and Mrs. John Patrick, six miles south of here.

Charleston--Mr. and Mrs. Ginstead Brewer of Charleston are parents of a daughrter born last night at St. Mary's Hospital in Cairo. It is their fourth child and first daughter.

Charleston--Cpl. and Mrs. Clyde McDaniels of San Antonio, Tex., announce the birth ofa daughter yesterday in a San Antonio hospital. The mother is the former Miss Thelma Jo Bowers of Bertrand. The child has been named Sandra Jo.

William H. Jones died July 8 at his home in Paducah, Ky., of a heart ailment. He was the son of Lemuel M. Johns, formerly of Sikeston.

20 years ago
July 10, 1957

Cape Girardeau-- Plans for the construction of a 50-unit motel on Kingshighway, just north of the Colonial Tavern property were announced Monday by the Rev. Gayle Jackson, a minister of Sikeston, who said work will start on Tuesday.

L. I. Flewelling, chef de Gare of Lo Societe des 40 Hommes et 8 Chevaus-- the 40 and 8 of the American Legion, has been re-elected for the coming year.

Mr. and Mrs. John Shanks, jr., formerly of Blytheville, Ark., are residing at 505 Branum. They have a daughtrer and a son. Mr. Shanks is associated with the REA.

Mr. and Mrs. Herbert Finney have purchased a home at 112 West Wakefield and came here from Charleston. Mr. Finney is former owner o the Home Oil Co., in that town. They have three grown sons.

Book review

THE GREAT SANTINI
by Pat Conroy
(Avon 32680. $1.95
Fiction)

THE GREAT SANTINI is a realistic and humorous portrayal of a typical yet unique military family, moving year after year from one southern town to another, from one new school to the next. Lieutenant Colonel Bull Meecham, the Great Santini, is the epitome of a Marine officer. His virtues are simple and unyielding: loyalty, couage, toughness, obedience, and he demands these qualities from his wife and their four scared yet defiant children. As the oldest, eighteen-year-old Ben receives the brunt of Bull's critism and expectations. Nothing less than perfect is considered acceptable to the Great Santini.

In THE GREAT SANTINI Pat Conroy captures the tyrannizing brutality and childish pranks of a grown man living out the legend of the Marine Corps, the mindless devotion and sustaining pride of a military career. He presents a patient and beautiful mother, the referee between fathe and children, interpreter of their actions, and translator of their hard-to-express love.

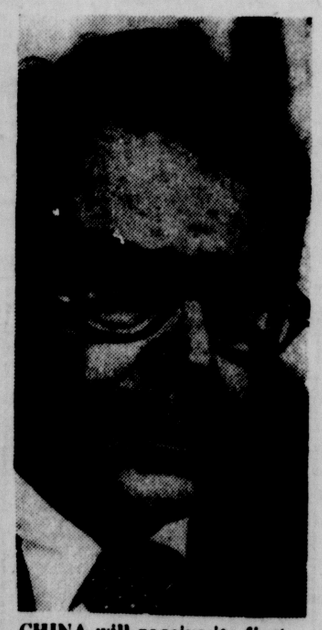
Pat Conroy was born in Atlanta, Georgia, and spent his early years on numerous Marine Corps bases in the South where his father was stationed as a pilot. After graduation from the Citadel, Pat Conroy taught high school in Beaufort, South Carolina. Subsequently he taught in a small school on an island just off the Carolina coast. His experiences there are recorded in his first book, The Water is Wide, on which the motion picture Conrack, starrin Jon Voight, was based.

XXX

The Prayer

"After a little while the bystanders came up and said to Peter, 'Certainly you are also one of them, for your accent betrays you.' " (Matthew 26:73 RSV)

PRAYER: Our Father, may we speak with accents of love and concern which enable others to identify us as Your followers. Thank You, Father, for Your Son. May we become more like Him each day. Amen.



CHINA will receive its first visit from a top Carter administration official with the arrival in Peking Aug. 22 of Secretary of State Cyrus Vance. Voicing continuity of the policies of the Nixon and Ford administrations, Vance has said China has a central role in U.S. foreign policy with the eventual goal being full diplomatic relations.

All the boss contributes to teamwork is cracking of the whip.

Our secretary makes very, very few mistakes, principally because she does so little work.

Looking back

Baker joins bank staff

60 years ago
July 10, 1917

Oran--Bill Hunter of Benton was in Oran last Friday.

Morehouse--O. D. Edwards spent Saturday in Sikeston.

Crowder--Mr. and Mrs. Louis Barnes of McMullin spent last Sunday here.

Landers Ridge--Walter Dyer left Sunday for Illinois after a few days visit here.

50 years ago
July 10, 1927

Blodgett--Mrs. Logan spent the weekend at Ellington visiting friends.

Morley--Mr. and Mrs. J. O. Brasher spent Sunday in Blodgett.

Mr. and Mrs. Roy Anderson of Malden spent the Fourth here with relatives.

Malone Thetre, today, Adolph Menjou, Virginia Valli, Noah Beery, and Louise Broks in "Evening Clothes."

40 years ago
July 10, 1937

T. F. Baker, jr., took up duties Wednesday as bookkeeper in the bookkeeping department of the Bank of Sikeston as a new addition to the establishment.

Gene Collins, young son of Mr. and Mrs. F. F. Collins, was painfully burned about the hands and forearms Tuesday by blazing gasoline fumes at the Flying Red Horse Tavern. The boy was standing over a tank pipe being filled and the fumes caught fire in some unknown manner.

Mr. and Mrs. Burl Heath and children returned home Monday from a several days vacation in Jonesboro, Ark., and Memphis, Tenn.

Pleasant Valley--Mrs. Albert Miller, her sister, Mrs. Cecil Whiteside of the Miner Switch community, and brothers, Edsel Bradley and Wilbur Bradley, visited their sister, Ms. Velma Clark of Fornfelt on Friday of last week.

Salcedo--Mr. and Mrs. Charley Marchbanks and family of St. Louis, were weekend guests at the home of Mr. and Mrs. Marchbanks.

30 years ago
July 10, 1947

Mr. and Mrs. Vernon Tippy of Charleston became parents of a son on July 7.

Mr. and Mrs. Earl Roper are parents of a girl born today.

Mr. and Mrs. Alfred Clayton, owners of Clayton's Steak House on Highway 61 observed their 25th wedding anniversary yesterday.

Funeral services were conducted yesterday at Mattoon, Ill., for John Albert Clayton, 77 years of age, and a long time resident of Southeast Missouri, who died Sunday, July 6, at his home, east of Bell City.

Mr. and Mrs. Homer H. Spradling of Kewanee are parents of a son born Monday at a Cape hospital.

Mrs. Mary Miederhoff, 803 North Taylor, passed away at her home on the eighth.

J. Ernest Harper, manager of the McKnight Keaton Grocer Co., was elected deputy district governor of Lions Club Region No. 5 at a meeting at the Marquette Hotel in Cape on Wednesday.

The Sikeston Junior Legion Baseball team won a game here yesterday by a score of 13 to 6 from the Dexter Juior Legion team.

Mrs. M. L. Canedy entertained this afternoon at the home, 700 South Kingshighway, with a birthday party for her daughter, Sara Sue, who was nine years old.

Book review

THE GREAT SANTINI
by Pat Conroy
(Avon 32680. $1.95
Fiction)

THE GREAT SANTINI is a realistic and humorous portrayal of a typical yet unique military family, moving year after year from one southern town to another, from one new school to the next. Lieutenant Colonel Bull Meecham, the Great Santini, is the epitome of a Marine officer. His virtues are simple and unyielding: loyalty, couage, toughness, obedience, and he demands these qualities from his wife and their four scared yet defiant children. As the oldest, eighteen-year-old Ben receives the brunt of Bull's critism and expectations. Nothing less than perfect is considered acceptable to the Great Santini.

In THE GREAT SANTINI Pat Conroy captures the tyrannizing brutality and childish pranks of a grown man living out the legend of the Marine Corps, the mindless devotion and sustaining pride of a military career. He presents a patient and beautiful mother, the referee between fathe and children, interpreter of their actions, and translator of their hard-to-express love.

Pat Conroy was born in Atlanta, Georgia, and spent his early years on numerous Marine Corps bases in the South where his father was stationed as a pilot. After graduation from the Citadel, Pat Conroy taught high school in Beaufort, South Carolina. Subsequently he taught in a small school on an island just off the Carolina coast. His experiences there are recorded in his first book, The Water is Wide, on which the motion picture Conrack, starrin Jon Voight, was based.

XXX

The Prayer

"After a little while the bystanders came up and said to Peter, 'Certainly you are also one of them, for your accent betrays you.' " (Matthew 26:73 RSV)

PRAYER: Our Father, may we speak with accents of love and concern which enable others to identify us as Your followers. Thank You, Father, for Your Son. May we become more like Him each day. Amen.

CHINA will receive its first visit from a top Carter administration official with the arrival in Peking Aug. 22 of Secretary of State Cyrus Vance. Voicing continuity of the policies of the Nixon and Ford administrations, Vance has said China has a central role in U.S. foreign policy with the eventual goal being full diplomatic relations.

All the boss contributes to teamwork is cracking of the whip.

Our secretary makes very, very few mistakes, principally because she does so little work.

"Fern Wood Tonight" preimiers Tuesday

Norman Lear's latest outlandish addition to television premieres Tuesday, July 12 at 10:00 p.m. on KDNL-TV30, St. Louis. The series follows hot on the heels of Lear's "super-soap" MARY HARTMAN, MARY HARTMAN.

Martin Mull stars as host Barth Gimble and Fred Willard co-stars as his sidekick Jerry Hubbard in this five-times-weekly fictional talk-variety show. FERNWOOD TONIGHT is set in Mary Hartman's hometown of Fernwood, Ohio and is steeped in the stories and talents you would expect to find in and passing through Mary's home town.

Imagine a show where the audience decides if the parents of a priest should be allowed to have him de-programmed, where a scientist discussed the link between leisure suits and cancer, where a five-year-old tapdances and sings alongside a pianist in a iron lung.

Off-the-wall? Yes. Unusual? Definitely. Predictable? Never. FERNWOOD TONIGHT, Monday through Friday at 10:00 p.m.; starting Tuesday, July 12th on KDNL-TV, Channel 30, St. Louis.

"The Loneliest Runner"

Lance Kerwin stars as a 13-year-old who must cope with personal shame because of his chronic bed-wetting, in "The Loneliest Runner," the first half of a double feature presentation on NBC-TV Thursday, July 14(7-8:30 p.m. DST repeat of 12-20-76). Brian Keith also stars. The film will be followed by "Stalk the Wild Child".

Michael Landon(of NBC-TV's "Little House on the Prairie") appears in a cameo role in "The Loneliest Runner," which he wrote and directed.

John Curtis is a loner because he wants to conceal the fact from his friends that his parents won't buy him a regular bed until he stops wetting.

His sympathetic father, Arnold, is not strong enough to stand up to his demanding mother, Alice, who intimidates the youth by hanging his soiled sheets out the window for his friends to see.

Ironically, it is John's shame that eventually results in his becoming a her. Melissa Sue Anderson, who also sppears on "Little House on the Prairie," portrays Nancy Rizzi, young John's girlfriend.

"Stalk the Wild Child"

David Janssen stars as a psychologist who tries to civilize a young boy found running with a pack of wild dogs, in "Stalk the Wild Child," a fact-based drama, the second half of a double feature presentation on NBC-TV THURSDAY, JULY 14 (8:30-10p.m. DST; repeat of 11-3-76). Trish Van Devere co-stars.

The film will be preceded by "The Loneliest Runner" (.

Benjamin Bottoms portrays Cal, the wild boy, as a youth and his brother, Joseph, plays him as he grows in into young manhood.

After hunters discover the feral(wild) child, he is taken to a university medical center where Dr. James Hazard, a behavioral psychologist, is excited by the prospects of being able to study the boy first-hand. Assisting him is Maggie Fletcher, a speech therapist who attempts to break through Cal's resistance and teach him to speak.

The drama, filmed on location in California, is a Charles Fries Production in association with NBC-TV

Joseph Bologna and Renee Taylor star in "Made For Each Other," a comedy about an unlikely love affair, to be broadcast for the first time on television on "The CBS Wednesday Night Movies," Wednesday, July 13 (8:00-10:00 PM, DST) on the CBS Television Network. The film was written by the couple, who are husband and wife.

Electric Light Orchestra turns on

By MARY CAMPBELL
AP Newsfeatures

The Beatles had strings on some of their records. Some rock groups toured with a string section behind them.

But when guitarist Jeff Lynne, drummer Bev Bevan and Roy Wood stood in the wreckage of their group, the Move, in 1970 and thought about putting together a new group, there hadn't yet been a group which played rock music on classical string instruments. The Move had been successful in its native Britain, but not in America. It had been the usual kind of rock group. Lynne, Bevan and Wood wanted something different.

So they put together the Electric Light Orchestra in 1971. It took a while to get violins and cellos amplified right and some personnel changes occurred, including Wood leaving and settling on seven players, instead of 11. But everything now has been stabilized for some time. Group membership has been the same for the past two years. And four albums have gone gold in the past two years, "Eldorado," "Face the Music," "Ole ELO" — which is a greatest hits album — and "A New World Record," all on United Artists.

There haven't been any gold singles, though four have gone to about 10 in the best-selling list, "Out of my Head," "Evil Woman," "Strange Magic" and "Livin' Thing."

The group took the name Electric Light Orchestra, thinking of itself as a light orchestra in the way the word is used in "light classical music." The word electric was stuck in front because of the amplification of the instruments.

Much later, the idea of "electric light" hit the group and they added a laser light show because of that.

When they had a hot air balloon hover over an outdoor concert in Los Angeles last summer, and bounced a laser beam off a mirrored ball suspended from the balloon, green light beams showered the audience. A lot of people who lived in the vicinity thought it was UFOs.

Members of the group besides its two founder-leaders are Hugh McDowell and Melvin Gale, cellos; Mik Kaminsky, violin; Richard Tandy, keyboards, and Kelly Grouchett, bass guitar.

Lynne writes the music and produces the records and Bevan takes care of business and is spokesman for the group.

A tour in the United States from Jan. 17 through March 29 will include performances in Madison Square Garden, the Los Angeles Forum and Philadelphia Spectrum, larger halls than the Electric Light Orchestra has played previously.

But they tour in America about twice a year, Bevan says, and work very little these days — maybe a month a year — in England.

"We did an American tour at the beginning of 1976," Bevan says, "of 65 cities in 76 days. That was exhausting.

"We learned a lot from that tour. Not to do it again was the main thing. We were using scheduled flights. Now we hire our own plane. It makes life a lot easier; you can leave virtually when you want to. We're going to carry on hiring a plane of our own as long as we're popular enough to afford it."

They have only done a couple of adaptations of pieces of classical music, Bevan says. The idea is to play rock music on classical instruments, not to steal from the classics. At first, they didn't know if their attempt could be commercially successful.

"We never dreamt it would be as successful as it is now," Bevan says. "We're very pleasantly surprised. When it first caught on, it was such a thrill. It was the first success any of us had had, even though we'd been playing quite a long while with different groups.

"We've gotten blase about the whole thing now.

"All my life I wanted to be a soccer player, when I was a kid, growing up. I get a chance now to play on celebrity teams. I've played on the pitch three or four times now. The first time I ran out there, I was in a state of shock. The thrill was intense to me. There was a magic to it, unbelievable. Now the thrill is gone, you know. I think, 'here I am again.' "

BEV BEVAN

The three string players in the ELO live in London; the other members of the group live near Birmingham, England. Bevan, who is 31, plays squash every day when he's at home. "I'm fanatical about it. I play to keep fit. You need to be fit if you play drums hard and loud."

Thinking about success, Bevan looks at the other side of things. "I rarely get annoyed about anything, but I've got certain friends who never stop moaning about things. They moan about trivial things. All you need to do is look at the nearest hospital and see people there who lost a leg in a motor accident or are dying from cancer. You don't realize how lucky you are. I'm not silly religious but I do thank God I'm healthy and have got a happy life."

Joseph Bologna and Renee Taylor star in "Made For Each Other," a comedy about an unlikely love affair, to be broadcast for the first time on television on "The CBS Wednesday Night Movies," Wednesday, July 13 (8:00-10:00 PM, DST) on the CBS Television Network. The film was written by the couple, who are husband and wife.

Electric Light Orchestra turns on

By MARY CAMPBELL
AP Newsfeatures

The Beatles had strings on some of their records. Some rock groups toured with a string section behind them.

But when guitarist Jeff Lynne, drummer Bev Bevan and Roy Wood stood in the wreckage of their group, the Move, in 1970 and thought about putting together a new group, there hadn't yet been a group which played rock music on classical string instruments. The Move had been successful in its native Britain, but not in America. It had been the usual kind of rock group. Lynne, Bevan and Wood wanted something different.

So they put together the Electric Light Orchestra in 1971. It took a while to get violins and cellos amplified right and some personnel changes occurred, including Wood leaving and settling on seven players, instead of 11. But everything now has been stabilized for some time. Group membership has been the same for the past two years. And four albums have gone gold in the past two years, "Eldorado," "Face the Music," "Ole ELO" — which is a greatest hits album — and "A New World Record," all on United Artists.

There haven't been any gold singles, though four have gone to about 10 in the best-selling list, "Out of my Head," "Evil Woman," "Strange Magic" and "Livin' Thing."

The group took the name Electric Light Orchestra, thinking of itself as a light orchestra in the way the word is used in "light classical music." The word electric was stuck in front because of the amplification of the instruments.

Much later, the idea of "electric light" hit the group and they added a laser light show because of that.

When they had a hot air balloon hover over an outdoor concert in Los Angeles last summer, and bounced a laser beam off a mirrored ball suspended from the balloon, green light beams showered the audience. A lot of people who lived in the vicinity thought it was UFOs.

Members of the group besides its two founder-leaders are Hugh McDowell and Melvin Gale, cellos; Mik Kaminsky, violin; Richard Tandy, keyboards, and Kelly Grouchett, bass guitar.

Lynne writes the music and produces the records and Bevan takes care of business and is spokesman for the group.

A tour in the United States from Jan. 17 through March 29 will include performances in Madison Square Garden, the Los Angeles Forum and Philadelphia Spectrum, larger halls than the Electric Light Orchestra has played previously.

But they tour in America about twice a year, Bevan says, and work very little these days — maybe a month a year — in England.

"We did an American tour at the beginning of 1976," Bevan says, "of 65 cities in 76 days. That was exhausting.

"We learned a lot from that tour. Not to do it again was the main thing. We were using scheduled flights. Now we hire our own plane. It makes life a lot easier; you can leave virtually when you want to. We're going to carry on hiring a plane of our own as long as we're popular enough to afford it."

They have only done a couple of adaptations of pieces of classical music, Bevan says. The idea is to play rock music on classical instruments, not to steal from the classics. At first, they didn't know if their attempt could be commercially successful.

"We never dreamt it would be as successful as it is now," Bevan says. "We're very pleasantly surprised. When it first caught on, it was such a thrill. It was the first success any of us had had, even though we'd been playing quite a long while with different groups.

"We've gotten blase about the whole thing now.

"All my life I wanted to be a soccer player, when I was a kid, growing up. I get a chance now to play on celebrity teams. I've played on the pitch three or four times now. The first time I ran out there, I was in a state of shock. The thrill was intense to me. There was a magic to it, unbelievable. Now the thrill is gone, you know. I think, 'here I am again.' "

BEV BEVAN

The three string players in the ELO live in London; the other members of the group live near Birmingham, England. Bevan, who is 31, plays squash every day when he's at home. "I'm fanatical about it. I play to keep fit. You need to be fit if you play drums hard and loud."

Thinking about success, Bevan looks at the other side of things. "I rarely get annoyed about anything, but I've got certain friends who never stop moaning about things. They moan about trivial things. All you need to do is look at the nearest hospital and see people there who lost a leg in a motor accident or are dying from cancer. SUNDAY, JULY 10, 1977

Prince Valiant

BY HAL FOSTER

Our Story: GUNTHER LOOKS AT HIS GRIM HANDIWORK AND SHUDDERS. SO THIS IS WHAT HE HAS BEEN TRAINED FOR SINCE CHILDHOOD!

HE TURNS TO HIS COMRADES. THEY ARE ALREADY GATHERING UP THE SCATTERED TREASURE. WITH DRAWN SWORDS HE AND SHEIK ABDUL KEEP BACK THE GREEDY THRONG THAT HAS SUDDENLY GATHERED.

THE CITY OFFICIALS PROTEST ABOUT THE AMOUNT OF OVERTIME THE GARBAGE DEPARTMENT WILL DEMAND FOR CLEANING UP SHEIK ABDUL'S MESS, BUT THE SHEIK GIVES A GENEROUS ANSWER AND THE INCIDENT IS FORGOTTEN.

HIS MISSION COMPLETE, GUNTHER HAS STURDY CHESTS AND BOXES MADE FOR THE TREASURE OF THE DESPOILED CATHEDRAL. HE DEMANDS THAT VAL AGAIN SUPPLY A SHIP, AND QUICKLY.

FOR HE INTENDS TO TAKE ZARA AS HIS WIFE. HE IS SURE SHE WILL ACCEPT, FOR HAD SHE NOT NURSED HIM AND TENDED HIS WOUNDS? SHE SPENDS TOO MUCH TIME WITH MAFAUD, BUT HE CAN CHANGE THAT WHEN THEY ARE MARRIED.

ALETA, QUEEN OF THE MISTY ISLES, RECEIVES A MESSAGE FROM VAL REQUESTING THE LOAN OF ONE OF HER SHIPS. *"POOR BOY, HE MUST BE LONELY!"*

© King Features Syndicate, Inc., 1977. World rights reserved.

ONE OF HER SHIPS IS ABOUT TO SAIL TO ACRE. SHE GATHERS UP HER FAMILY AND TAKES PASSAGE, FOR THERE IS NO TELLING WHAT MISCHIEF A LONELY HUSBAND MIGHT GET INTO.

PONYTAIL ◇ ◇ BY LEE HOLLEY

DEAR HELOISE:

Here is an idea I dreamed up while working with my needlework yarn and still holding an empty, just finished, ice cream stick in my mouth. It was one of the plastic sticks with open work on it, rather than the wood kind.

I always save a few of these for kids to play with when visiting. They love to create toys and things from them. But I found out that they make the best things to ball yarn on that I ever used.

After making sure they are clean and dry, I weave the loose end from the skein in and out of

the little holes, then start winding the yarn. The little indentations along the sides also help in winding. After I start, I leave one end with a hole open so that I can fasten the end of the thread in it when the whole skein is wound.

When I want to change colors, I snip my thread, then loop it back under the hole. My yarn is always nice and neat and never gets tangled or unwound.

The sticks are in many colors and you can match the stick to the yarn if you want to.

Mrs. M. J. Barz

+++

Fantastic! This one's sure to be a winner!

Hopefully, I can find some little kiddoes that can stand the calories to feed the ice cream to so I can collect some sticks.

Otherwise, guess I'll soon be known as just heavy.

Heloise

ON THE MOVE

DEAR HELOISE:

I use all plastic screw cap pill bottles in my motor home for my spices, etc.

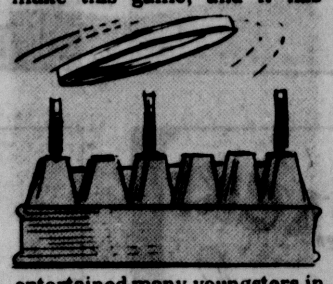
There is no breakage or spilling this way, and I then use masking tape to mark all items.

Mrs. Mary Dunfee

THE RING GAME

DEAR HELOISE:

A little boy showed me how to make this game, and it has



entertained many youngsters in my home.

Invert an egg carton, and insert a pencil in each end and one in the middle.

Then cut three strips of cardboard about 16 inches long and a half-inch wide. Glue them together to form a ring.

Each player gets to toss each ring once, and the one who rings the pencils most, wins.

It's even more fun for the youngsters, because they can make this game themselves.

Mrs. Wm. Reigle

THAT NET AGAIN!

DEAR HELOISE:

I've found another use for that wonderful nylon net...

Put a wad of it under a leaky faucet and stop that annoying plink! plink! plink! until the plumber comes.

Dollie Cole

LET'S TABLE THIS

DEAR HELOISE:

I had been wanting a small table — the kind with the skirt cover, so my father made one for me.

He took a four-legged kitchen stool, sawed off the legs to the height I wanted, and cut a round top from a piece of wood.

He nailed it to the top of the stool and we spray painted the whole thing gold. (Optional — H.)

I made a long skirt for it and now I have a new decorator table for much less than the ones in the stores.

Mrs. Larry C. Jones

A BRIGHT IDEA

DEAR HELOISE:

When paste silver cleaner or paste copper cleaner dries out in the jar, put some water in the jar with the dried-out cleaner.

In a week or two the paste will be moist and back to its original consistency.

M. W.

OUR NEW BABY

DEAR HELOISE:

When a new baby is born in the family, get one of the linen calendar towels for the current year and either embroider with thread or use liquid embroidery to circle the birth date. You could also embroider the child's name on it. Fold in half, stitch, and stuff with old nylons, shredded foam, or whatever.

These pillows would make an adorable gift to the mother, grandmother, or even to save for the child.

Jeane Gary

7-10

LETTER OF LAUGHTER

DEAR HELOISE:

Aren't children our most priceless possession! (Though, of course, we don't really "own" them — God has just placed them in our charge for a little while.) They furnish us with so many joys — and chuckles!

Our 4-year-old grandson made his Sunday School teacher chuckle recently (and us, when she related the incident later) when in class she asked him what the widow (of Zarephath) said to Elijah when he asked her for something to eat.

He thought a minute and then replied, a la Porky Pig, "She said, A-duh, A-duh, A-duh — that's all, folks!"

Fortunately (maybe for him), he then told her the right answer. (The widow told Elijah she had no more food, only a little flour and oil.) His mother later asked him why he said that and he answered, "Oh, I was just being silly!"

Hazel B.

+++

Thanks for giving me a chuckle, too. Your delightful anecdote brightened my day.

I agree, children are priceless — what would we ever do without them, bless 'em.

Heloise

SPRAY OR SPONGE?

DEAR HELOISE:

I find that a mild solution of water and detergent will kill insects on my houseplants.

Just spray the leaves with the solution. It may take several applications.

Jack Beckwith

+++

Jack, I do that also on certain types.

You can sponge it on, too, but be sure and do the underneath part of the leaves.

That's where the bugs usually hide.

Heloise II

A STITCH IN TIME

DEAR HELOISE:

If the thread tangles when you are hand-sewing, try giving the needle one complete twist before making each stitch.

Right-handed people should twist the needle toward themselves, but left-handed people need to twist the needle outward.

The twist is made by rolling the needle between the fingers.

Mrs. Austin White

CAN YOU TRUST YOUR EYES? There are at least six differences in drawing details between top and bottom panels. How quickly can you find them? Check answers with those below.

Differences: 1. Gas tank lid is missing. 2. Tag is missing. 3. Sleeve is missing. 4. Foot is repositioned. 5. Jack stand is different. 6. Pump hose is shorter.

Hal Kaufman's JUMOR WHIRL®

EXAMINE the cards above carefully and you will observe that they have definite pointing characteristics. That is to say, the emblem of the ace of spades points in one direction, the seven of diamonds has a pointer pip at center, and so on.

To make use of this "inside info," remove these cards from the deck and arrange them so that all "point" in the same direction.

Now, fan the lot so that someone may select a card. As this is done, turn those in your hand around.

When the selected card is returned, it "points" itself out, facing opposite the other cards you hold.

BULLETIN BOARD

● **ABC PRIMER! What single letter is a bird? J. What two letters are a vine? IV. What three letters are a flower? PNE. Who'll make it four?**

● **Sing Along? Challenge: Add the name of a city to each of these song titles: 1. "Moon Over ___." 2. "Meet Me in ___." 3. "I Left My Heart in ___."**

1. Miami. 2. St. Louis. 3. San Francisco.

● **Sum Fun! The cube root of my age eight years hence, added to the cube root of my age 11 years ago, equals 5. How long before I'll be 21?**

Two years.

● **Pop Cork? Place a small cork in the neck of a bottle. Challenge someone to blow it in. Chances are, they'll fail. Secret is to blow cork gently.**

WELL, WELL! What's missing from the dot picture above? To find out, add connecting lines from 1 to 2, etc.

COOL, MAN! Apply the following colors neatly for a surprise picture above: 1—Red. 2—Lt. blue. 3—Yellow. 4—Lt. brown. 5—Flesh. 6—Lt. green. 7—Orange. 8—Dk. green. 9—Dk. gray.
